OF THE

TOWN OF HYDE PARK

WITH

REPORTS OF THE SELECTMEN, TRUSTEES OF PUBLIC LIBRARY, SCHOOL COMMITTEE, AND OTHER TOWN OFFICERS,

FOR THE

Year Ending January 31, 1893.

HYDE PARK:
NORFOLK COUNTY GAZETTE JOB PRINT.
1893.

TWENTY-FIFTH ANNUAL REPORT

OF THE

RECEIPTS AND EXPENDITURES

OF THE

TOWN OF HYDE PARK

WITH

REPORTS OF THE SELECTMEN, TRUSTEES OF PUBLIC LIBRARY, SCHOOL COMMITTEE, AND OTHER TOWN OFFICERS,

FOR THE

Year Ending January 31, 1893.

HYDE PARK:
NORFOLK COUNTY GAZETTE JOB PRINT.
1893.

OFFICERS OF THE TOWN OF HYDE PARK,

For the Year Ending March 6, 1893.

SELECTMEN AND SURVEYORS OF HIGHWAYS:

ROBERT BLEAKIE, STEPHEN B. BALKAM,
AMOS H. BRAINARD, FREDERICK N. TIRRELL,
THOMAS S. WATERS.

ASSESSORS:

THOMAS E. FAUNCE, RANDOLPH P. MOSELEY,
DAVID PERKINS.

TOWN CLERK:

HENRY B. TERRY.

TOWN TREASURER:

HENRY S. BUNTON.

BOARD OF HEALTH:

JOHN C. LINCOLN, JAMES P. BILLS, (deceased)
ALVIN D. HOLMES,
DANIEL F. WOOD, appointed to fill vacancy, (deceased),
EDWIN C. FARWELL, appointed to fill vacancy.

OVERSEERS OF THE POOR:

JOHN TERRY, - - - - - -	term expires 1895.
CHARLES LEWIS, - - - - -	term expires 1894.
GEORGE W. CHAPMAN, - - - -	term expires 1893.

COLLECTOR OF TAXES:

GEORGE SANFORD.

SCHOOL COMMITTEE:

LOUISE M. WOOD, - - - - -	term expires 1895.
JOSHUA F. LEWIS, - - - - -	term expires 1895.
RICHARD M. JOHNSON, - - - -	term expires 1894.
AUGUSTA L. HANCHETT, - - - -	term expires 1894.
CHARLES G. CHICK, - - - - -	term expires 1893.
HENRY S. BUNTON, - - - - -	term expires 1893.

SINKING FUND COMMISSIONERS:

WILLIAM J. STUART, - - - - -	term expires 1895.
DAVID PERKINS, - - - - - -	term expires 1894.
HENRY BLASDALE, - - - - -	term expires 1893.

AUDITORS:

CHARLES F. MORRISON, WALLACE D. LOVELL,
ASA J. ADAMS.

TRUSTEES OF THE PUBLIC LIBRARY:

G. FRED GRIDLEY, - - - - - -	term expires 1895,
EDMUND DAVIS, - - - - - -	term expires 1895.
FREDERICK N. TIRRELL, - - - -	term expires 1895.
AMOS H. BRAINARD, - - - - - -	term expires 1894.
CHARLES F. JENNEY, - - - - -	term expires 1894.
DAVID C. MARR, - - - - - -	term expires 1894.
CHARLES S. NORRIS, (resigned) - -	term expires 1893.
EDWARD S. HAYWARD, - - - - -	term expires 1893.
HENRY B. MINER, - - - - -	term expires 1893.
J. R. CORTHELL, chosen to fill vacancy, -	term expires 1893.

CEMETERY COMMISSIONERS:

GEORGE M. RICE, - - - - - -	term expires 1895.
GEORGE E. WHITING, - - - - -	term expires 1894.
CHARLES F. JENNEY, - - - - -	term expires 1893.

CONSTABLES:

CHARLES E. JENNEY, JAMES A. CULLEN,
FRANK GREENWOOD, DANIEL O'CONNELL,
WILLIAM W. SCOTT, SAMUEL P. SMITH,
CYRUS GORMAN, JEREMIAH CORBETT,
ANDREW D. ROONEY.

FIRE DEPARTMENT:

WARREN W. HILTON, - - - - - -	Chief Engineer.
REUBEN CORSON, JOHN H. McKENNA, - - - - -	Assistant Engineers.

SEALER OF WEIGHTS AND MEASURES:

EDWIN J. CHANDLER.

SELECTMEN'S REPORT.

CITIZENS:

The ever-moving pendulum of Time marks the advent of that period of the year when those to whom you have confided the management of your affairs are expected to render to you an accoent of the manner in which they have discharged the duties thus entrusted to them. Accordingly, your Selectmen make the following report.

POLICE.

For the doings of this department we refer you to the report of the Chief.

CEMETERY COMMITTEE.

The Committee appointed by the town, December 30th, 1892, with authority to purchase land for a Town Cemetery, reported to our Board, personally, early in September, that they had carried their work to that stage, where in their opinion it would be for the best interest of the town that the Cemetery Commissioners should take matters in charge. Acting under authority vested in this Board, at a meeting held September 7th, 1892, we appointed the following gentlemen Cemetery Commissioners, for the terms as stated, viz: Charles F. Jenney, term expires April 1893; George E. Whiting, term expires April 1894; George M. Rice, term expires April 1895, and notified the Cemetery Committee of our action, in reply to which we received the following communication:

To the Honorable Board of Selectmen,
Town of Hyde Park, Mass

GENTLEMEN: In view of your appointment of Cemetery Commissioners for Fairview Cemetery, as authorized by the Town, and the fact that the authority granted to the n by the Town substantially includes that conferred by the Town to the Cemetery Committee, we hereby tender our resignation and desire to report that we have surrendered to the said Commissioners our report of all proceedings of our Committee up to date, plans of surveys, with a detailed statement of all expenditures to date, showing balance on hand of $1,706.02 for the further developement of said Cemetery under supervision.

Respectfully submitted for the Cemetery Committee,

F. N. TIRRELL, *Chairman.*

Their resignation was accepted and the Committee discharged. The report of the Cemetery Commissioners appears elsewhere.

ACTIONS AT LAW.

The case of Hayes *vs.* Hyde Park, described in report of last year, reported in 153 Mass. Supreme Court Reports, page 514, which was pending in the Superior Court on plaintiff's motion for a new trial at the time of our last annual report, has since been decided in favor of the town, the motion having been overruled, and a final judgment has been entered in favor of the town.

The petition of Mary A. Eustis on account of betterment assessment on her property in consequence of the construction of Warren Avenue, between Beacon Street and Neponset river, was tried during the May sitting of the Superior Court at Dedham, and a verdict was rendered in favor of the Town for the amount of assessment and interest, sustaining in every respect the validity of the Selectmen's assessment.

The petition of the Board of Selectmen of 1890 to pro-

hibit the County Commissioners from making certain decrees in relation to Metropolitan Avenue, which petition, the circumstances connected therewith and certain proceedings thereon, were fully described in the annual reports of the Selectmen, for years ending January 1891 and 1892. This case came on to be heard by a single justiceof the Supreme Court in February, 1892, and the question in controversy between the Town and the County Commissioners was reserved by him for the consideration of the full Court, and later it was fully argued before that Court, and on the 23d day of June last, in an elaborate opinion, which may be found in the Northeastern Reporter, Vol. 31, p. 691, it was ordered, for the reasons stated in the opinion, that the petition be dismissed; and thereafter the County Commissioners adjudicated and decreed that Metropolitan Avenue be constructed as a public way between the Old Colony Railroad and Riverside Square.

The case of Mary A. Foster, which was reported as pending at the time of the 1892 Report, was an action for alleged injuries sustained by Mrs. Foster in March, 1891, while travelling on the sidewalk on Fairmount Avenue, between the New York & New England Railroad and the bridge over the Neponset River. She claimed damages in the sum of $5,000, and final judgment was entered on the verdict. This case came on to be heard during the October sitting of the Superior Court, and after full and protracted trial a verdict was rendered in favor of the Town.

Louis H. Mahan, of Boston, made claims for personal injuries and injuries to his horse and carriage sustained on Business Street, and placed his claim in the hands of counsel who threatened to bring suit against the Town. Upon investigation we found that Mr. Mahan sustained some injury to his person and to his horse and carriage; we were

advised that the claim was a proper one to adjust, and the same was settled on payment of $200.

The case of Mary Ann Hobart alluded to in the last anuual report and then pending in the Superior Court in Norfolk County, was for an alleged injury sustained on the curbstone in front of No. 6 Fairmount Avenue in April, 1891. She claimed damages in the sum of $3,000. This suit has been on the trial list for several terms and was reached for trial at the present January sitting of the Superior Court. After some negotiations, the suit was disposed of by entry of "neither party," thus saving the Town harmless.

Sarah S. Fuller, of Boston, brought an action against the Town which is now pending in the Superior Court, Norfolk County, and may be reached for trial at the May sitting of that Court. She claimed damages in the sum of $4,000, for injuries alleged to have been sustained on Central Park Avenue or Hyde Park Avenue, near the junction of these avenues.

William H. Ruddick, of Boston, brought a suit against the Town, entered in the Superior Court in January, 1893, which suit is now pending, and may be reached for trial at the May sitting, in which he claims damages in the sum of $1,500, for personal injuries and injuries to his horse, sleigh and harness, alleged to have been sustained on River Street and Wood Avenue.

Charles H. Price, of this Town, has brought an action against the Town, returnable in the Superior Court in March, 1893, in which he claims damages in the sum of $1,000.

HIGH SCHOOL ADDITIONS, AND HIGHWAYS.

We came before you last March with carefully matured

plans for our year's work and asked for sufficient appropriations therefor, which you confidingly granted. But hardly had we started in on the work which we had outlined when the attitude of the School Committee foreshadowed plans on their part which, if carried out, would lead to the abandonment of that financial policy to which, for the previous three years, the town had given its emphatic approval, and the preservation of which your selectmen felt they were expected to guard. That policy was to contract no more debt, until the present indebtedness was all cleared off, unless some emergency arose which made it absolutely necessary so to do. After looking over the situation carefully a majority of our Board were of the opinion that no such emergency had arisen, that it would be unwise for the town at that time to contract a considerable debt for the construction of a new high school building, and that the needs of the school could be met in a less costly way. Repeated meetings between our Board and the School Committee were held in vain attempts to unite on a policy sufficiently acceptable to both and which we could recommend jointly to the town. It was finally decided to go before the citizens with a majority and a minority report. The majority report was to the effect that nothing short of immediate construction of a new building could meet the demands which would be made by the expected increase of scholars, which was confidently estimated at fifty for the current year. The minority report advised the enlargement of the present school building so as to meet the probable requirements of the next few years, and recommended the transfer from the appropriation for highway improvements of enough money to meet the estimated cost of such enlargement, namely, $6,000.

When you came to act on the reports, fellow citizens,

you adopted the latter; and we trust that you have no reason to feel dissatisfied with the decision you then made.

The High school building, as it now stands, is pronounced a credit to the town by those who have had experience in such matters and are capable of forming an intelligent judgment; and it is likely to meet all our wants for years to come, particularly if the increase in the number of its scholars is no greater than that of this year, which instead of the fifty counted on by the School Committee, has been only about seven: a number which could have been accommodated easily in the old building as it was.

This fact may serve, perhaps, as an object lesson to us all, showing us how imaginary wants may impose upon our intelligence, and so cloud it that reason for the time being ceases to have influence over our actions looking to our town's best interests.

As directed by the vote of the town the selectmen started in at once upon the enlargement of the building and contracted with Richardson & Rafter for the work above the foundation for the price of $5,272. But as the work progressed defects were found that demanded attention. Among other things the furnaces in the building were utterly worthless, and there seemed to be no escape from adopting the same method of heating which the town had sanctioned in three other school buildings, namely, steam heating. Feeling that our action would be approved by the town we did not hesitate to have this done, at a cost of $1,846. This, with other necessary expenses, such as piping, painting, mason work, digging the cellar, concreting, etc., brought the total cost of the improvements to $8,919.31. For further particulars, we refer you to our detailed statement of expenses. If there be eliminated from this cost the outside concrete work, steam heating,

and other sundries which could not be anticipated when the original calculation was made, it will be seen readily that our first estimate of $6,000 as the cost of the proposed change was substantially correct; in fact, within fifty dollars of it.

The transferrence from the highway appropriation of the sum needed for the High school building necessitated an entire change in our plans for street work, and the adoption of the policy of doing such permanent work only as came easily within our remaining means, carefully considering our resources so that all the ordinary repairs upon our highways might be well attended to. We think that we have so done this that now, at the end of the year, not only are our streets fully up to their condition of a year ago but substantial improvements have been made, such as macadamizing some 2,65) feet of roadway in the neighborhood of the Cotton Mill and around the pond in Readville: 850 feet on Gordon Avenue; 300 feet more on West street, and rebuilding the 700 feet of Fairmount Avenue between Everett Square and the N. Y. & N. E. R. R. Crossing.

Of paved gutters we have constructed 400 feet on Arlington street and 350 feet on Williams Avenue; of curbing 268 feet on West River street, 195 feet on Hyde Park Avenue. We have put up a new fountain at Clarendon Hills station; have planked Fairmount and Stony Brook bridges; and have at the crusher 600 loads of stone ready for distribution upon the streets. We have paid every debt which has been contracted, and have balances amounting to $35.52, also $1,474.57 covered into the treasury from betterment assessments which at the last March meeting, the town neglected to make available for our use this year, as had been done before, but which may be considered fairly as belonging to the highway department; thus leav-

ing about $1,500 in the town treasury to the credit of the highway appropriation ready for any call which the vicissitudes of the weather or any unexpected emergency may make. There are also $1,290.50 of betterment assessments not yet collected.

With such a showing we feel that no mistake was made in sparing from the funds intended for permanent work upon the streets so much as was needed to make the changes in the High School building, which have fitted it to meet all probable demands till the time when, the burden of our indebtedness removed, all can join heartily in measures for the construction of an edifice for our High school pupils, which will be not only a joy to them but a credit and glory to our town.

Believing that the thoughts of the retiring Board as to the needs of the town for the ensuing year are appreciated by many of our citizens, as enabling them to come to more correct conclusions and aiding them to carry out those conclusions more intelligently at the appropriation meeting, we here present to you a table which shows in its first column the appropriations made this year, and in the next column what we think will be needed for similar purposes next year.

SUPPORT OF SCHOOLS.

		1892.	1893.
Teachers, janitors and fuel,	$30,400 00		
Incidentals,	3,200 00		
Text books and supplies,	2,000 00		
Evening Schools,	700 00		
Industrial schools,	150 00		
Steam heating for Fairmount school building,	2,000 00		
		$38,450 00	$36,450 00

DEBT AND INTEREST MATURING.

Cemetery note,	$2,000 00		
Other notes and bonds,	7,500 00		
Interest,	9,500 00		
Sinking Fund,	3,000 00		
		$22,000 00	$20,000 00
Public Library,		$ 1,850 00	1,850 00
Highways, current expenses,		4,000 00	4,000 00
Highways, permanent improvements,		12,000 00	10,000 00
Board of Health,		1,500 00	1,500 00
Incidental expenses,		7,000 00	6,500 00
Salaries of town officers,		3,325 00	3,325 00
Police,		4,000 00	3,500 00
Support of Poor,		3,500 00	2,500 00
Street Lights,		7,700 00	7,500 00
Fire Department,		4,700 00	4,700 00
Grand Army of the Republic,		150 00	150 00
Voted December 30, 1891,		2,500 00	
Sums voted in 1892 and payable in 1893, viz :			
October 18, Fairview Avenue,	$1,000 00		
November 29, Furniture High School Building.	1,000 00		
November 29, Board of Health,	744 33		$2,744.33
		$112,675 00	$104,719 33

We recommend that the amount required for Fire Hydrant service be appropriated from Corporation and National Bank tax, as in years past.

We present these figures to you after a careful consideration of the Town's situation and its needs, and if adopted, the tax levy will be under $14 per $1,000.

For schools we have put down the same as given last year except the $2,000 which was appropriated for putting steam heating apparatus in the Fairmount school.

In addition to $4,000 for ordinary repairs on our streets we recommend the appropriation of $10,000 for permanent

improvements on highways From this amount ample funds will be available for the building of Metropolitan Avenue as decreed by the County Commissioners, and sufficient will remain for the performance of such other work as may be advisable.

The police department having $1,110.39 now to its credit in the treasury, we advise an appropriation of $500 less.

There remaining unexpended $2,608.71 of the appropriations for the poor, we recommend $1,000 less.

For street lighting we suggest $200 less because of an unexpended balance in the treasury to that account.

The item of $20,000 for debt and interest might be considerably reduced; but we believe that it is well to raise that amount this year, and a like amount next year, for by so doing our debt will be wiped out substantially, so that when we come to the March meeting of 1895 we will be relieved of this yearly burden of $20,000 in our tax levy and our taxes per $1,000 can easily drop to $12 and under, thereby reaching in a period of two years that happy condition, the advocacy of which you have endorsed again and again for the last four years. And in looking forward to that period of low taxation we are not advocating a niggardly policy but a continuation of the methods which have shaped the conduct of the business of the town the last four years; a period when, we think, it can be said safely that as many substantial improvements have been made as during any time in the town's history.

Fellow citizens, having placed before you a report of our year's work we hope that you will give it that careful consideration which is always pleasant to a servant who labors to be faithful to the trust confided to him.

If we have failed to meet your every expectation, it has not been from any division of sentiment in our Board, nor

from any intentional neglect of your desires, but from a failure on our part to correctly comprehend them.

Respectfully submitted,

ROBERT BLEAKIE,
STEPHEN B. BALKAM,
AMOS H. BRAINARD,
FREDERICK N. TIRRELL,
THOMAS S. WATERS,
Selectmen of Hyde Park.

TOWN CLERK'S REPORT.

BIRTHS.

Number of births registered in Hyde Park in 1892	285
Males	141
Females	144
The parentage of the children is as follows:	
Both parents American	119
" " Irish	41
" " Scotch	6
" " English	4
" " Swedes	4
" " Germans	4
" " of British Provinces	28
Mixed, one parent American	58
Both parents of other nationalities	21

Born in January, 27; February, 27; March, 11; April 26; May, 36; June, 18: July, 32; August, 18; September, 22; October, 16; November, 29; December, 23.

MARRIAGES.

Number of intentions of marriage issued in 1892	108
" " marriages registered in 1892	110
Oldest groom	55
" bride	56

CAUSES OF DEATH.

Accident	10	Influenza	1
Consumption, pneumonia, or other lung diseases	44	Convulsions	2
Cholera infantum, or other bowel diseases	8	Meningitis	7
Diphtheria	3	Heart disease	14
Throat diseases (other than diphtheria)	4	Typhoid fever	3
Cancer and tumor	5	Typhoid pneumonia	1
Brain diseases	1	Paralysis and apoplexy	13
Marasmus	7	Stillborn	11
		Old age	8
		Bright's disease	3
		Various other diseases	35

The following are the names of those who died in Hyde Park and of residents of Hyde Park who died elsewhere, during the year 1892.

DATE.	NAMES.	AGES.			CAUSE OF DEATH.
		Y.	M.	D.	
Jan. 4	Edna E. Towner	6	2	8	Diphtheria.
4	Rebecca B. Mann	82	4	4	Pneumonia
8	Mary J. Tophan	40	—	—	Pneumonia.
9	Betsey Battlestein	—	1	14	Erysipelas.
12	Margaret McDonough	73	—	—	Heart failure.
12	Margaret R. Raiche	—	1	29	Capillary bronchitis.
14	Mary F. Hall	79	7	6	Pneumonia.
15	Sarah E. Bunker	82	9	5	Pleurisy fever.
16	Henry Grew	83	7	15	Influenza.
18	Stephen S. Bunker	83	5	6	Old age.
19	Mary Kelty	60	—	—	Pneumonia.
21	—— Dierkes	—	—	—	Stillborn.
23	Richard Stanley	71	—	13	Congestion of lungs.
29	Annie E. Foley	22	6	—	Phthisis pulmonalis.
Feb. 1	Minnie Jank	—	—	5 hs	Non viable.
3	Maria L. Davison	78	6	21	Exhaustion.
3	Sarah Cox	—	4	—	Whooping cough.
4	Sarah A. Coles	29	4	21	Puerperal fever.
7	Thomas Brachu	87	7	5	Pneumonia.
8	James A. Guinan	35	11	25	Disease of heart.
9	George E. Coles	—	—	12	Broncho pneumonia.
9	Adella A. Lauriat	39	11	23	Phthisis.
10	John O'Brien	32	6	—	Phthisis.
10	Teresa Lee	—	8	20	Meningitis.
11	Charles Adams	81	3	29	Old age.
14	Francis W. Shattuck	63	1	16	Cirrhosis hepatis.
19	Boyd Roden	43	1	27	Phthisis.
20	Ira C. Pierce	68	5	9	Pneumonia.
26	James M. Trotter	50	—	19	Pulmonary tuberculosis.
27	Volberg C. Roman	—	—	10	Hemorrhage.
28	Catherine B. Pierce	56	1	2	Pneumonia.

The Town Clerk requests information of any omission or error in the above tables, in order that the registration may be as complete as possible.

Respectfully submitted,

HENRY B. TERRY,

Town Clerk.

REPORT OF THE BOARD OF HEALTH.

In giving the report for the past year, it would seem fitting that first we should make mention of those who have so faithfully served the town as members of this Board, whom our Heavenly Father in his goodness has seen fit to take from our midst, and whom we sincerely mourn.

In the latter part of spring Dr. J. P. Bills, chairman of the Board, after a few days sickness was called from us. Daniel F. Wood who was appointed to fill the vacancy which was caused by the death of Dr. Bills, acted as secretary for the Board for a few months, when after a few hours sickness death claimed a second member of the Board for this year.

The slectmen filled the vacancy caused by the death of D. F. Wood by the appointment of E. C. Farwell.

In offering this report we do not claim that our work has been perfect, but we have tried to work for the best interest of the town and its citizens.

The Board has held meetings at stated times, and special meetings when business of importance made it necessary.

We would call attention to the following circular issued by the State Board of Health:

PRACTICAL SUGGESTIONS RELATIVE TO CHOLERA.

A Circular from the State Board of Health of Massachusetts.

In view of the appearance of epidemic cholera during the present year in foreign ports and cities, and of the possibility of its occurrence in the cities and towns of Massachusetts, the following circular is issued by the State Board of Health for the guidance of local boards of health and all others whom it may concern.

While recognizing the extremely infectious nature of cholera the Board emphasizes the fact that the presence of imported cases ought not to prove a source of alarm to a community if the place receiving the infection has had, and, *continues to have*, thorough sanitary care and supervision.

The discharges from the bowels are without doubt the chief source of infection. Vomited matter is open to suspicion and should be similarly treated. In proportion as carelessness and neglect are permitted in the disposal of these discharges, the disease is liable to spread. Under ordinary circumstances, it is probable that a patient suffering with cholera has no power to infect others except by means of such excreta. Nor is it probable that he has any power of infecting at all, except in so far as particles from these discharges may infect the food, water or air which others consume.

A healthy person coming from an infected district may carry the infection of cholera upon the hands, or other parts of the body, or upon the clothing, and such person should be under the surveillance of the local board of health, and should not be allowed to mingle with the community, and especially should not engage in any occupation by which dust from the clothing, or infection from the person, may enter the food or drink of others, until the Board is satisfied that he and his clothes are no longer reasonably open to suspicion as vehicles of disease.

Strong soapsuds may be used for bathing the body. [For the treatment of clothing see instructions relative to *Disinfection.*]

A person arriving in a city or town, who is sick, his illness being known or suspected to be cholera, should not be allowed to dwell in a crowded community, but should be taken to a house having an open space around it, and immediately placed under the charge of a physician. He should be kept warm until the physician arrives. If there should be any doubt as to the character of the illness, the State Board of Health will, upon application, send an expert to decide the question.

The room occupied by the patient should have no carpet, and all articles not immediately needed, including extra clothing and tapestry, that may retain dust, should be removed. Dust upon the floor and furniture should be removed daily by wet cloths wrung out of strong, hot soapsuds, or solution of carbolic acid, and then burned. It would be well to have all the furnishings of the rooms devoted to the care of the sick of so cheap a character that they may finally be burned.

The utmost cleanliness should be practiced by the attendant both in regard to his own person and clothing and to the person of the patient, and to all articles in the sick room; and the attendant should not prepare food for himself, his patient or others, whereby it would be possible for infection to enter it from his person or his clothing. The hair of the attendant should be closely covered to exclude dust. The dishes and utensils used in the sick-room for food or medicine should not be taken to the kitchen, but should be washed with boiling water, and should be kept separately for this use and not be used by any other person. No food should ever be returned from the sick-room or from the attendant's room to the kitchen.

Special care should be taken in the disposal of the discharge of the sick. They should be treated with an equal volume of the milk of lime. They should not be carried through the house uncovered, and all vessels and their covers and the hands of the persons carrying them should be thoroughly washed with solution of carbolic acid. The discharges should be prevented from penetrating the mattress by a covering of rubber-cloth.

The clothing of the attendant and of the patient, and other fabrics used in the sick-room, should be frequently cleansed by boiling. If it becomes necessary to take such clothing to the kitchen or cook-room for the purpose of boiling, they should first be soaked in a saturated solution of carbolic acid for twelve hours.

The attendants should not go into other rooms than those intended for their exclusive use without bathing and change of clothes. Should it be necessary for other persons besides the attendants to enter the sick-room, they should take the same precautions not to carry infection from it upon their persons or their clothes.

The local board of health should provide a hospital where all cases which cannot pe properly isolated at home should be cared for. The hospital should be provided with a furnace or crematory, removed from other buildings, where the excreta from patients, and old clothing may be burned, and a room should also be provided where bedding and clothing from the hospital and from other places can be exposed to prolonged heat at a temperature of at least 212° F. (100° C.).

In addition to the other precautions which have been mentioned, the following considerations relative to the modes of propagation of cholera should be borne in mind: —

a. By leakage from privy-vaults and cesspools, and also by surface drainage, the infective material of the cholera discharges may

gain access to wells, or public water supplies and thus impart to great volumes of water the power of propagating the disease.

b. The careless disposal of choleraic discharges, by suffering them to pass into public or private water closets, sewers, or cesspools without disinfection, infects the sewage therein contained, and possibly the effluvia evolved by such sewage. The effluvia from privies or even from improperly cleansed vessels which had once contained such discharges may likewise be infectious.

c The infective power of cholera discharges attaches to bedding, clothing, towels, and other articles which have been soiled with them, and renders them as likely to spread the disease in distant places to which they are sent as in like circumstances the patient himself would be. The infective material of cholera is not discernible by the unaided sense of sight or by smell, and may become attached to clothing, linen, bedding or other articles without being detected by ordinary means. Hence all such articles should be thoroughly disinfected by prolonged boiling or by soaking in the saturated solution of carbolic acid for twelve hours before being removed from the rooms devoted to the care of the sick.

It is also recommended that immediate and thorough examination of the public water supplies should be made by local boards of health, especially when such supplies are liable to the least suspicion of contamination. If pollution is discovered, immediate measures should be taken for preventing its continuance.

The surrounding of private wells should also be examined with reference to possible sources of infection. Careful attention should be given to the removal of house refuse, offal and garbage, and accumulations of filth in neglected places.

Local boards of health are urged to make thorough inspection of the water supply and drainage of all public institutions, schoolhouses, railroad depots, picnic and camp grounds, travelling shows and all places where people are accustomed to assemble.

The following existing statutes relative to dangerous infectious diseases should be carefully complied with: –

CHAPTER 102, ACTS OF 1890.

When a householder knows that a person within his family or house is sick of small-pox, scarlet fever *or any other infectious or contagious disease dangerous to the public health*, he shall immediately give notice thereof to the board of health of the city or town in which he dwells, and upon the death, recovery or removal of such person, such of the rooms of said house and such of the articles therein as, in the opinion of the board of health, have been subjected to infection or contagion shall be

disinfected by such householder to the satisfaction of said board of health. Any person neglecting or refusing to comply with either of the above provisions shall be punished by a fine not exceeding one hundred dollars.

CHAPTER 98, ACTS OF 1884.

SECT. 2. When a physician knows that a person whom he is called to visit, is infected with small-pox, diphtheria, scarlet fever *or any other disease dangerous to the public health*, he shall immediately give notice thereof to the selectmen or board of health of the town; and if he refuses or neglects to give such notice, he shall forfeit for each offence not less than fifty nor more than two hundred dollars.

SECT. 3. The boards of health in the several cities and towns shall cause a record to be kept of all reports received in pursuance of the preceding sections, and such record shall contain the names of all persons who are sick, the localities in which they live, the diseases with which they are affected, together with the date and the names of the persons reporting any such cases. The boards of health shall give the school committee immediate information of all cases of contagious diseases reported to them according to the provisions of this act.

SECT. 4. The secretary of the Commonwealth shall furnish the boards of health with blank books for the record of cases of contagious diseases as above provided.

INDIVIDUAL PRECAUTIONS.

The following precautions are recommended to private individuals, and especially to householders:—

1. *Domestic Water Supply.* The supply of water for household purposes should be pure, and especially free from contamination by house drainage. Wells located in close proximity to privies and cesspools are always open to suspicion of contamination. If there is any question as to the quality of the drinking water it should be boiled a half-hour before using.

2. Good, wholesome food should be eaten, such as people have found it best for them to eat at other times.

Fruit should be ripe and sound, and vegetables should be fresh and properly cooked Excesses in eating and drinking and indigestible food should be avoided.

Care should be taken to secure a milk supply which is above suspicion. In case of an epidemic, all milk should be boiled.

3. Every householder should carefully attend to the condition of the water-closets, privies, cesspools, drains, cellars, stables, yards, outbuildings and sheds upon his premises, and cause them to be kept in a cleanly condition.

DISINFECTION.

The following disinfectants are recommended:—

1. *Milk of lime.* Milk of lime may be prepared by sprinkling

one quart of water gradually upon a quart of quick-lime in broken pieces in a metallic or wooden vessel. When the lime is reduced to powder, three quarts of water should be added, and the whole kept in a covered vessel.

2. *Chloride of lime.* (One part of lime to 50 parts of water.) The chloride of lime should be fresh, and may be used either in powder or in solution.

3. *Solution of potash soap.* (Three parts of soap to 100 of hot water, or 1 pound to 4 gallons of water.)

4. *A saturated solution of carbolic acid.* If the crude acid is used it should be dissolved in the warm soap solution, 1 part of carbolic acid to 20 of the soap solution. Pure acid may be dissolved in water without the soap (1 part to 20.)

5. *A temperature of at least* 212° *F.* (100° C.) for an hour, either by boiling, baking or steam heat.

MODE OF EMPLOYMENT.

For the disinfection of excreta. The excreta of cholera patients should be received into metallic or earthern vessels and mixed at once with equal parts of milk of lime. Chloride of lime may also be used in the proportion of two heaping tablespoonfuls to each pint of liquid excreta.

For disinfection of the hands, etc. The hands and other parts of the body which may have become exposed to infection from excreta, soiled clothing or bed linen, should be washed in a solution of chloride of lime (1 part of lime to 50 parts of cold water) or a saturated solution of carbolic acid.

Bed linen, shirts and such articles as can be washed should be washed in strong soapsuds, and subjected to a boiling heat for half an hour, or they may be placed in the carbolic acid solution for twelve hours.

Clothing which cannot be washed should be subjected to heat above 212° F. Articles of leather and rubber may be treated with the carbolic acid solution.

The *exposed wooden or metallic surfaces of furniture* should be washed with cloths wet with solution of carbolic acid. The floors of sick-rooms should be treated in the same manner. The cloths thus used should be burned.

The *sick-room* should not be used by others until the walls and floor have been scrubbed with cloths wet with solution of carbolic acid and the ceiling whitewashed. The doors and windows should be

kept open for at least twenty-four hours afterward to allow a free admission of out door air.

Concrete, asphalt, brick and oher pavements and gutters exposed to cholera infection should be flooded with milk of lime.

Upholstery feather-beds and mattresses should be subjected to steam heat in a disinfecting apparatus. Where this is impracticable they should be destroyed by burning.

Straw and excelsior bedding, rags, old clothes and other articles of little value should be destroyed by fire.

The use of proprietary disinfectants and patent remedies for cholera should be avoided.

SUGGESTIONS TO PHYSICIANS.

The Board recognizes that success in the preventive treatment of cholera depends very largely for its efficiency on the willing aid of the attending physician. His position and his special training enable him to make a proper use of the means for the management and control of the disease, and his daily intercourse with the people makes it possible for him to be very useful in promoting the measures adopted for insuring the public health and in allaying needless panic.

The special points to which the attention of the practising physician is directed are:—

1. Immediate notice of each case to the local board of health of the city or town in which the case occurs.

2. In doubtful cases the same precautions as to isolation and disinfection should be employed as in an undoubted case of cholera.

3. Disinfection of the discharges should be practiced as recommended in the foregoing instructions.

4. The patient should be isolated, and where this is impracticable, he should be taken to a hospital provided for the purpose.

5. The nurses and attendants should be carefully instructed as to the disinfection of their hands, their clothing and the care of the food.

6. Excreta of the sick and other infected material should not be disposed of upon the cultivated soil nor in the neighborhood of wells, springs or water supplies, but should be thoroughly disinfected or destroyed by fire.

7. In case of death of the patient the burial should take plaee as soon as possible and in all cases should be private.

8. Since exactness in diagnosis is essential, experts will be sent by the State Board of Health to determine the character of any case of which the Board receives notice at its office, No. 13 Beacon street, Boston.

If these directions are carried out we feel that the town will be protected not only from this but other contagious diseases.

Mr. C. H. Crumett and Mr. Frank Hukin were again employed to collect swill, and at the death of Mr. Hukin, his wife with the assistance of Mr. Caleb Hall was allowed to continue his business. Complaints have come to the Board that unauthorised parties were collecting swill, and efforts have been made to stop them. We respectfully thank those who during the past year have notified us when the laws were thus broken.

CONTAGIOUS DISEASES.

Cases of typhoid fever, diphtheria, scarlet fever, and measles, when reported by physicians have been attended to according to law.

The number of cases that have been reported are as follows :

Diphtheria,	9	with	3 deaths.
Scarlet fever,	25	"	0 "
Typhoid Fever,	23	"	4 "
Measles,	11	"	0 "
Membraneous Croup,	2	"	0 "

Making total of 70 cases and 7 deaths, about the same as last year.

LOW WET LANDS.

Complaint came to the Board that the vacant lot on Pierce street beyond the Baptist church was used for dumping rubbish from which bad odors arose and thus creating a nuisance. The owner expressed a willingness to do what was necessary, and the place was put in proper condition.

Complaint was made to the Board in July in regard to a lot of land lying between Arlington and Page streets and Central avenue, said land being low ; water collected there

and became stagnant, making the place unhealthy for those living in the vicinity; also land lying between Central and Metropolitan avenue and Arlington street in the same condition.

After investigating the same the Board ordered the owners to fill it in to such height as would turn the water coming into or on said land into a culvert which should properly drain it. These orders were complied with and the work was done without expense to the town.

When complaints have come in the proper form we have given them prompt and careful attention.

REGULATIONS OF THE BOARD OF HEALTH

[SEAL.]

OF THE TOWN OF HYDE PARK.

PUBLIC STATUTES, CHAPTER 80, SECTION 18 — The Board of Health of a town shall make such regulations as it judges necessary for the public health and safety, respecting nuisances, sources of filth, and causes of sickness within its town. Whoever violates any such regulations shall forfeit a sum not exceeding one hundred dollars.

In accordance with the foregoing provisions of law, this Board makes the following regulations, which will be strictly enforced.

REGULATION 1. — The owner, agent, or occupant having the care of any tenement used as a dwelling house, shall furnish the same with sufficient drain, under ground, to carry off the waste waters; also with a suitable privy or water closet sufficient for the accommodation of all those inhabiting the premises All waste pipes from water closets, sinks bowls, bath and other set tubs, shall be suitably trapped, and all drains entering cesspools must be made water tight. There should also be a trap in the soil pipe between the house and cess pool, and provision made to admit air into said pipe between the house and trap.

REGULATION 2. — All privy vaults, unless water tight, shall be so constructed that the inside of the same shall be at least five feet distant from the line of every adjoining lot or street, and from any

dwelling house and shall be provided with a ventilation through the roof; the same shall not be used as cesspools nor receive drainage from the premises; their contents shall not be allowed to leak out or otherwise become offensive.

Regulation 3. — All waste water shall be so conveyed through sufficient drains, under ground, to a reservoir sunk under ground as shall be approved by the Board of Health. No person shall allow any drain or the overflow of any cesspool to enter any running stream, or any drain constructed for surface water, and no person shall suffer any house drainage or other offensive water to remain in any cellar, or upon any lot or vacant ground by such person owned or occupied. All privy vaults and cesspools within thirty feet of any well or spring, the water of which is used for domestic purposes, must be water tight.

Regulation 4. — The Board, when satisfied upon due examination that a cellar, room, tenement or building in the town occupied as a dwelling place, has become by reason of the number of occupants, want of cleanliness or other cause, unfit for such purpose, and a cause of nuisance or sickness to the occupants or the public, may issue a notice in writing to such occupants, requiring the premises to be put in proper condition; or if the Board see fit they may require the premises to be vacated, and the same shall not be again occupied without the written permission of the Board.

Regulation 5. — No person shall throw or put into any public place or pond, or running stream or body of water, or in any other place where the Board of Health may deem it a nuisance, any dead animal, animal matter, decayed fruit or vegetables, dirt or rubbish whatever; nor shall any person throw into or upon any flats within the jurisdiction of the town, any dead animals, filth or offensive matter.

Regulation 6. — No person shall remove or carry in or through any of the streets, lanes or avenues, places or alleys within the town of Hyde Park, the contents of any cesspool, vault or privy well, swill or house offal, (either animal or vegetable,) or grease or bones, unless a permit be granted by the Board of Health upon such terms and conditions as said Board may deem necessary.

Regulation 7. — No person shall bury swill or house offal, or the contents of any cesspool, vaults, privy, or privy well within the limits of the town of Hyde Park unless a permit be granted by the Board of Health.

Regulation 8. — Parties will be licensed by the Board of Health to collect swill and refuse matter from houses in Hyde Park twice a week or oftener, and all housekeepers and others are directed to deliver the same to those duly authorized to make such collections.

Regulation 9. — No person shall bring into the town, keep or offer for sale any diseased, putrid, stale or unwholesome meat, vegetables or provisions.

Regulation 10. — No person will be permitted to keep any swine within the limits of the town of Hyde Park without a written permit from the Board of Health.

Regulation 11. — Any person sick with the small pox or other contagious disease, together with all persons in attendance upon them, and the premises where such sick person is, will be subject to the control of the Board, and no person shall enter or leave a house wherein a person is or has been sick with the disease, or in any way come in contact with the inmates of such house, except by permission of the Board.

Regulation 12. — Whenever the Board of Health shall ascertain that any person is sick with small pox, scarlet fever, diphtheria, or any other disease dangerous to the public health, the Board shall at their discretion have full control of said person or premises, and shall, if they deem proper, order the premises vacated.

Regulation 13. — All persons are warned not to approach a house of the surrounding premises whereupon is displayed a disease flag by day, or a red light by night.

Regulation 14. — The bodies of all persons dying of small pox, scarlet fever, typhus fever or diphtheria must be immediately disinfected and placed in a tight coffin, which shall not be reopened, and the bed, bed clothing, and other clothing used by any such person, and by those in attendanee on him, and all the furnishings of the sick room, thoroughly disinfected before being taken from said room. In the above case no public funeral will be allowed without permission from the Board of Health.

Regulation 15. — The owner, or persons having charge of any vehicle, public or private, used at a funeral in the foregoing cases, to carry the deceased, or any of the family or attendants of the deceased, shall forthwith report the fact to the Board of Health, and shall thoroughly disinfect such vehicle before the same is again used, and take such other precaution as the Board of Health shall direct.

Regulation 16. — Any person in the town of Hyde Park, who

knows or suspects any domestic animal has contagious disease (such as glanders in horses or cholera in swine) must immediately report the same to the Board of Health. The penalty for neglect to do so is fine or imprisonment. The above is in accordance with the provisions of Chapter 252 of the Acts of 1887.

Regulation 17. — All complaints in relation to nuisances and sources of filth injurious to the public health and safety, must be made in writing to the Board of Health, with a description of said nuisance and of the premises on which it exists, with the owner's name, if known to the complainant. Such complaints must bear the signature of the complainant. Whenever such complaint shall be made as aforesaid, the Board of Health will proceed to examine the premises complained of, and will take measures to abate the nuisance, if such is found to exist.

Fully believing that a large proportion of contagious diseases originate from unsanitary conditions, we trust we shall have the aid of all citizens and property owners in carrying out the above regulations, which are based on statute laws, and the sanitary rules of our large towns.

For burial permits apply to A. G. Childs, druggist, 30 Fairmount Avenue.

APPROPRIATIONS.

Owing to unpaid bills which have run over from year to year the Board was obliged to call for an extra appropriation which was granted and placed us in a better condition financially than for many years.

FINANCIAL.

The amounts appropriated and expended have been as follows:

Appropriation, March 30, 1892,	$1,500 00	
" November, 29, 1892,	244 33	
" " " "	500 00	
Total		$2,244 33

Bills paid on account of 1891.

Paid A. G. Childs,	$ 46 00	
E. Davis,	35 00	
D. F. Wood,	2 32	
P. Rooney,	24 58	
F. Hukin,	240 00	
S. R. Moseley,	36 00	
C. H. Crumett,	432 00	
Total	———	$815 90

Bills paid for 1892.

Paid C. H. Crumett,	$607 25	
Mrs. F. Hukin,	534 75	
F. E. Langley,	19 50	
S. R. Moseley,	31 25	
J. C. Tingley,	2 00	
William Batho	50	
R. Williams,	199 75	
J. Crowley,	5 00	
J. Snellgrove,	3 00	
A. G. Childs,	19 43	
D. F. Wood,	6 00	
	———	$1,428 43
Total appropriation,	$2,244 33	
" expended,	2,244 33	

We would call attention to the fact that over eight hundred dollars of this year's appropriation was used to pay last year's bills, and would bespeak for the new Board one large enough to meet all expenses.

Respectfully submitted,

J. C. LINCOLN, M. D.,
A. D. HOLMES, M. D.,
E. C. FARWELL,
Board of Health.

REPORT OF THE OVERSEERS OF POOR.

To the Citizens of Hyde Park:

The overseers of the poor in submitting their report for the year, beg leave to call attention to the decreased amount of expenditures and also the falling off in the total number of persons aided. Compared with the report of last year it will be noted that the amount disbursed during the year just closed is $700, less and the number of tramps who have sought temporary lodgings is less by 420, as the present winter has been, thus far, one of unusual severity, the facts above stated are noteworthy, denoting as they do general prosperity and employment among those who occupy the humbler walks in life.

As January 31st, 1893 marks the close of the twenty-fifth financial year of our town we are of the opinion that a brief statement of the cost of conducting this department during the quarter century past will be of interest to many of our fellow citizens. Total amount of appproriations from 1868 to 1892 inclusive $72,971.22, total expenditures $77,702.70. Average appropriation per year $2,918.85, average expenditure, $3,108.10. The smallest amount expended was $344.54 in 1868; the largest, $5,540.05 in 1877. Appropriations have varied from $600 in 1871 to $5,500 in 1877. No appropriation was called for in 1874, as there remained a large unexpended balance from the year previous. In two instances only have the expenditures exceeded $5,000.

Number of persons aided,	2,603
" " " fully supported,	8
" " " partially supported,	85
" " tramps lodged,	2,510

* Indicates insane.

POLICE REPORT.

To the Honorable Board of Selectmen:

Gentlemen: I have the honor to submit my Annual Report of the Police Department for the year ending January 31st, 1893.

Number of persons arrested,	164

CAUSES FOR ARREST.

Drunkenness (simple),	45
Drunkenness (common),	5
Assault,	15
Disturbance of the peace,	48
Liquor nuisance,	9
Vagrants,	17
Malicious mischief, (breaking glass),	1
Cruelty to animals,	1
Insane,	6
Breaking, entering and larceny,	6
Perjury,	1
Truancy,	1
Evading car fare,	1
Lewdness,	1
Exposure of person,	3
Common brawler,	1
Illegal voting,	1
Distraining cattle (unlawfully),	2
	164

MISCELLANEOUS WORK.

Stolen property recovered,	$1,375 00	
Stores found open at night,		21
Cases investigated without arrest,		129
Search warrants for intoxicating liquor,		9
Travellers lodged in station house over night,		2,510

There has been no material change in the Police Department during the last year. Mr. James A. Cullen, our faithful and efficient night officer, resigned last December, on account of poor health. Mr. John M. Brown occupies his place. In former years I have made some suggestions and recommendations in relation to the needs of this Town, and at this time I see no reason to add to what has been already said. I am still of the opinion that there should be some addition to the force, as it now stands; but rather than name them here, should prefer to meet the Selectmen and confer with them in relation thereto.

CHARLES E. JENNEY,
Chief of Police and Keeper of Lockup.

ENGINEERS' REPORT.

To the Honorable Board of Selectmen:

We herewith present to you our annual report for year ending Jan. 31st, 1893, together with record of fires and losses; also, an inventory of Department property.

At the commencement of the year we concluded to sell one Steamer and Hose Reel, and purchase a Hose Wagon, which was much needed, as the Reel in use by Hose Co. No. 1 was deemed unsafe for further use.

Last April we found a customer for same at $600.00, and we contracted with the Abbott-Downing Company, of Concord, N. H., for Hose Wagon, at a cost of $460.00, and the balance of money was used to purchase 500 feet new Hose, of which the Department was in much need. You will see by report of Steward annexed to this that we should add more new Hose at once, as a large percentage of Hose in use is not servicable, owing to its age and the present high water pressure.

We have lately added a six circuit repeater to Fire Alarm, and have put the whole system into five circuits, thereby enabling us to locate any trouble that may occur on line more readily, and also have a good portion of line in use.

We recommended in our last year's report the addition of more Hydrants, and as the Town took no action on same, we would urge it again this year, and trust that a contract with the Water Company will be made for more Hydrants to cover unprotected parts of our Town. The following is a list of Officers and Men in Fire Department:

OFFICERS AND MEN IN DEPARTMENT.

WARREN W. HILTON, Chief Engineer.
REUBEN CORSON, Assistant Engineer.
J. H. McKENNA, Assistant Engineer and Clerk.

HOSE No. 1.

E. N. BULLARD, Foreman.
C. M. WANDLESS, Assistant Foreman.
E. F. STONE, Clerk and Treasurer. and five men.

HOSE No. 2.

STEWART McKENZIE, Foreman.
W. H. MATTHEWS, Assistant Foreman.
W. G. ROBINSON, Clerk, and six men.

HOSE No. 3.

J. H. O'BRIEN, Foreman.
D. W. MAHONEY, Assistant Foreman.
C. H. GALLIGAN, Clerk, and two men.

HOOK AND LADDER No. 1.

W. H. HOLTHAM, Foreman.
BENJ. RAFTER, Assistant Foreman.
W. R. McDOUGALD, Clerk, and seven men.

CHEMICAL No. 1.

MALCOLM ROGERS. Foreman and Clerk.
J. C. McDOUGALD, Engineman, and three men.

E. A HAWLEY, Steward and Sup't Fire Alarm.

STEWARD'S REPORT.

THE FIRE ALARM.

The Fire Alarm is in good condition, and consists at present of a six circuit automatic repeater with cutting out switches and galvanometers of which five circuits are in use and controlling about fifteen miles of wire, connected with which are one Steam Whistle and mechanism for blowing the same; one Tower Bell Striker and eight gongs ranging in size from six to sixteen inches; also, a circuit closer operating an open circuit of two miles of wire; and five 4-inch gongs for the exclusive use of Hose 3, Readville; there are eighteen street boxes on the line, and the whole is operated by a 90-cell battery divided to suit circuits.

There has been two or three miles of the line relaid; also, some new wire strung and improvements made, so that the entire system is in a good and substantial condition. There should be a Striker put upon the bell at the Engine House, and also more boxes added, either of which is very important and necessary.

Arrangements have been made by which the alarm will be used to notify the teachers and scholars of no sessions of the Public Schools.

HOSE.

There is in the Department about 5,500 feet of Hose; 2,500 is good, 2,000 fair, 1,000 has been repaired once or twice, and is poor.

The Department is equipped as follows:

With 1 fourth-class Steam Fire Engine, in good con-

dition; 1 Double Tank Chemical Engine; 1 Two-Horse Hose Wagon, capacity 1,500 feet cotton hose; 1 One-Horse Hose Wagon, capacity 1,000 feet hose; 1 Two-Horse Hose Reel, capacity 1,200 feet hose; 1 Two-Horse Ladder Truck, carrying 30 feet Ladder, also a full complement of tools, consisting of lanterns, hooks, rakes, axes, guyropes, pull down hooks, etc.; the Hose Wagons and Reels are all equipped with the necessary lanterns, hats, play pipes, axes, crowbars, spanners, wrenches, etc.; there are also 5 sets Double Harness "Swinging"; 1 Single Harness; 4 pairs Blankets; also Bit Halters, Whips, etc.

The furnishing of the houses consists of ordinary hard-wood chairs of which there are one dozen, part of a hard-wood chamber sett, six settees, three tables and a sideboard.

The furnace used in heating the Central Station is rapidly wearing out and is not large enough to thoroughly heat the building.

There is a Bell upon the Central Station which is not in use on account of the need of a striker, and as the ringing of it makes it difficult to count the alarm it has been discontinued.

The apparatus is all in good order and is ready at all times for immediate use.

E. A. HAWLEY,
Steward and Sup't Fire Alarm.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

During the past year, a branch delivery station has been established at Readville, and books sent there once a week for distribution, with gratifying results. As that part of our Town seems likely to rapidly increase in population, doubtless the demand for books at this branch will increase greatly in the next few years.

The extra space secured by changes in the interior arrangements of the library, referred to in the report of last year, is rapidly becoming exhausted, and we must once more call attention of our citizens to the need of larger and more attractive rooms.

A third supplementary catalogue, including books added from January, 1890, to January, 1892, has been issued. 459 volumes and 42 pamphlets have been added to the library; all of the pamphlets and 35 of the volumes by donation. The total number of volumes is now about 12,500, and in addition to these, the current magazines are provided for use at home and in the reading room.

The total home circulation for the year ending January 1, 1893, has been 33,063, an increase of over five per cent. over the preceding. 1,423 magazines and 1534 volumes have been issued for use in the reading room, a very gratifying increase over the previous year of more than forty per cent.

The case of reference books in the reading room, which may be consulted without application to the librarians, has been very freely used.

The Library Fund is now $6,326.76, and reference is made to the Treasurer's Report for a detailed statement of the same. The property in charge of the Trustees is the same as last year, except the additional books and cases.

The following is a list of the donations received:

U. S. Government,	20	volumes.
Commonwealth of Massachusetts,	11	"
City of Boston,	1	"
Mass. Charitable Mechanics' Association,	1	"
H. L. Gordon,	1	"

G. FRED. GRIDLEY, *Secretary.*

REPORT OF THE CEMETERY COMMISSIONERS.

The Cemetery Commissioners submit their First Annual Report for the Financial Year 1892–93.

FAIRVIEW CEMETERY.

Your Commissioners received from the sale of lots $1,650.00; for wood $3.00; for interments $53.00. They have expended $1,582.40.

For a detailed statement of Receipts and Expenditures, see Financial statement accompanying this report.

The Commissioners have built 1,200 feet of streets and avenues, in a most thorough manner; they have laid out 12 lots and have placed stone posts with round finished tops at each corner. The lots have been grubbed and graded. They also have twenty-five lots nearly ready for use.

The Commissioners have paid to the Town Treasurer $1,706 from the sale of lots and wood. They received from the Cemetery Committee $1,706.02, which was the unexpended balance from the $10,000 appropriated by the Town, to be used in the buying and laying out of the Cemetery.

Your Commissioners, on their appointment, commenced work immediately, and have done all that was possible for them to do in the short time prior to the extreme cold weather, and with the money at their disposal. They believe that they should commence the work of building avenues and paths, laying out lots and grading, as soon as the frost is out of the ground, expecting that the demand for lots will warrant them in pushing the work.

The Commissioners wish to call the attention of the voters to the fact that they were instructed by vote of the Town, to build a suitable receiving tomb, and it is their opinion that it should be erected the coming Spring.

There are a few lots of land that separate lands now included in the Cemetery, which should be purchased in order to make the whole available, providing same can be had at a reasonable price.

The Commissioners want it understood that every dollar received by them from the sale of lots, has to be turned over to the Town Treasurer. They recommend that the Town appropriate such a sum of money as will enable them to build a tomb, continue the work of laying out avenues and paths, and to use for other necessary expenses.

STATISTICS.

Number of lots sold,	16.
" interments,	10.
" removals from other cemeteries,	1.

GEORGE M. RICE,
GEORGE E. WHITING,
CHARLES F. JENNEY,
Cemetery Commissioners.

Hyde Park, Feb. 1, 1893.

BY-LAWS.

NOTIFICATION OF TOWN MEETING.

Every town meeting shall be notified by posting copies of the warrant calling the same, in ten public places in the town, seven days, at least, before the day appointed for said meeting.

ANNUAL TOWN MEETINGS.

The annual town meeting for the election of town officers shall be held on the first Monday of March of each year. The meeting shall be opened at seven o'clock A. M., and the polls shall be kept open until sunset.

A town meeting shall also be held annually between the first Monday of March and the first Monday of April, for appropriating such sums of money as may be necessary for town purposes, and for transacting such other business as may legally be brought before said meeting.

RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

1.—All questions submitted for the consideration of the town, involving the expenditure of money, shall be in writing, when so required by any legal voter.

2.—No vote fixing the period for closing a ballot shall be reconsidered after such ballot shall have commenced; but it may be in order to extend the period without such reconsideration.

3.—When a question is under debate motions shall be received to adjourn, to lay on the table, the previous question, to postpone to a certain time, to postpone indefinitely, to commit, or to amend; which several motions shall have precedence in the order in which they are herein arranged.

4.—The powers and duties of the presiding officer, not especially provided for by law, or by the foregoing rules, shall be determined by the rules of practice contained in "Cushing's Manual," so far as they are adapted to the condition and powers of the town.

5.—No vote shall be reconsidered except upon a motion made within one hour after such vote has passed, unless such reconsideration is ordered by a vote of two-thirds of the voters present and voting

FINANCIAL YEAR.

The financial year of the town shall begin with the first day of February in each year, and end on the thirty-first day of the following January.

The selectmen, overseers of the poor, board of health, surveyors of highways, and school committee shall post in some conspicuous place at their official rooms, a notice of the times of their respective meetings.

COLLECTION OF TAXES.

1. —The assessment of taxes shall be completed, and a list of the same delivered to the collector, on or before the first day of August of each year.

2.—All taxes which may be assessed, if paid on or before the first day of October next after the assessment, shall be entitled to such discount as the town shall vote at its annual meeting. All taxes shall be due and payable on or before the first day of November next following the assessment of said taxes.

3.—On the first secular day of each month, the collector shall pay over to the town treasurer all the taxes collected by him, and he shall, on or before the first day of February in each year, make up his account and render the same to the auditors.

DUTIES OF THE AUDITORS.

1.—The auditors shall examine the accounts of the selectmen, school committee, treasurer, collector, trustees of the public library, and all other officers or committees entrusted with the expenditure of money, quarterly, and shall certify as to the correctness of the same in the printed annual report.

2.—Before certifying to the accounts of the treasurer, they shall examine his cash book, wherein shall be entered his receipts and payments, as they occur from day to day, shall see that he has paid out no moneys except on proper vouchers, carefully examine all payments for interest, and see that the funds on hand are intact.

3 —Before certifying to the collector's accounts, they shall examine his cash-book, showing the amounts collected from day to day, and showing when the same were paid over to the treasurer; shall see that he has collected interest on all taxes overdue, and shall see a complete list of abatements, and also a list of unpaid taxes.

4.—They shall see that the accounts of the trustees of the public library are kept in a correct manner, and that all payments are accompanied with proper vouchers.

COASTING.

Coasting on any of the public streets of the town is prohibited, except upon such streets as the selectmen may designate each year by public notice.

HIGHWAY AND POLICE REGULATIONS.

1.—No building shall be removed over a public street without the written permission of the selectmen.

2.—The owner of such building, or the person or persons removing the same, shall give a bond in such penal sum, and with such sure ties as the selectmen shall determine, with condition to reimburse the town for all sums of money which it may be liable or compelled to pay in consequence of such use of the highways.

3.—No person except the selectmen or the surveyors of highways, in the lawful performance of their duties, or those acting under their orders, shall break or dig up the ground in any street or public way in the town, without first obtaining a written permit from the selectmen; and all persons acting under such permit shall put up and maintain a suitable railing or fence around the part of the street so broken up, so long as the same shall remain unsafe or inconvenient for travellers, and he or they shall keep one or more lighted lanterns fixed to such railing or fence, or in some other way exposed every night from twilight in the evening through the whole night, so long as such street or way shall be or remain unsafe or inconvenient for travellers.

4.—No person shall ride or drive a horse in any street in the town at a rate faster than eight miles an hour.

5.—No person shall, without the written consent of the selectmen, play at any game in which a ball of any kind is used, or fly a kite, or throw or shoot stones, arrows, balls, snow balls, or other missiles, or discharge any gun, cannon, or firearm, or make any bonfire or other fires in any street or way where the public have a right to pass.

6.—No person shall propel, drive, wheel or draw any bicycle, tricycle, cart or vehicle of any kind whatsoever except a child's carriage drawn by hand, nor use roller skates upon or over any sidewalk in this town, nor permit nor suffer any horse, cattle, swine or sheep, belonging to him or under his care or keeping, to go upon or over the same, nor suffer any horse to remain hitched across, or upon, or otherwise obstruct or injure, any such sidewalk.

7.—No person shall hitch or fasten any horse to any ornamental tree standing or growing on or near any sidewalk, or to the boxing or guard about said tree, without the consent of the owner thereof.

8.—No person shall without a written license from the selectmen place or cause to be placed, or suffer to remain within the limits of a street or upon any sidewalk, so as in any manner to obstruct the travel thereon, any vehicle, wood, coal, manure, dirt, gravel, stones, building material, barrels, boxes, merchandise, or any rubbish or obstruction whatever.

9.—No person shall carry in a public street, house-offal, either animal or vegetable, or grease, or bones, or the contents of cesspools or vaults, unless he has been expressly licensed therefor by the Board of Health, upon such terms and conditions as said board may deem that the health and interests of the town require.

10.—Loud crying of wares or merchandise, or hallooing, hooting or making loud and unseemly noises on the public streets or squares of the town, to the annoyance of the citizens, is prohibited.

11.—No person shall behave in a rude, indecent or disorderly manner, or use profane, indecent, or insulting language, in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, or be or remain upon any sidewalk, street, or crossing, or about doorways or places of business, to the annoyance or disturbance of any person.

12.—Three or more persons shall not continue to stand or remain in a group or near to each other, on any sidewalk or street or crossing, or in any public place, in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on.

13.—No person shall be or remain in any doorway, or upon any stairs, doorstep, portico or other projection from any house or building, or upon any wall or fence on or near any street or public place, after having been requested by the owner or any occupant of the premises or by any constable or police officer to remove therefrom.

14.—No person shall make any indecent figures, or write, print, paint, or cut any obscene word or words upon, or deface, break or injure in any manner, any fence, post, sign, street lantern, building or structure; or commit a nuisance upon any sidewalk or other place resorted to by the public, or against any tree, building or structure adjoining a sidewalk.

15.—No person shall extinguish any street light, or extinguish or remove any light placed to denote an obstruction or a defect in any street or way, without proper authority.

16.—No person shall swim or bathe in any of the waters within the limits of this town, so as to be exposed in a nude state, to the view of any person passing or being upon any railroad or street or in any dwelling-house in this town.

17.—No person shall intermeddle with any hydrant, gate, gate-box or water pipe placed or located within the limits of any public way in this town, without permission from the selectmen or the Hyde Park Water Company.

PASTURING OF CATTLE OR OTHER ANIMALS ON STREETS OR WAYS.

No person shall pasture any cattle, goat or other animal upon any street or public way in said town, either with or without a keeper, except within the limits of such way adjoining his own premises, and field drivers are instructed to enforce this by-law.

TRUANTS.

1.—This town hereby avails itself of the several provisions of the statutes of this commonwealth, now in force, relating to habitual truants and absentees from school.

2.—All children convicted of habitual truancy hereunder, and children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, may be committed to the Lawrence Industrial School, at Lawrence, Mass., or to any house of reformation which has been or may hereafter be established by the County Commissioners of the County of Norfolk, or to any place provided by this town within its limits, for confinement, instruction and discipline.

3.—Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws, and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

4.—It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant, or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satis-

factory pledges for the restraint and reformation of the child, he may, at his discretion, forbear to prosecute so long as such pledges are faithfully kept.

5.—It shall be the duty of the School Committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

6.—It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the School Committee, who shall publish the same with their own report.

7.—Nothing in these by-laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

LIST OF TAX-PAYERS.

The names of all persons paying a tax on real or personal property shall be published annually in the town reports, together with the amount of tax assessed upon each, and whether the same is paid or unpaid.

DUTIES OF TOWN CLERK.

The Town Clerk shall keep a file of all town reports, reports of all committees chosen by the town, and all original documents relating to the affairs of the town which may come into his possession; he shall, as soon as practicable after any election has been held by the town, in addition to the notices he is now directed to give to officers who are required to take an oath of office, also issue a written or printed notice to all persons who have been elected to any other office, or chosen to serve on any other committee, stating the office to which such person has been elected, or the duties which such committee was chosen to perform.

CONTRACTS MADE IN BEHALF OF THE TOWN.

Every contract exceeding one thousand dollars shall be accompanied by a suitable bond for the performance of the same, or by the deposit of money or security to the amount of such bond.

ACTIONS AT LAW.

The selectmen shall have full authority, as agents of the town, to employ counsel to institute and prosecute suits in the name of the town, and appear for and defend suits brought against it, unless otherwise specially ordered by a vote of the town.

CONVEYANCING.

Whenever it shall be necessary to execute any deed conveying land, or any other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority of them, in behalf of the town, unless the town shall otherwise vote in any special case.

BY-LAWS IN RELATION TO THE PREVENTION OF FIRES.

1.—It shall be the duty of every person who shall commence the erection of any building within the town of Hyde Park to notify the Board of Engineers thereot before he shall commence building the chimneys therein.

2.—All chimneys in wooden buildings shall be built of brick, stone, or other fire-proof non-conducting material. All brick flues shall be smoothly plastered *inside* with mortar from top to bottom or lined with earthen pipe, and shall be plastered *outside below the roofing.*

3.—In no case shall chimneys rest upon any flooring without a footing of masonry or iron supported by iron beams, having a secure bearing of masonry or iron at either end.

4.—All flues shall be topped out at least four feet above the roof of the building to which they belong. The brick topping out of chimneys shall not have more than two inches projection unless covered by a cap of metal or stone properly secured.

5.—Hearths of fireplaces or grates shall be laid upon brick or other trimmer arches, or upon bars of iron supporting a bed of brickwork.

6.—No wood-work of any kind shall be placed at a less distance than one inch from the outside brick-work of any flue. In no case shall a nail be driven into the masonry of any flue.

7.—No wood-work shall be placed at a less distance than one inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes shall be cased with metal, leaving a free circulation of air all around the same.

8.—No smoke pipe in any such wooden or frame building shall hereafter enter any flue unless the said pipe shall be at least twelve inches from either the floors or ceiling; and in all cases where smoke pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by either a

double collar of metal, with at least four inches of air space and holes for ventilation or by a soap-stone ring, not less than three inches in thickness and extending through the partition.

9.—The Board of Engineers shall examine into all shops and other places where shavings or other combustible material may be deposited or collected, and at all times be vigilant in the removal of the same, whenever, in the opinion of a majority of them, the same may be dangerous to the security of the town from fires; and direct the owner, tenant, or occupant of said shops, or other places, to remove the same; and in case such owner, tenant or occupant, refuses or neglects so to do, shall cause the same to be removed at the expense of such owner, tenant or occupant.

10.—It shall also be the duty of said engineers to take cognizance of all buildings in the town in which any steam engine shall be used, and of all buildings in town in process of erection or alteration, and to make a record of such buildings as in their judgment may from any cause be dangerous, and report the same to the selectmen forthwith. And whenever in the opinion of the majority of the Board of Engineers, any chimney, hearth, oven, stove, stovepipe, fire frame or other fixtures, or any camphene or other explosive or inflammable fluid or material, or whatever else may give just cause for alarm, should be altered, repaired or removed, they, the said engineers, shall forthwith notify and direct the owner, tenant, or occupant of the premises upon which the same are situated, to alter, repair or remove the same, as the said engineers shall direct. And in case such tenant, owner or occupant shall refuse or neglect so to do, the said engineers shall cause the same to be removed, altered or repaired at the expense of such owner, tenant or occupant. And any person who shall obstruct the engineers, or any of them, in carrying out the provisions of this section, shall be liable to the penalty hereinafter stated.

11.—The removal, extension or essential alteration of any building; also the rebuilding or repairing of any building which has been partially destroyed by fire, shall be subject to the same restrictions as are imposed by the foregoing By-laws on the erection of buildings.

PUBLICATION OF BY-LAWS.

The Selectmen shall publish these By-laws annually in connection with the town report.

PENALTIES UNDER THE BY-LAWS.

Every violation of any of the foregoing By-laws shall be punished by a fine of not less than one dollar nor more than twenty dollars, to be recovered by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

PROSECUTION UNDER THE BY-LAWS.

Any citizen may, and the selectmen, constables, and police officers shall, prosecute every violation of the foregoing By-laws, by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

LIMITATION OF ACTIONS.

No person shall be prosecuted or tried for any breach of the provisions of any By-laws of this town, unless the complaint for the same shall be instituted and commenced within six months from the time of committing such breach.

All By-laws or parts of By-laws of this town heretofore existing are hereby repealed, and these By-laws of the town of Hyde Park shall go into effect from and after their adoption by the town and their approval by the Superior Court or any Justice thereof.

Commonwealth of Massachusetts. *Norfolk, SS.*

HYDE PARK, November 17, 1886.

At a meeting of the legal voters of said town of Hyde Park, held in Everett Hall, on Wednesday, the seventeenth day of November, in the year of our Lord eighteen hundred and eighty-six, the foregoing By-laws were adopted by said town.

Attest:

HENRY B. TERRY, *Town Clerk.*

Commonwealth of Massachusetts. *Norfolk, SS.*

SUPERIOR COURT, December Sitting, 1886, to wit: January 26, 1887.

The foregoing By-laws are hereby approved.

By the Court.

REPORT OF THE SCHOOL COMMITTEE.

To the Citizens of Hyde Park:

The duty of supervising your schools and caring for your school property during the past year has received the attention of this committee, and we would respectfully submit the following statement concerning the present condition and future needs of the school departments:

Concerning the past year, it can be justly said that it has been a period of uninterrupted work, and we believe good results have been obtained.

ORGANIZATION OF THE COMMITTEE.

The Board organized at its first meeting, by the re-election of the officers of last year. Sub-committees were then appointed and approved, viz.: High School, Messrs. Johnson, Bunton and Mrs. Wood; Damon School, Mrs. Wood and Mr. Lewis; Fairmount School, Mr. Lewis and Mrs. Hanchett; Greenwood School, Messrs. Chick and Johnson; Grew School, Messrs. Bunton and Chick; Butler School, Mrs. Hanchett; Evening School, Messrs. Bunton and Lewis; Industrial School, Mrs. Wood and Mr. Chick. In October Mr. Bunton resigned as chairman of the Evening School committee and Mr. Johnson was appointed to that position.

SCHOOL ORGANIZATION AND STATISTICS.

HIGH SCHOOL.

Mr Jere M. Hill, master; Mr. Emerson Rice, Mr. George F. Free-

man (till June, 1892,), Mr. William H. Cannon (since Sept., 1892,) sub-masters; Miss Anna W. Edwards, Miss Isabell Eaton, Miss Anna M. Linscott, assistants; Mr. George F. Freeman, instructor in military drill.

Graduates (*four years' course*). —Samuel E. Badger, Florence Elizabeth Barker, Frederick Herbert Bass, Edith Emerson Butler, Lucia Mabel Cannon, Henrietta Carrington, Mary Elizabeth Collins, George Albert Cutter, John Charles Dolan, Rolfe Marsh Ellis, Margaret Josephine Flaherty, Franklin Frederick Fowle, George Frederick Frost, George Marston Goodspeed, Edith Irene Higbee, Emma Louise Holway, Charles Bradford House, Mary Alson Knight, Grace Ethel Lingham, Louise Thomas Marr, Florence Harriet Maxim, Rosa M. Morrell, Marion Trow Raynes, Lillian Alice Richardson, Gertrude Sanborn, William Rogerson Sparrell, Clement Bates Tower, Jr., Anna Gordon Vivian.

(*Two years' course*).—Arthur Russell Newell, George Horatio Raynes, John Leonard Sanborn.

" " " fuel,	387 00
" " " incidentals,	583 97

GREENWOOD SCHOOL.

Mr. Daniel G. Thompson, master; Miss Carrie H. Stevens, master's assistant; Miss Josephine E. Thompson (till June,) Miss M. L Butland (since Sept.), Miss Annie B. Davis, Miss Sarah E. Roome, Miss Emily Woods, Miss Alma E. Bachelder, Miss Elizabeth B. Free-

man, Miss Evelyn S. Howes, Miss Jennie E. Sutherland (till June), and Miss Lena B Winter (since Sept.), teachers.

Graduates.—Gertrude L Adams, Jeannette L. Arnold, Gilbert Balkam, Joseph Parme, Ethel E. Boynton, Harold L. Bradley, Charles E. Butler, Mary E. Cannon, Frederick A Carlton, Nellie H. Fitton, Edwin O. Foss, Aimee W. Giles, Elizabeth B. Goggins, Alice F. Gray, George H. Gunnison, Alice Gurney, Susie B. Hamilton, Edith M. Hill, Edward M. Jennings, Elizabeth M. Neilson, Warren S. Reynolds, Bradlee Rich, George H. Sheehan, Helen M. Thayer, Daniel G. Thompson, Jr., George C. Willard, Ella F. Williams and Lulu M. Williams.

Statistics:

Whole number of different pupils,	461
Average membership,	373
Average attendance,	345
Per cent. of attendance,	92.5
Amount of teachers' salaries,	$5,565 00
" of janitors' salary,	360 00
" expended for fuel,	279 95
" expended for incidentals,	544 60

GREW SCHOOL.

Mr. Frank H. Dean, master; Miss Mary A. Winslow, master's assistant; Miss Margaret A. Hanlon, Miss Margaret E. Bertram, Miss Blanche L. Bright, Miss Abbie A. Sutherland (till June, 1892,), Miss Emma M. George (since Sept., 1892,) Miss Belle D. Curtis (till Oct., 1892,) Miss Ada F. Whitney (since Oct., 1892,) Miss Fannie E Harlow, Miss Agnes J. Campbell, Miss Edna Cherrington (to June, 1892,) Miss Nellie M. Parsons (since Sept., 1892,) Miss Nellie M. Howe, and Bessie C. Sparrell, teachers.

Graduates.—Alice Cary Baldwin, George Giles Bass, Augustus Tolman Beatey, Grant Reid Beeb , Alice May Brown, Grace Louise Brown, William Oscar Bursch, Nellie Grant Carter, Kenneth Guile Cherrington, Thomas Francis Downey, William James Downey, Florence McClave Easton, Gustave Adolph Edenborg, Mabel Lillian Fall, Minnie Gregory Farwell, Alice Esther Fowler, Harry George Higbee, Lizzie Kingman Jenney, Mabel Louise Jordan, Charles Lawson, William Taber Martin, Joseph Albert McDonough, Charles Alexander Munroe, Emeline Martin Newell, Alonzo Perry Orcutt, Edith Clara Provonchee, Martha Richter, Lewis Goodwin Ripley, Lillian

Grace Rogers, Albert Eugene Rollins, Warren Young Scott, Frank Dana Sears, Myrtle Sherman, Fred Howard Stackpole, Mabel Esther Taylor, Robert Fulton Towle, Madge Domitt Tucker, Hattie Louise Tyler, Charles Chester Upham, Mabel Esther Whitcomb, Harry Ernest Whittemore.

Statistics:

Whole number of different pupils,	509
Average membership,	474
Average attendance,	438
Per cent. of attendance,	.92
Amount paid for salaries,	$6,627 50
" " " janitors,	360 00
" " " fuel,	577 00
" " " incidentals,	760 31

In addition to the amounts expended for incidentals at the several schools as above, an additional sum of $602.88 has been used for purposes of benefit to all the schools, and in such manner that it cannot be exactly apportioned.

APPROPRIATIONS.

At the annual appropriation meeting the citizens voted for the care and support of schools the following amounts, viz.:

For salaries, janitors and fuel,	$30,400 00	
School incidentals,	3,200 00	
Text books and supplies,	2,000 00	
Evening Schools,	700 00	
Industrial Schools,	150 00	
Steam heating Fairmount School,	2,000 00	
		$38,450 00

Unexpended balances from last year —

Salaries, janitors and fuel,	$342 24	
School incidentals,	68	
Text books and supplies,	11 28	
Industrial schools	24 03	
High School labratory,	299 66	
Steam heating Grew School,	1 00	
Mass. School fund,	7 61	
		$686 50

In November $1,000 was appropriated and this committee authorized to furnish the new rooms at the High School building.

DISBURSEMENTS.

For salaries, janitors and fuel,	$30,517 37	
School incidentals,	3,199 88	
Text books and supplies,	2,009 13	
Evening schools,	843 03	
Industrial schools,	145 28	
High School laboratory,	98 39	
Steam Heating Fairmount School,	1,950 15	
" " Grew School,	1 00	
Furnishing High School rooms,	534 18	
		$39,298 41

A detailed list of these expenditures is printed in the Town Report, and the vouchers have been audited and are on file with the Secretary of this Committee. An examination of these will show for what purposes the money appropriated has been expended.

It seems proper to say that bills have been contracted in connection with the laboratory and furnishing at the High School, which have not as yet been approved, so that the apparent balances of these appropriations will be greatly reduced when all such claims are paid.

BUILDINGS.

The school buildings now in use by the town are large, and constructed of wood. With one exception, they have been used for more than twenty years, and the cost of keeping them in good repair is likely to increase from year to year.

We were advised during the year that the roof of the Damon building needed to be reslated; that in case of a storm which should cause ice to form upon the roof in any considerable quantity, the condition of the old slates was such that they were likely to come off in large numbers

when the ice thawed enough to slide from the roof. The old wooden ventilators are in bad condition and need to be replaced.

Here, as well as in other buildings, the floors in some of the rooms begin to be much worn, the ceilings have been mended in many places, and in many instances the desks need to be replaced with new ones.

These are some of the indications that prudence will often require special appropriations to properly protect the town's school property and keep it in that condition desired for use.

IMPROVEMENTS.

During the past year the ceilings at the Grew, Fairmount and Damon buildings were thoroughly cleaned and retinted, the selection of colors being made under the direction of our well-known townsman, Mr. John J. Enneking, who generously gave us the benefit of his time and talent to the end that the work might be properly done and a harmonious blending of proper colors secured. All who have visited the rooms seem pleased with the results obtained.

At the Damon building an old furnace was replaced by a partially worn one from the Fairmount building.

Water has been introduced at the Butler School, a much needed improvement.

Steam heating was, by vote of the town, supplied at the Fairmount School and several hundred dollars expended in making needed repairs. The Local Committee represent the building in good condition.

The report of the Sub-Committee having charge of supplying the steam heating plant is hereto annexed :

At the Grew building the Exeter Machine Works made some changes in the plant, so that the room, which it was found difficult to warm at the time of our last report, gives us no further trouble.

The Greenwood building has called for no extraordinary expenditure.

In the report of last year your attention was called to the crowded condition of the High School and a new building was recommended. At a meeting of the citizens held in June the town failed to adopt this recommendation, but voted to build another addition to the old structure. The work was immediately begun, and, although pressed forward with vigor by the Building Committee appointed by the town, could not be completed in season to open the High School at the usual time.

In connection with this addition the Committee of the town having the work in charge placed a steam heating plant in the building and discontinued the use of the old furnaces.

As the new structure was turned over to this Committee without furniture, the Selectmen, at our request, called a Town Meeting in November, to provide furniture and proper equipments for the new rooms. One thousand dollars was voted for that purpose, and the same has been substantially expended.

NEEDS.

In reviewing the recommendations of Local Committees as to special needs the coming year but one matter is found likely to call for any special outlay. We refer to the reslating of the roof at the Damon School building. If the condition of the roof is such as it has been represented, then a special appropriation of from $500 to $800 should be made to do the work.

In connection with this work, the old wooden ventilators should be replaced by galvanized iron.

The cellar at the Grew building should be plastered overhead and the bottom graded.

TEACHERS.

It is customary for Local Committees to enumerate such changes as have occurred in their respective lists of teachers. It will therefore be in order to name them here.

Very soon after our last report the High School sustained a great loss by the death of Miss Sarah L. Miner, who had for many years been one of its faithful teachers. Miss Miner was always at her post of duty and her work well done. Her influence upon the School was good, and especially so upon the young ladies under her charge. As a scholar she was thorough, but modest of her abilities. As a teacher she was painstaking, conscientious and loyal to the school. No efforts tending to its welfare and the success of her pupils were ever spared by her. As a mark of respect and appreciation, the High School was closed during the day of her funeral.

Miss Annie M. Linscott was appointed to the vacancy thus caused.

Mr. George F. Freeman, for two years a popular teacher in this school, resigned during the summer, and Mr. William Cannon was employed in his place.

Mr. Freeman's services as military instructor are still retained.

Resignations in the Grammar and Primary Schools may be stated summarily. Grew School, Misses Abby A. Sutherland, Belle D. Curtis and Edna Cherrington; Fairmount School, Miss Josephine P. Poole; Greenwood School, Misses Josephine E. Thompson and Jennie E. Sutherland. These vacancies were filled respectively: Grew School, Misses Emma M. George and Ada F. Whitney. Miss Howes was promoted to the XI grade and Miss Nellie M. Parson employed in her place in the XII grade; Fairmount School, Miss Marguerite G. Roe; Greenwood,

School, Miss Annie B. Davis of the VII class was promoted to the VI class and Miss M. L. Butland employed in the VII grade. Miss Lena B. Winter takes the XII class, taught last year by Miss Jennie E. Sutherland. These newly employed teachers are nearly all Normal graduates, and come to us well recommended from other fields of labor, and they are doing satisfactory work. These resignations occurred during the summer vacation, which enabled the Committee to carefully select new teachers, and begin the new year in September with the least possible injury to the course.

We believe the teachers in the employ of the town during the past year have been faithful to the interests of the schools under their instruction, and have used their best efforts to make them effective.

ATTENDANCE.

Upon the whole the attendance has been well sustained.

At the Damon School an evil often spoken of still exists, and has during the past year been a source of great annoyance to the teachers, as well as an injury to the school. We refer to the fact that many children enter and are enrolled as pupils, attend a short time, and then, so far as we are able to learn, are absent and attending private schools for a few days or weeks, after which time they come again into our classes for a time. This makes the per cent. of attendance low and of course works injury to all so far as instruction is concerned. This is an evil that parents can correct by causing their children to be regular in attendance at either private or public schools. Every effort should be and is used by teachers and Committee to make the public schools serve all children entitled to attend and to keep the standard of work as high as possible but parents are

expected to assist in every way possible to make the attendance of their children who enter the schools regular. If this is not done, the parent is responsible not only for the loss to his own children, but is also contributing to lower the standard of the whole class.

GRADUATING EXERCISES.

It has been the custom for many years for each Grammar School to have separate graduating exercises. Last summer the Committee decided to make a change, by way of experiment, and to assemble all Grammar School graduates in Waverley Hall, which is of ample size to accommodate all. Ninety-six candidates for diplomas occupied seats arranged upon the platform, with parts properly assigned to the several schools.

The exercises were prompt, well rendered and the result we believe was pleasing to all who witnessed the exhibition.

By this method our citizens had an opportunity of seeing all graduates of the Grammar Schools assembled, and thus were enabled to better appreciate the work of these schools. We hope the plan may continue in the future.

MUSIC.

This branch of instruction has been continued under charge of Miss Elizabeth M. Dodge, who, at the time of our last report, was employed on probation. Her work being endorsed by the committee on music, she was elected in June for the present year. She is doing satisfactory work. It is, however, a question whether the system now in use might not be changed with benefit.

COURSE OF STUDY.

No change has been made during the year. So far as we have observed, the course adopted last year with the change of text books then made has proved satisfactory. The work of the new course has gone forward smoothly and with benefit to the schools.

No change of text books has been made this year, except in one or two branches of the High school course.

STEAM HEATING.

It is not often that changes in school buildings involving equal expense are made as rapidly as those in our system of heating have been.

For several years many of our citizens advocated the introduction of steam for heating our large school houses, but the cost of steam plants as compared with a new furnace or two, now and then, to keep the old methods in tolerable condition always made a conclusive argument in town meeting.

When in 1887, as the result of an accident, a new building in the Greenwood district was required, the building committee, with some hesitation, supplied it with a good steam heating plant. The success of the system adopted was so marked that citizens having children attending at other buildings refused longer to be satisfied with furnace heat and as a result the Grew building last year and the High and Fairmount buildings this year were supplied with steam heating plants.

The plants at the several Grammar Schools are of ample capacity to fully warm the respective buildings. The new plant at the High School, whether from fault of the janitor or from other cause, has not fully met the requirements during the extreme weather of the past winter.

The report of the sub-committee having in charge the furnishing the Fairmount plant is hereto annexed.

EVENING SCHOOLS.

We are sorry to say that these schools have not been as successful as is desirable. While they are intended to be of advantage to many persons who have been or are now unable to obtain educational privileges in any other manner, and our citizens willingly provide for all who desire to and can properly attend, yet they fail from some reason to have a large regular membership. This matter has been spoken about in previous reports of this Board.

Two schools were opened in November last, one in the Damon and one in the High School building.

The school at the Damon has had an enrollment of 86 pupils, but the average attendance to January 1st was but 31 scholars; this number became so reduced that the school was closed about February 1st. The reason for this result is not plain. Several causes may have contributed to it. The room used is but poorly furnished and but two teachers could be provided to instruct the school. As the work is wholly individual and no classification can be had, it will be seen that in the time allowed each evening but little attention could be given to each scholar. We are led to think from reports coming to us that many who attended cared but little for the benefits to be derived from the school, and by their conduct in and about the building made it so unpleasant that those who otherwise would have been regular in attendance abandoned the school.

It is to be deplored that the advantages offered by the town through these schools is not appreciated by all those who might attend them.

The centre school at the High School building has made but

little better showing. With an enrollment of 70 pupils it has had an average of about 20 scholars. Two teachers are employed.

It may be said that those who attend regularly are interested in their work and the schools are of much benefit to them.

Reading, writing, spelling and arithmetic are the branches most taught, although some desire to take up other branches and are allowed to do so.

The pupils vary from 14 to 35 years of age.

It may be desirable another year to better equip the room at the Damon building and should the regular membership warrant it provide more teachers.

It has been found that the best results are obtained by so dividing the work that each teacher shall have not more than fifteen pupils to instruct, and it may be advisable to adopt this plan with a view to better reach all who give evidence of earnestly taking up the work of the school. A vigorous discipline in and about the building should also be enforced that shall allow only those to attend the school who really desire to do the work assigned to them.

The evening drawing school has met with success. The report of the instructor is annexed and shows what has been done.

INDUSTRIAL SCHOOLS.

Schools for sewing and carpentry were opened early in July but as the High School building was in process of alteration the sewing school could not be held there, as has been the custom, but was changed to the Grew building. For some reason this school was not well attended and the committee in charge closed it after a few sessions.

The school for carpentry was well attended and accom-

plished good results. Fifty-eight boys took lessons during the term, the average attendance being twenty-five. Two classes were formed; one for the forenoon, of boys who had previously attended, while the afternoon sessions were devoted to beginners. The tools are becoming much worn and an appropriation for new ones is recommended by the sub-committee in charge.

MEMORIAL DAY.

This year the local G. A. R. Post notified us of its desire to detail some of its members to visit and address the various schools of the town upon the scenes and incidents of the late war, with a view to imbue the children with patriotism and a veneration for the flag.

As Memorial day is by statute and our rules a holiday, the schools were assembled in the halls of the several buildings upon the Friday afternoon preceding the 30th of May and addresses were made by members of the Post. The event was of great interest to the children and we hope the plan will be permanently established, so that all children may come to know and feel that they have an interest in the deeds of our veteran soldiers and that the Union, saved and perpetuated by the valor of the "boys in blue," is their heritage, even though their immediate ancestors did not serve in the conflicts of '61 and '65. Let every effort be made to impress the children with a love of our country, its constitution and flag, to the end that should clouds hereafter threaten, brave defenders will not be wanting to guard and perpetuate the rights and privileges which have been secured to them by their forefathers from 1776 to the present age.

COLUMBUS DAY.

October 21st was the day selected by the State author-

ities as the day for properly celebrating the 400th anniversary of the discovery of America by Columbus.

The several schools, by vote of the committee, made the day one of special exercises. Varied and interesting programmes were arranged by the teachers and local committees. The schools were assisted by Timothy Ingraham Post G. A. R., details from which aided in the exercises of the several schools.

These exercises were largely attended by our citizens. Addresses were made by local speakers, which added to the interest of the occasion and served to impress upon the children the lessons of the great event thus commemorated upon the children.

WORLD'S FAIR.

The matter of making an exhibit of the work of the schools at the World's Fair was considered.

In view of the fact that a comparatively small space for educational exhibits has been assigned to Massachusetts, and the great number of cities and towns which can be accommodated but partially if at all, we did not deem it advisable to incur any expense in attempting to make an exhibit which could but poorly represent the work of our schools.

As Mrs. Hunt has succeeded in having space assigned for a national exhibit of temperance work, our schools will find a place there to show their work in this branch of the course.

This seems quite proper, for Hyde Park may be considered the pioneer town in this movement, as it was the first to give temperance instruction a place in its curriculum of its public schools.

HISTORICAL.

This being the twenty-fifth annual report of the school

department, it seems quite proper to review the work of the past twenty-five years. We believe in no other way can a more accurate idea of our growth as a town be obtained.

The first annual report of this Board states: "When Hyde Park was incorporated there were within what is now its limits, eleven Public Schools. Four of them were in the Town of Dedham, five in Dorchester and two in Milton. As each of these towns had its own system of instruction and government, no uniformity in these respects was to be expected." At the present time we have within the same limits thirty-six Public Schools, with as much uniformity of system and government as seems desirable.

Twelve teachers were employed during the year of incorporation, two males and ten females. Now our schools require forty-four regular teachers, seven males and thirty-seven females. Besides these, we have four teachers in Evening Schools, three teachers in Industrial Schools and one teacher of mechanical and architectural drawing, employed during certain portions of the year.

The number of children in Hyde Park between 5 and 15 years of age, May 1, 1868, was 592, while the number found last May was 1924, while the number of pupils of all ages in the public schools in '68 was 547, the past year it has been 1863. The average attendance in '68 was 408, while the past year it appears to have been 1385. In making these comparisons the State Report is used for the early statistics which is based upon the year ending April 30, '69, while the later statistics used are based upon the figures given in this report for the year ending Jan. 31, '93.

When the town was organized the school accommodations must have been very meagre, and the population varied, as the record shows that a school was kept in the "old chapel on the Readville Camp Grounds, composed of primary and

intermediate scholars and contained Irish, Dutch, German, Swede, Indian, African, French, English and American children, some of them knowing nothing of the English language." This "old chapel," with the old schoolhouse upon the site of the Damon building was Dedham's contribution to the school property of the new town.

A portion of the building now used by the High School, capable of accommodating four schools, with the Butler school building, came to us with a section of the town of Dorchester. The schools coming with the section of Milton occupied two rooms in a building leased from Mr. T. D. Weld, standing near the present site of Mr. A. G. Worden's house. To meet the increased demand for school rooms, Mr. Robert Bleakie, during the summer of '68, erected a building containing four rooms on Walnut street, which he rented to the town until the end of the autumn term of '71, when the Central School (as this was called) was transferred to and became a part of the Grew School. To further meet emergencies the committee, in the summer of '68, purchased of Mr. Farrington a daguerrotype saloon for about $300 and placed it near the schoolhouse then on the site of the Damon building. In addition to this the town erected a small school building there, and used the same without lathing or plastering. This building is now used for a chapel and stands just north of the Damon School yard. The town, however, abandoned these makeshifts there in 1870, when the present eight-room building was erected. At the time of the opening of the Parochial Schools in 1888 this building was fully occupied.

In 1871, the Fairmount and Grew buildings, each with eight rooms and a large hall were erected. The rooms of the Fairmount building are now all used and an additional room has been fitted from a portion of the hall. At

the Grew in 1884 an annex of three rooms was erected, making eleven in all, and all are now occupied by classes. In 1872 the Greenwood building was erected with eight rooms and a hall. The original structure was burned in July 1887 and the present building of similar size and style was immediately erected and occupied at the beginning of the spring term of 1888. These eight rooms, with one fitted from the hall, are now all occupied. The Butler building has been in constant use since 1884 for primary grades. With the exception of four rooms at the Damon building all of the accommodations provided by the town for primary and grammar schools are occupied, although quite a large number of pupils, properly graded, could be cared for in the various rooms of these buildings.

The appropriation for salaries, janitors and fuel in '68 was $10,000 and about $6,300 of this was used to carry the schools from May 1st to the end of the financial year in February 1869. Last year our appropriation for the same purposes was $30,400. Grades were established as far as possible in September '68 but a regular course of study was not adopted until August 1869, which fixed a course of seven years, (2 primary, 2 intermediate and 3 grammar.) A few years later this was changed to a course of eight years, and a curriculum adopted. About 1880 an attempt was made to increase this to nine years, but after about two years trial it was given up. In '74 but two grammar masters were employed, each to have charge of two buildings, with competent assistants. One of these soon resigned, and the other, Mr. George M. Fellows, was given the supervision of all grammar schools. In '75 masters for each building were employed, and this system has since prevailed. From September '85 to April '87 a superintendent was employed but after this trial it was abandoned.

With these exceptions the schools have been under the direct care of the committee, aided by a faithful corps of masters and teachers.

In the autumn of '68, ten scholars were examined and transferred to the private school of Mr. C. M. Barrows and their tuition for a High School course was paid by the town. At the beginning of the school year of '69 Mr. Fellows, then master of the Fairmount School, was given an assistant, and the scholars of the High School were under his charge until about January '70. Meantime the town had voted to establish a High School, and the hall over the store now occupied by Mr. A. G. Worden was hired and fitted for a High School room. Mr. Samuel Thurber of St. Louis, Mo., was employed at a salary of $1,700 per annum; this was increased to $1,900 after two years. In '72 the school was transferred to the hall of the then new Grew building, where it remained until '74, when the town voted to place it in the Everett building, where it has since remained, the building having been twice enlarged. High School diplomas were authorized in June '73, and Geo. W. Rollins, class of '72, Misses Agnes S. Adams and Carrie E. Walter, class of '73, were the first to receive them, November 8, 1873. From ten pupils in '68 to 206 pupils in '93 is a gratifying increase. The school, since it was established by vote of the town, has had but five principals: Samuel Thurber, Frank W. Freeborn, Wm. H. Knight, John F. Elliot and Jere M. Hill.

The records of this committee furnish evidence of great efforts in the early days of the town to place the school system upon a broad and comprehensive basis. Money was freely expended in salaries; and teachers of ability must have been available and no doubt were employed. Prior to '74 the average pay of the teachers was in excess of the

present rates, but in that year economy compelled a sharp reduction, and although increase has been made from time to time in some grades the former average has not been reached.

Not only in the matter of salaries was enterprise shown, but the call for accommodations was answered by the erection of four large school buildings, which have served the town with but small additions until the present time. There can be no doubt that the public school system is at the foundation of our political institutions. Where the intelligent performance of all public duties depends upon some intelligent executive and his selection rests with the mass of the people, then it must be necessary for the masses to be possessed of some knowledge of the duties required of the officer to be chosen if the affairs of a free people are to be properly administered. The duty of the schools is not merely personal in the fitting of a child for his own chosen pursuit, but is broader and means the protection of the state through an intelligent citizenship.

If the affairs of town, state or nation are to be well conducted, the people, sovereign in each, must be well educated in all that tends to make a good citizen. Should these matters be neglected and the children be allowed to come to manhood with its public responsibilities without mental or moral training, then would our constitution rest upon frail supports, and the capacity of our people for self-government be near to an end. With these thoughts in view we can appreciate the efforts made in the early days of our town's history in favor of good public schools. Our duty is plain! No effort should be relaxed that the child of to-day, but citizen of to-morrow may take his place well equipped with all that is required to make him intelligent and pat-

riotic in the performance of all duties which our country and its laws may devolve upon him.

Respectfully submitted,

CHARLES G. CHICK, Chairman.

Hyde Park, Jan. 30, 1893.

At a regular meeting of the Hyde Park School Board the foregoing report was read and submitted by the chairman, and it was thereupon voted that the same be adopted as the annual report of the full board.

RICHARD M. JOHNSON, Secretary.

REPORT OF SUB-COMMITTEE ON STEAM HEAT AT FAIRMOUNT SCHOOL.

To the School Committee:

The matter of supplying the Fairmount School building with steam heat having been referred to us with power, it is our pleasure to submit the following report of our action:

As soon as practicable we had the building and chimney inspected by Mr. Fairbairn, and gathered such information as seemed proper to enable us to protect the interest of the town in any contracts that might be made. The plant at the Grew School seemed to give good satisfaction and proposals were asked in the local and Boston papers for one similar in kind and of proper capacity to warm this building. In reply bids were submitted as follows:

Moody & Co.	$1950
D. C. Higgins	2254 70
S Coffin & Co.	2639
W. E. Bartlett	2150
Bueskel & Co.	2208
A. B. Franklin	2075
D. P. Gosline	3987
Lynch & Woodward	2145

As but $2,000 had been appropriated to do this work none of these bids could be accepted without causing us to exceed the amount given us by the town for this purpose. This your committee would not do and recommended that all bids be rejected, which was done. Negotiations were then begun with parties with a view of obtaining a plant without exceeding the appropriations; these negotiations finally resulted in a contract with the Exeter Machine Works for a plant similar in all respects to that at the Grew building, for the sum of $1,842. The contract called for a steel tubular boiler, tested and made tight at 150 lbs. hydrostatic pressure, with a certificate of inspection and a policy of insurance for one year; the plant to be of sufficient capacity to warm all the rooms of the building to a uniform temperature of 70 degrees, in all weathers, with all necessary connections and attachments. A bond was given, as required under the by-laws of the town for the faithful performance of the contract.

The old chimney proved of sufficient capacity and the expense of a new one was avoided. The work was done during the summer vacation, and has been carefully inspected by an expert in these matters, and we are satisfied that the work is well done. The capacity has proved ample during the severe weather of the past winter. Should it fail to meet the requirements of the contract, the Exeter Machine Works stand ready to make good its con-

tract and their bond can be held for any failure in this particular. We submit the following list of expenditures:

Exeter Machine Works, contract . .	$1842	
Geo. H. Peare, labor and labor, . . .	27 30	
W. U. Fairbairn, inspecting . . .	10 00	
Boston Herald Co., advertising . . .	45 50	
Hyde Park Times, advertising . . .	3 00	
Norfolk County Gazette, advertising . .	2 50	
Q. Dyer, hose	7 00	
W. H. Plummer, labor and stock . .	9 50	
Caleb Hall, labor and stock	3 50	
		$1950 15

Cr.

By amount of appropritaion,	$2000 00
Balance unexpended, .	$ 49 85

By authority of the full committee one of the old furnaces was transferred to the Damon School. Another has been sold to the Methodist church for $25, and negotiations are pending for the sale of one other.

Respectfully submitted,

JOSHUA F. LEWIS,
AUGUSTA L. HANCHETT,
CHARLES G. CHICK,
Sub-Committee.

REPORT OF EVENING DRAWING SCHOOL.

Hyde Park, Feb. 10, '93.

C. G. Chick, Esq., Chairman School Board:

I herewith submit report of evening and drawing school for 1892 and '93.

During January, February and March '92 the attendance fell off quite perceptibly, especially during last weeks of the term; the Wednesday evening class suffering the most. With the approval of the committee on drawing school, the present term was announced to consist of two sessions each week instead of three, as heretofore. These sessions have been held on Mondays and Thursdays, the attendance being about equally divided. Mondays have been devoted to geometrical drawing, while on Thursdays elementary projection occupied the time; this class consists largely of young men who attended last term, most of them having an excellent record of attendance. The total membership is 47; of this number 18 are from last term; the largest attendance, 36; smallest, 16; average, 30. There is no falling off in attendance as yet, and the interest appears good. The drawing boards, so kindly furnished by the committee, are appreciated by the school. The substitution of gas for oil has given general satisfaction. We were pleased to receive calls from the committee and to note the interest taken by them in the school.

Respectfully submitted,

CHARLES H. FOGG, Instructor.

REPORT OF SCHOOLS.

HIGH SCHOOL.

PRINCIPAL.—MR. JERE M. HILL.

Any person not assessed a Poll Tax who is entitled to be so Assessed, may, on September 27, October 4, 11, 18, 25, and November 1, apply to the Board of Assessors to be assessed in accordance with Public Statutes, Chapter 417, Section 20, Acts of 1893. The Assessors will be in session at their office from 7.30 to 10 P. M. on said days, after which time no person can be assessed.

[PUBLIC STATUTES: CHAP. 417.]

SECTION 20. If a male person who has not been previously assessed for a poll tax for the year beginning with the preceding first day of May, shall, on or before the day fixed by law for the close of registration in a city or town, appear in person and prove to the satisfaction of the assessors that he was on such preceding first day of May an inhabitant of such city or town, and liable to pay a poll tax therein, and shall under oath, furnish a true list of his polls and of his estate, both real and personal, not exempt from taxation, the assessors shall thereupon assess him for his polls and estate, and shall give him a certificate of such assessment, which on presentation to the registrars of voters shall be taxen by them as prima facie evidence of the facts therein stated.

SECTION 21. The assessors of a city or town, upon receipt from the registrars of voters of notice of the registration by them as a voter, of a person who was a resident of such city or town on the preceding first day of May, but who was not assessed therein for a poll tax, shall forthwith assess such person for his polls and estate, unless he is by law exempt from assessment.

PARK COMMISSIONERS:

WILBUR H. POWERS, JOHN B. BACHELDER,
JOHN J. ENNEKING.

SELECTMEN'S REPORT.

Fellow Citizens,

Another year has been added to the history of our town, and your selectmen herewith submit a report of their connection therewith. Nothing of an unusual nature has transpired, and the administration of its affairs has proceeded without friction.

ACTIONS AT LAW.

The Selectmen of last year stated in their annual report that Sarah S. Fuller, of Boston, William H. Ruddick of the same city and Charles H. Price of this town, then had actions pending against the town in the Superior Court for this County. All these actions were for personal injuries sustained by the respective plantiffs on account of alleged defects in certain of our highways. The dates of the alleged injuries and other material circumstances connected therewith are stated in the last annual report under "Actions at Law."

The Fuller case was tried in the Superior Court at Dedham before a jury, in October, 1893. The plantiff claimed, and offered considerable medical testimony to show that she sustained permanent personal injuries resulting in spinal and other difficulties; that her injury was sustained on the westerly sidewalk of Hyde Park Avenue, at a point nearly opposite Dell Avenue, on the evening of the 6th of June, 1891, by reason of her foot catching in the root of a tree which, as she and her witnesses claimed, extended across the travelled portion of the sidewalk. The statutory notice which Mrs. Fuller gave to the town was informal and in-

sufficient in itself, but she was permitted to supplement that notice by certain oral evidence given by her friends for the purpose of showing that the town had not been misled by the written notice. The jury returned a verdict in this case against the town in the sum of $3633.33. Exceptions were taken in behalf of the town to the admission of certain evidence in behalf of the plantiff and to certain of the rulings of the Court. The case will very likely be reached for argument in the Supreme Court on questions of law, in March next.

The suit by Ruddick against the town, in which the plaintiff alleges damages at $1500.00, is still pending.

In the Price suit aforesaid, the plantiff claimed damages in the sum of $1000.00, and his alleged injuries were occasioned by a wire belonging to the Hyde Park Electric Light Company. That Company was cited to defend the action, and notified that the town would hold it responsible for any damages it might be required to pay to Mr. Price. This case has been adjusted for $150.00, which amount the Electric Light Company agrees to pay, thus saving the town harmless.

On the 5th of July of last year, Nancy Bohanman brought a suit against the town and alleged damages at $4,000.00. This suit is now pending in the Superior Court, Suffolk County. The plaintiff claims that during last winter she sustained injuries on Gordon Avenue by reason of accumulation of snow and ice.

On the 9th day of January, 1894, John Haney of this town brought a suit against the town returnable to the Superior Court, Dedham, on the first Monday of March next, in which damages are alleged at $8,000.00. This action, we understand, is based on certain injuries that he sustained more than a year ago while at work on or about a stone crusher, but as his suit has not been as yet entered in court, we have no means of knowing just what his declaration will be.

POLICE.

This department has been under the direction of Chief Jenney, to whose report we refer you for details. There is a growing feeling that our force is insufficient, and we recommend a larger appropriation than has been made in recent years.

FAIRVIEW CEMETERY.

There is an increasing interest in this cemetery, as will appear more fully in the report of the Commissioners, and we endorse their recommendation of an appropriation, for the further development of the grounds.

FIRE DEPARTMENT.

This is in a good condition for efficient service, as witness the work at the late fire in Quincy Dyer's store and the Cotton Mill boarding house. The engineers feel that in certain sections of the town the hydrant service is insufficient, and we call your attention to their recommendations on that point.

STREET RAILWAY.

The franchise granted the Norfolk Suburban Street Railway Co., provided for the opening of the road to travel November 1st, last; but owing to the stringency in the money market, the company asked for an extension to June 1st, 1894, which has been granted, and the road will no doubt be in operation, on or before that date.

HIGHWAYS.

In connection with the building of the street railroad, Bent's hill (so called) on West River street, has been McAdamized, giving it a much needed crown, and the street has also been widened near the Dedham line to conform to the County Commissioners' decree. The history of Metropolitan avenue, forms an interesting chapter in the

annals of the town, but we do not propose to discuss it here, and will only say, that after some years of controversy, the County Commissioners ordered the town to build the avenue, which has been partially done the past year. Your Selectmen were not given any official information as to the probable cost of building, but the present Chairman of the Board of County Commissioners informed us that their estimate was $4,000, but the sum of $7,500 has already been expended on it in as economical a manner as possible, under the supervision of the superintendent of streets (Mr. H. M. Stowers), and it will require at least fifteen hundred dollars to complete it. One redeeming feature of this large expenditure, is the fact that except about $800 paid for gravel, and $100 for land damage, nearly all the money has been paid to citizens of the town for labor and materials. Owing to the large sum required for this avenue, not very much work of a permanent character has been undertaken, except the building of Milton street, from Central Park avenue, nearly to Paul's Bridge, (a distance of 2,600 feet) joining a section at that point which was built two years ago, and making a continuous McAdam way from Paul's Bridge to Central Park avenue. This street has been the cause of two petitions to the County Commissioners, one of which was withdrawn upon the request of a former Board of Selectmen, (who caused the section at Paul's Bridge referred to, to be built) and the second being pending when we came into office. This was also withdrawn by agreement, and certain persons offering to cooperate, and realizing that if put in good condition, it would be a great public improvement, it seemed wise and prudent to McAdamize it, which has been done at an expense to the town of $1,600, and we believe to the great satisfaction of all who have occasion to use it. Central Park avenue has been cut some two feet opposite the Morris Safe Works (a part of the expense being paid by that corporation) and the materials

used on sidewalks on Milton street and on roadway on Sprague street. Fairview avenue has been completed at an expense of $550, and repairs made on other streets as seemed necessary.

A twenty-four inch pipe has been laid across West street near Austin st. complaint having been made, that the culverts were insufficient to carry the water, which in consequence, backed up into the cellars of abutters. The absence of gravel, will in the future necessitate the using of crushed stone in the building and repairing of streets; we are impressed with the need of improved facilities for crushing and sorting the material, and a steam road roller with which to build streets; and we recommend that seven thousand dollars (7.000.) be appropriated for this purpose, to be paid in two annual payments of thirty five hundred dollars each; with the equipment which this will furnish, the town will be in a condition to do the best street work in an economical manner. In this connection we recommend the sale of land on Dana avenue, owned by the town, and that the proceeds be applied to the purchase of material for the use of the crusher. At a recent meeting the town authorized the Selectmen to strengthen Fairmount bridge, which has been done at a cost within the appropriation.

We present for your consideration the amounts appropriated the past year, and in a parallel column the amounts we think necessary for the next, and if our recommendations are substantially followed, our tax rate will be about $13.50, per thousand.

	1893.	1894.
Schools,	36,150 00	36,150 00
Bonds and Notes,	7,500 00	7,500 00
Interest,	9,500 00	3,500 00
Sinking Fund,	3,000 00	
Public Library,	1,850 00	1,850 00
Highway current expenses,	4,000 00	4,000 00
Highway permanent improvements,	10,000 00	10,000 00
Board of Health,	2,000 00	2,000 00
Incidentals,	7,000 00	7,000 00

Fairview Cemetery,	4,500 00	2,000 00
Voted in 1892,	2,744 33	
	$110,139 33	
Voted in 1893, payable 1894,		1,500 00
On account crusher and roller.		3,500 00
		$103,525 00

It will be noticed in our estimate for next year, that the item of interest has been placed at $3,500 as against $9,500 this, and that the $3,000 for Sinking Fund has been omitted. This is possible in consequence of the action of the Sinking Fund Commissioners in applying that fund to the payment of the debt, which action is more fully explained in their report. We recommend, that the amount required for Fire Hydrant service, be appropriated from Corporation and National Bank tax, as in years past.

In conclusion we desire to congratulate you on the near approach of that time so earnestly desired by all, when our town will be out of debt; although this cannot be actually true until 1898, yet it is so nearly accomplished, that we can see the fruits of the policy, you have so persistently followed the past five years, the results of which, cannot but

be a source of satisfaction, to all who have the welfare of the town at heart.

Respectfully submitted,

STEPHEN B. BALKAM.
AMOS H. BRAINARD,
GEORGE E. WHITING,
THOMAS S. WATERS,
SAMUEL T. ELLIOTT,
Selectmen of Hyde Park.

SYNOPSIS OF THE TOWN CLERK'S RECORD OF TOWN MEETINGS.

The following statement shows in a condensed form the action of the town on the various articles which have been before it for consideration the past year.

March 29, 1893 a Town Meeting was held in Waverly Hall, when the following Articles were acted upon, viz :—

Article 1. To choose a moderator to preside at said meeting.

Charles G. Chick, Esq., chairman.

Art. 2. To see if the town will accept the list of jurors as prepared by the Selectmen and posted according to law.

List amended and accepted.

Art. 3. To hear the report of the Selectmen in regard to guide boards and act thereon.

Report made by Selectmen accepted and placed on file.

Art. 4. To see what disposition the town will make of the money received from dog licenses for the year 1892.

Appropriated to the public library for the purchase of new books.

Art. 5. To see what per cent. the town will vote to pay for collecting its taxes the current year.

One per cent. on amount collected voted.

Art. 6. To fix the salaries of the town officers for the current municipal year.

Same salaries as last year voted, and Cemetery Commissioners to be paid fifty dollars each per year.

Art. 7. To fix the compensation of the engineers and several members of the fire department, for their services the current municipal year.

Salaries fixed same as last year.

Art. 8. To see what discount the town will vote to allow on all taxes paid on or before October 1, 1893; and what interest the town will vote to charge on taxes for the the current year, when the same shall be overdue.

No discount to be allowed, and six per cent. interest to be charged on taxes when overdue.

Art. 9. To see if the town will appropriate one hundred and fifty dollars to Post 121, Grand Army of the Republic, for the expense of decorating the graves of deceased soldiers.

$150.00 so appropriated.

Art. 10. To see if the town will appropriate the money now in the hands of the Treasurer, received by him as sidewalk, street or Board of Health assessments or betterments, and all money which shall be received by him the current year on account of such assessments or betterments, for the purpose of constructing or repairing sidewalks, streets or highways.

So appropriated.

Art. 11. To see if the town will appropriate the money to be received this year by the Town Treasurer, for or on account of Corporation and National Bank taxes, for the payment of the fire hydrant service of the town.

So appropriated.

Art. 12. To see what action the town will take with reference to lighting the whole or part of its streets with electricity all night.

Indefinitely postponed.

Art. 13. To see what amount the town will vote to raise by taxation, to meet the expenses of the town the current

year, the deficiencies of last year, and the notes and bonds of the town maturing the present year, and how the same shall be appropriated.

$110,139.33 to be raised and appropriated as follows :—

Support of Schools :—		
Teachers, Janitors and Fuel	$30,600	
Incidentals	3,200	
Text Books and Supplies	1,600	$36,150 00
Evening Schools	600	
Industrial School	150	
Debt and Interest		20,000 00
Public Library		1,850 00
Highways — Current Expenses		4,000 00
Highways — Permanent Improvements		10,000 00
Board of Health		2,000 00
Incidentals ($500 of which to be for assessors plans)		7,000 00
Police		3,500 00
Salaries		3,475 00
Support of Poor		2,500 00
Street Lights		7,570 00
Fire Department		4,700 00
Grand Army		150 00
Cemetery		4,500 00
Sums voted in 1892 as follows : —		
Fairview Avenue	$1,100 00	
High School Furniture	1,000 00	2,744 33
Board of Health	744 33	

Art. 14. To see if the town will authorize its Collector of Taxes to use all means of collecting the taxes which a Town Treasurer, when appointed a Collector may use.

So authorized.

Art. 15. To see what amount the Town will authorize its Treasurer to borrow, in anticipation of the tax to be levied the current year.

$60,000, authorized.

Art. 16. To see if the town will authorize its Treasurer,

with the approval of the Selectmen, to borrow money to renew or replace any existing loan or loans.

So authorized.

Art. 17. To see if the town will authorize its Selectmen to sell at private sale or public Auction, a lot of land situated on Southerly side of Thatcher street, in this town, being lot No. 63, in Div. 4, on the plan of the 4th and 5th Divisions of Section 6, of the Real Estate and Building Co's. land in Hyde Park, and authorize its Selectmen to sign, seal, acknowledge and deliver in its name and behalf, proper deed or deeds to convey the same to the purchaser of said land.

So authorized.

Art. 18. To see if the town will authorize its Selectmen to purchase a lot of land containing material for the stone crusher, and appropriate money therefor.

So authorized, and money received from sale of other lands appropriated therefor.

Art. 19. To see if the town will appropriate a sum not exceeding $2,000, for the use of the Park Commisioners.

$2,000 so appropriated, to be raised by taxation the current year.

Art. 20. To see if the town will authorize and instruct its Cemetery Commissioners to convey to Timothy Ingraham Post 121, G. A. R. for a nominal consideration a suitable lot in Fairview Cemetery for burial purposes.

So authorized and instructed.

Adjourned.

Dec. 19, 1893, a Town meeting was held in the Y. M. C. A. Hall, when the following articles were acted upon viz:

Article 1. To choose a Moderator to preside at said meeting.

Charles G. Chick, Esq., was chosen.

Art. 2. To see if the town will authorize the Selectmen to repair, strengthen or replace the Fairmount Avenue bridge, and appropriate money therefor.

Selectmen so authorized, at an expense not exceeding $1.100, and said amount to be taken from funds now in the treasury received as fines.

Art. 3. To see if the town will appropriate fifteen hundred dollars for the support of the schools, as follows; $500.00 for incidentals; $500,00 for text books and supplies, and $500.00 for evening schools.

So appropriated, to be raised by taxation next year.

Art. 4. To see what action the town will take with reference to the bridge on East River street, over the N. Y. & N. E. R. R.

Referred to the Selectmen with full powers.

Art. 5. "To see what action, if any, the town will take with a view to giving employment to a larger number of the townspeople than are now employed,"

Referred to a committee of five to be appointed by the Moderator, and selected from the persons who signed the petition to the Selectmen, requesting the insertion of this article in the warrant. The Moderator appointed Messrs. C. L. Farnsworth, Michael Mulcahey, Jeremiah Corbett, Frank B. Rich, and Thomas Murray as the committee.

Adjourned.

Feb. 6, 1894, a Town meeting was held in the Y. M. C. A. Hall, and the following articles acted upon: viz.

Article 1. To choose a Moderator to preside at said meeting.

Charles G. Chick, Esq., was chosen Moderator by ballot.

Art. 2. To hear the report of the committee appointed at the last town meeting in the matter of finding employment for our townspeople.

This report was presented in writing and was accepted and placed on file. The committee recommended the appropriation of $2.000, for highway purposes.

Art. 3. To see if the town will appropriate a sum not exceeding two thousand dollars for highways, and how the same shall be raised.

$2.000, appropriated for this purpose, to be raised by taxation the present year.

Adjourned.

TOWN CLERK'S REPORT.

BIRTHS.

Married in January, 9; February, 10; March, 6; April, 6; May, 6; June, 11; July, 7; August, 7; September, 8; October, 13; November, 3; December 6.

The following are the names and residences of the parties whose marriages were solemnized in 1893, certificates of which have been filed in this office : —

Jan.	9.	Frank L. Mercer and Annie Stanley, both of Hyde Park.
"	19.	John A. Rooney of Hyde Park, and Katharine H. Cusack of Boston.
"	21.	William J. Tracey of Hyde Park, and Etta J. Lord of Milton.
"	18.	William W. Scott and Minnie J. Monroe, both of Hyde Park.
"	31.	Herbert S. Pease of Hyde Park, and Blanche M. Chase of Peterborough, N. H.
"	2.	Thomas Pritchard and Catharine Martin, both of Hyde Park.
"	4.	Edward Deering and Honora J. Welch, both of Hyde Park.
"	16.	Jasport Cote and Celina Desjardun, both of Hyde Park.
"	23.	Fred E. Aylward and Nellie Feehan, both of Hyde Park.
Feb.	8.	Frank E. Thomas and Margaret R. Hickey, both of Hyde Park.
"	7.	John S. Shea of Dedham, and Johanna Lucy, of Hyde Park.
"	13.	Edmund Connell and Bridget Fennessey, both of Hyde Park.
"	21.	Charles Kerr of Cambridge, and Jane A. Taylor of Hyde Park.
"	23.	Robert Gray and Abbie A. McDonald, both of Hyde Park.
"	25.	Owen Ryan and Mary Melrose, both of Hyde Park.
"	2.	Charles G. Bonner of Fresno, Cal., and Louise L. Tripp of Hyde Park.
"	1.	Henry D. Griffin of Boston, and Bridget Sullivan of Hyde Park.
"	22.	Leopold R. Bewer of Hyde Park, and Maud H. Lord of Boston.
"	1.	Edward L. Jordon of Hyde Park, and Josephine H. Neale of Boston.
Mar.	29.	Leonard A. Wood and Hattie C. Hutchins, both of Hyde Park.

May 22. Thomas Evans and Nancy Stuart, both of Hyde Park.
" 27. Herbert E. Robinson and Cassie Scott, both of Milton.
" 20. Paul Tate and Elizabeth Ward, both of Hyde Park.
" 15. William F. Burbank of Winston, N. C., and Blanche M. Walkerley of Oakland, Cal.
" 11. Per A. Lunderwall and Josephine M. Anderson, both of Hyde Park.
April 29. Alexander McNeill and Mary C. Henderson, both of Hyde Park.
" 18. David S. Shaw and Annie M. Lawson, both of Hyde Park.
" 18. Walter E. Floyd and Mary M. Fuller, both of Chelsea.
" 19. Fred C. Noyes and Alice M. Pierce, both of Hyde Park.
" 27. Carter A. Grover of Albany, Me., and Amelia S. Matthewson of Hyde Park.
" 6. Thomas J. Ford of Beverly, and Ellen Delaney of Hyde Park.
May 4. Charles I. Wood of Lynn, and Mamie A. Brewer of Hyde Park,
" 24. William L. Durant and Mary J. Griffith, both of Hyde Park.
" 8. Arthur W. Woodworth and Jessie L. Biggs, both of Hyde Park.
" 25. Arthur C. Zimmerman and Margaret E. Desmond, both of Hyde Park.
" 28. Morris Gelewitz of Hyde Park, and Rebecca Cohen of Boston.
" 4. John Mitchell and Bridget McGinnis, both of Hyde Park.
June 15. Henry R. Stone and Alma H. Putnam, both of Hyde Park.
" 21. Charles C. Andrews of Hyde Park, and Mary E. Irving of Newton.
" 21. Robert J. Gerrish of Hyde Park, and Elizabeth Corbett of Dedham.
" 21. Arthur Langer and Margaretha J. Brostrom of Hyde Park.
" 30. Charles E. E. Blood of Groton, and Sarah A. E. Treferthen of Hyde Park.
" 7. Harry A. Norris and Nettie B. House, both of Hyde Park.
" 3. Morris H. Cutting and Alice W. Lawrence both of Hyde Park.
" 26. James E. Wilson and Jennie L. Winchenbaugh, both of Hyde Park.
" 7. Phillip Turner of West Peterboro, N. H., and Florence Bidwell of Hyde Park.

June 1. Frank H. Green of Boston, and Margaret A. Jeffers of Hyde Park.
" 5. John P. Lynch and Mary E. Carroll, both of Hyde Park.
July 20. Alfred H. Campbell of Johnson, Vt., and Marion E Blake of Hyde Park.
" 11. William H. Bowman and Jane Morrison, both of Hyde Park.
" 12. Walter G. Lugton and Eliza B. Woodman, both of Hyde Park.
" 22. Patrick McGrath and Jane Murray, both of Hyde Park.
" 25. Leon A. Pratt of Hyde Park, and Carrie M. Norwood of Gloucester.
" 27. Harry S. Durkee and Florence A. Rogers, both of Hyde Park.
" 26. George H. Barney of Hyde Park, and Maria J. Brown of Camden, Me.
Aug. 7. U. Scott Lawrence and Harriet M. Strachan, both of Hyde Park.
" 11. Patrick Welch of Hyde Park, and Nora Clancy of Boston.
" 10. Irad S. Burton and Maggie Burton, both of Hyde Park.
" 23. Newton B. Crummet and Marion Corbett, both of Hyde Park.
" 3. Robie D. Eaton of Lynn, and Lalia B. Blenkhorne of Hyde Park.
" 6. Walter F. Fairbanks of Hyde Park, and Lucy A. H. Pollard of Boston.
" 23. William C. Tingley and Annie E. Griggs, both of Hyde Park.
Sep. 20. Francis H. Bennet of Boston, and Maude E. Cutting of Hyde Park.
" 21. Arthur W. Cottle of Malden, and Grace G. Wood of Hyde Park.
" 20. Noble W. McBride and Ada Burbidge, both of Hyde Park.
" 19. James S. Quinn and Matilda Strachan, both of Hyde Park.
" 20. Elmer R. Fernald and Hattie I. Williams, both of Hyde Park.
" 14. Edwin A. Strickland of Canton, and Willietta Hamilton of Hyde Park.
" 13. Fred. A. Foster and Alice M. Letson, both of Hyde Park.
" 1. Ira J. Hunt and Gertrude Porter, both of Hyde Park.
Oct 11. Frank B. Hoffses and Ida B. Paine, both of Hyde Park.
" 7. John N. Bradley and Henrietta H. Wright, both of Hyde Park.

Oct.	25.	Guy Loomer of Chelsea, and Lottie E. Porter, of Hyde Park.
"	12.	John A. Paine of Hyde Park, and Martha W. Hunter, of Boston.
"	16.	Herbert L. Bailey of Amesbury, and Louise G. Burger, of Hyde Park.
"	25.	Henry E. Lindall of Boston, and Emma L. Tretethen, of Hyde Park.
"	24.	Charles P. Simmons of New York, N. Y. and Bessie E. Goodwin, of Hyde Park.
"	25.	Alfred E. Howes and Lucy W. Howard, both of Hyde Park.
"	4.	James McNaught and Elizabeth C. Reed, both of Hyde Park.
"	18.	Edward W. Millet of Quincy, and Elizabeth Ingles, of Hyde Park.
"	10.	Charles H. Barstow of Crow Agency, Montana, and Louise U. Whitcher, of Hyde Park.
"	4.	Boylston A. Beal of Nahant, and Elizabeth S. Grew, of Hyde Park.
"	25.	Lawrence S. O'Brien and Susan N. Dolan, both of Hyde Park.
Nov.	6.	Clifford R. Colby of Boston, and Mary A. Gray, of Wakefield.
"	7.	Martin T. Foley of Portland, Me., and Sarah V. McDonough, of Hyde Park.
"	29.	Lawrence M. Gould and Hattie H. Badger, both of Hyde Park.
Dec.	6.	Orrin W. Manuel and Clara M. Ryan, both of Hyde Park.
"	15.	Fred. Faulkner of Hyde Park, and Flora Beliveau, of Harrisville, N. H.
"	24.	William G. Bourne and Elizabeth T. Thompson, both of Hyde Park.
"	25.	Warren C. Morse of Sharon, and Harriet J. Tingley, of Hyde Park.
"	25.	Charles A. Day of Hyde Park, and Emilie F. Kreis, of Dedham.
"	19.	Magnus A. MacSwain of Hyde Park, and Annie Carlson, of Boston.

The Town Clerk requests information of any omission or error in the above tables, in order that the registration may be as complete as possible.

Respectfully submitted,

HENRY B. TERRY,

Town Clerk.

REPORT OF THE BOARD OF HEALTH.

To the Citizens of Hyde Park:

As required by the Statutes of the Commonwealth we submit the following report.

The Board organized at its first meeting by the election of A. D. Holmes, M. D. as Chairman, and E. C. Farwell, secretary.

The regular meetings of the Board are the first and third Tuesdays of each month, and meetings have been held at other times when necessary.

As the town increases in size the duties of the Board of Health increase and the necessity for such a Board is more and more apparent.

When the Board entered upon its duties at the beginning of the year, it was with the intention of doing all it could to make the town healthy, at as little expense as possible, and for the first time for several years we are able to report all bills paid and a small balance in the treasury. This was brought about, first by taking into the Board the posting of notices of contagious disease, and granting burial permits, which according to prices paid in former years (to persons outside of the Board) would have cost nearly one hundred dollars, and by the town being willing to place in the hands of the Board money enough to pay old accounts with that necessary for the year's work.

As it is impossible for any member of the Board to inspect all places in the town, to see that they are in proper condition, we must rely on citizens to notify us of places that need attention. When such notices have come in proper form, we have attended to them.

If it were possible for the town to arrange for a system of sewerage, much more could be done to abate nuisances which now exist.

COLLECTING OFFAL.

At the commencement of the year, notices were placed in each of the newspapers calling for bids for collecting of offal. The Board were of the opinion that some better method could be obtained than the one in use. As only two bids were put in, and those from the same parties that did the work the year before, the contracts remained the same. The Board still thinks that something should be done. Those living in the Readville district have been without this service on account of lack of funds to extend it to them. In our opinion this section should be included in next year's contract.

CONTAGIOUS DISEASE.

As will be seen by the report, there have been more cases of measles and diphtheria than last year, while in other cases of contagious disease there has been a falling off. There have been no cases of small pox and we earnestly hope the town will be saved the trouble and expense that would come from occurence of such disease, and to guard against it, free vaccination was given to all who wished to avail themselves of it. Over 600 were vaccinated. If a small building could be erected for use in such cases we think the town would be benefitted by it. The cases of contagious disease are as follows :

Diptheria,	30 cases	with	5 deaths.
Typhoid Fever,	7 "	"	4 "
Scarlet Fever,	13 "	"	0 "
Measles,	88 "	"	0 "
Membraneous Croup,	3 "	"	2 "

Making total of 141 cases and 11 deaths.

LOW WET LAND.

There are many places where the land is low and wet and

which seem to be inviting places for dumping all kinds of filth and rubbish, causing malaria and other diseases; if these places could be filled in a proper manner, the health of the town at large would be better, as well as making the land more valuable. Many of these places have been attended to and others will be as soon as the weather will permit.

REGULATIONS OF THE BOARD OF HEALTH

[SEAL.]

OF THE TOWN OF HYDE PARK.

PUBLIC STATUTES, CHAPTER 80, SECTION 18. — The Board of Health of a town shall make such regulations as it judges necessary for the public health and safety, respecting nuisances, sources of filth, and causes of sickness within its town. Whoever violates any such regulations shall forfeit a sum not exceeding one hundred dollars.

In accordance with the foregoing provisions of law, this Board makes the following regulations, which will be strictly enforced.

REGULATION 1. — The owner, agent, or occupant having the care of any tenement used as a dwelling house, shall furnish the same with sufficient drain, under ground, to carry off the waste waters; also with a suitable privy or water closet sufficient for the accommodation of all those inhabiting the premises. All waste pipes from water closets, sink bowls, bath and other set tubs, shall be suitably trapped, and all drains entering cesspools must be made water tight. There should also be a trap in the soil pipe between the house and cesspool, and provision made to admit air into said pipe between the house and trap.

REGULATION 2. — All privy vaults, unless water tight, shall be so constructed that the inside of the same shall be at least five feet distant from the line of every adjoining lot or street, and from any dwelling house and shall be provided with a ventilation through the roof; the same shall not be used as cesspools nor receive drainage from the premises; their contents shall not be allowed to leak out or otherwise become offensive.

REGULATION 3. — All waste water will be so conveyed through sufficient drains, under ground, to a reservoir sunk under ground as shall be approved by the Board of Health. No person shall allow any drain or the overflow of any cesspool to enter any running

stream, or any drain constructed for surface water, and no person shall suffer any house drainage or other offensive water to remain in any cellar, or upon any lot or vacant ground by such person owned or occupied. All privy vaults and cesspools within thirty feet of any well or spring, the water of which is used for domestic pupposes, must be water tight.

Regulation 4.— The Board, when satisfied upon due examination that a cellar, room, tenement or building in the town occupied as a dwelling place, has become by reason of the number of occupants, want of cleanliness or other cause, unfit for such purpose, and a cause of nuisance or sickness to the occupants or to the public, may issue a notice in writing to such occupants, requiring the premises to be put in proper condition; or if the Board see fit they may require the premises to be vacated, and the same shall not be again occupied without the written permission of the Board.

Regulation 5.—No person shall throw or put into any public place or pond, or running stream or body of water, or in any other place where the Board of Health may deem it a nuisance, any dead animal, animal matter, decayed fruit or vegetables, dirt or rubbish whatever; nor shall any person throw into or upon any flats within the jurisdiction of the town, any dead animals, filth or offensive matter.

Regulation 6.— No person shall remove or carry in or through any of the streets, lanes or avenues, places or alleys within the town of Hyde Park, the contents of any cesspool, vault or privy well, swill or house offal, (either animal or vegetable,) or grease or bones, unless a permit be granted by the Board of Health upon such terms and conditions as said Board may deem necessary.

Regulation 7.— No person shall bury swill or house offal, or the contents of any cesspool, vaults, privy, or privy well within the limits of the town of Hyde Park unless a permit be granted by the Board of Health.

Regulation 8.— Parties will be licensed by the Board of Health to collect swill and refuse matter from houses in Hyde Park twice a week or oftener, and all housekeepers and others are directed to deliver the same to those duly authorized to make such collections.

Regulation 9.— No person shall bring into the town, keep or offer for sale any diseased, putrid, stale or unwholesome meat, vegetables or provisions.

Regulation 10.— No person will be permitted to keep any swine within the limits of the town of Hyde Park without a written permit from the Baord of Health.

Regulation 11.— Any person sick with the small pox or other

contagious disease, together with all persons in attendance upon them, and the premises where such sick person is, will be subject to the control of the Board, and no person shall enter or leave a house wherein a person is or has been sick with the disease, or in any way come in contact with the inmates of such house, except by permission of the Board.

Regulation 12.— Whenever the Board of Health shall ascertain that any person is sick with small pox, scarlet fever, diphtheria, or any other disease dangerous to the public health, the Board shall at their discretion, have full control of said person or premises, and shall, if they deem proper, order the premises vacated.

Regulation 13.— All persons are warned not to approach a house of the surrounding premises whereupon is displayed a disease flag by day, or a red light at night.

Regulation 14.— The bodies of all persons dying of small pox, scarlet fever, typhus fever or diphtheria must be immediately disinfected and placed in a tight coffin, which shall not be reopened, and the bed, bed clothing, and other clothing used by any such person, and by those in attendance on him, and all the furnishings of the sick room, thoroughly disinfected before being taken from said room. In the above case no public funeral will be allowed without permission from the Board of Health.

Regulation 15.— The owner, or persons having charge of any vehicle, public or private, used at a funeral in the foregoing cases, to carry the deceased, or any of the family or attendants of the deceased, shall forthwith report the fact to the Board of Health, and shall thoroughly disinfect such vehicle before the same is again used, and take such other precaution as the Board of Health shall direct.

Regulation 16.— Any person in the town of Hyde Park, who knows or suspects any domestic animal has contagious disease (such as glanders in horses or cholera in swine) must immediately report the same to the Board of Health. The penalty for neglect to do so is fine or imprisonment. The above is in accordance with the provisions of Chapter 252 of the Acts of 1887.

Regulation 17.— All complaints in relation to nuisances and sources of filth injurious to the public health and safety, must be made in writing to the Board of Health, with a description of said nuisance and of the premises on which it exists, with the owner's name, if known to the complainant. Such complaints must bear the signature of the complainant. Whenever such complaint shall be made as aforesaid, the Board of Health will proceed to examine the

premises complained of, and will take measures to abate the nuisance, if such is found to exist.

Fully believing that a large proportion of contagious diseases originate from unsanitary conditions, we trust we shall have the aid of all citizens and property owners in carrying out the above regulations, which are based on statute laws, and the sanitary rules of our large towns.

For burial permits, apply to F. C. Graham, 10 Hyde Park avenue.

FINANCIAL,

The amount appropriated and expended is as follows:

Appropriation,		$2,000
Bills paid on account of 1892		
Paid Mrs. F. Hukin,	$ 108 00	
C. H. Crumett,	122 50	
A. G. Childs,	16 57	
C. H. Lord,	3 50	
T. M. Minnis,	1 00	
E. Davis,	30 00	
S. P. Sharples,	20 00	
		$301 57
Bills paid on account of 1893		
Paid Mrs. F. Hukin,	$702 00	
C. H. Crumett,	651 00	
A. G. Childs,	8 50	
J. Snellgrove,	2 25	
W. D. Ward,	75	
S. R. Moseley,	14 00	
F. E. Langley,	2 00	
J. Crowley,	2 25	
B. B. Kivlin,	7 00	
J. Reagan,	1 00	
Little, Brown & Co.	5 25	
J. C. Tingley,	5 00	
E. C. Farwell,	50 00	
F. W. Gleason,	1 04	
A. Raymond,	2 50	
H. A. Stahl,	4 75	
Doctor's Free Vaccination,	43 00	
Otis Clapp & Son.	45 80	
T. M. Minnis,	1 50	
S. B. Balkam,	3 38	

Paid E. Davis,	25 00	
		$1,577 97
		$1,879 54
Total appropriation,	$2,000 00	
Total expended,	$1,879 54	
Balance on hand,		$120 46

In closing this report we wish to call attention to the law, which was passed in relation to the appointment of Inspector of Plumbing. This appointment must be made. We have been unable to make it for lack of funds, and the matter will have to come into the appropriations for another year.

Respectfully submitted,

A. D. HOLMES, M. D.,
J. C. LINCOLN, M. D.,
E. C. FARWELL,
Board of Health of the Town of Hyde Park, Mass.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

The past year has witnessed the constantly increasing poularity of this department of Hyde Park's many privileges, and your trustees would be lax in duty should they fail to again call attention to the necessity in the near future of better accommodations, than the present cramped and steadily contracting quarters afford. You have a library as regards size and quality of which you may well be proud. It is doing most excellent work in this community, and when installed in a suitable permanent home, will be a joy, as well as pride of all our citizens. There are a large number of our residents who are not attracted to the present location of the library, who have little conception of its value ; to such we desire to extend a cordial invitation to avail themselves of its benefits, and assist in awakening a public sentiment in favor of such accommodations as its importance requires.— In this connection we desire to call attention to the Treasurer's report, showing a fund now available of $6,630.21 for this purpose.

The branch delivery station at Readville mentioned in our last report is still continued with excellent results, and under similar conditions, might be profitably adopted in one or two other sections of the town.

The increasing demand for periodical literature has been met as well as the limited amount at our disposal would allow. The leading magazines are among the volumes most desired both for home and in the reading room, and the character and quality of the work they represent appears to justify us in providing as liberally as possible for this de-

mand, without detracting from the standard and general character of our library established by our predecessors.

The total home circulation for the year ending Jan. 1st 1894, has been 33,429. Number of magazines issued for use in the reading room 1,681. Number of volumes issued for use in the reading room 1,883. Additions have been made to reference books which are in constant use in the reading room, they can be obtained at any time without application to the librarian.

The number of volumes added to the library the past year by purchase is 675.

The following is a list of donations received.

B. F. Radford	1	Volume.
F. W. Darling,	2	"
W. G. Colesworthy,	2	"
Ella W. Cobb,	1	"
Mass. Charitable Mechanics Association,	1	"

Commonwealth of Mass., 16 volumes and 2 pamphlets.
U. S. Government, 14 volumes and 22 pamphlets.

FREDERICK N. TIRRELL, for the Trustees.

TREASURER'S STATEMENT.

G. FRED. GRIDLEY, *Secretary.*

REPORT OF THE OVERSEERS OF THE POOR.

To the Citizens of Hyde Park :

The Overseers of the Poor in presenting their annual report take pleasure in calling attention to the fact, that the prediction generally made early in the winter, that owing to the large number out of employment the poor fund would not be sufficient to meet the calls for aid, has not been fulfilled.

There has been an increase in expenditures amounting to 20 per cent. more than last year, and a corresponding increase in the number of persons partially supported. The increase in the number of tramps has been very marked. Compared with the report of last year will show that 90 per cent. more were provided with lodgings during the year past.

Number of persons aided,	4843
" " " fully supported,	7
" " " partially, "	1 08
" " " tramps lodged,	4,731

Overseers of the Poor.

POLICE REPORT.

To the Board of Selectmen:

Gentlemen: I herewith submit my annual report of this Department for the year ending January 31st 1894.

Number of persons arrested,	157

CAUSES FOR ARREST.

Disturbance of the peace,	64
Drunkenness (simple),	28
Drunkenness (common),	2
Assaalt,	19
Vagrants,	13
Larceny,	5
Breaking, entering and larceny,	4
Violation of liquor law	11
Larceny from person,	1
Attempt to rescue prisoner,	1
Assault with dangerous weapon,	1
Violation of Milk law,	2
Obtaining money by false pretense,	2
Insane,	4

MISCELLANEOUS WORK.

Stolen property recovered,	$681.00	
Stores found open at night,		20
Cases investigated without arrest,		119
Search warrants for intoxicating liquor,		9
Travellers lodged in station house over night,		4,731
The amount of fines imposed by court,	$1,537.00	
The amount of imprisonment imposed by court, 12 years and 10 days.		
Number committed to the House of Correction,		55
Number let off on probation		20

There has been no material change in the working force of this department, except the resignation of George W. Lombard as night watchman. I think we have had a very

successful year as far as detection of crime is concerned, while the number of arrests has been larger in some years, yet the importance of those arrested can be inferred from fact that $837.76 has been paid into the town treasury from fines collected from parties arrested. I renew with my former recommendations of past years in calling for a larger appropriation for this department, so that districts other than the centre may be covered by officers during a part of the night at least, and also that we have delegated for regular duty two men during all the night; at least two men are essential in my opinion to give satisfaction to our business men for protection.

CHARLES E. JENNEY,
Chief of Police and Keeper of Lockup.

ENGINEER'S REPORT.

To the Honorable Board of Selectmen,

Gentlemen: We present herewith our report of this department for the year ending January 31, 1894.

During the year the department have responded to seventeen alarms. The losses by which were $38,689,77. Insurance $53,150,00.

The apparatus is all in the best condition. The fire alarm system has worked in a satisfactory manner during the entire year. The following additions have been made. A striker for the Bell on the engine house which for many years has been silent. An 18 inch gong on the Readville Hose house, in place of a small bell, which is now located with a striker on the Church on Arlington street, which gives the alarm in a section of the town heretofore without it. To facilitate our alarm system we need more fire alarm boxes in districts viz: Readville, Fairmount, Clarendon Hills and East River street.

There is also need of more hydrants in all sections of the town, a partial list of the locations of which we have presented to your honorable board.

There is for the use of the department 3,500 feet of good hose, 1,000 feet of fair hose and 500 feet that has been in use many years. The buildings are in fair condition. The furnace in the engine house will have to be replaced before another winter.

FRED A. SWEET,
REUBEN CORSON,
WILLIAM HOLTHAM,
Engineers.

OFFICERS AND NUMBER OF MEN.

The following is a list of the officers and members of the department;

F. A. SWEET, Chief Engineer.
R. CORSON, Assistant Engineer.
WM. HOLTHAM, Assistant Engineer and Clerk.

Hose Co. No. 1.

E. W. BULLARD, Foreman.
C. M. WANDLASS, Assistant Foreman.
A. J. BOSWELL, Clerk, and six men.

Hose Co. No. 2.

S. McKENZIE, Foreman.
A. E. MARSTERS, Assistant Foreman.
W. G. ROBINSON, Clerk, and six men.

Hose Co. No. 3.

J. H. O'BRIEN, Foreman.
D. W. MAHONEY, Assistant Foreman.
FRANK KUNKEL, Clerk, and two men.

Hook and Ladder Co. No. 1.

B. RAFTER, Foreman.
W. R. McDOUGALD, Assistant Foreman.
J. H. TUCKERMAN, Clerk, and seven men.

Chemical Engine Co. No. 1.

MALCOLM ROGERS, Foreman.
R. WARD, Clerk.
J. C. McDOUGALD, Engineman, and two men.

Steward and Superintendent of Fire Alarm,

E. A. HAWLEY.

FRED A. SWEET.
REUBEN CORSON.
WILLIAM HOLTHAM.

FIRST ANNUAL REPORT OF PARK COMMISSIONERS.

To the Citizens of Hyde Park :

The first important act of your Commissioners was to ask for an appropriation of $2,000 for Park purposes, not because that would purchase any lot of land suitable for a Park but to test the present interest of the citizens in this permanent improvement. The voters by an overwhelming majority indorsed this recommendation and put themselves on record as in favor of public parks.

The Board decided that for the present it was unwise to expend anything for the improvement of Camp Meigs Park at Readville, thinking it better to keep the money so far as possible until a sufficient sum had been appropriated to purchase some one of the many desirable park locations in which our town abounds. But, as any local park will cost more than $2,000, and as your Commissioners have no right to purchase any land until the full purchase price has been appropriated, the Board recommend that the town in 1894 appropriate $2000 for park purposes. By making small appropriations from year to year but little will be added to the tax rate, and an emergency may arise when a small sum might be of great use.

Your commissioners examined with care many desirable locations, and ascertained in some instances the price at which land was held ; but on mature reflection it was unanimously decided to devote their attention this year to securing the aid of the Metropolitan Park Commissioners.

The town has several park sites of a Metropolitan charac-

ter which will receive due attention in time, but two are so marked that the suggestion is sufficient to convince a non-resident even, of their great importance. A park-way along the banks of the Neponset, connecting the Blue Hill and Stony Brook reservations with the sea, from the artistic standpoint, almost appears to be a necessity; and Muddy Pond Woods (recently named Stony Brook Reservation) presents a wealth and variety of attractions, unequalled elsewhere in the vicinity of Boston. Your Commissioners decided that in order to accomplish anything definite they must concentrate their efforts, and they were soon convinced that it would be a waste of energy to attempt to persuade the Metropolitan Park Commissioners to take any portion of the River banks this year. From its mouth to Paul's bridge, the Neponset will be dealt with, from a Metropolitan standpoint, at some time not very far distant; but not until the State grants a further appropriation, and doubtless not until the Charles River problem has been solved. Your Commissioners therefore decided to use their best efforts to secure the taking of Stony Brook Reservation.

The State having appropriated one million dollars ($1,000,000) for the use of the Metropolitan Park Commissioners, our town avoids the necessity of raising any money to pay for the Park taken by them, and yet it has the same priveliges as it would if it were purchased by the town; and as Boston has to pay fifty per cent. of the entire amount, and other towns benefitted have to pay their share, the sum which Hyde Park will be called upon to pay is greatly lessened; and the payments are made in small instalments to the State, covering a period of forty years, and collected in the same manner as the State tax. The entire expenses of our Board, amounting to less than $50, have been incurred in our efforts to promote the taking of this interesting locality—a wilderness preserved in the midst of cities and populous towns, with grand rocks and ledges, ponds and

streams, boating and skating, charming scenery and views, and a profusion of wild-flowers and shrubs. It gives us great pleasure to state that the Metropolitan Park Commissioners have voted to take this location for park purposes, and it is altogether probable that before this report is in print the exact lines will be defined and the land actually condemned and taken.

While it would be simply impracticable to locate a park equally distant from each dwelling, Stony Brook Reservation is remarkably accessible. Should the boundary now being discussed be adopted, residents of Clarendon Hills, Hazlewood, East River Street, Fairmount, the centre of the town and Mount Neponset would enter from West street, at the terminus of Gordon avenue, or at Cleveland street. Those from Readville and Sunnyside would reach it by Happy Valley, Glenwood avenue and Cleveland street. The advantage of situation to Sunnyside residents will be largely made up to the citizens of Fairmount by the proximity of the Blue Hill Reservation, or nearly 4,000 acres, already secured, and now being put in order.

JOHN B. BACHELDER, Chairman.
JOHN J. ENNEKING.
WILBUR H. POWERS,
Secretary and Treasurer.

REPORT OF THE CEMETERY COMMISSIONERS.

The Cemetery Commissioners submit their second annual report for the financial year, ending January 31st, 1894. They have received $2,086.19 as follows :—

Sale of lots,	$1,605 00
Single graves,	70 00
Interments,	166 00
Grading Grand Army lot,	32 00
Foundations for Monuments,	89 59
Balance from last year,	125 60
Total,	$2,086 19

They have expended $4,164.21. (For detailed statement of receipts and expeditures, see financial statement, accompanying this report.)

During the past year, the Commissioners have built parts of Fairview, Aspen and Linden Avenues and Violet, Thistle and Weigela Paths. They have also graded in a most thorough manner, fifty-one lots, bounded with stone posts. There are now seventy-one lots ready for use and unsold.

The Commisioners have laid out a large plot of ground for single graves, thoroughly grubbing and grading the same, and have now one hundred single graves ready for use.

They have purchased and set this year three hundred stone corner posts, at a cost of $240.00. This amount does not include the labor of setting the posts.

Pursuant to the vote of the Town, we have conveyed to the Trustees of Timothy Ingraham Post No. 121, G. A. R., a large lot at the corner of Linden and Magnolia Avenues.

We have just received a petition signed by leading citizens of the Catholic faith, requesting that immediate steps be taken to set apart a portion of the Cemetery for the burial of those of that religion, as has been done in Dedham and other towns. As this is amatter for the Town to act upon,

and not under our control, we recommend that a suitable article be inserted in the warrant for the annual appropriation meeting to put this request in proper shape for action. The granting of this petition will necessitate a larger appropriation than that hereinafter recommended, but how much larger we cannot at present state. We shall endeavor to present an estimate of the additional cost at the proper time.

By a vote of the Town, the Commissioners were instructed to build a receiving tomb. After some delay in getting satisfactory plans, a contract was finally made and the tomb is now nearly completed, it being the intention of the Commissioners to have it ready for use by the time this report is in the hands of the voters. They have been particular to have the latest ideas incorporated in the plans for this tomb, and to build one which would be large enough for all future needs of the Town.

The report shows an unexpended balance of $902.98, but it will be necessary to use the above amount to complete the tomb.

The Commissioners think it for the interest of the Town that a section of Fairview drive should be built, also parts of avenues and paths which are not now completed. For this purpose, they recommend an appropriation by the Town of $2,000.00 for the ensuing year. Unless the town should direct some special work to be done, after this coming year, a smaller appropriaton will probably be sufficient for the needs of the cemetery.

AUDITORS' REPORT.

In compliance with the By-laws of the Town the undersigned have examined the accounts of the Selectmen, School Committee, Collector of Taxes, Town Treasurer, Commissioners of Sinking Fund, Trustees of the Public Library, Overseers of the Poor, and Board of Health, and hereby certify that the same are correct, and all paymenss accompanied by proper vouchers.

WALLACE D. LOVELL,
CHARLES F. MORRISON,
ASA J. ADAMS,
Auditors.

BY-LAWS.

NOTIFICATION OF TOWN MEETING.

Every town meeting shall be notified by posting copies of the warrant calling the same, in ten public places in the town, seven days, at least, before the day appointed for said meeting.

ANNUAL TOWN MEETINGS.

The annual town meeting for the election of town officers shall be held on the first Monday of March of each year. The meeting shall be opened at seven o'clock A. M., and the polls shall be kept open until sunset.

A town meeting shall also be held annually between the first Monday of March and the first Monday of April, for appropriating such sums of money as may be necessary for town purposes, and for transacting such other business as may legally be brought before said meeting.

RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

1.—All questions submitted for the consideration of the town, involving the expenditure of money, shall be in writing, when so required by any legal voter.

2.—No vote fixing the period for closing a ballot shall be reconsidered after such ballot shall have commenced; but it may be in order to extend the period without such reconsideration.

3.—When a question is under debate, motions shall be received to adjourn, to lay on the table, the previous question, to postpone to a certain time, to postpone indefinitely, to commit, or to amend; which several motions shall have precedence in the order in which they are herein arranged.

4.—The powers and duties of the presiding officer, not especially provided for by law, or by the foregoing rules, shall be determined by the rules of practice contained in "Cushing's Manual," so far as they are adapted to the condition and powers of the town.

5.—No vote shall be reconsidered except upon a motion made within one hour after such vote has passed, unless such reconsideration is ordered by a vote of two-thirds of the voters present and voting

FINANCIAL YEAR.

The financial year of the town shall begin with the first day of February in each year, and end on the thirty-first day of the following January.

The selectmen, overseers of the poor, board of health, surveyors of highways, and school committee shall post in some conspicuous place at their official rooms, a notice of the times of their respective meetings.

COLLECTION OF TAXES.

1.—The assessment of taxes shall be completed, and a list of the same delivered to the collector, on or before the first day of August of each year.

2.—All taxes which may be assessed, if paid on or before the first day of October next after the assessment, shall be entitled to such discount as the town shall vote at its annual meeting. All taxes shall be due and payable on or before the first day of November next following the assessment of said taxes.

3.—On the first secular day of each month, the collector shall pay over to the town treasurer all the taxes collected by him, and he shall, on or before the first day of February in each year, make up his account and render the same to the auditors.

DUTIES OF THE AUDITORS.

1.—The auditors shall examine the accounts of the selectmen, school committee, treasurer, collector, trustees of the public library, and all other officers or committees entrusted with the expenditure of money, quarterly, and shall certify as to the correctness of the same in the printed annual report.

2.—Before certifying to the accounts of the treasurer, they shall examine his cash-book, wherein shall be entered his receipts and payments, as they occur from day to day, shall see that he has paid out no moneys except on proper vouchers, carefully examine all payments for interest, and see that the funds on hand are intact.

3.—Before certifying to the collector's accounts, they shall examine his cash-book, showing the amounts collected from day to day, and showing when the same were paid over to the treasurer; shall see that he has collected interest on all taxes overdue, and shall see a complete list of abatements, and also a list of unpaid taxes.

4.—They shall see that the accounts of the trustees of the public library are kept in a correct manner, and that all payments are accompanied with proper vouchers.

COASTING.

Coasting on any of the public streets of the town is prohibited, except upon such streets as the selectmen may designate each year by public notice.

HIGHWAY AND POLICE REGULATIONS.

1.—No building shall be removed over a public street without the written permission of the selectmen.

2.—The owner of such building, or the person or persons removing the same, shall give a bond in such penal sum, and with such sureties as the selectmen shall determine, with condition to reimburse the town for all sums of money which it may be liable or compelled to pay in consequence of such use of the highways.

3.—No person except the selectmen or the surveyors of highways, in the lawful performance of their duties, or those acting under their orders, shall break or dig up the ground in any street or public way in the town, without first obtaining a written permit from the selectmen; and all persons acting under such permit shall put up and maintain a suitable railing or fence around the part of the street so broken up, so long as the same shall remain unsafe or inconvenient for travellers, and he or they shall keep one or more lighted lanterns fixed to such railing or fence, or in some other way exposed every night from twilight in the evening through the whole night, so long as such street or way shall be or remain unsafe or inconvenient for travellers.

4.—No person shall ride or drive a horse in any street in the town at a rate faster than eight miles an hour.

5.—No person shall, without the written consent of the selectmen, play at any game in which a ball of any kind is used, or fly a kite, or throw or shoot stones, arrows, balls, snow-balls, or other missiles, or discharge any gun, cannon, or firearm, or make any bonfire or other fires in any street or way where the public have a right to pass.

6.—No person shall propel, drive, wheel or draw any bicycle, tricycle, cart or vehicle of any kind whatsoever except a child's carriage drawn by hand, nor use roller skates upon or over any sidewalk in this town, nor permit nor suffer any horse, cattle, swine or sheep, belonging to him or under his care or keeping, to go upon or over the same, nor suffer any horse to remain hitched across, or upon, or otherwise obstruct or injure, any such sidewalk.

7.—No person shall hitch or fasten any horse to any ornamental tree standing or growing on or near any sidewalk, or to the boxing or guard about said tree, without the consent of the owner thereof.

8.—No person shall without a written license from the selectmen place or cause to be placed, or suffer to remain within the limits of a street or upon any sidewalk, so as in any manner to obstruct the travel thereon, any vehicle, wood, coal, manure, dirt, gravel, stones, building material, barrels, boxes, merchandise, or any rubbish or obstruction whatever.

9.—No person shall carry in a public street, house-offal, either animal or vegetable, or grease, or bones, or the contents of cesspools or vaults, unless he has been expressly licensed therefor by the Board of Health, upon such terms and conditions as said board may deem that the health and interests of the town require.

10.—Loud crying of wares or merchandise, or hallooing, hooting or making loud and unseemly noises on the public streets or squares of the town, to the annoyance of the citizens, is prohibited.

11.—No person shall behave in a rude, indecent or disorderly manner, or use profane, indecent, or insulting language, in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, or be or remain upon any sidewalk, street, or crossing, or about doorways or places of business, to the annoyance or disturbance of any person.

12.—Three or more persons shall not continue to stand or remain in a group or near to each other, on any sidewalk or street or crossing, or in any public place, in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on.

13.—No person shall be or remain in any doorway, or upon any stairs, doorstep, portico or other projection from any house or building, or upon any wall or fence on or near any street or public place, after having been requested by the owner or any occupant of the premises or by any constable or police officer to remove therefrom.

14.—No person shall make any indecent figures, or write, print, paint, or cut any obscene word or words upon, or deface, break or injure in any manner, any fence, post, sign, street lantern, building or structure; or commit a nuisance upon any sidewalk or other place resorted to by the public, or against any tree, building or structure adjoining a sidewalk.

15.—No person shall extinguish any street light, or extinguish or remove any light placed to denote an obstruction or a defect in any street or way, without proper authority.

16.—No person shall swim or bathe in any of the waters within the limits of this town, so as to be exposed in a nude state, to the view of any person passing or being upon any railroad or street or in any dwelling-house in this town.

17.—No person shall intermeddle with any hydrant, gate, gate-box or water pipe placed or located within the limits of any public way in this town, without permission from the selectmen or the Hyde Park Water Company.

PASTURING OF CATTLE OR OTHER ANIMALS ON STREETS OR WAYS.

No person shall pasture any cattle, goat or other animal upon any street or public way in said town, either with or without a keeper, except within the limits of such way adjoining his own premises, and field drivers are instructed to enforce this by-law.

TRUANTS.

1.—This town hereby avails itself of the several provisions of the statutes of this commonwealth, now in force, relating to habitual truants and absentees from school.

2.—All children convicted of habitual truancy hereunder, and children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, may be committed to the Lawrence Industrial School, at Lawrence, Mass., or to any house of reformation which has been or may hereafter be established by the County Commissioners of the County of Norfolk, or to any place provided by this town within its limits, for confinement, instruction and discipline.

3.—Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws, and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

4.—It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant, or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satis-

factory pledges for the restraint and reformation of the child, he may, at his discretion, forbear to prosecute so long as such pledges are faithfully kept.

5.—It shall be the duty of the School Committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

6.—It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the School Committee, who shall publish the same with their own report.

7.—Nothing in these by-laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

LIST OF TAX-PAYERS.

The names of all persons paying a tax on real or personal property shall be published annually in the town reports, together with the amount of tax assessed upon each, and whether the same is paid or unpaid.

DUTIES OF TOWN CLERK.

The Town Clerk shall keep a file of all town reports, reports of all committees chosen by the town, and all original documents relating to the affairs of the town which may come into his possession; he shall, as soon as practicable after any election has been held by the town, in addition to the notices he is now directed to give to officers who are required to take an oath of office, also issue a written or printed notice to all persons who have been elected to any other office, or chosen to serve on any other committee, stating the office to which such person has been elected, or the duties which such committee was chosen to perform.

CONTRACTS MADE IN BEHALF OF THE TOWN.

Every contract exceeding one thousand dollars shall be accompanied by a suitable bond for the performance of the same, or by the deposit of money or security to the amount of such bond.

ACTIONS AT LAW.

The selectmen shall have full authority, as agents of the town, to employ counsel to institute and prosecute suits in the name of the town, and appear for and defend suits brought against it, unless otherwise specially ordered by a vote of the town.

CONVEYANCING.

Whenever it shall be necessary to execute any deed conveying land, or any other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority of them, in behalf of the town, unless the town shall otherwise vote in any special case.

BY-LAWS IN RELATION TO THE PREVENTION OF FIRES.

1.—It shall be the duty of every person who shall commence the erection of any building within the town of Hyde Park to notify the Board of Engineers thereof before he shall commence building the chimneys therein.

2.—All chimneys in wooden buildings shall be built of brick, stone, or other fire-proof non-conducting material. All brick flues shall be smoothly plastered *inside* with mortar from top to bottom or lined with earthen pipe, and shall be plastered *outside below the roofing*.

3.—In no case shall chimneys rest upon any flooring without a footing of masonry or iron supported by iron beams, having a secure bearing of masonry or iron at either end.

4.—All flues shall be topped out at least four feet above the roof of the building to which they belong. The brick topping out of chimneys shall not have more than two inches projection unless covered by a cap of metal or stone properly secured.

5.—Hearths of fireplaces or grates shall be laid upon brick or other trimmer arches, or upon bars of iron supporting a bed of brick-work.

6.—No wood-work of any kind shall be placed at a less distance than one inch from the outside brick-work of any flue. In no case shall a nail be driven into the masonry of any flue.

7.—No wood-work shall be placed at a less distance than one inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes shall be cased with metal, leaving a free circulation of air all around the same.

8.—No smoke pipe in any such wooden or frame building shall hereafter enter any flue unless the said pipe shall be at least twelve inches from either the floors or ceiling; and in all cases where smoke pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by either a

double collar of metal, with at least four inches of air space and holes for ventilation or by a soap-stone ring, not less than three inches in thickness and extending through the partition.

9.—The Board of Engineers shall examine into all shops and other places where shavings or other combustible material may be deposited or collected, and at all times be vigilant in the removal of the same, whenever, in the opinion of a majority of them, the same may be dangerous to the security of the town from fires; and direct the owner, tenant, or occupant of said shops, or other places, to remove the same; and in case such owner, tenant or occupant, refuses or neglects so to do, shall cause the same to be removed at the expense of such owner, tenant or occupant.

10.—It shall also be the duty of said engineers to take cognizance of all buildings in the town in which any steam engine shall be used, and of all buildings in town in process of erection or alteration, and to make a record of such buildings as in their judgment may from any cause be dangerous, and report the same to the selectmen forthwith. And whenever in the opinion of the majority of the Board of Engineers, any chimney, hearth, oven, stove, stovepipe, fire frame or other fixtures, or any camphene or other explosive or inflammable fluid or material, or whatever else may give just cause for alarm, should be altered, repaired or removed, they, the said engineers, shall forthwith notify and direct the owner, tenant, or occupant of the premises upon which the same are situated, to alter, repair or remove the same, as the said engineers shall direct. And in case such tenant, owner or occupant shall refuse or neglect so to do, the said engineers shall cause the same to be removed, altered or repaired at the expense of such owner, tenant or occupant. And any person who shall obstruct the engineers, or any of them, in carrying out the provisions of this section, shall be liable to the penalty hereinafter stated.

11.—The removal, extension or essential alteration of any building; also the rebuilding or repairing of any building which has been partially destroyed by fire, shall be subject to the same restrictions as are imposed by the foregoing By-laws on the erection of buildings.

PUBLICATION OF BY-LAWS.

The Selectmen shall publish these By-laws annually in connection with the town report.

PENALTIES UNDER THE BY-LAWS.

Every violation of any of the foregoing By-laws shall be punished by a fine of not less than one dollar nor more than twenty dollars, to be recovered by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

PROSECUTION UNDER THE BY-LAWS.

Any citizen may, and the selectmen, constables, and police officers shall, prosecute every violation of the foregoing By-laws, by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

LIMITATION OF ACTIONS.

No person shall be prosecuted or tried for any breach of the provisions of any By-laws of this town, unless the complaint for the same shall be instituted and commenced within six months from the time of committing such breach.

All By-laws or parts of By-laws of this town heretofore existing are hereby repealed, and these By-laws of the town of Hyde Park shall go into effect from and after their adoption by the town and their approval by the Superior Court or any Justice thereof.

Commonwealth of Massachusetts. *Norfolk, SS.*

HYDE PARK, November 17, 1886.

At a meeting of the legal voters of said town of Hyde Park, held in Everett Hall, on Wednesday, the seventeenth day of November, in the year of our Lord eighteen hundred and eighty-six, the foregoing By-laws were adopted by said town.

Attest:

HENRY B. TERRY, *Town Clerk.*

Commonwealth of Massachusetts. *Norfolk, SS.*

SUPERIOR COURT, December Sitting, 1886, to wit: January 26, 1887.

The foregoing By-laws are hereby approved.

By the Court.

ERASTUS WORTHINGTON, *Clerk.*

True copies Attest:

REPORT OF THE SCHOOL COMMITTEE.

To the Citizens of Hyde Park:

It is a custom sanctioned by long usage for the Committee in charge of your Public Schools to submit to you a report at the close of each official year. In compliance with this duty we take pleasure in submitting for your consideration such matters pertaining to the discharge of our duty, with such suggestions upon the results obtained as may appear to be of public concern.

ORGANIZATION OF THE COMMITTEE.

The Committee organized at the meeting called for that purpose, as follows;

CHARLES G. CHICK, Chairman,
RICHARD M. JOHNSON, Secretary.

Sub-committees were appointed by the Chairman and approved by the Committee.

High School, Richard M. Johnson, Louise M. Wood, Joshua F. Lewis.
Damon School, Helen M. Dean, Augusta L. Hanchett.
Fairmount School, Joshua F. Lewis, Helen M. Dean.
Greenwood School, Augusta L. Hanchett, Richard M. Johnson.
Grew School, Louise M. Wood, Charles G. Chick.
Butler School, Charles G, Chick.
Evening School, Joshua F. Lewis, Richard M. Johnson.
Industrial School, Charles G. Chick, Augusta L. Hanchett.
Auditors, Charles G. Chick Louise M. Wood.

The reports of these sub-committees will be found annexed hereto containing statements as to the condition of their respective schools, with such suggestions as to their future needs as seem proper.

SCHOOL ORGANIZATION AND STATISTICS.

HIGH SCHOOL.

Mr. Jere M. Hill, master; Mr. Emerson Rice, Mr. Wm. M. Cannon, sub-masters; Miss Annie W. Edwards, Miss Anna M. Linscott, Miss Lillian E. Downes, assistants; Miss E. M. Dodge, teacher of music; Mr. G. H. Greenwood, stenographer and type writing: Lieutenant P. J. Flanders, military drill.

APPROPRIATIONS.

At the annual appropriation meeting the citizens placed at our disposal sums as follows, viz:

For salaries, janitors and fuel,	$30,600 00	
School incidentals,	3.200 00	
Text books and supplies,	1,600 00	
Evening schools,	600 00	
Industrial schools,	150 00	
		$36,150 00

These appropriations proved insufficient to meet the needs of the town and in December last additional sums were voted at a special town meeting, viz:

For school incidentals,	$500 00	
text books and supplies,	500 00	
evening schools,	500 00	
		$1,500 00

Unexpended balances from last year.

Salary, janitor and fuel,	$224 87	
School incidentals,	80	
Text books and supplies,	2 15	
Industrial school,	28 75	
High school laboratory,	201 27	
" " furniture,	465 82	
Steam heating, Fairmount school,	49 85	
" " Grew school,	1 00	
		$974 51

The sum total placed subject to our order for all purposes connected with properly sustaining the public schools of the town will be seen to have been $38,624.51.

DISBURSEMENTS.

For salaries, janitors and fuel,	$31,372 61
School incidentals,	3.691 90
Text books and supplies,	2,066 31
Evening schools,	835 66
Industrial schools,	125 69
High school laboratory,	126 27
Steam heating Fairmount school,	49 85

Steam heating Grew school,	$1 00	
Furnishing High school building,	460 25	
		$38,729 54

It is needless here to itemize these expenditures as a careful examination of the Town Report with its detailed statement furnished by this Committee will show for what specific purposes the money has been expended. A deficiency exists in the salary appropriation, largely due to the additions made to the High school course and the employment of another teacher at the Damon school.

At the time of our last report it was stated that the Steam Heating plant at the High school had not fully met the requirements, and this Board was then uncertain as to the cause.

Investigation was made and followed by a demand upon the party who furnished the same, that the plant be made sufficient to heat the building as called for by the contract under which it had been furnished. After inspection the claim was made that the Town had failed to furnish a chimney flue of the agreed size. Upon the best information this Committee was able to obtain, this claim could not be successfully resisted. We were therefore compelled to take down the chimney and rebuild it, so that it should conform to the requirements of the agreement under which said plant was installed. It will be remembered that this Committee cannot be charged with this error as the work was done by a Special Committee appointed to enlarge the High school building in June '92. It is this expenditure with some other necessary changes and repairs at the High school that is largely the cause of the call for $500, for school incidentals in December last,

Should the plant now fail to sufficiently warm the building no objection can be raised that the Town is at fault.

ACCOMMODATIONS.

Under this head it becomes necessary to say that the low-

er grades of the Greenwood school are overcrowded and some provision must be made for more room to meet the overflow. What course shall be hereafter pursued to meet the growing needs of your schools? This matter was embraced in a plan recently submitted to you after careful consideration by this Committee and which was believed by a majority of the Committee to be for the best interest of the Town and the public schools.

Had it been adopted the present exigency at the Greenwood school would have been provided for and this matter of school accommodations settled for years to come. The question of what is to be the future policy of the Town demands careful thought and wise action lest large sums of money be expended in ways that tend to make our school buildings a series of patchwork which fail to be of permanent benefit to the schools and serve to discourage interest in the advancement of public education in Hyde Park.

TRUANCY.

For a number of years it has been the custom of the Committee to appoint two or three truant officers and fix their compensation at 25 cents per hour of actual service. Practically however, one appointee has done all the work, the several masters certifying to his hours of service. It has been thought proper to change this method and pay the active officer a fixed salary, with regulations adopted for the administration of the office. The salary has therefore been fixed at $250 per year, which is probably less than the amount heretofore actually paid.

We believe, under the rules adopted by the Committee, the work will be more systematically done as each school will have the benefit of regular service by the officer.

TWENTY-FIFTH ANNIVERSARY.

A communication was received early last spring from the

Historical Society asking that the school department join it in some appropriate manner with exercises to properly call to the attention of the children the fact that on the 22nd day of April 1893, our town would have completed twenty-five years of corporate existence.

Such a course was adopted and in each of the school buildings upon the last school day before that date, (Friday the 21st,) very interesting programmes were arranged by the teachers and pupils, many of them containing much valuable information connected with the formation of our town and the establishment and growth of its industries. Many of our citizens were present and in some instances added interest to the occasion by appropriate remarks.

Upon the whole we believe these exercises to have been beneficial to the schools and children ; they certainly tended to give all an accurate knowledge of the town's history and full information as to its present advantages.

COURSE OF STUDY AND TEXT BOOKS.

The course of study remains as last year, no changes having been made. A few changes in text books have been made, and some new books added to the list of text books used in the schools.

It may be well to say here, that the schools are sadly lacking in reference books. The Damon school is the only one aside from the High school that has even an apology for a library.

Rooms have been fitted in each building for teachers meetings which could be utilized very nicely for a proper collection of books necessary for a reference library, and in the judgment of the Committee a reasonable sum should be appropriated and expended to give the schools a good supply of books to aid teachers and pupils to obtain the best results from the time spent at school.

MUSIC.

Miss Dodge has been continued as teacher in this branch, and her work during the year has been faithfully performed. The results obtained are creditable to her as an instructor and satisfactory to the Committee.

CONCLUSION.

We believe the year to have been a successful one for the work of the Public Schools. We are aware however, that examination papers and per cent rank obtained are not alone the test of successful work in our schools.

Theoretical and technical knowledge may be acquired and yet its possessor be poorly fitted to make it of any practical advantage either to himself or the community in which he lives and which may have afforded him the opportunity to secure it.

The ordinary school course deals with scientific facts and principles many of which of themselves are of little practical benefit to the learner and may soon be forgotten.

The mental development obtained in the acquisition of these facts and principles is however of great importance as it tends to make a citizen equipped mentally to grasp and investigate subjects which may afterwards arise in the discharge of the various duties which may devolve upon him in after life. It is this mental strength that we need to develop which enables one to think, study and investigate.

The pupil must be taught that not only is it necessary to act for himself, but it is also necessary for him to assume harmonious relations to the rules of the community in which he is to reside.

The fundamental purpose of the common school system is to afford means for an intelligent community and not necessarily to fully equip each person for his chosen vocation. The work of the Public Schools is to prepare all for an intelli-

gent pursuit of such special calling as each may subsequently choose, and properly fit himself by special study to pursue.

True, some professions chosen, seem to be but a continuation of the same lines of work and thought obtaining in the common school course, but because this is a fact, no reason exists why a course of study should be made with special reference to these continued studies in those professions, without proper consideration of the want of the great numbers who do not wish to so continue their course, but who are really to control by their acts the affairs of the State. As at present organized the common school system is intended to deal with the general welfare and not with special pursuits. Its work therefore should reach all classes and the community should come to regard it as the means of securing to themselves assurance of protection by the united action of a well instructed, right minded people. Whatever tends to discourage interest in public education tends to injure the community and to lower the standard of intelligent citizenship.

With these principles in mind we have endeavored during the past year to keep the standard of your public schools, such that those who might desire to investigate them should know that in Hyde Park every effort was being made that so far as possible, she might have the reputation of training her youth for an intelligent citizenship, in whatever community they may hereafter become residents.

We conceive it to be of great importance that every effort be made to maintain popular confidence in our public schools and so far as we are able, we desire to urge upon our fellow citizens the importance of watchfulness, that the Town be not allowed to assume an attitude toward its system of education, which shall dwarf its importance as an element in our future growth and prosperity. We believe that progress in this department can best be had when the citizens be-

come actively interested for their children to have the best facilities for mental training consistent with financial resources of the town.

It has been our aim during the year to conduct the affairs of this department upon the lines of these remarks, and we would thank the corps of teachers in your employ for their faithful devotion to their duties since our last report. We submit this report to you trusting that you may feel satisfied that the cause of the Public Schools has been cherished and forwarded by those in whose hands you have placed that trust. Respectfully submitted,

CHARLES G. CHICK, Chairman.

DISSENTING REPORT.

While loth to discuss a question that was so wisely and emphatically settled by the citizens of Hyde Park less than two years ago, yet I feel it my duty to dissent from such portions of the above report as refer to the subject of "accommodations."

As you well know, the plan which was submitted by the the majority of the Committee called for the erection of a High School building at an estimated cost of some fifty thousand dollars, and the principal reasons advanced were primarily the great increase in the number of pupils in the High School, and the inability to care for them properly without detriment to the educational interests of our town. Secondarily was the providing for the increase in our grammar schools, which could be cared for by the use of the old building for such grades.

The town, however, decided to enlarge the building to an extent sufficient for the needs of the school.

What is the condition of things today? By reading carefully the following figures they readily explain the exact status.

Number of enrolled pupils in the High School, Oct. 1891,	200
Number of enrolled pupils in the High School, Oct. 1892,	206
Number of enrolled pupils in the High School, Oct. 1893,	194

Thus you will observe that the "great increase" has not materialized! There being six less scholars than in 1891, and a decrease of twelve the past year. The present High School building is amply sufficient for any natural or unnatural increase that may come, inasmuch as there is one room not in use at all, and two others not regularly occupied.

Now as to the second proposition, the needs of our grammar schools.

The increase, as our Chairman has stated, is in the lower grades, and calls particular attention to the Greenwood district. Again let me call your attention to the following figures:

Whole number of different pupils in the Greenwood School in 1891,	518
Whole number of different pupils in the Greenwood School in 1892.	461
Whole number of different pupils in the Greenwood School in 1893,	475

Or, in other words, there are forty-three less pupils in 1893 than in 1891, and but fourteen more than in 1892, an average of less than two pupils to a room, there being nine schoolrooms in the building.

It is true there are rooms in all of our buildings in which there are too many scholars, and there are also rooms in which there are too few.

That condition of things must of necessity exist.

But let us grant that the Greenwood school is overcrowded. Must we erect a new building in consequence? No, not at

all. The increase can easily be cared for at small expense right in that building, for a room sufficiently large, with all necessary light and ventilation and equal to any room there, can be "finished off" on the third floor and then leave all the hall room that is desired or required, and what is true of the Greenwood is applicable to all the other large buildings. When in the future our resources along that line are exhausted, then I should advocate the erection of two-room primary schoolhouses, to be located in our most thickly residential sections, so that in time the Fairmount, Grew and Greenwood buildings would be occupied wholly by the grammar and intermediate grades. I recommend this for two reasons: First, convenience, and second, the removal of our children on making their advent into school life, from the baneful influences that are often exercised over them by older pupils with whom they must be brought in contact.

Children of such tender years do not require the discipline that is necessary in the higher grades and should not be subjected to it.

In presenting this minority report I have endeavored to treat the question on a high plane and without pique or prejudice, and there has been no juggling with facts or figures. In closing, I wish to express my appreciation of my colleagues on the Committee whom I have ever found sincere, honest and painstaking in the educational advancement of our town.

While I have felt it my duty to differ with the majority, yet it is with no disposition to place any obstacle in the pathway of modern methods, but on the contrary to urge by voice and vote that which will make our schools better.

Respectfully submitted,

J. F. LEWIS.

SUB-COMMITTEE REPORTS.

HIGH SCHOOL.

The exercises of the Graduating class of '93 were held in Waverly Hall on Wednesday, June 21st. The class numbered 42, composed as follows: in the two years' course, 9: in the four years' courses, 33. The exercises were of a high character, some of them of unusual merit and worthy of especial commendation. The musical part of the program both in solos and part songs has never been excelled at any previous exhibition for musical taste and thoroughness of drill. There has been a distinct improvement in the High School singing in the last year or two. The bass and tenor parts especially deserve notice.

The school at present is organized as follows:

Senior class	-	32 pupils.
Second "	-	33 "
Third "	-	61 "
Fourth "	-	64 "
Total	-	190 "

Changes in our teaching force have been as follows; The resignation of Mr. Freeman whose services the committee were very sorry to lose, was followed by the appointment in September of Mr. Philip J. Flanders, 1st Lieutenant 6th Regiment M. V. M., as instructor of Military drill, who comes to us highly recommended by the principal of Wakefield High School where he holds a similar position as instructor, and the Chairman of the Wakefield School Board.

His work with us so far has been all that we could expect in so short a time. Miss Elma A. Stone was appointed in September to take the place of Isabel Eaton. Miss Stone

was obliged by ill health to resign in October and Miss Lillian E. Downes was appointed in November to succeed her. The introduction of the study of Stenography and Type writing into the course of study in September necessitated the appointment of an Instructor and the Committee were fortunate enough to secure the services of Mr. S. G. Greenwood, a specialist teacher of this study and the manager of a school of stenography in Boston, where pupils are fitted for active work in short hand and type writing.

A little less than a year ago the Board voted to introduce this branch of study into the two years' course, to take effect at the beginning of the school year in September. Two Caligraph type writing machines were purchased and work was begun under Mr. Greenwood's instruction in September. Although the Committee was satisfied that there was sufficient demand for the study and were confident of its successful prosecution, they were not anticipating a class of over 10 to 15 to begin with. The class started with 20 and has since grown to 44, necessitating the purchase of three more machines and the employment of an assistant teacher whose whole time is given four days in each week to the machine instruction alone, leaving the short-hand work to Mr. Greenwood, who gives one hour's time twice a week. It may be found necessary or advisable in the future as experience in this branch developes and the school enlarges in numbers, to put this study as a specialty in the hands of a regular teacher in the school, whose duties will embrace other studies as well. The study of Stenography as many people know is by no means light work but is mastered only by close application and persistent effort, and satisfactory progress will scarcely be accomplished by every scholar in so short a time, but so far there is a good degree of interest in the class and the recent examination developed a fair degree of proficiency as a whole, while the machine work was very good. This study was intended for the 2 years or

business course alone, but other scholars have been allowed to enter the class when they could do so without prejudice to their other work. The practical usefulness of this study is well known to every business man and needs no elaboration here. In other ways its advantages are evident in increased rapidity of thought and composition, more careful spelling, punctuation and the use of capitals, better mastery of language, and a clear English style. Its popularity as a study in schools is shown by the fact that although it has only recently been introduced, there are already over 600 type writing machines in American schools. The Committee feel that the School has no study of more immediate practical benefit to so many scholars than this.

A visit to the Laboratory of the School by our citizens would interest and gratify them by the interest and progress of the scholars in this department, in spite of some inconvenience in arrangement and lack of accommodations. The regular work in Chemistry and Physics is under the charge of Mr. Rice and has been so conducted as to stimulate further research in these sciences and several students have purchased and own chemical apparatus and supplies with which further work is done after school hours. The class in advanced Physics consists of five members and is conducted by Mr. Rice, by special arrangement with the Board and outside of the regular course, to accommodate scholars who want to pursue this branch of study beyond the limit of the ordinary High School course. The work on the part of both scholars and teacher is voluntary and done for the love of the science and is the best evidence of careful and painstaking instruction by a faithful teacher. Such results amply repay the Town for the moderate amount of money spent to furnish the Laboratory.

The military drill of the past year has been creditable to the boys and their instructor. A high degree of proficiency has been reached and maintained in the manual of arms and

in company and battalion movements. Probably no better work could be shown by any school in the State than was displayed at the annual prize drill of last June. Tactical training however is not the only nor the highest aim of the drill. Improvement in personal bearing and manliness, the moral effects of habits of obedience and command, and the sense of responsibility and self respect which comes to every one bearing arms in an organized body, are all marked by the careful observer and valued above the purely physical benefits.

The steam heating apparatus of this school has not met the expectations of the Committee nor the Contractors during the last, nor so far this winter. Owing to a misunderstanding between the Building Committee and the Contractors the Board were obliged to take down and enlarge the chimney to 16x16 inches to get greater draft. So far this season there has not been sufficient continued cold weather to determine just how much additional heating surface must be put in. The enlarged flue has increased the draft and the amount of heat, but the two large rooms in the second story will probably require more radiating surface in order to heat them properly in zero weather. The Contractors are watching its operation and declare their readiness to to make their contract good as soon as they can determine by cold weather test what is required.

Our School building is and has always been since it grew to a large school sadly lacking in some conveniences. We have no one room where the whole school can be assembled for general exercises such as singing, addresses and various public uses of the school. The sanitary arrangements are all in the back yard. A few good closets should be put into the building as soon as possible. No sufficient provision for the proper protection of the clothing of the scholars has been or can conveniently be made with the limited space the building affords. The Laboratory has been recently

supplied with a hood but only a small portion of the class can be accommodated there. The room should be supplied with lockers so that each pupil may have his own equipment and be held responsible for its care. During cold weather the Committee have been obliged to hire accomodations outside the building for battalion drill as only one company can maneuver at a time in the reguiar drill room, the other occupies the hallway above.

A review of the progress of the school for the past year shows steady improvement in character and no loss in intellectual standing. The discipline has been good and much credit is due Mr. Hill for some elevation in tone and loyalty in a large proportion of the scholars. The difficulty in maintaining effective discipline in a building arranged like this one and with the work done by the Principal, is not small, and with any serious error of judgment on his part would be fatal. The town may congratulate itself upon the high character of its secondary education.

RICHARD M. JOHNSON.
LOUISE M. WOOD.

BUTLER SCHOOL.

This school has been under the charge of Miss Gidney, for several years. The interest in the work has been good during the year. During the summer vacation the room was thoroughly cleaned and made as attractive as possible,

The building is very old and the room suffers in comparison with those in our large and more modern buildings. With care it can be kept quite comfortable and will serve the town quite well until increased numbers require larger accommodations in this seetion of the town.

CHARLES G. CHICK,
Local Committee.

GREENWOOD SCHOOL.

The teachers in this school have very generally done earnest, faithful work during the year, and the usual high standard of scholarship has been maintained.

The primary grades are crowded and in consequence little individual work can be done in this department. It is possible when the spring term opens that with very great crowding the new pupils can be received, but it will be to the detriment of the school, and in the autumn new accommodations will be imperative.

We regret to state, that Miss Carrie Stevens the master's assistant, presented her resignation in November, she having received a call to Cambridge, at a higher salary. Miss Davis was advanced to filll the vacant place, Miss Frances Putnam of Grafton, being engaged for the sixth grade. Miss Putnam is an experienced teacher, and although it is yet early to judge fully the quality of her work, we feel that no mistake has been made in placing her in this responsible position.

A new feature has been introduced into the school by utilizing the required composition work, as a medium for imparting to the child a knowledge of Nature. Some natural object is given out to be studied and observod and the results of the observation recorded. The interest manifested has been very great, and the results have been, increased powər of expression, improved penmanship, drawing and spelling together with an accumulation of interesting and thought-breeding facts all of which results have been accomplished, without taking from the time alotted to the more important studies. A small sum of money $6.50, accrueing from the sale of discarded books and other rubbish, has with the consent of the full Board, been expended for a collection of minerals to be used in connection with the nature work. Mr. D. G. Thompson the Principal of the

school has generously presented the town with a handsome cabinet to hold them.

The essential expenditure for the year has been $205.14. Aside from this following, the example set at the Grew school and the evident intention or our predecessor on this committee, we have this year furnished a room for the use of the teachers. A small room was finished off with this purpose in view, at the time the new school room in the third story was completed, but the cost of the latter was so great that it was not deemed advisable to furnish it at that time. The Greenwood school unlike the Fairmount and Grew has no private office for the master's use, and he has hitherto been obliged to receive visitors calling upon business either in the hall where there is constant danger of interuption or in the school room in the presence of the pupils. The inconvenience of this is obvious, especially when the matter under discussion requires privacy. The new room supplies a place where such visitors can be received, and also a place for teachers' meetings.

The furniture consists of ten chairs, a bookcase and a substantial table large enough to afford writing space to each of the ten teachers, The walls of the room have been tinted, an oil finish given to the floor, and a plain picture moulding has been put in position. A central draught lamp gives light when needed. The teachers have collected thirty dollars among themselves, and periodicals bearing upon educational subjects are to be found upon their table, also books upon similar subjects upon their book-shelves. What the teachers have contributed together with a few gift books from outsiders, form a nucleus, that we hope will one day grow into a library. A small library consisting mostly of gift books was burned with the old building and has never been replaced. If a few carefully selected books could be added each year to our small beginning, the good resulting would incalculably exceed the expenditure. The best

thoughts crystallize in books, and these read studied and discussed, give life to the teacher's meeting, awaken professional pride and impart new vigor to the entire school work. The teachers' room has cost the town a few cents less than $70, this added to $205.14 the sum named for essentials, makes a total of $275.14, the incidental expenditure for the year; but to this total must be added $141, paid from the year's appropriation to cancel last year's debts, in order to make up $416.14 the full sum charged against the school.

It is possible that notwithstanding our earnest efforts to the contrary, a few bills have not been presented, and consequently unpaid, if so, their sum is very small, and we can say that practically the bills are paid, and that there is nothing to be carried out into the new year.

AUGUSTA L. HANCHETT,
RICHARD M. JOHNSON,
Sub-Committee.

FAIRMOUNT SCHOOL.

This school still maintains its high standard. Although we were obliged during the past year to accept the resignations of Mrs. Cushing and Miss Coggeshall, both of whom had rendered excellent service to our town, and whose departure from our employment we deplore, yet, we have been particularly fortunate in filling the vacancies with Misses Winchenbaugh and Dunbar, who have shown conclusively that there will be no deterioration in the work of the school.

We have been obliged to make many needed repairs during the past two years, feeling it was true economy to spend a few dollars now rather than many later. The building is now in excellent condition and aside for the ordinary wear and tear expenses no great sum will be required for several years.

The steam heating plant gives good satisfaction, excepting in one room, which under certain conditions cannot be readily heated. The Exeter Machine Company have been notified and they assure us that they will make such changes as will fulfil their contract, that all rooms should be heated at an average temperature of 70° in all weathers.

The Fairmount school is ably equipped with its present corps of teachers. Their work is marked by harmony and unity of purpose, requisites so essential to success in every school.

Since writing the above we have consented to the transfer of Mrs. Howard, whose efficient work has been the pride of our district, to a much broader field in the High school. It is a positive loss to Fairmount, but to the town in her new position a corresponding gain.

J. F. LEWIS.

DAMON SCHOOL.

The problem at the Damon school, for some time, has been, how to teach successfully eight classes with only four teachers. The master, Mr. W. F. Sayward has been teaching classes fifth, sixth and seventh without assistance. It appeared that the best interests of the school demanded another teacher, and in September, Miss Dora M. Wiggin, who successfully passed the examination for teachers in July, was engaged to teach class ninth, and a part of class tenth. She had had several years of experience, and is doing efficient work. Mrs. de Senancour was promoted to be master's assistant, and thus Mr. Sayward was given an opportunity to superintend the work in the different rooms. The change has awakened new interest and enthusiasm among both teachers and pupils, the attendance has increased and good work is being done in every department of the

school. During the summer the old wooden ventilators were removed and new ones substituted, with satisfactory results.

One of the furnaces was found to be past repair and has been replaced by one formerly used in the Grew school house. The question of steam heat or new furnaces will soon demand attention. The 25th anniversary of the town was observed, April 21st, with fitting exercises. A very interesting talk of personal recollections was given by Carlos Slafter, Esq., of Dedham, and a poem by Mrs. de Senancour was recited by one of the scholars. Memorial day was also suitably observed and the exercises well attended. The Committee invite all parents to visit the school, at least, once each term, that they may see for themselves the work which is being done, and may encourage both teachers and pupils.

HELEN M. DEAN.
AUGUSTA L. HANCHETT.

GREW SCHOOL.

This school has pursued "the even tenor of its way" through the year, nothing unusual occurring to interrupt or disarrange the pleasant, profitable and harmonious working of all departments. Our numbers remain about as last year, but the large entering class in September (our XII class now numbering about 90) seems to indicate the filling up of our building in the near future.

But one change has taken place among our teachers during the year.

Miss Nellie M. Parsons' services in the school ceased with the summer term and in September the vacancy was filled by the appointment of Miss Jennie F. Ellis of Canton, an experienced, enthusiastic and successful teacher. She is doing excellent work in the XII class.

The other teachers remain in charge of the same grades as last year.

It has been necessary, as in former years, to make many repairs. The building is old and every year requires an increasing expense to keep it in even fair condition. Early in the spring the out-buildings were newly shingled and a little later it was found that the roof of the school building leaked badly in several places, discoloring the beautifully tinted walls and ceilings that were renovated at considerable expense the summer before. This not only necessitated repairs on the roof to the amount of $75, but also compelled teachers and pupils to see continually the marred and unsightly walls and led your committee to consider whether it is not short-sighted policy and false economy to patch up year after year one portion of a building at a time instead of thoroughly repairing the whole. It would seem wise to tear off the old poor, easily crushed slates from the roof, and replace with new and strong ones, before much further expense is incurred in, beautifying the interior.

During the summer vacation one room was furnished with new desks throughout, and the best of the old ones used in other rooms. Several of the rooms have been thus refurnished during the past five years and we would recommend that one room at least receive this attention each year until all are fully supplied with good, properly graded desks. It is useless to teach and practice physical exercises, and still continue to place pupils in seats. and at desks too high or too low for their comfort or development.

The cellar, that has long been a most unsightly place, has been greatly improved by rough plastering the ceiling. and we trust may be concreted in the near future, but would suggest that some of the floors that are warped and worn up stairs, receive the first attention. These have constituted the principal and most expensive repairs, but there have been others of less importance and slight expense.

There are educational needs of the school that must not be overlooked. Reference books of different kinds are greatly needed, not only encyclopædias and histories for general use throughout the building, but books on a variety of subjects, specially adapted to the different grades. These in the hands of skillful teachers add much interesting knowledge not found in the text books. It is gratifying to see the additional interest in the school shown eaeh year by the parents. We wish it were more general thoroughout the district.

LOUISE M. WOOD,
CHARLES G. CHICK.

EVENING SCHOOLS.

No department of our public school work has shown so good results as our evening schools for the past year. It was deemed advisable to maintain one school, instead of two, as formerly, and therefore the school at Readville was abolished and we opened on October 23d the school in the High school building. After eliminating the disorderly, a class who always attend the first week or two, there were left a class of earnest, painstaking men and women; a class who realized the need of an education and appreciated the opportunity which the town of Hyde Park had so liberally provided.

Mr. E. C. Tourtelotte, a practical mechanic, who has had charge of the drawing school, has aroused an enthusiasm in his pupils which has led to grand results.

We trust that the public will attend in large numbers the exhibition which we propose to hold in April, at which time the work of the term will be shown for your inspection.

The evening elementary school has been in charge of a Hyde Park boy, Mr. Walter E. Piper, and the same energy that has characterized him in obtaining an education he has

manifested as Principal and with like result. Your Chairman has been deeply interested in the matter of evening schools and he unhesitatingly pronounces the schools in Hyde Park, second to none in the State

I would add in closing that the Chairman of the School Board deemed it necessary to ask for an appropriation of five hundred dollars, at a special town meeting, inasmuch as there was at the beginning of the year a deficit of one hundred and forty-three dollars.

J. F. LEWIS,
R. M. JOHNSON.

Appended find reports of instructors ;

To the Committee on Evening Schools of the Town of Hyde Park,

Gentlemen:—The following will, I hope, convey some idea of the work of the Evening School. It began on Monday evening, October 23, 1893, and has continued through one term of nine weeks; and at present we are on the ninth week of a second term. The sessions are from 7.30 to 9 P.M. on the first four nights of each week.

The total number of names on the register for the first term was eighty-seven, with an average attendance of forty-five pupils. This term we have fifty names and an average attendance of twenty-five. The oldest pupil is thirty-six years of age, nineteen being the average ; 20 per cent. of the pupils are women. We have had seven foreigners whose purpose in coming was to learn the English language.

Instruction has been given in arithmetic, reading, writing spelling, bookkeeping, English composition, algebra, and plain geometry. Arithmetic has been studied by a very large majority of those attendidg the school. They seem to feel the need of arithmetic more than of any other one study. Of the more advanced studies, bookkeeping has received the most attention. At present there are six pupils well advanced in double entry.

The instruction has been almost wholly to the individual. In one or two instances classes were formed. However, in all cases the pupil has been encouraged to accomplish as much as possible, nothing being allowed to hinder his pro-

gress. The work has been characterized by great earnestness and perseverance on the part of the majority of the pupils. In the work of the school, I have been ably assisted by Messrs. Upham, Hooper and Howes, who by their patience, interest and earnestness have aided very much the progress of the school.

Respectfully submitted,

WALTER E. PIPER,

February 14, 1894. Principal.

To the Committee on Evening Schools of the Town of Hyde Park.

Gentlemen:—I herewith submit the followlng report. The eleventh term of the Elementary and Advanced Mechanical and Architectural Evening School opened on Monday, Oct. 23, 1893 at 7.30 P. M. at which time about thirty young and middle-aged men were enrolled; which number increased each evening until the roll showed sixty-nine, of whom a small number have dropped out. Most of those enrolled are employed in the several shops in our town, and at the first session they were divided into classes in the following order.

Monday evenings beginning at 7.30 to be devoted to elementary work, definitions, plain geometrical figures and projections, general methods of rotation, planes, curves and their tangents, projections of cubes and cones, also the development of different figures, etc., in all of which a decided interest is being shown.

Thursday evenings beginning at 7.30, to be devoted to designing and construction of working drawings as practiced in the best shope at the present time, there being no copying, but sketches made to a scale elther on the board or with pencil, also models and patterns to work from; in this way giving the pupils a chance to do some thinking and use their heads to figure out and produce working drawings. In all this they are showing marked ability and interest and are producing work which would be a credit to any shop where there was need of work of this character. The patterns were loaned by Mr. Brainard of the Brainard Milling Machine Co., for which they deserve special mention.

At these sessions, the more advanced of the elementary class have had an oppoatunity to show their skill on small objects such as screws, bolts, nuts and other small pieces of

machinery; at which they are doing excellent work. Owing to their being no advanced scholars in architecture, and the fiast principles being the same as the elementary work before alluded to, the pupils worked together until it was necessary to make a class for architectural work which was done December 13, 1893, their first work being the construction of the flat plans and elevations of a house, which we are in hopes to finish (with some details) before the close of the term. Every member of this class has been a regular attendant except one who dropped out soon after the class was formed. The work of this class, like the others, needs only to be seen to confirm the fact that they have an interest in their work. Our average, taking all classes together, has been thirty-seven.

There is a desire on the part of a good number of scholars to have a course of gearing, in its several branches, which I would recommend for the next term; also that the length of sessions should be from 7.30 to 9.30 instead of 7.30 to 9, as has been the custom heretofore and which has seemed to be too short. I would also suggest that just before opening the next term the boards should be trued up, as they are getting out of square owing to the shrinking of the wood.

Respectfully submitted,

E. C. TOURTELOTTE, Instructor.

INDUSTRIAL SCHOOL.

During the summer a school for carpentry was opened in the Everett school building, which has been fitted up and used for that purpose for a number of years.

At the opening of the school our townsman, Mr. Henry S. Grew, who is much interested in industrial education, generously made us a donation of money sufficient to replace such tools as had become worn and unfit for use, and to add many new ones, so that the school is now well equipped. At the close of the term, tool closets were built and provided with locks so that all of the tools can be securely kept when the school is not open.

Mr. George E. Webb was employed as instructor and we

append here his report giving accurate information of the work and condition of the school.

We feel satisfied that the school is doing a good work, and should be well sustained.

CHARLES G. CHICK,
AUGUSTA L. HANCHETT.

HYDE PARK, Feb. 13th 1894.

C. G. CHICK, ESQ., Chairman School Committee,

Dear Sir:—The school of carpentry for the boys opened on July 11th 1893, and closed February 5th. The morning class was formed of boys who had previously attended, and afternoon of beginners.

The advanced class had the privilege of working a portion of the time on such articles as they saw fit to carry home. Several of them improved the opportunity and did some credible work.

Fifty-four boys applied and took lessons, during the term, and the average daily attendance was twenty-four, one less than the previous year.

Yours respectfully,

GEORGE E. WEBB.

REPORT OF SCHOOLS.

HIGH SCHOOL.

PRINCIPAL — MR. JERE M. HILL.

CHARLES F. MORRISON,
Assessors of Hyde Park.

Hyde Park, July 23, 1894.

REPORT OF THE SPECIAL COMMITTEE

ON

WATER SUPPLY

Appointed by the Town Nov. 28, 1894.

HYDE PARK:
PRESS OF HYDE PARK TIMES,
1895.

At a Town Meeting held November 28, 1894, Charles F. Jenney was chosen moderator. The following article was in the warrant:

"ART. 4. To see if the town will appoint a committee to take into consideration the subject of water supply for the town, to confer with the Hyde Park Water Company with view of ascertaining value of plant and franchise of the company, and terms on which contract between the town and the water company in relation to hydrant service expiring next year, may be renewed; said committee to report at a future town meeting.

On motion in writing:

"Voted that Article 4 be referred to a committee of seven and that the moderator be one of that committee, with full power to make such investigation as they deem proper and to report at the next annual appropriation meeting, or at an earlier town meeting, and that the committee publish their report in print at least two weeks before it is submitted to the town at such meeting, and that the committee be authirized to incur any reasonable expense in connection with thier investigation and report, and that the other members of this committee than the moderator be appolnted by the moderator."

The moderator appointed as this committe, Messrs. Samuel T. Elliott, George E. Whiting, Charles L. Farnsworth, Galen L. Stone, George M. Rice and Stephen B. Balkam.

REPORT OF THE COMMITTEE.

Pursuant to the vote of the town, we have made such investigation of the matters committed to our charge as were within our power, and report as follows: —

A list of questions, substantially the same as those prepared by the committee appointed by the town in 1888, were submitted to the Water Company. One of these questions was: "On what terms and at what price will your Company sell to the Town of Hyde Park the entire plant of land and franchises, and all easements and privileges now held by you under your charter?" An answer to these questions was refused for reasons best shown by reference to the letter of the Company hereto annexed. We cannot, therefore, give such information as we desire, but append hereto such of the answers of the Company to questions propounded in 1888 as we deem material for your information, and also such information as we have been able to gather from other sources. In case the town should decide to purchase we can undoubtedly obtain this information for use with reference to an agreement as to the price to be paid for the property, but if the Company should then refuse to give the information, it will be obliged to furnish the same before a tribunal appointed to determine the value of the property.

A statement of the real estate owned by the Company taken principally from the assessors' books is herewith submitted. The committee of 1888 recommended an additional pumping engine and boiler, the covering of the reservoir, and the construction of a dyke around the pumping station. The additional pumping engine and boiler have since been furnished and a stand pipe constructed, thus obviating the necessity of the covering of the reservoir.

The Company was incorporated in 1884 under the authority conferred by Chapter 91 of the Acts of 1884, and under said act is authorized to take the waters of the Neponset River, or of any springs upon its water shed, within the territory bounded by a line drawn from the junction of Mother Brook and Neponset River southerly to the junction of Neponset River and New York & New England Railroad, thence following the said railroad southerly to the Town line, thence easterly on said Town line to Neponset River, thence down said river, and westerly following the Town line to its junction with Williams Avenue, thence in a straight line to point of beginning. In addition to this right said corporation is authorized to contract with the Dedham Water Company or the

Sharon Water Company for a supply of water. Under an amendment of its charter the company at present supplies water to the Milton Water Company, which in turn supplies the town of Milton. It will be seen that the territory from which the company is authorized to take water is exceedingly limited, and except in the vicinity of Sprague Pond there seems to be no chance for an extension of its plant unless in the immediate vicinity of the present pumping station. The amount of water that could be supplied by Sprague Pond is extremely uncertain and could not be determined without elaborate and extensive pumping experiments. The quality of its water is not good and the only possible way to utilize the same would be to take valuable property surrounding so as to prevent its pollution. Near the pumping station the driven wells of the Company extend southerly substantially to the Milton line, beyond which it has no authority to go, and follow along the side of the river, at varying distances from it, from the Milton line until the New York & New England Railroad is reached, and the wells then follow the easterly side of the railroad on the strip of land between the railroad and Water street until very near the westerly end of Cottage street. This section of the town is rapidly increasing in population and at no distant period it will be thickly built upon, and the plant at the pumping station surrounded by residences, thus increasing the danger of contamination. It will be seen, therefore, that the stretch of land upon the southerly side of the river, in which wells can be placed, is substantially all occupied, and that the only way in which an increased supply can be obtained from this source is by increasing the number of wells within the same territory.

AMOUNT OF WATER.

From statistics supplied by the State Board of Health, it appears that the average daily consumption in Hyde Park and Milton was in 1890, 391,000 gallons, but in 1894 this consumption had increased to 587,000 gallons per day. In Hyde Park alone the daily consumption in 1892 was 464,000 gallons, in 1893 it increased to 499,000 allons, but in 1894 is reported as having dropped to 458,000 gallons. The report of the Chief Engineer of the State Board of Health upon the subject of a Metropolitan water supply estimates that in 1898 the average daily consumption for both towns, based upon the same ratio of use as at present, will be 783,000 gallons, while the capacity of the source of supply is estimated by him at only 600,000 gallons of water of good quality.* In the case of ground

* This amount is based not alone upon the amount of water of good quality that the engineer estimates can be furnished, but also upon the basis that a water supply must be estimated upon the quantity of water in a dry year, and, as will be seen, more than 600,000 gallons per day have been used

water supplies the future capacity cannot be estimated with an entire degree of accuracy. "In most ground water supplies the capacity of the source is less in summer than at other seasons of the year; and it is at this time that the consumption of water, particularly in the suburbs where much water is used for watering lawns, is liable to be the greatest. In comparing the capacity of ground water sources with the consumption of water, it is, therefore, necessary to take into account the amount of water consumed in the drier portions of the year rather than the average consumption for the whole year." The average daily consumption for all purposes in Hyde Park was, in 1894, 38 gallons per capita as against 43 gallons the previous year. There are no figures accessible for the daily consumption per capita in Hyde Park during the two summer months, but in Milton and Hyde Park combined the average for the said months was 41 gallons, while in Boston (Cochituate system) it was 102 gallons, and in Brookline the average daily consumption from June to October was 103 gallons. With the probable advent of a sewerage system and greatly increased sanitary accommodations in dwelling-houses of all classes, there will undoubtedly be a great increase in the amount of water used per capita in our town, but to what extent it is impossible to state. A most instructive consideration of this branch of the subject may be found in the report of Dexter Brackett, C. E. to the State Board of Health printed with the report of that Board upon the subject of Metropolitan Water Supply. Mr. Brackett comes to the following conclusion: That for domestic use 35 gallons per capita should be sufficient for each day's use; that the demand for trade and manufacturing will before many years require at least 35 gallons more, and that 5 gallons are needed for public purposes, or a total of 75 gallons. This quantity represents the amount estimated as required to supply the actual needs of a community similar in character to that within ten miles of Boston with no allowance for waste. The report states that from actual experience in waste detection and from the facts as to the quantity of waste which can not be accounted for in cities and towns using meters, it is not possible that the waste can be maintained below 15 gallons per capita, and if the use of meters or some efficient system of waste detection is not adopted the amount wasted will be, as it is now in some of the large cities, from 30 to 60 gallons per inhabitant, and he

in the summer. Although 1894 was much drier than the average, yet the Sudbury River water shed yield during the months from June to November, inclusive, was two and one-half times that of the corresponding months in 1880. (Report on a Metropolitan water supply, p. 16.) The same report (page 42) estimates the average daily consumption in Hyde Park and Milton for the maximum two months of the summer as 727,000 in 1893 and 713,000 in 1894.

considers that it is necessary to estimate 100 gallons per capita as the quantity required to be used for the next thirty years. It is obvious that unless our water supply can be greatly increased that the increase in the population of our town, together with the invariable increase found in the per capita consumption necessitated by a sewerage system and improved sanitary accommodations, will soon exhaust the present capacity of our works, and this, too, even if the supplying of water to Milton is discontinued.

As to what extent the supply can be increased with proper regard for purity, by driving additional wells, your committee cannot definitely determine, but feel that in all probability a large increase cannot be obtained without a great depreciation in quality, unless some system of filtration is put into operation. "The capacity of the source depends upon the amount of water which will filter into and through the ground from the bed of the river, and upon the amount of rain which falls upon the territory from which water percolates directly to the source. It is of course true that the means of taking water from the ground may not equal the supply to the ground, but as soon as the works for drawing water from the ground have sufficient capacity to take all the water which the ground in the locality will furnish, it is obvious that no multiplication of wells will increase the supply to any large extent." Mr. Stearns says in the report before quoted, "It is doubtful if both these places (Hyde Park and Milton) can be supplied without drawing from the territory which furnishes water that is not sufficiently purified." In our opinion this source of supply is limited unless used in such a way as to take water imperfectly filtered and coming from the Neponset River.

QUALITY OF WATER.

We start with the assumption that no community "will accept for any length of time a water inferior to that enjoyed by their neighbors either in healthful qualities or attractive appearance and odor, and it will not be profitable as a municipal investment to offer a stranger seeking a home anything so essential to his health and comfort as water is that shall be decidedly poorer than the article distributed on the other side of the Town's borders."

Between the years 1887 and 1890 the State Board of Health conducted a series of special investigations upon the general subject of water supplies. In these investigations the water supply of Hyde Park entered quite prominently and thorough and systematic examinations were made at frequent intervals. These examinations were both chemical and microscopical, and the results are elaborately set forth in the published report of the Board in 1890.

Most especially interesting to the citizens of our town is the "special experiment upon the Storage of Ground Water at Hyde Park." (see pp. 730-734).

It would seem, from the results of this experiment, that the erection of the Hyde Park standpipe was resorted to for an object not usually understood by the citizens of the town, viz.: — the protection of the water itself from deterioration. A very curious fact is revealed that ground water (i.e. water drawn from wells) cannot be stored in an open reservoir without very marked deterioration in quality. The experiment lasted for two months, from May 24th to July 24th, 1889. At the end of that time the average per cent. of free ammonia in the open reservoir was .0017, while in the gate house, in which the light was excluded, it was only .0011.

Albuminoid ammonia showed .0231 per cent. in the open reservoir and only .0052 in the gate house.

Nitrogen as nitrates in open reservoir, .0068 per cent., in closed gate house .0573. Nitrogen as nitrites in open reservoir .0002 per cent. in gate house, .0003.

The presence of ammonia indicates imperfect filtration and the decomposition of vegetable and animal organisms, and consequently forms an important element in determining the purity or impurity of drinking waters.

Examinations of the Hyde Park water are made by the the State Board of Health every month and sometimes oftener. The table printed in the appendix shows the averages for the past seven years, and is of interest.

Early in 1893, thirty-three new wells were driven and the results of the examination of these wells is of great importance. This is best shown by the copy of a letter sent to the Water Company by the State Board of Health, June 14, 1893, and printed in the appendix.

The past year, in response to letters from the school committee the State Board of Health, a disinterested body, charged by law with the responsibility of advising the authorities of cities and towns in these matters, wrote as follows:

"The Board does not believe that, from the information now in its possession, it would be justified in giving an opinion that the water furnished by the Hyde Park Water Company is unwholesome; but there is an uncertainty as to the wholesomeness of the water during a portion if not the whole of the year, which leaves no question that it would be better to supply the school children with a water of known purity."

And upon December 7th last the same Board in reply to a request from the Water Company for its advice relative to new wells near the New York and New England Railroad, advised the Company in detail as to these wells in a most interesting and instructive letter printed herewith and closed its letter with this recommendation. "In view of all these

results the Board is of the opinion that the six wells examined cannot be depended upon to furnish a water of satisfactory quality for drinking purposes; *and it recommends that you obtain some new source of water supply unless you can obtain good water from the ground in the vicinity of your present pumping station at a greater distance from the river than the wells driven by you this year and last.*"

In the case of ground waters, if the source of supply is situated in a populous district where much foul water is turned into the ground through the cesspools or otherwise, or is near a polluted stream or pond, the source must be open to suspicion even although chemical analysis may show that the organic matter has been very nearly all removed from the water by filtration. Mr. Stearns, in the report before referred to, says, "A portion of the water furnished by the wells of the Hyde Park Water Company is derived from rain which falls upon the land on both sides of the river at no very great distance from the wells, but it is probable that most of the water comes by filtration from the Neponset River, which is a highly polluted stream. Analysis of water from many wells and groups of wells controlled by the Company, show that some of them furnish water which is not perfectly purified by filtration, while others furnish, or have furnished, water that is or was very thoroughly purified. The fact that a well furnishes good water at one time does not prove that it will continue to do so for an unlimited period, as the purifying powers of the soil may become exhausted. . . . . Take into account the high degree of pollution of the river, the inefficiency of the purification by filtration in a portion of the territory, and the tendency which the ground has to lose its purifying power with continued use, I believe that this source of supply will always be regarded with suspicion, and that it should be abandoned when a better supply can be obtained." If the use of this supply is to be continued, precaution should be used to prevent the pumping of water imperfectly filtered, and if necessary some plan of filtration should be adopted, if enough water cannot be obtained without the use of wells too near the river.

ADDITIONAL SOURCES OF SUPPLY.

Your committee know of no accessible sources of supply which can be reached without great expense, but there is now pending before the Legislature a bill to establish a state system of Metropolitan Water Supply. This system has been fully discussed in the public press, and will, if put in operation, supply by gravity to each community within the district, a sufficient quantity of water of the best quality for use, and thus do away with the expense of maintenance of an expensive pumping plant, and in the judgment of competent

engineers, it is to this source of supply that we must look in the near future.

It may be argued that it is advisable to await the result of action upon the subject of metropolitan water supply before taking any action. It is, however, extremely uncertain as to whether this system will be at present adopted, and in case it is adopted the act submitted by the State Board of Health, expressly provides that nothing contained therein shall be construed to permit a city or town to be supplied by the metropolitan system, until it shall first have become the owner of the works of its water company.

COST OF PLANT.

The cost of the plant to March 31, 1888, was reported as $176,367.64. Since that time, as before stated, an additional pumping engine and boiler have been added at an expense estimated at $10,000, the stand-pipe constructed at an estimated expense of $15,000, and considerable new pipe laid. In case the town had purchased the works in 1888 it undoubtedly would have been obliged to go to this additional expense and cannot now object to paying for the same. We are unable to estimate the amount expended since that time, but in case of purchase a detailed account of the same can be required, and the town will not be obliged to pay more than the same is reasonably worth. The last annual return to the State authorities by the Company is as follows:—

Assets.		Liabilities.	
Real Estate,	$16,902.20	Capital Stock,	$100,000.00
Machinery,	15,900.00	Debts,	104,840.51
Cash and Debts Receivable,	4,082.02	Reserve for Depreciation,	58,857.05
Miscellaneous,	226,813.34		
Total	$263,697.56	Total	$263,697.56

We cannot tell how the item entitled "Miscellaneous" is made up, but it must include pipe lines, stand pipe, reservoir and probably some value set upon the franchise. Neither can we state upon what basis the "Reserve for Depreciation" is estimated, or how that reserve is invested. These items were among those concerning which information was asked in the questions submitted to the Company, but to which it refused to make answer. But as said heretofore in this report, full investigation as to these sources can be made by the town in case of purchase.

NEW CONTRACT.

We have not deemed it within the scope of our authority to arrange details of a new contract with the company, involving the number and location of hydrants. Probably no one will desire to renew the present contract as many additional hydrants are needed. Your committee has consulted with the officers of the company, who feel that it cannot make any definite proposition under the present status of affairs. In order to figure intelligently upon this matter the number and location of hy-

drants must be known, and it is also very important to determine whether new pipe must be laid for the purpose of locating hydrants. In an informal interview with the President of the company, he stated that in his opinion the company would be willing to meet the town on the subject of a contract in a liberal spirit and that a contract would be acceptable to the company largely increasing the number of hydrants upon existing lines without a great increase in price.

FINANCIAL SCHEME.

The Statutes provide fully as to this matter. The town is authorized to purchase the franchise, corporate property and all the rights and privileges of the Company at a price which may be mutually agreed upon, and in case of inability to agree, the amount to be paid is determined by three commissioners appointed by the Supreme Judicial Court whose award, when accepted by said Court, will be binding upon all parties. In order to purchase said property there is required a two-thirds vote of the voters present and voting at a meeting called for the purpose of deciding the question. The town is authorized to issue from time to time for the purpose of paying for said property, notes, bonds and scrip payable at the expiration of periods not exceeding thirty years from the date of issue, and bearing interest at a rate not exceeding six per cent. And the act provides for the establishment of a sinking fund, and the contribution thereto each year of a sum sufficient, with the accumulations thereof, to pay the principal of said loan at maturity. In addition to the amount required to be raised for a sinking fund, the town is authorized to raise by taxation such sum as will, with the income derived from water rates, pay the current annual expenses of operating the water works and the interest upon the bonds.

In case of purchase the property will be managed by three commissioners who will at first be elected as follows: One for three years, one for two years and one for one year, and thereafter one to be elected annually for the term of three years.

Under the provisions of the act the town is authorized to to borrow money only to the extent of $200,000, and as the price fixed as the value of the works may exceed that amount, the Legislature should be asked to grant authority to borrow such additional sums as may be deemed prudent to provide for any such excess and also for the extension of the works from time to time.

PURCHASE.

The policy of the Commonwealth has always been to protect capital invested in public enterprises of this kind, and, therefore, while a town is not allowed to control the corporation except by the right to purchase, still the town is not allowed to go into competition in the same business and thus ruin private capital put into the business in good faith. It is, therefore, the settled policy of the Commonwealth not to allow a town to take any steps for the introduction of water on its own account without paying what the property already invested in the same

business is reasonably worth. In other words, it is practically impossible for our town to get authority to introduce a system of water supply without first buying the existing system, no matter whether the source of supply is such as the town may wish to continue to use. Questions of the purity and quantity of supply, and of the construction of the plant all affect the price which the town may be obliged to pay. The interests of both company and town are carefully guarded by the law, and in case the price cannot be agreed upon it is determined by three disinterested commissioners appointed by the Supreme Court, before whom full hearing is had upon all questions involved. In case it should be deemed advisable for the town to own and operate its own works, it is not a question as to whether it would be cheaper or better to start a wholly independent supply, but simply a question as to what the present supply is fairly and reasonably worth, and that sum we shall be obliged to pay in case we vote to purchase. No figures or estimates that we may be able to obtain as to the value of the property are conclusive. The amount that we shall be obliged to pay in case of purchase is that determined by the tribunal hereinbefore referred to. But with the rapid increase in the demands for water, and in the amount used, it seems reasonable to assume that instead of the works becoming of less value the tendency will be to increase the value of plant and franchise, and if we are ever to own them undoubtedly they may be purchased as cheaply at present as at any other time.

Nearly all towns now control their own water supply, and year by year the number of municipalities decrease that permit other interests to control these important privileges. There are many reasons why it is advisable for cities and towns to control this important matter. Towns can borrow money more cheaply than private corporations; the expense of maintenance should not substantially increase by reason of their ownership; they can extend their works as needed from year to year, while a private corporation may be hampered by considerations of present business returns or by lack of capital. Water supply and sewerage go hand in hand and vitally affect the public health, and neither of these important interests should be allowed to be outside of municipal control. In case of a private corporation there is an uncertainty as to whose hands the management may fall at any time, as stock may, and often does, change hands in large blocks; and an ownership friendly to the interests of the town may, in a few hours, go into the hands of persons whose only interest in the matter is to obtain as large a revenue as possible. No matter who controls the stock it is largely a matter of business investment, and the general public welfare is subordinate to the question of a proper return upon the capital invested. We could not expect such a corporation, for instance, to make such investments to improve its plant as would render it a non-dividend paying property, even if the public health demanded it. If the public good demands a new source of water supply this question should be at once where the town can take the matter in hand.

In case of purchase the town will lose the amount of taxes paid by the Company to it, which was the past year $846.44. In addition to this tax the Company paid to the State a corporation tax of $596.81. About $400 of this latter amount is refunded to the town, but the amount received is liable to be decreased or increased in any year by change of residence of the stockholders. Upon the present basis the town will lose in case of purchase about $1250 in taxes, but in turn the expense account of the plant will be reduced more than this amount, as the total tax paid amounts to $1443.25, making a net gain to the town of substantially $200 per year so far as this branch of the subject is considered. The expense of management by the town will probably exceed that under the Company, but it should not be substantially greater. For the past few years the town has paid for hydrant service from its share of the corporation and bank tax; it received from that source the past year $5780.50, and an appropriation of $5000 of this amount ($250 less than we now pay for hydrant service) each year to a sinking fund funded at four per cent. interest, would in 30 years' time considerably exceed $263,697.56, the sum returned by the Company to the State as the value of its assets. While we are unable, for reasons hereinbefore stated, to estimate the receipts of the Company except in a general way, it is well known that the Company pays its operating expenses, interest on an indebtedness of a little over $100,000 at the rate of five per cent., dividends on $100,000 at the rate of six per cent., and has been able to carry a substantial sum to its reserve for depreciation. Under the present conditions of the money market the town can unquestionably sell four per cent. bonds at a premium. The sum at present required by the Water Company to pay interest and dividends ($11,000) equals the interest on $275,000 at four per cent. While we are unable to give estimates founded upon actual figures of receipts and expenditures, in our opinion the works would soon, if not immediately, become self-supporting if the necessity of a change in the source of supply does not arise. With the advent of sewers and increase of population the amount received from water rates must increase. If some method of filtration or an additional source of supply is to be adopted there will necessarily be an increase of expense.

RECOMMENDATIONS.

In conclusion your committee wish to acknowledge their indebtedness to the State Board of Health and to the Committee of 1888, for the assistance rendered by them and also to express their recognition of the public spirit that actuated the gentlemen of the Water Company when they undertook to furnish a much-needed supply of water to the town. We have examined the questions submitted to us with no feelings of hostility toward the company, but on the contrary with a spirit of friendliness toward it and its officers, and with a full appreciation of the important services they have rendered to the town. Any criticism that may be implied from our report upon the

quality and quantity of the water is simply based upon the statement of facts given by the State authorities who are charged by law with the superintendence of these matters. We have had a special examination made by an expert whose opinion coincides with that of the State Board of Health.

It is merely a question of what is for the best interests of the town both from a financial and sanitary standpoint, and your committee feel that the time has now come when it is for the public interest that the town become the owner of the property, and in this opinion the committee are unanimous. We, therefore, recommend the calling of a special town meeting to decide upon the question of purchase, and recommend that that meeting be called for such an early hour that the polls may be opened for a sufficiently long time to enable every citizen to have an opportunity to express his opinion. It has been our him to treat the subject as fairly and equitably as was in our power. We regret that we do not give you more definite information upon important points, but in our view the town should assume control of this supply and be ready to pay whatever the same is reasonably worth, and in that view of the matter figures, unless they amount to a direct offer from the company to sell for a fixed price, are of comparatively little importance.

As under the provisions of the Act incorporating the Water Company, the town is only authorized to borrow $200,000, we also recommend that the Legislature be asked to amend said Act so as to increase the borrowing capacity of the town as hereinbefore set forth.

In the words of the Committee of 1888, "the subject calls for careful study and good judgment, and in the hope and belief that it will receive both these from your hand, we respectfully submit this report for your consideration."

Hyde Park, March 7, 1895.

APPPENDIX.

Hyde Park, February 22, 1895.

S. T. Elliott, Esq.,
Secretary of the Committee on Water Supply.

My Dear Sir:—At a meeting of the Directors of the Company, held this day, it was voted:—

"That the Clerk is instructed to acknowledge the receipt of letter from S. T. Elliott, Esq., Secretary of the Committee on Water Supply, dated Feb. 16, 1895, and to say that, the interrogatories, therein submitted, have been considered; the nature of the inquiries is of such a character that we feel we cannot answer them without their being first submitted to the Stockholders of the Company subsequent to action, by the Town, in which it shall have voted to make a purchase of the works, as provided by the Company's Charter.

In taking this position, it is believed that the gentlemen of the Committee, as business men, will recognize that we have no desire to interpose unreasonable bars to progress but rather to take a purely business position, guarding the interests of the Company as, would be proper, if it were simply a personal matter." Respectfully Submitted,

C. F. Allen, Clerk Hyde Park Water Company.

QUESTIONS SUBMITTED TO THE HYDE PARK WATER COMPANY BY THE COMMITTEE OF 1888.

The following extracts from the questions propounded and answers given in 1888 are of present value:

WELLS.

How many wells were first driven, and to what depth, and what material was found to that depth?

Ans. Sixty-four wells, 25 to 38 feet deep, through hard, close gravel and sand until a strata of loose water bearing gravel is reached.

What were the reasons for adding to the number of wells, and how many were added, and to what depth were these driven?

Ans. Increased business, economy, prudence. About sixty-eight (68) wells added, say 30 to 40 feet deep.

What increase of water was obtained by the addition, and how was the increase determined? What is the present number of wells and what is the size of pipe used?

Ans. More than doubled by separate test of the new section of wells. About one hundred and thirty-two (132) wells, two (2) inches in diameter.

Before capping did the water in the driven wells in any or all cases stand higher than the water in the river? How does it stand to-day?

Ans. Have had no occasion to make examinations.

Are any wells on land not owned by the Water Company, and if so what arrangements, if any, have been made for its purchase?

Ans. Wells all on our own property.

What plan, if any, has been considered for increasing the water supply.

Ans. As we think we have a sufficiency of water, we haven't considered any plan for further supply.

Note. Since 1888 the number of wells has increased to at least two hundred, according to the best information at the command of the committee.

RDSERVOIR (AND STANDPIPE).

What is the capacity of the reservoir? Will you furnish us plans and specifications of the same? Is it provided with a circulating pipe, and is such pipe in good repair.

Ans. Calculated by M. M. Tidd, C.E., as 1,500,000 gallons. Yes, as to plans. Yes. Yes.

Note. The standpipe was constructed in 1890, and has a capacity of 500,000 gallons. The local papers at the time of making contracts for the same announced that it would cost "almost $14,000." Its value as returned to the assessors is $15,000.

PIPE SYSTEM.

What are the different sizes and weights of pipe, and what lengths are laid of these different sizes; and will you furnish us plan, showing location.

Ans. To December 31, 1887, as below, and a little in 1888. Will allow our plan to be examined and copy to be made if committee desire.

MEMORANDUM OF PIPES.

Ft.	Diam.	Class A.	B.	C.	D.	E.
4981	14 inch	952	1031	1111	1191	*1272
2292	12 "	768	826	888	944	1004
10726	10 "	600	651	682	723	766
10040	8 "	445	475	502	529	557
52350	6 "	315	330	345	361	377
37263½	4 "	197	204	211	218	226
383	2 "	Wrought Iron.				
118,035½						

* lbs. per 12 ft. lengths exclusive of sockets.

What is the number of stop gates, what their sizes and where located?

Ans. To December 31, 1887, as below, and a few in 1888, as per plan referred to in answer to No. 20, and "location book" which may be examined and copied, 2 2″, 93 6″, 24 10″, 8 14″, 100 4″, 23 8″, 11 12″. (Total) 261.

Will you furnish us specifications and contract for pipe, and also for laying pipe? *Ans.* Private matters and cannot well be furnished.

NOTE. The plan above referred to was copied and the copy is now on file with the Town Clerk. In 1893 it was publicly stated that there were about twenty-six miles of pipe, and at the present time there are probably about twenty-eight miles laid. There were important extensions of the mains at Rugby and Holmfield the past year.

COST.

What has been the cost in detail of the plant and the land?

Ans. March 31, 1888. Cost, about $176,367.64.

NOTE. Since 1888, a new pumping engine and boiler have been added at an estimated expense of $10,000, the standpipe at an estimated expense of $15,000, several miles of pipe laid, new wells driven, and additional real estate purchased. Of the real estate since purchased the "Starch Factory Property" is assessed at $4,100, and undoubtedly cost more.

WATER TAKERS.

What is the present number of water takers and what is the average price paid per taker? What has been the increase in number the past year. *Ans.* About 1100 on basis of bills. Say April 1, 1888, about $13.50. About one hundred in 1888.

NOTE. The number of takers at present is estimated at about 1700.

HYDRANTS.

How many hydrants are now furnished to the town? Will you give price paid and location? *Ans.* 104 hydrants @ $50.00 per annum, located as per plan previously referred to.

NOTE. The number of hydrants is 105, at $50.00 each. The past year the Board of Selectmen were authorized to contract for additional hydrants, but found that no additional hydrants would then be furnished except at the same price. See Twenty-seventh Annual Town Report, page 13.

LETTERS FROM THE STATE BOARD OF HEALTH TO THE WATER COMPANY.

BOSTON, June 14, 1893.

The State Board of Health has received and considered your application dated May 26, 1893, asking it to examine and report upon the quality of water from a new system of driven wells, located just north of the present driven well system in Hyde Park.

Samples of water have been collected and analyzed from three wells of this system, one being from the well nearest the river, another a well near the middle of the system, and a third the well farthest from the river. These samples were all collected by pumping with a hand pump. The water from the well nearest the river (well No. 5) gives the same indications of imperfect filtration which are characteristic of the water from the starch factory well, though not to so great an extent. This water would not be of satisfactory quality for water supply purposes. The samples from the intermediate well and from the one farthest from the river (wells Nos. 14 and 36) resemble in character the water taken from your present driven well system five or six years ago and are of satisfactory quality. Just what the effect will be of continuous pumping from the wells which now furnish good water cannot be foretold with certainty. The general experience under these circumstances, however, is that the water will deteriorate. The Board would therefore advise that if you take any water from the new system of wells each well should be provided with a gate so that it can be shut off if it furnishes water of unsatisfactory quality, and frequent tests should be made to determine whether or not the water is deteriorating,

It is very desirable that in increasing your supply in the vicinity of your present pumping station water should be taken from the ground as far from the river as suitable porous material can be found.

DEC. 7, 1894.

Samples sent in by you from one of these wells on June 14 and from another on June 30 have previously been analyzed with satisfactory results.

A visit was made to your works by one of the engineers of the Board on July 13, when water was being drawn regularly from these wells by the pump in the pumping station. The analysis of a sample of water collected at this time showed a slight deterioration in the quality of the water, and a sample collected in a similar manner a week later showed a still further slight deterioration.

In view of this change in the character of the water, the results of the analyses were sent you on July 27, accompanied by a communication calling attention to the change in the character of the water, and stating that the Board would defer making a formal reply to your application until it could make further examinations, with a view to determining the character of the water after pumping had been continued for a longer time.

Six more analyses were made, from June 30 to September 4 inclusive, the water generally coming from either two or three of the first group of three wells. At different times during the month of September samples were sent in from each of three additional wells located about the same distance from the railroad as the first three, and a short distance further from your pumping station. In October and November, after all six wells had been connected, additional samples were analyzed. The changes in mineral constituents of the water from these wells correspond nearly enough with the changes in the mineral constituents of the water of the Neponset River to show clearly that a considerable portion of the water from these wells comes from the river; and, as the river is a highly polluted stream, the purification should be very thorough. The later analyses, both from the first three and from all six of the wells, while they show a large degree of purification resulting from the filtration of the river water through the ground, do not show a sufficiently thorough purification to make the water safe for drinking purposes. The water is not at all times rendered wholly free from turbidity, sediment, color or odor, and the amount of organic matter left in the water is larger than it should be in a water filtered from a polluted source. The character of the water from these wells may vary somewhat with the season of the year, being better in the wet than in the dry season; but it is probable that with a continued draft upon the wells the water will grow worse rather than better in the future.

In view of all these results, the Board is of the opinion that the six wells examined cannot be depended upon to furnish a water of satisfactory quality for drinking purposes; and it recommends that you obtain some new source of water supply, unless you can obtain good water from the ground in the vicinity of your present pumping station, at a greater distance from the river than the wells driven by you this year and last.

JOHN J. ENNEKING.
LAWSON B. BIDWELL, (to fill vacancy.)

SELECTMEN'S REPORT.

Fellow Citizens of Hyde Park;

Your Board of Selectmen chosen to administer the affairs of the town for the year just closed herewith presents its report for your consideration.

We have endeavored in all respects to carry out the line of policy settled six years ago by an overwhelming public sentiment. This policy being to avoid increasing the public debt; to reduce as rapidly as possible existing liabilities with their corresponding interest; to devise and carry out a definite plan for the improvement of the town ways, both streets and sidewalks.

The town policy as interpreted by the successive Boards from the time mentioned, has been on the one hand to avoid any large expenditures which would increase the rate of taxation, and on the other hand to procure for the Town those modern conveniences and comforts possessed by the leading cities but often lacking in towns; such as well built and well kept roads, good sidewalks, good street lights, &c. In brief a systematic, progressive, far sighted policy combined with a "wise economy."

The street lights were of course in use previously, but these have been extended to cover the town more perfectly to meet the wants of an increasing population.

HIGHWAYS.

Within the past few years a general movement has been in progress throughout the country, looking towards better roads and sidewalks.

This movement, in connection with more and heavier travel, and the growing scarcity of suitable gravel in town, led

the Selectmen of six years ago to procure a Stone Crushing Apparatus, and to lease a suitable ledge of rock.

The experiment proved an immediate success, and streets are now built which will stand for many years with few or no repairs.

A Steam Roller was desired to supplement the Stone Crusher, but pressing calls in other directions deferred its purchase until the present financial year, when the Town made an appropriation for this purpose, and the Board was enabled to purchase one at a very low price. Two Steam Road Roller Builders volunteered to exhibit their machines in actual service, and Business street, being nearest the ledge, and badly in need of repairs, was selected as the scene of operations, one roller being placed at each end, and the entire street reconstructed.

An object lesson in modern road building in Hyde Park was thus for the first time afforded the Selectmen, and a large number of interested citizens. Both machines performed their work so admirably that after an extended test the Board was for a time in doubt which to select, finally however deciding upon that made by the O. S. Kelly Co. of Springfield, Ohio, which was considerably heavier than the other made by the Harrisburg Foundry & Machine Co., of Harrisburg, Pa.

As in the case of the Stone Crusher, the purchase of a Steam Road Roller has proved a valuable investment, and after using it for the season we are satisfied that the town could hardly have made an expenditure which would yield better returns than by the purchase of this machine.

Pierce street has in the past given much trouble, being in places wet and springy, and was in such condition that it was necessary to dig out some parts of it to a depth of 18 inches and to fill with crushed stone. Drains of loose stones were also put in to carry off the flow of water, and the whole street was put in good order.

Central avenue from West River street to Webster street has had a covering of crushed stone, carefully rolled.

Beacon street from the Milton line has been thoroughly built to Metropolitan avenue. Much of this street was but little better than a bog, and required to be dug out to an average depth of about two feet, the loam or mud being replaced by broken stone, and as in the case of Pierce street, suitable provision was made for drainage. The town of Milton at considerable expense, had built its part of the street to the Hyde Park line, and as several building contracts (amounting as we were told, to over $20,000,) awaited the action of the Selectmen, it was deemed judicious to make this improvement, though the expense was considerable. Riverside square has also received much needed attention.

Much other needed work has been done on the highways of less extended character, and the utmost pains have been taken to have all the town ways kept up to the highest standard, so far as the available means would warrant.

LEDGE.

The town in the past has been fortunate in leasing at a nominal price from the heirs of Geo. Hail, a ledge located near Brainard street and Glenwood avenue, of excellent stone with ample ground room for the operation of the Crushing Apparatus.

It was anticipated that this and neighboring ledges would afford the town all the stone required for the building and repairing the streets for many years to come. The Metropolitan Park Commissioners have, however, taken this and the other ledges. It will therefore be necessary the coming year to make other arrangements, and to buy or lease a ledge in some other locality.

STONE CRUSHER.

Since the present apparatus was purchased, valuable improvements have been made in this class of machinery, and

it might prove true economy to dispose of the present crusher and purchase one of later design, with facilities for delivering the crushed stone of different sizes into bins, from which it can be drawn out to fill stone teams as they are driven under them.

It is quite probable that the present plant could be disposed of to the Park Commissioners, it being all ready in position and located where they will need stone for their extensive improvements, and the matter may be arranged to the mutual advantage of both parties, should the town decide to sell, and to purchase a new crushing plant.

SIDEWALKS.

These have caused past Boards considerable trouble, especially in the absence of a sidewalk appropriation. Where curbstones only have been desired the town has usually set them without cost when citizens have paid for the stone. This rule has been modified, and now the town furnishes curbing, and also makes either a gravel or concrete sidewalk when the abuttors agree to waive all claims for damages, and to pay within thirty days after completion, one half the total cost. This rule of course presupposes that there are funds available and that the season is not too far advanced.

The town has usually voted that the betterments thus paid shall go back into the Highway appropriation, but at the last annual appropriation meeting this vote was changed, making all money received from any betterments applicable to sidewalks only. This seems to us unwise action, taking as it does money from the Permanent Improvement appropriation to make sidewalks, and then preventing the betterment money from going back to the appropriation from which it was taken.

A larger amount of sidewalk building than usual has been done.

There has been laid :—

In Summer street, 1133.42 square yards of concrete, 729.25 feet of straight curbing and 12 corners.

On Hyde Park avenue, 893.70 square yards of concrete, 743.70 feet of straight curbing, 70.45 feet curved curbing and 22 corners.

On Davison street, 108.67 square yards of concrete, 280.59 feet of straight curbing and 4 corners.

On Fairmount avenue, 73.33 square yards of concrete, 85.23 feet of straight curbing and 2 corners.

On Walter street, 76.85 feet of straight curbing.

On Westminster street, 40 28 square yards of concrete, 44 8 feet of curved curbing.

On Greenwood avenue, 77.63 square yards of concrete, 4 feet of straight and 57.5 feet of curved curbing.

On some other streets small amounts of sidewalk have been built, all under petitions from the abuttors who assumed one half of the cost of such construction, and which have very materially added to the appearance of those streets, as well as to the list of Permanent Improvements of the town.

In the Readville district a large amount of excellent gravel having been offered the town free of cost, the opportunity was improved to repair a very considerable extent of sidewalks on Readville and Damon streets, a portion of Central Park avenue was re-rolled and Damon street repaired.

As always, a large amount of highway work awaits improving or rebuilding. Metropolitan avenue between East River street and Riverside square remains unfinished, and will require blasting to an average depth of about three feet through solid ledge. There is little or no travel over this part of the avenue, but the decree of the County Commissioners still requires its completion. There is also a liability to accidents, which might involve a cost to the town of far more than the amount necessary to complete this part of the avenue, which it is estimated will cost $1500 ; other parts of Metropolitan avenue also need considerable work done to bring it up to grade.

Warren avenue has been accepted by the town, but no ap-

propriation has ever been made for building it. As this avenue was unsafe for public travel at the time of its acceptance, the Board has done what was necessary to make it safe, but in the absence of an appropriation were unable to properly build it.

Hyde Park avenue from Westminster street to Post Office square has given rise to more thought and worriment to the present and preceeding Boards of Selectmen than probably any other piece of highway in the town, from the fact that for a length of 800 feet there is a fall of but six inches to the hundred feet, which is utterly insufficient to drain the street. It seems impossible to cut it down to a proper grade, as heavy damages would result. We think the only solution of the difficulty would be to sink a large pipe the entire length upon one side of the street with suitable catch basins, and with connections from the opposite side of the street. To do this properly would cost at least $2000.

From the junction of Hyde Park avenue and Central Park avenue, and thence to a point in Readville above the Morris Safe works, the grades and bounds are indefinite, and the matter is now on application of the Board, in the hands of the County Commissioners. Meanwhile, though large amounts have in preceeding years been spent upon Central Park avenue, it is still in bad condition and scarcely safe. After the grades and bounds are properly defined nearly the whole avenue should be completely rebuilt and macadamized.

The condition of these two avenues, involving a stretch of road nearly two and a half miles long, and about to be traversed by the tracks of the Norfolk Suburban Street Railroad Co., seemed to the Selectmen so important, that advantage was taken of a town meeting, called for another purpose, to bring the matter before the town for consultation. The Selectmen simply stated the case, but declined to ask for an appropriation. The town, after some discussion, decided to let the matter lie over.

The Board sold a considerable amount of road material to the Norfolk Suburban Street Railroad Co., and also sold at its original cost, a lot of gravel land on Dana Ave., from which all the available gravel had been removed; as also a small lot of land on Thatcher St. It becoming necessary to buy gravel in other localities, they asked that this money, amounting in all to about $1,500, might be transferred to the highway appropriation, which was done, and this addition proved ample to complete all the necessary work contemplated for the financial year.

ACTIONS AT LAW.

In the case of Sarah S. Fuller, of Boston, against the town, the jury rendered a verdict in behalf of Mrs. Fuller in $3,633.33, debt or damage at the October sitting of the Superior Court, 1893. The exceptions taken in behalf of the town were argued at the March sitting of the Supreme Judicial Court. On the following July, that Court overruled the exceptions, and thereupon judgment was entered upon the verdict of the jury, which, with the plaintiff's taxable costs and interest to that date, amounted to $3,962.74.

The suit by William H. Ruddick against the town, in which the plaintiff claimed $1,500 damages in consequence of certain injuries received by the plaintiff near the junction of River street and Wood avenue, which suit has been pending for about two years in the Superior Court, has been disposed of in the town's favor.

The case of Nancy Bohannon, in which the plaintiff sought to recover $4,000, pending in the Superior Court, Suffolk County, and described in the last annual report, was transferred to Norfolk County, and was tried at the October sitting of that Court, and a verdict rendered against the town in the sum of $500, debt or damage, which, with plaintiff's taxable costs amounted to $551.27.

For a fuller description of the suits hereinbefore described,

reference may be had to the two preceeding annual reports.

A suit was brought against the town in the Superior Court, Norfolk County, by John Haney, in which the plaintiff claimed $8,000 for injuries sustained as alleged in his declaration, and claimed by him to be on account of the defective condition of the engine used in connection with the stone crusher, in November, 1892. The town denied that there was any defect in the engine, or in anything connected with the stone crusher. This case was set for trial for the present January sitting of the Superior Court, but after conferences by the respective counsel, the Board authorized the town's attorney to settle the suit without trial, for $420.

Lomelia A. Bickford, Admx. of the estate of Levi P. Bickford on the 27th of December, 1894, brought an action against the town to recover $204.47, with interest on the same, for cash which the plaintiff claimed was paid by mistake for taxes during the lifetime of the said Levi P. Bickford. The suit is made returnable to the Superior Court, Norfolk County, on the first Monday of February of the present year.

The Commissioners of the Metropolitan Park District, in May of last year, brought a petition in the Supreme Judicial Court, praying to have three commissioners appointed to determine how the expense incurred in connection with the park and boulevard system of that district should be apportioned among the different cities and towns within the district. At a hearing to determine how commissioners should be appointed, every city and town in the district was represented. After conferences between the counsel representing the different cities and towns, and hearings before the Court, Hons. Geo. F. Richardson, of Lowell, Chas. W. Clifford, of New Bedford, and Hiram P. Harriman, of Wellfleet, were appointed by the Court as commissioners to determine how the amount of expense incurred

and to be incurred in connection with the park and boulevard system, shall be apportioned between the different cities and towns in the district. This is a subject of importance to Hyde Park, as well as to other municipalities in the district. Various hearings, have been held before the commissioners thus appointed, and the case now stands continued until the third of May next, for further consideration.

FIRE DEPARTMENT.

At the last annual meeting the Selectmen were authorized to contract with the Hyde Park Water Company, for additional hydrants in accordance with the recommendation of of the Fire Engineers. After consultation and correspondence with the officers of the Company, we found that no additional hydrants would be furnished except at the original price named in the contract now in force, viz: $50 per hydrant. We did not deem it best to contract for the extra hydrants at that price, and the appropriation for that purpose being insufficient, the matter was dropped.

Fortunately the year has been free from large conflagrations, and the absence of the extra hydrants has not been severely felt. We believe, however, that these extra hydrants should be provided to protect the property of citizens whose buildings and improvements in those localities have added very materially to the taxable property of the town. It is to these same localities that the town must look for a large part of its future growth, and the corresponding increase in real estate values.

The report of the Engineers will be found on another page.

STREET RAILROAD.

The Norfolk Suburban Street Railway Company began to operate its cars over the Dedham and Mattapan line on May 21st, 1894. Owing to changes of construction required

by this Board in the Summer, it was impossible for the Company to complete the Readville and Forest Hills line, within the time allowed, and a further extension of two months was granted. The cars began running regularly over this line, September 14, 1894, since which time the service has been uninterrupted.

Your Board has been convinced that considerable extra expense will be entailed upon the town in the matter of maintaining in good condition, the streets through which these cars run. but it is quite probable that the public convenience will be served to such an extent, as to more than offset this additional expense.

POLICE.

Early in the year Mr. Chas. E. Jenney, who had served the town for many years as Chief of Police, resigned his office, and Mr. James McKay was appointed to the position for a term of three months. His services during this term proved so acceptable that at its close he was unanimously elected to the office for the balance of the year. Mr. McKay has proved himself a careful, wise and energetic officer, and his administration of the office has been entirely satisfactory.

The increase of appropriation for this department has enabled the Board to call upon any desired number of special police, for any special duty, the special police receiving no salary except when actually on duty.

Further particulars of this department will be found in the report of its Chief.

DRUGGISTS LICENSES.

The Board decided this year to grant 6th class liquor licenses to all the druggists who applied, and to put them all under the immediate supervision of the Chief of Police, who was instructed to report every month to the Board, the

entire number of sales by each druggist. He was also instructed to notify each holder of a license, that any known violation of its provisions, would result in its cancellation. Under this plan sales have decreased, and no complaint from any quarter has been heard. Active efforts have also been made to stop the illegal selling of intoxicating liquors, and it is believed with a good degree of success.

APPROPRIATIONS.

For the guidance of the town we present in parallel columns the amounts voted at the last annual appropriation meeting, for the various departments, together with an estimate of the sums required for the present year.

	1894.	1895.
Schools,	$38,950 00	$38 950 00
Bonds and Notes,	7,500 00	7,000 00
Interest,	3,500 00	3,000 00
Public Library,	1,850 00	1,850 00
Highways, Current Expenses,	4,000 00	7,000 00
Highways, Permanent Improvements,	10,000 00	7,000 00
Warren, Hyde Park and Central Park Avenues,		6,500 00
Steam Roller,	3,500 00	
Board of Health,	2,500 00	2,500 00
Incidentals,	7,100 00	7,100 00
Salaries,	3,475 00	3,475 00
Police,	5,500 00	6,500 00
Support of Poor,	3,000 00	3,000 00
Street Lights,	7,700 00	8,000 00
Fire Department,	6,500 00	6,500 00
Grand Army,	150 00	150 00
Fairview Cemetery,	6,000 00	2,000 00
Voted in 1893, payable in 1894,	3,500 00	
Voted in 1894, payable in 1895,		4,514 01
	$114,725 00	$114,539 01

It will be noted that for highways we have changed the relative amounts required for Current Expenses and for Permanent Improvements. In the earlier years of the town,

$4,000 answered for patching the streets, cleaning out gutters, filling washouts and clearing snow, but with the addition of some thirty or more streets, the vastly increased travel, the salary of the Supt. of Streets, and the expense of a horse and carriage for his use, it is evident that a much larger sum is needed for highway current expenses, than has usually been appropriated. Were the line between the two parts of the highway appropriation less shadowy, great inconvenience would have resulted.

We think it wise for the town to settle just what it will undertake each year, in the way of Permanent Improvements, after appropriating the amount necessary for Current Expenses, which we estimate as above.

We renew the recommendation of the previous year, that the proceeds of the corporation and national bank tax be appropriated for fire hydrant service.

It may prove of interest to quote the rates of taxation for each year since the town was organized, as also the amount of the tax levy, and the total valuation. The table below furnishes this information.

YEAR.	VALUATION.	TAX LEVY.	RATE PER M.
1868	$2,913,657	$30,302 04	$10 40
1869	3,714,478	45,253 94	11 60
1870	4,857,214	51,084 14	10 00
1871	5,955,925	66,210 08	10 50
1872	7,329,527	86,934 00	11 40
1873	7,509,815	97,506 68	12 50
1874	7,069,323	99,805 06	13 66 2-3
1875	6,942,284	86,521 42	12 00
1876	6,545,767	88,106 97	13 00
1877	5,707,632	85,766 29	14 50
1878	4,674,871	68,468 19	14 00
1879	4,180,106	66,903 61	15 20
1880	4,123,490	71,475 00	16 50
1881	4,378,116	75,034 14	16 30
1882	4,597,771	80,360 00	16 80
1883	4,855,402	81,546 43	16 00
1884	5,059,613	83,999 88	15 80

1885	5,202,085	85,298 52	15 60
1886	5,627,688	91,425 16	15 50
1887	5,969 004	95,803 76	15 30
1888	6,874,500	113,579 10	15 80
1889	7,120,543	118,838 69	16 00
1890	7,470,115	121,439 79	15 60
1891	7,725,590	117,841 11	14 60
1892	8,125,291	127,101 37	15 00
1893	8,320,215	128,539 13	14 80
1894	8,531,630	130,361 79	14 60

The Board in conclusion, congratulates the town on its present satisfactory financial condition. The bonded debt has now become reduced to $25,000, the last of which will be paid within three years, and $6,000 of this, on the Cemetery Account, will be met by sales of lots, etc., leaving but $19,000 to be raised by taxation. The interest account, which in 1874 and 1875 exceeded $19,000 per year, was reduced last year to $3,500, and is now but about $1,000 on the bonded debt, though each year a certain amount has to be paid by the treasurer, for money borrowed for current expenses in anticipation of taxes. The rate of taxation has gradually decreased since 1882, and the past year has seen the lowest rate for many years, excepting in 1891, when it was the same as now.

Each year brings with it its own responsibilities and duties, and we bespeak for our successors the same kind and courteous treatment which has been accorded to us, and which has in no small measure, lightened the burdens which must naturally devolve upon your public servants.

Respectfully submitted,

AMOS H. BRAINARD,
SAMUEL T. ELLIOTT,
GEORGE E. WHITING,
GEORGE MILES,
THOMAS S. WATERS,
Selectmen of Hyde Park.

TOWN CLERK'S REPORT.

BIRTHS.

Number of births registered in Hyde Park in 1894	313
Males	166
Females	147
The perentage of the children is as follows:	
Both parents American	116
Irish	37
Scotch	6
English	6
Swedes	9
Russian	7
Germans	6
Italian	6
of British Provinces	25
Mixed, one parent American	63
Both parents of other nationalities	32

Born in January, 32; February, 30; March, 30; April, 21; May, 25; June, 21; July, 30; August, 26; September, 27; October, 26; November, 14; December, 31.

The Town Clerk requests information of any omission or error in the above tables, in order that the registration may be as complete as possible.

Respectfully submitted,

HENRY B. TERRY,

Town Clerk.

SYNOPSIS OF THE TOWN CLERK'S RECORD OF TOWN MEETINGS.

The following statement shows in a condensed form the action of the town on the various articles which have been before it for consideration the past year.

March 29, 1894 a Town Meeting was held in Waverly Hall, when the following Articles were acted upon, viz :—

Article 1. To choose a moderator to preside at said meeting.

James E. Cotter Esq., was chosen.

Art. 2. To see if the town will accept the list of jurors as prepared by the Selectmen and posted according to law.

Amended by several substitutions and accepted as amended.

Art. 3. To hear the report of the Selectmen in regard to guide boards, and act thereon.

Report made and accepted, and the several boards therin mentioned voted to be maintained.

Art. 4. To see what disposition the town will make of the money received from dog licenses for the year 1893.

Voted to the Public Library for the purchase of new books

Art. 5 To see what compensation the town will vote to pay for collecting its taxes the current year.

One per cent. of amount collected.

Art. 6 To fix the salaries of the town officers for the current municipal year.

Voted that they remain the same as last year, and assessors are authorized to employ a clerk, at an expense not exceeding $100.

Art. 7. To fix the compensation of the engineers, and several members of the fire department, for their services the current municipal year.

Voted that the compensation be the same as last year.

Art. 8. To see what discount the town will vote to allow on all taxes paid on or before October 1, 1894; and what interest the town will vote to charge on taxes for the current year, when the same shall be overdue.

No discount allowed, and interest at the rate of six per cent. per annum to be charged.

Art. 9. To see if the town will appropriate one hundred and fifty dollars to Post 121, Grand Army of the Republic, for the expense of decorating the graves of deceased soldiers.

So appropriated.

Art. 10. To see if the town will appropriate the money now in the hands of the Treasurer, received by him as sidewalk, street, or Board of Health assessments or betterments, and all money which shall be received by him the current year on account of such assessments or betterments, for the purpose of constructing or repairing sidewalks, streets or highways.

Appropriated for construction and repairs of sidewalks.

Art. 11. To see if the town will appropriate the money to be received this year by the Town Treasurer, for or on account of Corporation and National Bank taxes, for the payment of the fire hydrant service of the town.

So appropriated.

Art. 12. To see what action the town will take with reference to lighting the whole, or a part of its streets with electricity all night.

Motion to authorize Selectmen to contract for an all-night service of thirty-eight arc and thirty-eight incandescent lights, at an additional expense of $2,000, lost.

Art. 13. To see if the town will set apart a portion of Fairview Cemetery for the burial of persons of the Roman Catholic faith.

Voted, that the Cemetery Commissioners be instructed to set apart a portion of Fairview Cemetery, so that the same may be duly consecrated and reserve the same when so consecrated, exclusively for such Roman Catholics as may purchase burial privileges therein, the Cemetery Commissioners being hereby authorized to determine the location of such part. All deeds of lots shall be made in the form prescribed by the regulations, and the same shall remain under the care, superintendence and management of the Cemetery Commissioners, and shall be subject to the same regulations, and shall be managed and provided for in all respects, in the same manner as other portions of said cemetery.

Art. 14. To see if the town will authorize the Cemetery Commissioners to use part of the appropriation for the care of the Fairview Cemetery, for the purchase of land for the use of the Cemetery.

Voted that the Cemetery Commissioners be, and they hereby are, authorized to use a part of any appropriation made for the care of the Cemetery, for the purchase of land adjoining the same, if in their judgment it is expedient to do so.

Art. 15. To see if the town will authorize its Selectmen to contract in behalf of the town, with the Hyde Park Water Company, for additional fire hydrants.

So authorized, provided that any contract so made, shall expire at the same time that the existing contract expires.

Art. 16. To hear the report of the Selectmen laying out Warren avenue, between Highland and Summit streets, as a public town way, and to see if the town will accept and allow said laying out with the boundaries and measurements of said way as shown by report, plan and profile now on file in the Town Clerk's office, and appropriate money to construct the same.

Report made and said "laying out" accepted and allowed.

Art. 17. To see what amount the town will vote to raise

by taxation, to meet the expenses of the town the current year, the deficiencies of last year, and the notes and bonds of the town maturing the present year, and how the same shall be appropriated.

Voted to raise $114,725.00, and appropriate same as follows:—

For support of schools, by items:—		
Salaries and Fuel	$32,300	
Evening Schools	600	
Industrial Schools	100	$38,950 00
School Incidentals	3,200	
Text Books and Supplies	2,750	
For Bonds and Notes maturing		7,500 00
" Interest		3,500 00
" Public Library		1,850 00
" Highways — Current Expenses		4,000 00
" Highways — Permanent Improvements		10,000 00
" Board of Health		2,500 00
" Incidentals		7,100 00
" Salaries		3,475 00
" Police		5,500 00
" Poor		3,000 00
" Street Lights		7,700 00
" Fire Department		6,500 00
" Grand Army		150 00
" Care and Improvement of Cemetery		6,000 00
" Steam Road Roller and Crusher repairs		3,500 00
" Sum voted in 1893 (additional) for schools		1,500 00
" Sum voted February 6, 1894, for highways		2,000 00

Art. 18. To see if the town will authorize its Collector of Taxes to use all means of collecting the taxes which a Town Treasurer, when appointed a collector, may use.

So authorized.

Art. 19. To see what amount the town will authorize its Treasurer to borrow, in anticipation of the tax to be levied the current year.

$80,000 so authorized.

Art. 20. To see if the town will authorize its Treasurer

with the approval of the Selectmen, to borrow money to renew or replace any loan or loans.

So authorized.

Art. 21. To see if the town will authorize its Selectmen to sell at private sale or public auction a lot of land situated on Dana avenue, in this town, being land described in deed of Samuel S. Somes to this town, dated March 20, 1889, and recorded with Norfolk Deeds, lib. 618, fol. 614, and authorize its Selectmen to sign, seal, acknowledge and deliver in its name and behalf, proper deed or deeds to convey the same to the purchaser of said land.

So authorized.

Adjourned at 10 :22 p. m.

July 31, 1894, a Town Meeting was held in the Young Men's Christian Association Hall, and the following articles were acted upon :—

Article 1. To choose a moderator to preside at said meeting.

William S. O'Brien chosen by ballot.

Art. 2. To see if the town will vote to choose by ballot at the next annual meeting, a Board of Health, consisting of three persons, to serve, one for the term of three years, one for the term of two years, and one for the term of one year, beginning with the first Monday in April then next ensuing and until their respective successors are chosen and qualified ; and thereafter at its annual town meeting, choose in the same manner one person who shall hold office for three years from the first Monday of April then next ensuing, and until another is chosen and qualified in his stead.

Voted to choose the Board of Health in this manner.

Art. 3. To see if the town will vote to discontinue the choice of Sinking Fund Commissioners by ballot.

Indefinately postponed.

Art. 4 To see if the town will make and adopt by-laws relative to the supervision of the business of plumbing, as required by the provisions of Section 7, of Chapter 455 of the Acts of the Legislature of the present year.

Referred to a committee to consider and report to town at a future meeting.

Art. 5. To hear the report of the Selectmen laying out Chesterfield street as a public town way, and to see if the town will accept and allow said laying out with the boundaries and measurements of said way as shown by the report, plan and profile now on file in the Town Clerk's office, and appropriate money to construct the same.

This street was accepted as a public way, and $300 appropriated to build the same.

Art. 6. To see if the town will appropriate a sum of money sufficient to satisfy the judgment recorded against this town in the Superior Court for the County of Norfolk, in the suit of Sarah S. Fuller vs. Hyde Park, and also the expenses incurred in defending said suit, and how the same shall be raised.

Treasurer authorized to borrow in anticipation of taxes of next year, a sum not exceeding $4,000 with which to satisfy said judgment.

Art. 7. To see if the town will make an additional appropriation of money for use in building, repairing and draining streets and highways, and how said money shall be raised.

Indefinately postponed.

Nov. 28, 1894, a Town Meeting was held in the Y. M. C. A. Hall, when the following articles were acted upon viz :

Article 1. To choose a moderator to preside at said meeting.

Charles F. Jenney chosen moderator by ballot.

Art. 2. To see if the town will appropriate money to pay the judgment rendered in the Superior Court, Norfolk County, at the last October sitting thereof, case of Nancy Bohannon vs. Hyde Park, for damages and plaintiff's taxable costs amounting to $551.27.

Said amount was appropriated; to be raised by taxation next year, and the Treasurer authorized to borrow said sum in anticipation of said taxes.

Art. 3. To see if the town will transfer to the highway appropriation the moneys now in the hands of the Town Treasurer, received from the sale of land, and road material.

Said transfer was voted.

Art. 4. To see if the town will appoint a committee to take into consideration the subject of water supply for the town, to confer with the Hyde Park Water Company with view of ascertaining value of plant and franchise of the company, and terms on which contract between the town and the water company in relation to hydrant service expiring next year, may be renewed; said committee to report at a future town meeting.

Charles F. Jenney, Samuel T. Elliott, George E. Whiting, Charles L. Farnsworth, Galen L. Stone, George M. Rice and Stephen B. Balkam were appointed a committee with full power to make such investigation as they deem proper, and to report at the next annual appropriation meeting, or at an earlier town meeting, first publishing their report in print, at least two weeks before its submission to the town at such meeting. This committee was authorized to incur any resonable expense in connection with their investigation and report.

Art. 5. To hear the report of the Selectmen laying out Regent street as a public town way, and to see if the town will accept and allow said laying out with the boundaries and measurements of said way as shown by the report, plan and profile now on file in the Town Clerk's office, and appropriate money to construct the same.

Said laying out was accepted, and the sum of $600 appropriated to build said street; said sum to be raised by taxation next year.

Art. 6. To hear the report of the committee on by-laws relative to the supervision of the business of plumbing, and to see if the town will adopt by-laws relating thereto. Also to see if the town will make and adopt by-laws relating to the purchase, sale or barter of junk, old metals or second hand articles, and the license of persons to be dealers in such articles.

The committee reported a code of by-laws, which were adopted by the town. The clause of the article relating to junk etc., was indefinately postponed.

Art. 7. To see if the town will vote to discontinue the choice of Sinking Fund Commissioners.

Voted to discontinue the choice of such commissioners.

Adjourned.

REPORT OF THE BOARD OF HEALTH.

To the Citizens of Hyde Park :

In giving this our annual report, we would call attention to the many changes which have been made in different parts of the work, either to comply with laws of the State or with what in the opinion of the Board was for the best interest of the town.

MEETINGS AND ORGANIZATION.

The regular meetings of the Board have been held as in previous years with such additional meetings as were necessary to do the work required. At the first meeting the Board organized by choice of J. C. Lincoln, M. D., as Chairman and Edwin C. Farwell as Secretary,

SEWERAGE.

Again we wish to urge the importance of sewerage for the town. We have had a system of water supply for ten years, and it is the opinion of the Board that unless a system of sewerage is soon adopted to take care of the large supply of water, the soil will become so infiltrated with the same, that trouble will ensue. The money which is paid for clearing vaults and cesspools would pay the interest on a large portion of the money it would take to build the sewer.

VAULTS AND CESSPOOLS.

Owing to the complaints of many of our citizens, the Board thought best to make a change in the manner of clearing vaults and cesspools. The old method made it necessary to have this work done in the night for about one-half of the year. One objection to this was that the air being heavy and lying low, the bad odors would remain much

longer than in the daytime, and at that season of the year when windows are open, must fill the house and form a part of the atmosphere we breathe, whether asleep or awake. Another reason was that in the season when this work was allowed in the daytime, some of our places of business were very much damaged for a time by the foul odors which come from this method of doing the work, to say nothing of the stench that was left in the streets as these teams went to and from their work. The attention of the Board was called to the work done by the apparatus known as the Odorless Excavator, and after a thorough examination, this method was adopted. The cost of fitting up for this system was so great that neither of those who had formerly done the work cared to undertake it (or at least so the Board understood) and the permit was given to one party who is under the direction of the Board. It is not intended that the expense shall be much in excess of previous years, although in our opinion each individual can better afford to pay more than to go back to the old method.

INSPECTOR OF PLUMBING.

Early in the year to conform to the laws of the State the Board took up the matter of the appointment of Inspector of Plumbing. Applications were received from several for the position, which was finally decided by civil service examination, and given to the one who received the largest per cent. in rank. Afterwards the Board appointed an assistant.

BOARD OF EXAMINERS.

In compliance with the law, a Board of Examiners was appointed consisting of the Chairman of the Board of Health and two local plumbers. This board reported to the Board of Health five master plumbers and nine journeymen plumbers. Licences were granted to the same and they registered as did also all out of town plumbers doing work in town.

Rules and regulations were, after careful consideration by the Board of Health and Examiners, adopted, and the parts relating to material and work were with a few changes adopted as by-laws of the town. Eighty one permits have been granted for new and old work, and one hundred and seventy three cases were found where rules were not com-complied with, which after attention was called to them were made right. It is hardly fair to expect that mistakes would not be made at this, almost the commencement of the work. The Board have tried to be just to all, and still maintain that the law must be complied with in all cases. It is for the next Board to perfect what has been so imperfectly started.

COMPLAINTS.

Nearly one hundred complaints have been investigated and most of the places have been attended to; some have had to be put over until another season on account of the cold weather. The land at the corner of Gordon avenue and Childs street has been drained and we hope will give no further trouble. There are several other places in town which need attention and parties have been notified to that effect.

DUMPING ASHES.

We wish to call attention to the dumping of rubbish on land situated between Central Park avenue and the Hyde Park station on the N. Y. N. H. & H. R. R., which was lately put in good condition, by the Building Co. It seems as though any one who has the good of the town at heart would refrain from spoiling the work so recently done. There should be some place in town less conspicuous where such matter can be put.

CONTAGEOUS DISEASE.

The town is to be congratulated on the comparitively small number of cases of contageous disease, only about

three-fifths of the number we had last year, which are as follows:

Diptheria,	15 cases	with	2 deaths.
Scarlet Fever,	25 "	"	0 "
Measles,	29 "	"	0 "
Typhoid Fever,	14 "	"	3 "
Membraneous Croup,	1 "	"	0 "

Making total of 4 cases and 5 deaths.

COLLECTING OFFAL.

The contracts for collecting offal were given to the same parties that have done the work for several years. Readville district was included this year for the first time and with some few exceptions the work has been satisfactory.

SWINE.

Many complaints come from parties that live in the vicinity of those that keep swine, and few permits have been granted, and those with the understanding that they would be revoked if complaint was made. It is the opinion of the Board that swine should not be kept in the thickly settled portions of the town.

REGULATIONS OF THE BOARD OF HEALTH

OF THE TOWN OF HYDE PARK.

Public Statutes: Chapter 80, Section 18.— The Board of Health of a town shall make such regulations as it judges necessary for the public health and safety, respecting nuisances, sources of filth, and causes of sickness within its town. Whoever violates any such regulation shall forfeit a sum not exceeding one hundred dollars.

In accordance with the foregoing provision of law, this Board makes the following regulations, which will be strictly enforced.

Regulation 1. *Privy Vaults and Drains.* Section 1. Every tenement shall be provided with a water-tight underground drain to carry off the waste waters, also with a suitable privy or water-closet sufficient for the accommodation of all those inhabiting the premises.

Section II. All privy vaults, unless water-tight, shall be so constructed that the inside of the same shall be at least five feet distant

from the line of any adjoining lot or street, and at least twenty feet from any dwelling house, and shall be provided with a ventilation through the roof. The same shall not be used as cesspools nor receive drainage from the premises. Their contents shall not be allowed to leak out or otherwise become offensive. All privy vaults shall be of a size sufficient to satisfy the Board of Health.

Section III. All waste water shall be conveyed through sufficient drains under ground to a cesspool sunk under ground, which shall be of sufficient size to contain at least eighty cubic feet, and when not water-tight must be at least twenty feet from the cellar wall of any tenement or dwelling, and at least five feet distant from any adjoining lot or street. Cesspools shall be built in a thorough and substantial manner as shall be approved by the Board of Health.

Section IV. No person shall allow any drain or the overflow of any cesspool to enter any running stream, or any drain constructed for surface water, and no person shall suffer any house drainage or other offensive water to remain in any cellar, or upon any lot or vacant ground by such person owned or occupied. All privy vaults and cesspools within one hundred and fifty feet of any well or spring, the water of which is used for domestic purposes, must be water-tight.

Section V. All privy vaults or cesspools must be thoroughly cleansed at least once in each year, and oftener if necessary for the public health, the expense to be borne by the owner of the property.

Regulation 2. Section I. The Board, when satisfied upon due examination that a cellar, room, tenement or building in the town occupied as a dwelling place, has become by reason of the number of occupants, want of cleanliness or other cause, unfit for such purpose, and a cause of nuisance or sickness to the occupants or to the public, may issue a notice in writing to such occupants, requiring the premises to be put in proper condition; or if the Board see fit they may require the premises to be vacated, and the same shall not be again occupied without the written permission of the Board.

Section II. No person shall throw or put into any public place or pond, or running stream or body of water, or in any other place where the Board of Health may deem it a nuisance, any dead animal, animal matter, decayed fruit or vegetables, dirt or rubbish whatever; nor shall any person throw into or upon any flats within the jurisdiction of the town, any dead animals, filth or offensive matter.

Regulation 3. *Swill and Offal.* Section I. No person shall remove or carry in or through any of the streets, lanes or avenues, places or alleys within the town of Hyde Park, the contents of any

cesspool, vault or privy well, swill or house offal, (either animal or vegetable,) or grease or bones, unless a permit be granted by the Board of Health upon such terms and conditions as said Board may deem necessary.

Section II. No person shall bury swill or house offal, or the contents of any cesspool, vaults, privy or privy well within the limits of the town of Hyde Park unless a permit be granted by the Board of Health.

Section III. Parties will be licensed by the Board of Health to collect swill and refuse matter from houses in Hyde Park twice a week or oftener, and all housekeepers and others are directed to deliver the same to those duly authorized to make such collections.

Regulation 4. *Diseased Meat and Provisions.* Section I. No person shall bring into the town, keep or offer for sale any diseased, putrid, stale or unwholesome meat, vegetables or provisions.

Regulation 5. *Swine.* Section I. No person will be permitted to keep any swine within the limits of the town of Hyde Park, without a written permit from the Board of Health.

Regulation 6. *Contagious Diseases.* Section 1. Any person sick with the small pox or other contagious disease, together with all persons in attendance upon them, and the premises where such sick person is, will be subject to the control of the Board, and no person shall enter or leave a house wherein a person is or has been sick with the disease, or in any way come in contact with the inmates of such house, except by permission of the Board.

Section II. Whenever the Board of Health shall ascertain that any person is sick with small pox, scarlet fever, diphtheria, or any other disease dangerous to the public health, the Board shall at their discretion, have full control of said person or premises, and shall, if they deem proper, order the premises vacated.

Section 3. All persons are warned not to approach a house or the surrounding premises whereupon is displayed a disease flag by day, or a red light at night.

Section IV. The bodies of all persons dying of small pox, scarlet fever, typhus fever or diphtheria must be immediately disinfected and placed in a tight coffin, which shall not be reopened, and the bed, bed clothing, and other clothing used by any such person, and by those in attendance on him, and all the furnishings of the sick room, thoroughly disinfected before being taken from said room. In the above case no public funeral will be allowed without permission from the Board of Health.

Section V. The owner, or persons having charge of any vehicle,

public or private, used at a funerel in the foregoing cases, to carry the deceased, or any of the family or attendants of the deceased, shall forthwith report the fact to the Board of Health, and shall thoroughly disinfect such vehicle before the same is again used, and take such precaution as the Board of Health shall direct.

Section VI. Any person in the town of Hyde Park, who knows or suspects any domestic animal has contagious disease (such as glanders in horses or cholera in swine) must immediately report the same to the Board of Health. The penalty for neglect to do so is fine or imprisonment. The above is in accordance with the provisions of Chapter 252 of the Acts of 1887.

Regulation 7. Section I. All complaints in relation to nuisances and sources of filth injurious to the public health and safety, must be made in writing to the Board of Health, with a description of said nuisance and of the premises on which it exists, with the owner's name, if known to the complainant. Such complaints must bear the signature of the complainant. Whenever such complaint shall be made as aforesaid, the Board of Health will proceed to examine the premises complained of, and will take measures to abate the nuisance, if such is found to exist.

Regulation 8. Section I. No person, firm or corporation not now engaged in or working at the business of plumbing shall hereafter engage in or work at said business in the town of Hyde Park, either as a master or employing plumber or as a journeyman plumber, unless such person, firm or corporation first receives a license therefor, in accordance with the provisions of Chapter 477 of the Acts of the year 1893 of the Commonwealth of Massachusetts and Acts amendatory thereof, or supplementary thereto.

Section II. Any person desiring to engage in or work at the business of plumbing, either as a master or employing plumber, or as a journeyman plumber, shall apply to the Board of Health and shall at such time and place as may be designated by the board of examiners appointed by the Board of Health, as provided for in said Acts to whom such application shall be referred, be examined as to his qualifications for such business. In the case of a firm or corporation the examination and licensing of any one member of the firm, or the manager of the corporation shall satisfy the requirements of this regulation.

Section III. The board of examiners shall examine said applicants as to their practical knowledge of plumbing, house drainage and plumbing ventilation, and if satisfied of the competency of the applicant shall so certify to the Board of Health.

Said Board will thereupon issue a license to such applicant author-

izing him to engage in or work at the business of plumbing. The fee for a license for a master or employing plumber shall be two dollars, for a journeyman plumber it shall be fifty cents. Said licenses shall be issued annually, expiring on the thirty-first day of May next ensuing, and shall be conditioned on skillful work, and a strict observance of the rules governing plumbing.

Section IV. No person shall carry on the business of plumbing unless he shall have first registered his name and place of business in the office of the Board of Health; and notice of any change in the place of business of a registered plumber shall be immediately given to said Board.

Section V. No person shall proceed to construct, add to, or alter any portion of the drainage system (except to repair leaks) of any building in the town of Hyde Park, until plans showing in detail the whole drainage system, shall have been filed at the office of the Board of Health, upon blanks in such form as the Board may determine; no person shall commence work on such drainage system unti the plans are accepted by the inspector of plumbing and a permit of approval granted. Plans and specifications shall be approved or rejected within five days of the time of the filing.

Rules and regulations for material, construction, etc., may be found in town by-laws.

Fully believing that a large proportion of contagious diseases originate from unsanitary conditions, we trust that we shall have the aid of all citizens and property owners in carrying out the above regulations, which are based on statute laws, and the sanitary rules of our large towns.

For burial permits apply to F. C. Graham, 10 Hyde Park avenue.

		$2,199 80
Balance on hand,		$420 66

We have kept the expenses this year as close as possible. Some of the contracts were taken at less figures than formerly, and owing to the fact that building and repairs have not been carried on quite as extensively as in former years, also not being able to start on the inspection of work as soon as was expected, we are able to report a good balance on hand, and feel sure that with the appropriation of another year the work can be carried on with that degree of success which will compare favorably with other towns.

Respectfully submitted,

J. C. LINCOLN, M. D.,
A. D. HOLMES, M. D.,
EDWIN C. FARWELL,
Board of Health of the Town of Hyde Park, Mass.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

In submitting our annual report, your Trustees respectfully call your attention once again to the pressing need in the near future of larger and better accommodations. It is possible, by adopting, from time to time, as we are, temporary rearrangement of cases and books, to carry on the business of the library a very few years longer in our present quarters, but each year is rapidly exhausting our resources, and each move now detracts somewhat from the efficiceny of the library.

The town has each year voted all money received from dog licenses to the purchase of books, and will no doubt continue this liberal policy. Your Trustees would recommend that in future any unexpended balance of this account each year in the hands of the Treasurer shall be transferred to the Library Fund, which at this time, as noted by the Treasurer's statement, amounts to $6,945.17.

If this policy is adopted, with the rapidly increasing interest added, within a very few years at longest, in connection with a public demonstration that could easily be aroused, a suitable Public Library building can be obtained without any perceptible increase in the tax burden.

The past year has not been an exception to the steadily increasing popularity of the library, as is evidenced by the following facts:

The number of new cards issued was 426.

The total home circulation for the year ending Jan. 1, 1895, has been 34,369.

There were 2,084 magazines and 1,390 books taken out for use in the reading room, besides books of reference,

which are in constant use, and can be obtained at any time without application to the librarian. To this department valuable additions have been made the past year.

The number of volumes added to the library the past year is 550.

The following is a list of donations received:

United States Government	9 volumes
Commonwealth of Massachusetts	25 volumes
United States Government	63 pamphlets
Commonwealth of Massachusetts	2 pamphlets
Smithsonian Institute	1 pamphlet

REPORT OF THE OVERSEERS OF THE POOR.

The report of the year shows but little change. Notwithstanding the hard times, the number of persons receiving out-door relief has decreased, as compared with last year. Some families have become self-supporting, and there are but few new names on the list of those regularly relieved. Nothing tends more to degrade and pauperize than too liberal giving, and it is important that an effort should be made to obtain an equivalent for all beyond the bare necessaries of life, and even these should be given only after careful investigation, and with constant oversight. The insane now number eight, and there seems little prospect of any decrease in this list. The tramp nuisance shows an abatement of about twenty-five per cent., which is doubtless due to the new police regulation requiring the detention of the wayfarers in the lockup until 11 o'clock in the morning. In this connection, the Overseers desire to enter their protest against the present condition of the quarters provided for lodgers. Accommodations for tramps should not be in connection with the lockup. for sanitary reasons alone; and the Overseers heartily endorse the recommendations incorporated in the report of the Chief of Police, advising separate quarters for those who seek lodgings for the night.

POLICE REPORT.

To the Honorable Board of Selectmen:

Gentlemen—I respectfully submit herewith the annual report of this department for the year ending Jan. 31, 1895:

Whole number of persons arrested,		185
Males,	174	
Females,	11	

CAUSES FOR ARREST.

Drunkeness (simple),		45
Drunkeness (common),		10
Disturbance of the peace,		43
Assault,		15
Vagrancy,		19
Breaking, entering and larceny,		8
Cruelty to animals,		2
Malicious mischief,		4
Larceny,		5
Assault with intent to kill,		5
Assault on officer,		1
Stubborn child,		1
Embezzlement,		2
Desertion from army,		1
Adultery,		1
Bastardy,		2
Violation of liquor law,		7
Gambling,		1
Escaped prisoner from Westboro',		1
Keeping unlicensed dog,		3
Insane,		5
Other offences,		4
		185

MISCELLANEOUS.

Cases investigated without arrest,	246
Stores found open at night,	22

Search warrants for intoxicating liquors,		6
Lost children restored,		3
Amount of fines imposed by court,	$1,104 00	
Number of persons fined,		84
Amount of imprisonment imposed by court,	20 years, 5 months.	

FINAL DISPOSITION OF CASES.

Committed to House of Correction,	79	
Committed to State Prison,	1	
Committed to Concord Reformatory,	3	
Committed to Lyman School Westboro'	1	
Committed to Insane Asylum,	7	
Taken by State Board of Lunacy and Charity,	1	
Turned over to U. S. military authorities,	1	
Let off on payment of fine,	53	
Let off on probation,	36	
Awaiting disposition of Superior Court,	3	
		185

Entering upon the duties of this office April 1, 1894, I found the following property, viz.: Seven police badges, 1 pair handcuffs, 1 pair twisters, 13 chairs, 2 lanterns, 1 criminal record book, 1 desk (in poor order), 2 lockup keys. There have been added during the year: One roll-top desk, 1 criminal record book (to replace one filled up), 1 short club, 3 long clubs and belts, 3 38-calibre revolvers, 3 badges, 12 lockup keys. Considerable property has been recovered during the year, and the total is enumerated below, viz.: Forty badges, 4 pairs handcuffs, 3 pairs twisters, 2 short clubs, 3 long clubs and belts, 22 lockup keys, 4 revolvers (1 useless), 2 desks, 2 criminal record books, 2 lanterns, 8 chairs. A record of all town police property in the hands of the regular and special officers is on file in this office.

Regular officers are equipped with winter and summer uniforms, and six special officers are equipped with summer uniforms.

The police headquarters have been thoroughly renovated and painted, and the office has been equipped with an

electrical signal showing when a telephone call has been made during the absence of officers from the headquarters. When in use at night, a call upon the telephone displays a red light upon Odd Fellows' Hall, which is visible from the Old Colony Railroad Bridge and from near the New England Railroad Crossing. Trouble at any point in town connected by telephone can in a very few minutes be communicated to the night officers by this device. The citizens are invited to avail themselves of its usefulness.

The lockup has been put in as good order as consistent under existing conditions. The old wooden bunks in the cells have been torn out and burned, and the walls and floors freed from vermin. Iron bedsteads with new mattresses have been substituted. The room in front of the cells has been used for many years as a lodging place for tramps, very much to the annoyance of the officers in the discharge of their duties. During the financial year ending Jan. 31, 1894, 4,731 travellers were cared for. During the year ending Jan. 31, 1895, 3,411 were cared for, a decrease of 1,320. This large decrease is probably caused to a great extent by the adoption of a rule by which the tramps are kept in confinement until 11 A. M. each day.

I would recommend that the unused hose house on Thatcher street be moved to the engine house lot and fitted up as a lodging place for tramps, thus placing at the disposal of the Overseers of the Poor a suitable place, as provided by law, and relieve the Police Department from a burden and a duty not belonging to it, and enable it to provide a lockup free from stench or vermin, and a safe place for the custody of prisoners. Several attempts have been made by tramps during the past year to liberate prisoners confined in the cells, but fortunately without success. This recommendation can be carried out at a small expense, and will save a further outlay for several years.

During the past Summer and Fall three special officers

have been on duty Saturday nights and Sundays in the Clarendon Hill, Fairmount and Corriganville and Everett Square districts. There has also been a special officer in the Square every night until 10 : 30 P. M. Since Dec. 1, 1894, there have been two officers on the Central District all night.

There has been a great many calls for officers during the year to protect private interests, for which the parties having them have paid the expenses.

The large number of complaints made to this department which have been investigated without arrest attests the great amount of work done unknown to the general public. Attention has been given to all complaints, and assistance rendered whenever possible.

The introduction of the electric railroad has very largely increased the duties of the officers, and it is but fair to presume that the travel over the roads during the coming months will prove the need of an increase in the police force. I would earnestly recommend that the permanent force be increased by two additional officers, one for day and one for night service.

In conclusion, permit me to extend to the Board of Selectmen my grateful appreciation for their uniform courtesy and coöperation, and also to the citizens generally for their generous support during the first year of my official efforts.

JAMES McKAY,
Chief of Police and Keeper of Lockup.

REPORT OF THE BOARD OF ENGINEERS.

To the Board of Selectmen:

Gentlemen: We present herewith our report of this department for the year ending Jan, 31st 1894.

The hose house at Readville has been enlarged, giving a room for the men to hold their meetings, and a stall where a member of the company keeps his horse nights, and in the daytime when not using it, by which arrangement the company is enabled to make much better time in getting out, than in the past.

800 feet of hose was bought in April last and was put in service. 1000 feet are needed this year to replace hose which have been in use for several years, and would not safely stand the hydrant pressure.

The fire alarm has been extended, by adding 10 boxes requiring 4 miles more line wire and an increased battery, at a cost of $900, giving 28 street boxes and 1 special box in Central Station from hich all numbers can be rung.

The boxes are located so as to cover all parts of the town as well as can be done.

During the year there have been 26 alarms rung in and 3 still alarms, being nearly twice as many as last year.

The room occupied in the basement of the Central Station by the Police Department takes up more than half of the room which is needed by this department. There is not room enough to care for our hose properly, especially in winter when the hose is frozen and very hard to handle, as we found after the fire in the Damon schoolhouse, when we had nearly 3000 feet of wet and icy hose to care for. We earnestly hope this condition can be changed by taking the lockup out of the premises of the Fire Department

Last spring the Town authorized the Selectmen to contract for 16 additional hydrants. The Selectmen were unable to come to any agreement with the Water Company, consequently the hydrants were not put in.

We have the same opinion as a year ago, that the hydrants are a necessity, for better protection against destructive fires, in certain localities, especially in that section between Milton and the Trotting Park, which is without a hydrant except on the corner of Central Park avenue and Milton street.

The cost of horses for hauling the apparatus to fires has been $603.50 for the year, double the amount for last year. The Board are of the opinion that horses should be placed in the Central Station, at least 2 pair. There would be no expense for harness as every piece of apparatus has swinging harnesses.

We have increased the membership of the department by adding 7 men, making the membership, 3 engineers, 44 men, Superintendent of fire alarm and Steward of the Central House, 48 in all.

CEMETERY COMMISSIONERS' REPORT.

The Cemetery Commissioners submit their third annual report for the financial year ending Jan. 31, 1895. They have received $9,267.98, as follows :

Sale of lots,	$1,975 00	
Single grave,	120 00	
Interment and receiving tomb charges,	229 00	
Foundation for monuments,	91 25	
Sale of wood,	49 75	
Balance from last year,	802 98	
Total,	$3,267 98	
Appropriation,	6,000 00	
		$9,267 98
Expense, labor, etc.,	$5,587 73	
Paid Town Treasurer for lots and single graves,	2,095 00	
Paid for land,	626 00	
		$8,338 73
Balance on hand,		$959 25

For detailed statement of Receipts and Expenditures, see financial statement accompanying this report.

The past year the commissioners have completed the Receiving Tomb, and believe they have one which is exactly suited to the present and future needs of the town. They have built parts of Fairview drive, Aspen and Poplar avenues, as well as Magnolia, Laurel, Linden and Hyacinth paths, and graded a large plot for single graves. They have been instructed by the town to set apart a portion of the Cemetery for the use of the Catholic citizens, which they have done, and by the Spring they will have ready for use in this part of the Cemetery fifty lots, with avenues and paths graded to these lots.

By the additional work done the past year on the avenues and paths in the older part of the Cemetery, they have been able to grade many lots, and they have sixty-five ready for sale. The town voted to give them the right to buy intervening lots for cemetery purposes, and during the past year they have purchased land from George A. Rowe and others, Dennis Mahoney and Jennie Swan. The Commissioners think it would be for the best interests of the town to finish Aspen Avenue, on which the plot for single graves is situated. When completed, it will join Fairview Drive. They also advise the continuance of Fairview Drive to Elm Avenue, so that it will connect with White Oak Avenue, thus making a drive through the Cemetery.

To make these improvements, together with the other necessary expenses, the Commissioners recommend an appropriation of $2,000 by the town.

GEORGE M. RICE,
GEORGE E. WHITING,
CHARLES F. JENNEY,
Commissioners.

Hyde Park, Feb. 1, 1895.

SECOND ANNUAL REPORT OF PARK COMMISSIONERS.

For the same reasons as given last year, we recommend an appropriation of $2,000, for Park purposes.

In our first annual report we stated that the Metropolitan Park Commissioners had voted to take Stony Brook Reservation and that probably the exact lines would be defined before our report was in print. While this statement was upon the best authority, yet the Board, entering upon its duties this year were destined to meet the opposition of a strong, interested influence, against all the outlines at the time proposed by the Metropolitan Commission. All previous plans had taken some part of Grew's Woods bordering on West street, between the corner of Austin street and the Boston line.

The beautiful pine grove, north of Mr. Homan's house was included in one plan. We are informed that only a few years ago this grove was sold at a small price per acre. But we understand that it was represented to the Metropolitan Commission that this land was all very valuable for house lots and would be very expensive. Of course, if this land is on the border of an improved Park, it does become valuable. In other words, if Stony Brook Reservation is cleared of underbrush, roads built and the public become better acquainted with the beauties of this locality, land just outside the park and opened up by park ways will be greatly enhanced in value.

Other towns discovering that it was not known how the cost would be assessed, that the assessment was just as liable to be upon the valuation of all the towns and cities in

the Metropolitan district, as upon the benefit received by each municipality and also waking up to the importance of such a permanent improvement as a park, became sharp rivals and urged the advantage to the public of taking certain land in their vicinity and in furtherance of their ideas in some cases offered to give money and land. Their arguments were good. When some urged the advantgage of taking beach land where so many of our people delight to go in summer, these arguments became dangerous to our interests. There was a time when a combination of owners interested to keep sufficient lands on the borders where it is supposed roads will be built, and of rivals wisely anxious to secure parks in their midst seemed likely to prove us to be false prophets, and to absolutely prevent our securing any Metropolitan Park in our town. We discovered that eternal vigilance is the price of a park as well as the price of liberty.

However, on June 25th we were informed officially that Stony Brook Reservation had been taken by the Metropolitan Commission, and that we must assent to or reject their taking at once.

While we can recommend and advocate the selection of desirable locations, we have only the veto power when land is taken by the Metropolitan Commission. We cannot change lines nor accept a part, but must either accept or reject the whole.

Our chairman, Col. Bachelder, was away and the feeling of the other members of the Board are expressed by the following resolutions copied from our records.

Whereas we were this day (June 25,) at about two o'clock p. m., informed by the Secretary of the Metropolitan Park Commission that unless we assent to the taking of Stony Brook Reservation as outlined by it, and upon a plan never before seen by any member of our Board, so that such assent may be recorded at Dedham on the 27th inst., that the

taking by it in the town of Hyde Park would become void and of no effect, and that the money to be used therefor would be applied to the purchase of park land in another town and

Whereas it leaves us no time to appeal to the Metropolitan Board, to have a conference and suggest needed changes, now therefore

Resolved, that we are of opinion that other land in our town ought to be added to Stony Brook Reservation and we protest against the method of giving us virtually one day only to consider this important question and no opportunity to consult with them, and that too after a radical change was made in the lines originally proposed by the Metropolitan Park Commission.

Resolved, that we assent under protest, rather than run the chance of losing the Metropolitan Park in our town.

Mr. Enneking was authorized to appear before the Metropolitan Commission to point out some of the mistakes made and urge needed changes.

Oct. 15th while Mr. Enneking was on his vacation an amended plan was presented to the board which merely connected certain lines and made one or two of the changes suggested by us, and to this we also assented. The Metropolitan Reservation contains four hundred and seventy five acres, two hundred and eighty five acres of which are in Hyde Park.

Land has already been taken and at no distant day a park way will connect this Reservation with the Arnold Aboretum and one can then drive from Hyde Park to Boston Common, all the way in a park or on a park way. Before many years a park way will also connect this Reservation with Blue Hills. While we have not obtained everything we desired or hoped, yet we have secured substantially all that was requisite.

A connection, in Hyde Park, with West street is very desirable, and we were especially anxious to add the pine grove before referred to, as it would be directly on the

shore of the old Mill Pond, of which the Smith Ice Pond forms a part. Few realize what a beautiful lake, at small cost, may here be developed.

But on the whole we feel like congratulating the town upon securing this magnificent park with its grand possibilities of beauty and future developement.

By the wise action of our town in adopting at an early date the Park Act and electing a Board of Commissioners to look out for her interest, we are now in a position to congratulate ourselves while neighboring towns which were less active begin to fear they have lost their opportunity.

The Metropolitan Commission has not yet determined any of the interior roads or paths in this Reservation, but there will be a road on the outside boundary from Washington street, in Boston to River street in Hyde Park, which will probably be constructed the coming year, but not in an expensive manner. The woods will be cleared of dead limbs and debris, but no other changes or improvements are likely to be made in the immediate future.

The Park Commissioners of Dedham are anxious to secure a park way from their town to be connected with the park way to be built in Stony Brook Reservation and thus with Hyde Park. This necessitates the taking of more land, a part of which is in our town. We do not expect the Metropolitan Commission to take any more land in this vicinity out of their present appropriations, but if the abuttors on the proposed way are alive to their own financial interests they will offer to give the land for such a way, as it will make their remaining land more valuable. The plan is an excellent one and of mutual advantage to both towns, though doubtless of more importance to Dedham than to Hyde Park.

The advantages of a park way along Stony Brook connecting Franklin Park with Hyde Park at West street near Austin were presented to our Board. Upon investigation

it appeared so desirable that we voted to request the Boston Park Commission to name a time and place for a conference to consider the question.

They replied that such a meeting at this time would be of little use, as owing to the lack of funds their Board could not now consider the matter.

This subject is of importance, not only locally, but from the Metropolitan standpoint.

To transfer Stony Brook from private to public control and keep it from pollution would be wise, if not a necessary sanitary precaution.

By a succession of dams, beautiful ponds could be constructed for skating and boating.

At the present time the land along the proposed route can be purchased at so reasonable a price, many abuttors being willing to give it outright, that it seems to us immediate action ought to be taken to secure that part of Stony Brook not now under control of the Metropolitan Commission, or of the city of Boston, but it is only by joint action that any thing can be accomplished.

On Dec. 22nd, we were pained to learn of the death of our Chairman, John B. Bachelder. The Board called a meeting and adopted the following resolutions:

Whereas, in God's appointed time and in the fullness of years, death has cut down our chairman and our friend John B. Bachelder, therefore

Resolved, that in his death our Committee lose a wise and enthusiastic member, our town an upright, progressive citizen, who was ever ready to plan for its development and improvement, and our country a man of foresight and perseverance, grandly successful in his life work, the perpetuating by picture story and marble, historic memories of patriotism, valor and heroism at Gettysburg.

JOHN J. ENNEKING, Chairman,
WILBUR H. POWERS, Secretary.

DETAILED STATEMENT OF EXPENDITURES.

INCIDENTALS.

Paid Henry A. Rich, rent of town offices,	$812 50
Henry A. Rich, rent of Waverly Hall,	30 00
Y. M. C. A., rent of hall,	131 50

AUDITORS' REPORT.

In compliance with the By-laws of the Town the undersigned have examined the accounts of the Selectmen, School Committee, Collector of Taxes, Town Treasurer, Commissioners of Sinking Fund, Trustees of the Public Library, Overseers of the Poor, and Board of Health, and hereby certify that the same are correct, and all payments accompained by proper vouchers.

WALLACE D. LOVELL,
ASA J. ADAMS,
WALLACE M. RHODES,
Auditors.

BY-LAWS.

NOTIFICATION OF TOWN MEETING.

Every town meeting shall be notified by posting copies of the warrant calling the same, in ten public places in the town, seven days, at least, before the day appointed for said meeting.

ANNUAL TOWN MEETINGS.

The annual town meeting for the election of town officers shall be held on the first Monday of March of each year. The meeting shall be opened at seven o'clock A. M., and the polls shall be kept open until sunset.

A town meeting shall also be held annually between the first Monday of March and the first Monday of April, for appropriating such sums of money as may be necessary for town purposes, and for transacting such other business as may legally be brought before said meeting.

RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

1.—All questions submitted for the consideration of the town, involving the expenditure of money, shall be in writing, when so required by any legal voter.

2.—No vote fixing the period for closing a ballot shall be reconsidered after such ballot shall have commenced; but it may be in order to extend the period without such reconsideration.

3.—When a question is under debate, motions shall be received to adjourn, to lay on the table, the previous question, to postpone to a certain time, to postpone indefinitely, to commit, or to amend; which several motions shall have precedence in the order in which they are herein arranged.

4.—The powers and duties of the presiding officer, not especially provided for by law, or by the foregoing rules, shall be determined by the rules of practice contained in "Cushing's Manual," so far as they are adapted to the condition and powers of the town.

5.—No vote shall be reconsidered except upon a motion made within one hour after such vote has passed, unless such reconsideration is ordered by a vote of two-thirds of the voters present and voting

FINANCIAL YEAR.

The financial year of the town shall begin with the first day of February in each year, and end on the thirty-first day of the following January.

The selectmen, overseers of the poor, board of health, surveyors of highways, and school committee shall post in some conspicuous place at their official rooms, a notice of the times of their respective meetings.

COLLECTION OF TAXES.

1.—The assessment of taxes shall be completed, and a list of the same delivered to the collector, on or before the first day of August of each year.

2.—All taxes which may be assessed, if paid on or before the first day of October next after the assessment, shall be entitled to such discount as the town shall vote at its annual meeting. All taxes shall be due and payable on or before the first day of November next following the assessment of said taxes.

3.—On the first secular day of each month, the collector shall pay over to the town treasurer all the taxes collected by him, and he shall, on or before the first day of February in each year, make up his account and render the same to the auditors.

DUTIES OF THE AUDITORS.

1.—The auditors shall examine the accounts of the selectmen, school committee, treasurer, collector, trustees of the public library, and all other officers or committees entrusted with the expenditure of money, quarterly, and shall certify as to the correctness of the same in the printed annual report.

2.—Before certifying to the accounts of the treasurer, they shall examine his cash-book, wherein shall be entered his receipts and payments, as they occur from day to day, shall see that he has paid out no moneys except on proper vouchers, carefully examine all payments for interest, and see that the funds on hand are intact.

3.—Before certifying to the collector's accounts, they shall examine his cash-book, showing the amounts collected from day to day, and showing when the same were paid over to the treasurer; shall see that he has collected interest on all taxes overdue, and shall see a complete list of abatements, and also a list of unpaid taxes.

4.—They shall see that the accounts of the trustees of the public library are kept in a correct manner, and that all payments are accompanied with proper vouchers.

COASTING.

Coasting on any of the public streets of the town is prohibited, except upon such streets as the selectmen may designate each year by public notice.

HIGHWAY AND POLICE REGULATIONS.

1.—No building shall be removed over a public street without the written permission of the selectmen.

2.—The owner of such building, or the person or persons removing the same, shall give a bond in such penal sum, and with such sure ties as the selectmen shall determine, with condition to reimburse the town for all sums of money which it may be liable or compelled to pay in consequence of such use of the highways.

3.—No person except the selectmen or the surveyors of highways, in the lawful performance of their duties, or those acting under their orders, shall break or dig up the ground in any street or public way in the town, without first obtaining a written permit from the selectmen; and all persons acting under such permit shall put up and maintain a suitable railing or fence around the part of the street so broken up, so long as the same shall remain unsafe or inconvenient for travellers, and he or they shall keep one or more lighted lanterns fixed to such railing or fence, or in some other way exposed every night from twilight in the evening through the whole night, so long as such street or way shall be or remain unsafe or inconvenient for travellers.

4.—No person shall ride or drive a horse in any street in the town at a rate faster than eight miles an hour.

5.—No person shall, without the written consent of the selectmen, play at any game in which a ball of any kind is used, or fly a kite, or throw or shoot stones, arrows, balls, snow balls, or other missiles, or discharge any gun, cannon, or firearm, or make any bonfire or other fires in any street or way where the public have a right to pass.

6.—No person shall propel, drive, wheel or draw any bicycle, tricycle, cart or vehicle of any kind whatsoever except a child's carriage drawn by hand, nor use roller skates upon or over any sidewalk in this town, nor permit nor suffer any horse, cattle, swine or sheep, belonging to him or under his care or keeping, to go upon or over the same, nor suffer any horse to remain hitched across, or upon, or otherwise obstruct or injure, any such sidewalk.

7.—No person shall hitch or fasten any horse to any ornamental tree standing or growing on or near any sidewalk, or to the boxing or guard about said tree, without the consent of the owner thereof.

8.—No person shall without a written license from the selectmen place or cause to be placed, or suffer to remain within the limits of a street or upon any sidewalk, so as in any manner to obstruct the travel thereon, any vehicle, wood, coal, manure, dirt, gravel, stones, building material, barrels, boxes, merchandise, or any rubbish or obstruction whatever.

9.—No person shall carry in a public street, house-offal, either animal or vegetable, or grease, or bones, or the contents of cesspools or vaults, unless he has been expressly licensed therefor by the Board of Health, upon such terms and conditions as said board may deem that the health and interests of the town require.

10.—Loud crying of wares or merchandise, or hallooing, hooting or making loud and unseemly noises on the public streets or squares of the town, to the annoyance of the citizens, is prohibited.

11.—No person shall behave in a rude, indecent or disorderly manner, or use profane, indecent, or insulting language, in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, or be or remain upon any sidewalk, street, or crossing, or about doorways or places of business, to the annoyance or disturbance of any person.

12.—Three or more persons shall not continue to stand or remain in a group or near to each other, on any sidewalk or street or crossing, or in any public place, in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on.

13.—No person shall be or remain in any doorway, or upon any stairs, doorstep, portico or other projection from any house or building, or upon any wall or fence on or near any street or public place, after having been requested by the owner or any occupant of the premises or by any constable or police officer to remove therefrom.

14.—No person shall make any indecent figures, or write, print, paint, or cut any obscene word or words upon, or deface, break or injure in any manner, any fence, post, sign, street lantern, building or structure; or commit a nuisance upon any sidewalk or other place resorted to by the public, or against any tree, building or structure adjoining a sidewalk.

15.—No person shall extinguish any street light, or extinguish or remove any light placed to denote an obstruction or a defect in any street or way, without proper authority.

16.—No person shall swim or bathe in any of the waters within the limits of this town, so as to be exposed in a nude state, to the view of any person passing or being upon any railroad or street or in any dwelling-house in this town.

17.—No person shall intermeddle with any hydrant, gate, gate-box or water pipe placed or located within the limits of any public way in this town, without permission from the selectmen or the Hyde Park Water Company.

PASTURING OF CATTLE OR OTHER ANIMALS ON STREETS OR WAYS.

No person shall pasture any cattle, goat or other animal upon any street or public way in said town, either with or without a keeper, except within the limits of such way adjoining his own premises, and field drivers are instructed to enforce this by-law.

TRUANTS.

1.—This town hereby avails itself of the several provisions of the statutes of this commonwealth, now in force, relating to habitual truants and absentees from school.

2.—All children convicted of habitual truancy hereunder, and children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, may be committed to the Lawrence Industrial School, at Lawrence, Mass., or to any house of reformation which has been or may hereafter be established by the County Commissioners of the County of Norfolk, or to any place provided by this town within its limits, for confinement, instruction and discipline.

3.—Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws, and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

4.—It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant, or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satis-

factory pledges for the restraint and reformation of the child, he may, at his discretion, forbear to prosecute so long as such pledges are faithfully kept.

5.—It shall be the duty of the School Committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

6.—It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the School Committee, who shall publish the same with their own report.

7.—Nothing in these by-laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

LIST OF TAX-PAYERS.

The names of all persons paying a tax on real or personal property shall be published annually in the town reports, together with the amount of tax assessed upon each, and whether the same is paid or unpaid.

DUTIES OF TOWN CLERK.

The Town Clerk shall keep a file of all town reports, reports of all committees chosen by the town, and all original documents relating to the affairs of the town which may come into his possession; he shall, as soon as practicable after any election has been held by the town, in addition to the notices he is now directed to give to officers who are required to take an oath of office, also issue a written or printed notice to all persons who have been elected to any other office, or chosen to serve on any other committee, stating the office to which such person has been elected, or the duties which such committee was chosen to perform.

CONTRACTS MADE IN BEHALF OF THE TOWN.

Every contract exceeding one thousand dollars shall be accompanied by a suitable bond for the performance of the same, or by the deposit of money or security to the amount of such bond.

ACTIONS AT LAW.

The selectmen shall have full authority, as agents of the town, to employ counsel to institute and prosecute suits in the name of the town, and appear for and defend suits brought against it, unless otherwise specially ordered by a vote of the town.

CONVEYANCING.

Whenever it shall be necessary to execute any deed conveying land, or any other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority of them, in behalf of the town, unless the town shall otherwise vote in any special case.

BY-LAWS IN RELATION TO THE PREVENTION OF FIRES.

1.—It shall be the duty of every person who shall commence the erection of any building within the town of Hyde Park to notify the Board of Engineers thereof before he shall commence building the chimneys therein.

2.—All chimneys in wooden buildings shall be built of brick, stone, or other fire-proof non-conducting material. All brick flues shall be smoothly plastered *inside* with mortar from top to bottom or lined with earthen pipe, and shall be plastered *outside below the roofing*.

3.—In no case shall chimneys rest upon any flooring without a footing of masonry or iron supported by iron beams, having a secure bearing of masonry or iron at either end.

4.—All flues shall be topped out at least four feet above the roof of the building to which they belong. The brick topping out of chimneys shall not have more than two inches projection unless covered by a cap of metal or stone properly secured.

5.—Hearths of fireplaces or grates shall be laid upon brick or other trimmer arches, or upon bars of iron supporting a bed of brick-work.

6.—No wood-work of any kind shall be placed at a less distance than one inch from the outside brick-work of any flue. In no case shall a nail be driven into the masonry of any flue.

7.—No wood-work shall be placed at a less distance than one inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes shall be cased with metal, leaving a free circulation of air all around the same.

8.—No smoke pipe in any such wooden or frame building shall hereafter enter any flue unless the said pipe shall be at least twelve inches from either the floors or ceiling; and in all cases where smoke pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by either a

double collar of metal, with at least four inches of air space and holes for ventilation or by a soap-stone ring, not less than three inches in thickness and extending through the partition.

9.—The Board of Engineers shall examine into all shops and other places where shavings or other combustible material may be deposited or collected, and at all times be vigilant in the removal of the same, whenever, in the opinion of a majority of them, the same may be dangerous to the security of the town from fires; and direct the owner, tenant, or occupant of said shops, or other places, to remove the same; and in case such owner, tenant or occupant, refuses or neglects so to do, shall cause the same to be removed at the expense of such owner, tenant or occupant.

10.—It shall also be the duty of said engineers to take cognizance of all buildings in the town in which any steam engine shall be used, and of all buildings in town in process of erection or alteration, and to make a record of such buildings as in their judgment may from any cause be dangerous, and report the same to the selectmen forthwith. And whenever in the opinion of the majority of the Board of Engineers, any chimney, hearth, oven, stove, stovepipe, fire-frame or other fixtures, or any camphene or other explosive or inflammable fluid or material, or whatever else may give just cause for alarm, should be altered, repaired or removed, they, the said engineers, shall forthwith notify and direct the owner, tenant, or occupant of the premises upon which the same are situated, to alter, repair or remove the same, as the said engineers shall direct. And in case such tenant, owner or occupant shall refuse or neglect so to do, the said engineers shall cause the same to be removed, altered or repaired at the expense of such owner, tenant or occupant. And any person who shall obstruct the engineers, or any of them, in carrying out the provisions of this section, shall be liable to the penalty hereinafter stated.

11.—The removal, extension or essential alteration of any building; also the rebuilding or repairing of any building which has been partially destroyed by fire, shall be subject to the same restrictions as are imposed by the foregoing By-laws on the erection of buildings.

PUBLICATION OF BY-LAWS.

The Selectmen shall publish these By-laws annually in connection with the town report.

PENALTIES UNDER THE BY-LAWS.

Every violation of any of the foregoing By-laws shall be punished by a fine of not less than one dollar nor more than twenty dollars, to be recovered by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

PROSECUTION UNDER THE BY-LAWS.

Any citizen may, and the selectmen, constables, and police officers shall, prosecute every violation of the foregoing By-laws, by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

LIMITATION OF ACTIONS.

No person shall be prosecuted or tried for any breach of the provisions of any By-laws of this town, unless the complaint for the same shall be instituted and commenced within six months from the time of committing such breach.

All By-laws or parts of By-laws of this town heretofore existing are hereby repealed, and these By-laws of the town of Hyde Park shall go into effect from and after their adoption by the town and their approval by the Superior Court or any Justice thereof.

Commonwealth of Massachusetts. *Norfolk, SS.*

HYDE PARK, November 17, 1886.

At a meeting of the legal voters of said town of Hyde Park, held in Everett Hall, on Wednesday, the seventeenth day of November, in the year of our Lord eighteen hundred and eighty-six, the foregoing By-laws were adopted by said town.

Attest:

HENRY B. TERRY, *Town Clerk.*

Commonwealth of Massachusetts. *Norfolk, SS.*

SUPERIOR COURT, December Sitting, 1886, to wit: January 26, 1887.

The foregoing By-laws are hereby approved.

By the Court.

ERASTUS WORTHINGTON, *Clerk.*

True copies Attest:

ERASTUS WORTHINGTON, *Clerk*

BY-LAWS

Prescribing Rules and Regulations for the materials, construction, alteration and inspection of all pipes, tanks, faucets, valves and other fixtures, by and through which waste water or sewage is used and carried, in any building within the limits of the town of Hyde Park, Massachusetts, prepared in accordance with the provisions of Chapter 477 of the Acts of the year 1893, and Chapter 455 of the Acts of the year 1894 of the Commonwealth of Massachusetts.

Section 1. The plumbing of every building shall be separately and independently connected with a proper cesspool

Section 2. Pipes and other fixtures shall not be covered or concealed from view until approved by the inspector of plumbing appointed by the Board of Health, who shall examine same within two working days after notice that they are ready for inspection.

Section 3. Plumbing work shall not be used unless the same has first been tested in the presence of the inspector with the water test, or if that is not practical, with the peppermint or other reliable test, and approved by him in writing. All soil and drain pipes must be in position before the test is made, otherwise the work will not be approved. The practicability of any test will in all cases be decided by the inspector.

Section 4. Drain and connecting ventilating pipes shall be of sufficient size and made of cast iron within the building, and for a distance of at least ten feet outside, except that lead pipes may be used for short connections exposed to view. Such pipes shall be of uniform thickness throughout, and shall have an average weight not less than below specified, viz:—

2 inch pipe	5 1-2 lb. per ft.
3 inch pipe	9 1-2 lb. per ft.
4 inch pipe	13 lb. per ft.
5 inch pipe	17 lb. per ft.
6 inch pipe	20 lb. per ft.

Drain pipes shall be properly secured by irons to the walls, laid in trenches to uniform grade, or suspended to floor timbors by strong

iron hangers. Every drain pipe shall be supplied with a suitable trap with brass cleanout screw and connected with Y branch, also provided with brass cleanout between all fixtures, connections, etc , and cesspool or vaults, and inside as near to cellar wall as practicable where it leaves the building, and shall have a proper fall. Changes in direction shall be made with curved pipes, and all connections with horizontal or vertical pipes shall be made with Y branches. All drain pipes shall be exposed to sight where practicable within the building, and shall not be exposed to pressure where they pass through walls, and in no case to be carried in plastered partitions unless provided with removable covers on wall. Every part of every drain pipe below a cellar floor shall be laid in a brick trench with a concrete base and shall be accessible through sufficient unattached covers.

Section 5. Whenever rain water conductors are connected with any pipe of the drainage system of the house, that portion within the house or underground shall be of cast iron pipe with lead joints, and in all cases provided with an extra deep trap where it enters house drain. No rain water conductor shall be used as a soil pipe.

Section 6. Iron pipes used in plumbing shall, before being put in place, be first tested by the water or kerosene test, and then coated inside and outside with coal tar pitch applied hot, or with paint or with some equivalent substance. Joints shall be run full with Molten lead, and thoroughly calked and made tight. Connections of lead pipes with iron pipes shall be made with brass ferrules properly soldered and calked to the iron. Every joint in earthen pipe shall be made in hydraulic cement, care being taken that the inside and outside of the joints and of the pipe is properly cleaned out before connection is made with the house. Every joint in lead pipe shall made of solder, and wiped joints are to be used where practiable. No paint or putty is to be used on joints until they have been tested.

Section 7. The waste pipe of each and every sink, basin, bath tub, water closet, slop hopper and of each set of trays or other fixtures shall be furnished with a separate trap, except that one five inch trap may be used for a bath tub and a bowl, or for a sink and set of wash trays provided the length of waste pipe from the fixtures does not exceed three feet. Traps shall be placed as close to the fixtures as practicable and shall be protected from siphonage or air pressure by special cast iron air pipes of a size not less than the waste pipes they serve, placed outside or below the trap as near the crown of the trap as practicable. No trap vents shall be connected with earthen ware. Lead air pipes may be used where they are exposed to view. All round traps must have cleanout screws below the water line.

Air pipes for water closet traps shall be of two inch bore if thirty feet or less in length, and of three-inch bore if more than thirty feet in length. Air pipes shall be run as direct as practicable. Two or more air pipes may be connected together or with a drain pipe, but in every case of connection with a drain pipe, such connection shall be above the upper fixture of the building.

SECTION 8. Drip or overflow pipes from safes under water closets and other fixtures or from tanks or cisterns, shall be run to some place in open sight and in no case shall any such pipe be connected directly with a drain pipe.

No waste pipe from a refrigerator or other receptical in which provisions are stored shall be connected with a drain pipe or other waste pipe.

SECTION 9. Every water closet, or line of water closets, on the same floor, shall be supplied with water from a tank or cistern, and shall have a flushing pipe of not less than one inch in diameter; but this requirement shall not apply to water closets substituted for vaults where the same are located outside of the building proper, and such water closets may be arranged so as to receive their supply directly from the main with proper fixtures approved by the inspector, the water company and the Board of Health. No fixture, as a slop hopper, etc., shall be set up unless it is provided with proper means for flushing.

SECTION 10. No steam exhaust shall be connected with any soil or waste pipe.

SECTION 11. Water pipes from traps shall equal or exceed in area of cross section the sum of areas of pipe entering sewer from fixtures, as inspector shall direct.

The foregoing by-laws relating to plumbing, were adopted by the town, Nov. 28, 1894, and were approved by the Superior Court for the County of Norfolk, Jan. 22, 1895.

Attest:

HENRY B. TERRY, Town Clerk.

REPORT OF THE SCHOOL COMMITTEE.

To the Citizens of Hyde Park:

Early in the history of this country, our ancestors found it necessary for the proper protection of the rights of persons and property, to use a good degree of intelligence in the management of their public concerns. So essential did they find the use of wisdom that the question of properly training their children for the duties which must in after years devolve upon them, came early and forcibly to their attention, and demanded their immediate action. It was a matter that could not be left for the next, or any succeeding generation.

This problem was solved by the establishment of public schools, wherein all children could be properly trained and fitted to intelligently assume the direction of public affairs at the proper time. For two hundred and fifty years this system with modifications made necessary by the increase of numbers, and the complication of demands upon individuals by scientific and industrial development, has held its sway. The urgency for each generation to prepare its successor for intelligent control of affairs has never abated, but rather increased as the country has broadened and developed in civilization and resources; and now it has fallen upon us to see that the next generation does not fall below that degree of intelligence required to maintain during its time a government by the people.

During the past year these matters have received the attention of this committee. In the performance of this duty laid upon us by your confidence, we have found that there are two elements which require constant care and the exer-

cise of a wise discretion; and a mistake in either one is quick to touch the people who support by taxes the schools in our charge.

The first is the kind and quality of instruction to be given; and second, the fair ability of the community to meet the expense of school training. It is a matter of no small moment, at the present time, to decide just how far the public schools are to be used in behalf of all demands that may be made upon the future men and women of the community. Each new development in science bringing new industrial pursuits is made the basis of a demand for an addition to the public school education. To make such addition calls for increased facilities, special instructors and added expense. It would be easy to heavily increase the cost of the public schools if they are to be made to fully prepare the children for the business of life. There always exists a sentiment which would demand that each pupil should be substantially fitted for active business when he graduates from our schools.

If this sentiment should control, then the public burden of taxation must be increased to meet such requirement. Buildings, instructors, tools and supplies must be furnished at public expense, and the child must be taxed mentally and physically, to acquire not only the rudiments of those sciences which tend to develop his reason and add to his intelligence and general information, but the exact scientific knowledge and the method of application to specific subjects must be so mastered that immediately upon graduation the boy or girl may enter fully prepared upon his lifework. We have not as yet felt that the child should be taxed in his early years with so much exacting mental labor. We have not felt that the people at large desired to assume such expense, and therefore have been content to give the children as good a drill as possible in those branches of study which years of experience have proved best for the mental growth

of the child; and which gives him much general information of value, whatever may be his choice of occupation.

The public school has become so much a part of the system of the development of the children into responsible and thinking men, that many seem to give its work any thought except where it fails to touch some individual want or need of their own. The children at five years enter the public schools entirely untaught except to some extent about personal care of themselves. As they grow in stature without physical effort, so they appear to the world to grow mentally until the end of their course; meantime developing their powers to reason, and storing their minds with useful facts of value.

This change from a mere child to a well informed man having been made under public care and expense, is it asking too much of the graduated young man, or those immediately interested in his future, that they shall go on with his special training for his business life?

Is there not a danger that we shall lean too heavily upon public assistance in these matters, and that our young men and women will fail to gain that degree of self-reliance necessary for the success of our people?

It is certainly the duty of the public to bring all of the children to that degree of intelligence necessary for a right understanding of our institutions, and to develop, as far as possible those traits of character, requisite for their perpetuation. Children should be taught to be law-abiding and useful members of the community in which they live. But it seems questionable whether the public should be expected to establish a system where it will be largely responsible for the selection of the business and the training therefor of each individual. It is because of the young man's own tact and efforts that he becomes a practical business man, and these qualities are best developed when exercised in the presence of actual business enterprise.

The time given for education in the schools under our charge seems very short in which to instruct the child generally. In many instances the capacity of the children for mental work does not develop until near the age when they are expected to leave our schools. To insist upon special training must, therefore, be at the expense of the general, and also at a further risk of overtaxing the mental and impairing the physical powers of the children. There seems to be too much haste to crowd the boys and girls into active business, and thus rob them of their time to obtain proper mental strength, which comes only with age and good physical condition.

Whatever tends to overtax and strain the powers of the little ones in our schools works permanent injury to them from which they and the community must suffer hereafter. If special instruction in the arts, science or mechanics is demanded at the public expense, then the time for public school education should be extended so as to embrace those years in which the child shall have acquired by age, powers of mind and body sufficient to enable him to reap full benefit from such public provisions.

Before this, however, the children must be developed into reasoning beings, with a good general knowledge which will enable them to become true citizens, irrespective of the character of their business pursuits. Our public schools must do this!

When we cease to have a great care as to the kind of citizens our schools tend to train, we shall be departing materially from the motives which impelled our fathers in founding them.

ORGANIZATION.

The committee organized at the beginning of the year as follows:

Chairman—Charles G. Chick.
Secretary—Richard M. Johnson.

Purcasing Agent—Richard M. Johnson.

School Committee—Charles G. Chick, Helen M. Dean, Augusta L. Hanchett, Richard M. Johnson, Joshua F. Lewis, Louise M. Wood.

Sub Committees—High School, Mr. Johnson, Mrs. Wood, Dr. Lewis; Damon School, Mrs. Dean, Mr. Chick; Fairmount School, Dr. Lewis, Mrs. Hanchett; Greenwood School. Mrs. Hanchett, Mr. Chick; Grew School, Mrs. Wood, Mr. Johnson; Butler School, Mr. Chick; Evening School, Dr. Lewis, Mrs. Wood; Industrial School, Mr. Chick, Mrs. Dean.

SCHOOL ORGANIZATION AND STATISTICS.

HIGH SCHOOL.

Mr. Jere M. Hill, Principal; Mr. Emerson Rice, Mr. William Cannon, Mr. Arthur Lowe, Miss Anna W. Edwards, Miss Anna M. Linscott, Mrs. Mary C. Howard, since Feb., 1894, Teachers.

Graduates—Four years course, Elsie M. Burgess, Harriet P. Butler, Albert B. Carr, Walter L. Cherrington, Otis E. Dunham, Nettie M Farnsworth, Bessie B. Frame, Robert T. Hathaway, Charles R. Higbee Jr., George F. Hiller, Arthur H. Howard, Chester B. Humphrey, Mabelle C. Jenney, Edwin V. Noble, Ada J. Poore, Arthur C. Poore, Leona M. Ramsdell, George W. Rice, John T. Robinson Jr., Laura J. Rollins, John L. Sanborn, Susie Sanborn, Gertrude L. Savage, Martha B. Stephens, Hattie B. Tasker, Mark E. Taylor, William E. West, Margaret L. Wyman; two years course, William O. Bursch, Frederick A. Carlton, Thomas F. Downey, William J. Downey, Warren Y. Scott, Myrtle Sherman, Edgar L. Wood.

Incidentals;—Expended for miscellaneous purposes.	624 29

Last Spring the Committee prepared careful estimates as to the requrments of the schools for the current year. At the annual meeting the citizens voted the amounts asked, and the following statement will give in brief the amounts we have received and expended :—

APPROPRIATIONS.

For salaries, janitors and fuel,	$32,300 00
School incidentals,	3,200 00
Text-books and supplies,	2,750 00
Evening Schools,	600 00
Industrial Schools,	100 00

Unexpended balances from last year :

Salaries, janitors and fuel,	
School incidentals,	$ 8 90
Text-books and supplies,	35 84
Industrial Schools,	53 06
Evening Schools,	264 34
High School and laboratory,	87 00

DISBURSEMENTS.

For salaries janitors and fuel,	$32,349 22
School incidentals,	3,206 33
Text-books and supplies,	2,427 47
Evening Schools,	706 94
Industrial Schools,	137 11
High School laboratory,	12 00

Vouchers for all payments have been submitted to the auditors, and are now on file with our secretary.

It will be seen that we have been able to carry the schools through the year upon the appropriations made at the annual town meeting, and the bills of this department at the close of the financial year are substantially paid. The unexpended balances would more than pay them, if we had the power to transfer appropriations.

Not only do the old buildings require added expenditure each year, but new buildings for the accommodation of the pupils are demanded, and *at once*, unless we are to be content with crowded rooms and poor instruction. That the exact situation may be seen at a glance, we here give the numbers now enrolled in each grade of the primary and grammar schools:

	Damon.	*Fairmount.*	*Greenwood.*	*Grew.*	*Butler.*
V class	4 } one room	31	35	40	
VI class	6 } one room	23	42	41	
VII class	17 } one room	47	46	48	
VIII class	35	49	39 } two rooms 41 } two rooms	34 } 7th and 8th 9 } 7th and 8th 45 } 7th and 8th	
IX class	23 } one room	52	41	40	
X class	17 } one room	46	55	16 } mixed room 24 } mixed room	
XI class	29	42	43	30 } mixed room 9 } mixed room 40 } mixed room	32
XII class	32	48 } two rooms 58 } two rooms	56	46 } two rooms 45 } two rooms	
	163	396	398	467	32

This gives an actual enrollment at the present time of 1456 in the grammar and primary schools. These figures do not give the whole number of *different* scholars connected with the schools for the past year, but the number actually upon the rolls at this time. In April, it is safe to say, from 10 to 25 new pupils must be provided for in the twelve classes of each of the large schools. When these are added to the numbers already enrolled in these classes,

it is easy to see that more rooms will be an absolute necessity.

BUILDINGS.

The large school buildings owned by the town are nearly all of wooden construction, and with one exception have been now in use nearly twenty-five years; consequently, the annual cost for repairs is likely to increase. In a previous report the condition of the roof of the Damon building, and the necessity for reslating, was called to your notice. The work has been so far avoided by repairs, but at any time the roof may become a source of a large expenditure. At the Grew the local committee reports that a special appropriation of $1,000 should be made to thoroughly repair the building. New gutters are needed upon large portions of the roof; new stairs and new floors in several places; new furniture for one or more rooms. The local committees do not report the need of extra appropriations for repairs at the High and Fairmount buildings the coming year.

Since this report was adopted the Damon School Building has been damaged to an extent that renders it useless for the school until after action can be had in Town Meeting as to repairing the same. Meantime, the committee have made temporary arrangements for the pupils.

The sacrifice of the halls at the Greenwood and Fairmount Schools would give two or three more rooms, and would tide over for another year; but it must be borne in mind that in those buildings one class is already upon the third floor, and to add another class will make it absolutely necessary to provide fire escapes, which we are advised must be covered stairways outside of the buildings, and will cost quite considerable sums of money, and detract from the appearance of the building. Another evil of such a course is that it will subject many pupils to the danger of physical injury

resulting from going up and down two long flights of stairs several times each day, a practice always accompanied with hazard to children, especially girls, of this school age.

Small buildings in each of the crowded districts for one or more primary rooms, or a central primary building that can be used for the overflow of each school, would afford other means of relief. It would seem *very hard* to deprive the large schools of their halls, in which they can assemble for exhibitions and general exercises, and such a course would not be in the best interest of the schools, and is not recommended by this committee. The benefits of these halls have been realized by all connected with our school work, and have been provided and maintained in the past notwithstanding the burden of debt upon the town. We are now substantially free from debt. Shall we deprive our school children henceforth of these advantages? We trust our citizens will not want to economise in this manner.

A central building will afford better opportunity for full classes, as the overflow from each building can be easily transferred to and massed at the centre of the town. It would seem that one lot, and one building to be warmed and cared for, so situated that it would relieve each of the now overcrowded grades, would be in the interest of economy and afford opportunity for maximum classes, which always tends to reduce the cost of instruction. This matter will be placed before the town at the annual meeting, with a recommendation that a competent committee of citizens investigate the whole subject, and report some plan for immediate relief.

In this connection, the local committee of the Greenwood district reports that outside accommodations *must* be furnished in April. The past year has been one of expedients in that district. In September a division of the twelfth class was necessary, and the sixth class was temporarily placed in the hall. Efforts were made to secure a room

outside as cold weather approached, but nothing could be found that seemed less objectionable than the use of the hall, and so we were forced to locate this class on the third floor until the beginning of the winter term. At that time, by reason of a change of employes in one of the factories in that district, the numbers were reduced in the Butler School so that a consolidation of three classes into two was possible, and the sixth class was removed to its former room. The twelfth class at the Greenwood is now overcrowded, and fails of its best work. When the usual April increase comes, some expedient must be found for the overflow.

The people of this district have complained, and justly so, that their children were inconvenienced, but when the situation has been explained they have borne the matter cheerfully, believing efforts would at once be made for more school accommodations.

The High School opened with 215 scholars, but the number has fallen to 205, with classification as follows :—

Senior class - - - - - -	27
Second " - - - - - -	47
Third " - - - - - -	49
Fourth " - - - - - -	82

This number of pupils fills the building. It has been found necessary during the past year, in view of the large fourth class, to take down partitions in order to afford class-rooms of sufficient size. The building is poorly arranged for the work of the school. We have now reached the time when a new modern building for our High School has been publicly recommended. Shall we have it? If so, the old building will serve for a central primary school, and solve the problem of more accommodation for these grades.

TEACHERS.

The teaching force of the town remains substantialiy the

same as at the time of our last report. A few changes have occured.

At the Damon School, Mr. W. F. Sayward resigned the position he had held for several years as master, to accept a more lucrative situation elsewhere. Mr. Sayward had been very successful in his work at the school, and he had the confidence of the people of that district. His resignation was a loss to the school. Mr. Arthur W. Armstrong was employed as his successor, and gives evidence of being a successful teacher. During the summer Miss Dora M. Wiggin resigned, and at the opening of the school in September, Miss Donovan was given the class of Miss Wiggin, and Miss Florence E. Barker, of this town, was employed in the grade formerly instructed by Miss Donovan. In December, the numbers at the school having largely increased, a new room was opened and a separation of grades arranged. Miss Grace M. Tuxbury was employed in the positson thus created.

At the Fairmount School, Miss Florence A. Dunbar, teacher of the ninth grade, accepted a position elsewhere, and Miss M. Edith Le Bourveau, a graduate of Hyde Park's High School with supplemental training, was appointed to this vacancy.

Miss Annie B. Davis, master's assistant at the Greenwood School resigned at the end of December; this was unfortunate as Miss Davis was a very strong teacher and her loss in the middle of the year must result in loss to the class. Miss Cora J. Buker, a normal graduate, with several years of experience has been appointed to the vacancy. In September it was found necessary to employ an additional teacher, for a division of the XII grade at this school. Miss Ella J. Brown a normal graduate, was selected by the local committee for this position.

At the Grew School, Miss Mary Winslow. for a long time one of its most successful instructors, and for several years

past holding the position of master's assistant, asked in September for a leave of absence during the year on account of ill health. In deference to her faithful service and her great ability as a teacher, her request was granted. The local committee was authorized to select a teacher in her place for the year. Miss Eda M. Perry was selected and held the position during the Fall term, at the end of which she resigned, and Miss Nellie J. Wentworth has been employed and now fills the position with promise of success.

The suggestions of the Committee of the High School contained in their last report as to teaching of stenography by a teacher having other classes has been adopted, and Mr. Arthur W. Lowe now gives instruction in this branch of the course, and also has charge of other classes of the school.

Miss Gidney, teacher of the Butler School, has been given a leave of absence during the Winter term because of ill health. Miss Brown of the Greenwood School was transferred with a portion of her class, when the consolidation of classes was made as above stated. A substitute for Miss Gidney was thus made unnecessary.

In connection with this subject it may be well said that the demand for trained teachers increases each year, and it is not now an easy matter to procure at the prices we can pay, teachers of known ability. The selection of teachers is the most responsible duty that rests upon a school committee, as to a great degree the success or failure of the school will depend upon a right choice. The State Board of Education has come to recognize the difficulties that beset the ordinary committeeman in the performance of this important duty, and has succeeded in obtaining legislation which authorizes that board to issue certificates to such persons as it deems qualified to teach in our public schools. This will aid committees very materially to obtain satisfactory teachers, and seems to be a step in the right direction.

Great pains should be taken to adopt a practical system so that committees may readily receive the benefits possible from the State certification of teachers.

Much credit is due to our corps of instructors the past year. We believe they have been faithful in the discharge of their duties and merit the approbation of the patrons of the schools as well as of the committee. We believe that great good would come to our schools if the parents and citizens generally would take an active interest in the work of the teachers, and give them an occasional word of sympathy and encouragement. It is often the case that all words are reserved for criticism. If your child does well in school take a little pains to let his teacher know of your approbation. It will help that teacher very much.

COURSE OF STUDY.

This remains substantially the same as last year with a change of text-books in English Grammar, Miss Hyde's Advanced Lessons, having been substituted for Harvey's. A brief course in arithmetic has been adopted for the lower grammar grades. Instruction in physical culture for the young ladies at the High School, has been added to the work at that School, and Miss Dean of the Emerson School of Oratory, has been employed as instructor. Miss Dean is a Hyde Park lady and enters upon her duties with an enthusiasm which betokens success.

REFERENCE BOOKS.

Last Spring the town voted upon our recommendation the sum of $250 to be used in purchasing reference books, for the various schools. The several local committees after conference with the teachers have made selections of proper books and the same have been placed in the libraries of each school. Further sums should from time to time be expended under this head. At the Damon School a large num-

ber of valuable books were donated by a person who has previously contributed to this school in similar manner. By request we do not give the name but wish to place upon record our appreciation of this person's act.

Among the valuable additions to our supplemental list we must not fail to mention the Beacon Lights of Patriotism, a new reader by our distinguished townsman, Gen. Henry B. Carrington. This reader is full of matter of great value to the children of our public schools, and should be freely used in all of the classes of the grammar grades as well as in the High School.

MUSIC.

Miss Dodge has been continued in charge of the instruction in this branch of the course, and her work has been fully up to its previous standard, and has been satisfactory to the committee.

ATTENDANCE.

While many of our neighboring towns have been closing schools because of epidemic disease, Hyde Park has been so far spared these serious conditions. It is one of our first duties to see that the health of the children shall be well protected by clean and wholesome surroundings. Disinfectants are freely used upon books and in the school rooms as well as in the outbuildings. This care of the health of the scholars tends to make a good average attendance, and keep the schools free from contagious disease. The buildings are all well warmed by steam, except at the Damon and Butler, and little complaint is now heard of cold rooms at any school building.

JANITORS.

The excellent janitor for the past eight years at the Greenwood School, Albert Lord, resigned on the 2d of December. The local committee regretted very much

that Mr. Lord felt obliged to leave the position, as he has for many years so faithfully performed all of his duties and always with great regard for the interests of the town in the care of its property. Mr. John Haigh has been employed and now fills the position in an acceptable manner.

At the Damon School, Mr. Kappler feeling that he should receive more salary tendered his resignation, much to the regret of the committee in charge. Mr. Wheeler, a reliable man, offered to assume work at the established price, and he was given the position. Janitors elsewhere remain as last year.

TRUANT OFFICER.

For a number of years Mr. Andrew D. Rooney has faithfully performed the duties of truant officer. As reported last year, the committee changed the method of compensation, and fixed the duties of the officer. In May last, Mr. Rooney tendered his resignation. In view of his efficient services and knowledge of his duties, this was a misfortune. In September, Mr. Henry V. Harwood was employed as truant officer in chief, and has thus far conducted his duties with discretion. Mr. Harwood bids fair to make a very efficient officer.

SCHOOL MANUAL.

We have often been asked for a manual showing our rules, the names, residences, and salaries of our teachers. During the year a sub-committee prepared a small book containing these matters and other useful information, and by order of the committee several hundred were printed. Any citizen desiring a copy will find it at the rooms of the committee.

INDUSTRIAL SCHOOL.

The School for Carpentry was opened as usual during the summer. Mr. Webb who has for a long number of years had charge of the school, was again employed as instructor. The school was well attended, and the work was carried on with much interest and success.

In the judgment of the committee in charge, more boys would avail themselves of the benefits of such instruction if accommodations and facilities were furnished.

EVENING SCHOOLS.

We submit herewith the report of the work of these schools, as made to the sub-committee in charge by the principal instructors. Believing these statements full and reliable, and of interest to our citizens, we print them in full. These schools, aside from the mechanical drawing, do not have the attendance they ought to have. This fact has often been called to your notice. We try to make the schools efficient by employing good instructors and providing good accommodations. A few pupils have interest enough to attend regularly, and of course get the benefit of your generous provision. More should do so.

To the Committee on Evening Schools of the Town of Hyde Park:

This year the work of the evening school has followed the same general plan as is outlined in the report of last year. In addition, however, a class in stenography and typewriting has been conducted by Mr. A. W. Lowe. I am informed that the work in this branch has been very encouraging.

This year the school opened Monday, Nov. 5, 1894. The first term of seven weeks closed the latter part of December. The second term began Jan. 7, 1895, of which we have just finished the fourth week. The total number of names on the register for the first term is 74. The average attend-

ance is 40 pupils. The second term there are 40 names, and an average attendance of 16. The average age is 19 years. Forty per cent. of the pupils are women. This last is a marked increase over last year.

This year a very large number came to learn the rudiments of our language. Many were foreigners. Five different nationalities were represented. The earnestness and perseverance with which these people worked was most gratifying to every teacher. Arithmatic also seemed to be a favorite study. The class in book-keeping has worked well and accomplished much.

In comparing this year's work with that of last year, there seems to be improvement. For, although the number of pupils has been slightly less, the work accomplished by the majority of those attending has been of a far more substantial and lasting character.

Respectfully submitted.

WALTER E. PIPER, Principal.

February 31, 1895.

To the Committee on Evening Schools of the Town of Hyde Park:

Hoping this may convey an idea of the work done in the Evening Drawing School in the past year, I submit the following report: —

From the time of writing the last report, Feb. 14, 1894, to April 1, the work assumed a very marked advancement, as was shown by the exhibition held at that time, which exhibit, I am loth to say, was visited by only too few of the citizens who should be interested in this work.

The twelfth term opened under the most pleasing circumstances. The Everett building in the High School yard is equipped with benches for the industrial school, and these are also used as tables. The instalment of the sixteen electric lights made the lighting perfect.

On Nov. 5 twenty young men were enrolled, and this number increased so that sixty-two names were on the roll, divided into three classes, elementary advanced, mechanical and architectural; the architectural advanced meeting with the others until Jan. 18, when it was thought best to give them a separate evening.

Monday evening, at 7:30, the elementary meets, being the largest of the three, and a more interested class it would be hard to find. Wednesday evenings, at the same hour, the class in architectural work meets. Thursday evening the advanced mechanical class, which is devoted to the construction of machinery, meets. At the beginning of the term an engine was loaned us by the Boston Blower Company, to be used as a model, but unfortunately this could be used but a short time, as it had to be returned.

The lack of interest shown by citizens last year discourages effort to get out drawings for our exhibition this year, but if it is thought best we will try and enthuse the pupils to make another exhibition.

The work being done by all the classes seems to be of a very satisfactory nature, and the interest is very marked. When we see the positions held by a good number of the young men from this branch of our school, as mechanical and architectural draughtsmen, and others who have even taken higher positions, we can but feel that the appropriations made for this purpose have been well spent.

Respectfully submitted.

E. C. TOURTELLOTTE, Instructor.

WASHINGTON'S BIRTHDAY.

This is not the first time we have had occasion to express our appreciation of the efforts of the Grand Army Post in this town, to properly impress upon the children a love of country and the duty of patriotic devotion to its institutions.

We were pleased to be present in Waverly Hall and witness the excellent programme provided for the proper celebration of the birthday of the immortal Washington, under the auspices of Timothy Ingraham Post. By invitation many of the school children of the town were present and heard patriotic music and addresses fitting for that day. It is very gratifying to school authorities to have public occasions of such a nature, as they strongly show the children the love a free people have for their institutions, and express the gratitude we owe to those who have secured them for us by the sacrifice of life and property.

The children of Hyde Park should especially take pride in this anniversary, as Washington in his efforts to drive the British oppressor from Boston in 1776, secured from our territory part of the material used in the fortification of Dorchester Heights.

One danger of the present time results from the fact that large numbers of people come to our country who understand nothing of our institutions, and many of them do not even become citizens. From such we cannot expect a great regard for our system of government.

Where we can teach our children in such matters it calls for greater care, that somewhere among our citizens may be found an "old guard" of rightly trained and patriotic men and women to stand on all occasions for our constitution and flag.

GENERAL REMARKS.

The work of the schools has been carried forward on lines similar to those of preceeding years. We realize that it is dangerous to experiment with all new theories and methods that are brought forward by different educators of the day. The time of the children is of great importance, and great care must be taken that none of it be wasted in the school course.

We believe that under good instructors with comfortable and cleanly surroundings, our present course is capable of developing well trained and educated men and women.

Fellow citizens, we should fail in our duty should we not impress it upon you to guard these schools carefully, and make every effort possible to secure for them all the advantages of a generous support. Let no indifference to them or the cause of education gain a foothold in our town. Such a course will not only injure our good name abroad, but will be of irreparable loss to us and our children at home.

We do not recommend extravagant expenditures, but a broad generous policy which shall ensure to our public schools all that is necessary to give our youth the great advantage of good opportunities for early education.

In this department it requires constant effort that our standard be kept steadily advancing. Should you become careless or indifferent to the importance of their work, it would be very easy for our schools to deteriorate and our children suffer in consequence.

In submitting this report we do so with the thanks of this committee to our citizens, for their many acts of kindness and forbearance toward us as we have tried throughout the past year to superintend the work of educating the children of our town.

Respectfully submitted,

CHARLES G. CHICK, Chairman.

Hyde Park, Feb. 4, 1895.

Feb. 4, 1895.

At a meeting of the full Board it was voted to adopt the annual report as prepared and read by the Chairman as the report of the Board.

R. M. JOHNSON, Secretary.

SELECTMEN'S REPORT

FELLOW CITIZENS OF HYDE PARK:

Your Board of Selectmen has completed its labors in connection with the administration of town affairs for the past year, and herewith presents for your consideration the usual annual report.

In some respects the past year has been a peculiar one in regard to public work. Anticipating as we have the advent of sewerage in our streets at an early date, the new work undertaken has been only such as would be little injured by the excavating necessary for the sewers.

It has been deemed wiser on the part of the Board to give careful attention to such parts of the work on streets as would yield the best results after the sewerage committee has finished its labors, than to expend money in large permanent improvements, except where conditions existed rendering it especially desirable or necessary.

We believe the town has reason to take pride in the possession of its splendid plant for providing road material, and no doubt very much of the material of this kind will be required in sewer construction. No better plant can be found anywhere and we are sure the investment will prove a decidedly profitable one for the town.

The Crusher was not completed ready for work until quite late in the season, but sufficient work was done with it to abundantly satisfy the Board that it was well adapted to the needs of the town, both in point of capacity and quality of material furnished. This latter is a most important consideration for without it no really good road-work can be done.

In this connection we cannot forbear to speak of one matter which has already been brought to the attention of the

town in other ways, and that is the prime importance of careful attention to newly macadamized streets,

A small amount of careful and judicious work with the proper material on the surfaces of such roadways will keep them in perfect condition, while neglect even for a few years tends to ruin and waste. Once the streets throughout the town are thoroughly and scientifically constructed on this plan, their care and maintenance in perfect condition can be accomplished with a very small yearly cost. In fact, much less than with any other form of road construction such as would be adapted to our town.

We recognize that before many years it will be desirable to pave Everett Square and the streets in the immediate vicinity where the teaming is so excessive that macadam construction is not desirable.

The Board has pursued the policy followed by the Selectmen in previous years in regard to the construction of sidewalks, and upon petition by abutters desiring the construction of concrete walks with edge stone, have constructed such walks in several parts of the town, the largest piece of work of this character being on Hyde Park Avenue, and the work in this locality has tended greatly to improve the appearance of the street which for many years has been much desired, as this Avenue is the main thoroughfare to Boston.

A portion of the sidewalk previously laid on this Avenue in the Hazelwood district has been lowered in some places to meet the new grade of the street, and we believe that this change will give universal satisfaction.

A section of sidewalk on East River Street, beginning at the corner of Walter Street, has for the past two years been a source of considerable annoyance, and this has been thoroughly remedied by the raising of the sidewalk and an adjustment of the line of the street giving a proper roadway and preventing an overflow of water upon the walk.

Another chapter on Metropolitan Avenue has been added to the history of that street and "the end is not yet." It should be remembered by the citizens that owing to the peculiar manner in which this street has been forced to the attention of the town, that no assessments for betterments can be made upon the parties receiving the most benefit. A new decree of the County Commissioners now calls for additional improvements on the street never heretofore contemplated, and we are free to say that we question the wisdom of these additional improvements upon that street at this particular time. A very large amount of money has been expended already upon that avenue, entirely out of proportion to the direct needs of the community, and in a measure to the detriment and delay of equally, if not more important, work, in some other portions of the town.

Several new streets have been added to the town during the past year and their construction accomplished in accordance with the original plans. Warren Avenue has been built in a substantial manner, the steepness of the grades rendering additional care and expense necessary to provide for surface drainage and to guard against the destruction of the street by storms and freshets, and we believe the plan of construction as recommended and carried out will prove satisfactory.

Highland Street from Metropolitan Avenue has been thoroughly constructed and we believe is in a very satisfactory condition.

Regent Street and Chesterfield Street have also been placed in as good condition as would be warranted by the small amount of money appropriated to these streets.

ACTIONS AT LAW.

Actions pending against the Town in the Superior Court, Norfolk County:

The case of Lomelia A. Bickford, Admrx., against the

Town, described in the last Annual Report, is still pending.

On the 13th day of May, 1895, Richard Wood of this town brought an action returnable to the Superior Court on the first Monday of July, claiming damages in his writ in the sum of $800 for an alleged injury sustained by him on the 22d day of January of the same year, from an alleged defect on Austin Street by the alleged accumulation of snow and ice upon the sidewalk in front of premises No. 11 and No. 13 on that street.

The action was upon the trial list at the January Sitting of the Superior Court and has been adjusted for the sum of $180.

Elizabeth Winslow, wife of Frank L. Winslow, brought an action against the Town on the 23d day of October, 1895, returnable to the Superior Court for this County on the first Monday of December, in which she set her damages in the sum of $2000 for alleged injuries sustained on May 20, 1895, by reason of being thrown out of her carriage on Water Street near its junction with Fairmount Avenue, in consequence, as she alleges, of the horse she was driving taking fright at the steam roller then being in use on Fairmount Avenue.

This action is dismissed by an agreement to the entry "Neither Party."

On the 9th day of September, 1895, Thomas J. Meighan, son of Thomas Meighan of this town, brought an action returnable to the Superior Court on the first Monday of November, in which he set his damages at $5000, for an alleged injury received on the 28th day of December, 1894, in front of the store occupied by Frank L. Hodgdon on Everett Square, from an alleged defect in the condition of the sidewalk at that point, and the alleged accumulation of snow and ice thereon.

This action has been settled by the agreement to pay $350.

FIRE DEPARTMENT.

The Fire Department in Hyde Park continues to be maintained with its usual efficiency, and we commend the report of the engineers to your careful consideration. The removal of the old lock-up from the basement of the engine house has given much needed additional room to the Department and is greatly appreciated.

The very satisfactory contract with the Water Company for fire hydrants, which your Board has had the pleasure of consummating, has greatly added to the efficiency of the Department by the increased number of hydrants. We desire to express our appreciation of the very generous and business-like way in which the Water Company have met your Board in the matter of a renewal of the contract, as well as in the carrying out of the provisions of that agreement.

Sixty-nine of the seventy new hydrants have been located and set. The Board purposely reserved one hydrant to be located in case some especially desirable point should be found to exist by the engineers, where a hydrant should be located and which possibly might have been overlooked by the Board in making their additional locations.

The payment for hydrant service seems to be appropriately provided for by the Corporation and National Bank Tax which for several years has been devoted to that purpose, and we recommend that the same appropriation be made for the ensuing year.

POLICE.

We take pleasure in calling attention to the report of the Police Department, and we believe that Mr. McKay, the efficient Chief of the Department, is entitled to the gratitude of the citizens for the very satisfactory manner in which he has administered the duties devolving upon him. No one could be more faithful in the fulfillment of his duties than Mr. McKay, and the *personnel* of the Department has felt

the influence of his direction and leadership, and we believe are in thorough accord and are doing excellent work.

The town now has a substantial and convenient building for lock-up and police headquarters which has gaeatly added to the dignity of the Departmen tand to the efficiency of its work, and furthermore has removed the stigma from the town which has attached to it in former years, by reason o the inadequate accommodations in this respect.

APPROPRIATIONS.

It has been the custom for several years for the retiring Board to include in its report recommendations as to the appropriations for the following year. At present, however, in view of the uncertainty as to the action of the town in regard to sewerage, the Board does not feel justified in marking out a line of action in advance of definite knowledge, and consequently refrains from making recommendations regarding work upon the highways.

It is probable that before the annual appropriation meeting shall have been held the question of the sewerage will have been settled, and the incoming Board can then arrange its plans in regard to street work with more certainty as to its proper relation to work on the sewers.

In conclusion, we take pleasure in calling attention to the fact that the tax rate for the last year has been lower than any year since 1878, and we certainly believe that the condition of Hyde Park in regard to the various lines touched upon in this report, compares favorably with any of the surrounding towns. Very respectfully submitted,

SAMUEL T. ELLIOTT,
THOMAS S. WATERS,
GEORGE E. WHITING,
GEORGE MILES,
CHARLES LEWIS,
Selectmen of Hyde Park.

SYNOPSIS OF THE TOWN CLERK'S RECORD OF TOWN MEETINGS.

The following statement shows in a condensed form the action of the town on the various articles which have been before it for consideration the past year.

February 25, 1895. A Town Meeting was held in "Music Hall," when the following Articles were acted upon:

Article 1. To choose a moderator to preside at said meeting.

Mr. Amos H. Brainard was chosen moderator by ballot.

Art. 2. To see if the town will vote to transfer the money received or to be received from the Insurance Companies for damages to the Damon Schoolhouse by the late fire, to the School Incidental appropriation, and authorize the School Committee to repair and refurnish said schoolhouse.

It was voted to authorze the School Committee to repair and refurnish said schoolhouse, and to transfer the insurance money to School Incidentals.

Adjourned.

March 28, 1895. A Town Meeting was held in Waverly Hall, and the following Articles were acted upon:

Article 1. To choose a moderator to preside at said meeting.

James E. Cotter, Esq., was chosen.

Art. 2. To see if the town will accept the list of jurors as prepared by the Selectmen and posted according to law.

Amended and accepted.

Art. 3. To hear the report of the Selectmen in regard to guide boards, and act thereon.

Report made and accepted.

Art. 4. To see what disposition the town will make of the money received from dog licenses for the year 1894.

To the Public Library for the purchase of new books.

Art. 5. To see what compensation the town will vote to pay for collecting its taxes the current year.

Same as last year, 1 per cent.

Art. 6. To fix the salaries of the town officers for the current municipal year.

Same as last year.

Art. 7. To fix the compensation of the engineers and the several members of the fire department, for their services the current municipal year.

Same as last year.

Art. 8. To see what discount the town will vote to allow on all taxes paid on or before October 1, 1895; and what interest the town will vote to charge on taxes for the current year, when the same shall be overdue.

No discount allowed, and interest at the rate of six per cent. per year charged on overdue taxes.

Art. 9. To see if the town will appropriate one hundred and fifty dollars to Post 121, Grand Army of the Republic, for the expense of decorating the graves of deceased soldiers.

So appropriated.

Art. 10. To see if the town will apporpriate the money now in the hands of the Treasurer, received by him as sidewalk, street or Board of Health assessments or betterments, and all money which shall be received by him the current year on account of such assessments or betterments, for the purpose of constructing or repairing public ways.

So appropriated.

Art. 11. To see if the town will appropriate the money to be received this year by the Town Treasurer, for or on account of Corporation and National Bank Taxes, for the

payment of the fire hydrant service of the town.

So appropriated.

Art. 12. To see if the town will authorize its Selectmen to contract in behalf of the town with the Hyde Park Water Company for additional fire hydrants.

So authorized.

Art. 13. To hear the report of the Selectmen laying out Highland St., between Milton Ave. and Metropolitan Ave., as a public town way, and to see if the town will accept and allow said laying out with the boundaries and admeasurements of said way as shown by report, plan and profile now on file in the Town Clerk's office, and appropriate money to construct the same.

Report read and accepted.

Art. 14. To see what action the town will take regarding the purchase of a new stone crushing plant, and the appropriation of money therefor.

Selectmen authorized to purchase, and $5000 appropriated therefor.

Art. 15. To see if the town will authorize the Selectmen to purchase materials for the construction and repair of streets and sidewalks, and appropriate money therefor.

So authorized, and $500 appropriated therefor.

Art. 16. "To hear and act on a report of the Park Commission relating to land in the vicinity of High Rock, including a portion of the Sumner farm, and to see what snm of money the town will appropriate for park purposes and to determine how the same shall be raised."

Treasurer authorized to borrow $21,000 for Park purposes. Loan to run thirty years.

Art. 17. To see if the town will vote to build a lock-up and appropriate money therefor.

So voted, and $1800 appropriated, and a three years loan authorized therefor.

Art. 18. "To see if the town will vote to purchase land and erect a schoolhouse in the Readville district at or near

the Camp Ground, so called, and appropriate money therefor."

See Article 22.

Art. 19. To see what amount the town will vote to raise by taxation, to meet the expenses of the town the current year, the deficiencies of last year, and the notes and bonds of the town maturing the present year, and how the same shall be appropriated.

Voted to raise by taxation the present year one hundred and fourteen thousand, eight hundred and fifty-nine and 1-100 dollars, and to appropriate the same as follows:—

Support of Schools:—		
Teachers, Janitors and Fuel	$32,500 00	
Incidentals	3,200 00	
Text Books and Supplies	2,000 00	
Evening Schools	700 00	
Industrial School	100 00	
Repairs on Grew School	1,000 00	
		$39,500 00
For Bonds and Notes		7,000 00
" Interest		2,000 00
" Public Library		1,850 00
" Highways—Current Expenses ($1,000 of which to be used for watering streets)		7,000 00
" Highways—Permanent Improvements		6,000 00
" Warren, Hyde Park and Central Park Avenues		5,000 00
" Stone Crusher Plant		1,000 00
" Board of Health,		2,500 00
" Incidentals		7,100 00
" Salaries		3,475 00
" Police		6,500 00
" Support of Poor		3,000 00
For Street Lights		8,000 00
" Fire Department		6,500 00
" Grand Army, Post 121		150 00
" Fairview Cemetery		2,000 00
" Highland Street		1,270 00
" Material for Streets		500 00
Voted in 1894 and payable in 1895		4,514 01
		$114,859 01

Art. 20. To hear the report of the Committee appointed Nov. 28, 1894, to consider the subject of a "water supp'y" for the town, to act thereon, and to take such further action in said premises as the town may deem proper.

Report made and placed on file. Selectmen instructed to call meeting for vote upon question of purchase, and petition General Court for further legislation in the premises.

Art. 21. "To see if the town will vote to elect at its annual meeting in 1896 three Park Commissioners, one for one year, one for two years, and one for three years, and will vote to elect thereafter at each annual meeting one Park Commissioner for the term of three years."

So voted.

Art. 22. "To see what action the town will take to provide additional accommodations for the public schools."

Articles 18 and 22 referred to Messrs. Charles G. Chick, Andrew Washburn, Joshua F. Lewis, James R. Corthell and Stephen B. Balkam, as a Committee, to consider and report to the town.

Art. 23. To see what action the town will take regarding a system of sewerage for this town.

Messrs. Robert Bleakie, Charles F. Light, Francis W. Darling, Percy M. Blake and James D. McAvoy, were appointed a committee with full powers to employ assistance and expend money in considing this subject, and to report, in print, to the town, with such suggestions as they deem proper for the best interests of the town.

Art. 24. "To see if the town will authorize the Selectmen to obtain plans and estimates of the cost of constructing a public way from the eastern end of Damon Street to Central Park Avenue."

So authorized. Also instructed to consider the whole subject of a crossing anywhere between the Hyde Park and Readville Stations.

Art. 25. To see if the town will, by vote, change the name of the public way now known as Central Park Avenue to Hyde Park Avenue; and also change the name of that portion of the public way now known as Hyde Park Avenue which lies between River Street and Central Park Avenue.

The name of Central Park Avenue changed to Hyde Park Avenue; the naming of that part of Hyde Park Avenue described in the last

clause of this article referred to the Selectmen with full powers, after hearing the residents on said avenue, to name it.

Art. 26. To see if the town will authorize its Collector of Taxes to use all means of collecting the taxes which a Town Treasurer, when appointed a collector, may use.

So authorized.

Art. 27. To see what amount the town will authorize its Treasurer to borrow, in anticipation of the tax to be levied the current year.

Authorized to borrow $80,000.

Art. 28. To see if the town will authorize its Treasurer, with the approval of the Selectmen, to borrow money to renew or replace any loan or loans.

So authorized.

April 22, 1895. A Town Meeting was held in Waverly Hall, when the following Articles were acted upon, viz :—

Article 1. To choose a moderator to preside at said meeting.

Mr. Frank B. Rich was chosen by ballot.

Art. 2. To see if the town will vote to purchase the franchise, corporate property, and all the rights and privileges of the Hyde Park Water Company, in accordance with the provisions of Chapter ninety-one (91) of the Acts and Resolves passed by the General Court of Massachusetts in the year 1884.

The vote on this question to be by ballot "yes" or "no" in answer to the following question :— "Shall the Town of Hyde Park purchase the franchise, corporate property, and all the rights and privileges of the Hyde Park Water Company, in accordance with the provisions of Chapter ninety-one of the Acts and Resolves passed by the General Court of Massachusetts in the year 1884."

In accordance with a vote of the town at its last meeting,

the polls must be "kept open at least five hours, a part of which time shall be in the evening."

The polls were opened at 3.05 P. M. and closed at 8.30 P. M. The State ballot box and the voting list were used; 435 ballots were cast, of which 246 were in the affirmative and 189 in the negative. Not the necessary two-thirds.

Art. 3. In case the town, under Article 2, by a two-thirds vote, assents to said purchase, then to see if the town will appoint a committee to confer with the Hyde Park Water Company for the purpose of ascertaining a price which may be mutually agreed upon between said corporation and this town for the purchase aforesaid, this committee to report their findings to the town at a future meeting.

Adjourned without taking up Article 3.

June 26, 1895. A Town Meeting was held in Waverly Hall, and the following Articles were acted upon, viz. :—

Article 1. To choose a moderator to preside at said meeting.

James E. Cotter, Esq., was chosen by ballot.

Art. 2. To hear the report of the Selectmen laying out Pleasant Street, between Beacon Street and Vose Avenue, as a public town way, and to see if the town will accept and allow said laying out with the boundaries and admeasurements of said way as shown by report, plan and profile now on file in the Town Clerk's office, and appropriate money to construct the same.

Accepted and allowed, and $950 appropriated therefor.

Art. 3. To see if the town will make an additional appropriation for the purpose of building and furnishing a lock-up, and to see how said money shall be raised.

$1,800 appropriated therefor, to be raised by taxation next year, and treasurer authorized to borrow said sum.

Art. 4. "To hear the report of the committee appointed March 28 last, to consider the matters of erecting a school

building on the 'camp ground,' so called, and for providing additional school accommodations and to act thereon."

Report made, amended, and accepted in part.

Art. 5. "To see what sum the town will vote to raise for the purchase of lands for school purposes and for the erection of new school buildings, and how the same shall be raised and expended."

The sum of $16,000 was appropriated for the purchase of lands and the erection of three small schoolhouses, and Messrs. Richard M. Johnson, Frederick N. Tirrell, Isaac Bullard, Thomas S Waters and Charles Haley were appointed a committee to carry this vote into effect. The treasurer was authorized to borrow said sum, to be paid in eight equal annual payments of $2,000 each.

Art. 6. To see if the town will vote to accept the provisions of Chapter 433 of the Acts and Resolves of the General Court of the present year.

This is an act which will legalize the vote of this town passed March 28, 1895, purporting to authorize the town treasurer to borrow $21,000 for purposes of a park in the vicinity of "high rock," PROVIDED the town votes by a majority vote, at THIS MEETING to ACCEPT the provisions of said act. If the town AT THIS MEETING REFUSES to ACCEPT said act, then said vote of the town passed last March remains unaffected by said act.

A ballot was had under this Article and the check list used. There were 147 votes for acceptance, and 231 votes against acceptance. Not accepted.

Art. 7. To see if the town will authorize and empower its Selectmen to contract in its behalf with the Hyde Park Water Company, for a supply of water for fire purposes, the term of such contract to begin at the expiration of the term of the town's present contract with said Company.

The Selectmen were authorized to so contract for at least 175 hydrants, for the sum of not more than $5,500 per year, for the term of ten years beginning Oct. 1, 1895.

Art. 8. To hear the report of the Selectmen as to plans and estimates of the cost of constructing a public way from the "eastern end of Damon Street to Central Park Avenue;" also as to the feasibility of a crossing at or near Glenwood Avenue, and at any point "between the Hyde Park and Readville stations." Also to take any action in said premises and to appropriate money for constructing any such crossing.

The Selectmen made a report and illustrated it by views shown upon a screen by means of a lantern. The meeting thanked the Selectmen for their "able and instructive" presentation of the report and gave them further time to make a final report.

Adjourned.

Dec. 10, 1895. A Town Meeting was held in Waverly Hall, and the following Articles were acted upon, viz. :—

Article 1. To choose a moderator to preside at said meeting.

Charles F. Light, Esq., chosen by ballot.

Art. 2. "To see if the town will vote to amend its By-Laws by striking out Art. 1 of the provisions thereof relating to Truants."

Voted to so amend.

Art. 3. "To see if the town will vote to readopt Arts. 2 to 7 inclusive of its By-Laws relating to Truants, and to designate said articles when readopted consecutively from 1 to 6 inclusive."

Said articles were readopted and renumbered.

Art. 4. To see if the town will authorize its Selectmen to contract in behalf of the town with the Hyde Park Water Company for additional fire hydrants.

Authorized to so contract for three hydrants at $25 each per year.

Art. 5. To see how much money the town will raise and appropriate for expenses of its Committee on Sewerage.

$1,000 appropriated; to be raised by taxation next year.

Art. 6. "To see what sum the town will appropriate for School Incidentals and how the same shall be raised.

$1,100 appropriated; to be raised by taxation next year.

Art. 7. "To see if the town will appropriate $1,400 for Salaries, Janitors and Fuel, in its school department and how same shall be raised."

$1,400 appropriated; to be raised by taxation next year.

Art. 8. To see if the town will raise and appropriate three thousand dollars to finish its school houses now in process of construction.

$3,000 appropriated; to be raised by taxation next year.

Art. 9. To see if the town will raise and appropriate an additional sum of money for Incidentals.

$800 appropriated; to be raised by taxation next year.

Art. 10. To see if the town will raise and appropriate an additional sum of money for the Highways Department.

$2,000 appropriated, and to be transferred from money now in the treasury received as "fines in criminal cases."

Art. 11. To see if the town will make an additional appropriation for the purpose of finishing the Lock-up, and to see how said money shall be raised.

$500 appropriated, and to be transferred from money now in the treasury received as "fines in criminal cases."

Art. 12. To hear the second report of the Selectmen as to plans and estimates of the cost of constructing a public way from the "eastern end of Damon Street to Central Park Avenue," also as to the feasibility of a crossing at or near Glenwood Avenue, and at any point "between the Hyde Park and Readville stations." Also to take any action in said premises and to appropriate money for constructing any such crossing.

Report made by Mr. Samnel T. Elliott. Several plans of crossings, surroundings, etc., shown on a screen by the use of a lantern. Without other action this article was indefinitely postponed.

Adjourned at 8.45 P. M.

TOWN CLERK'S REPORT.

BIRTHS.

Number of births registered in Hyde Park in 1895	301
Males	140
Females	161
The parentage of the children is as follows:	
Both parents American	112
Irish	38
Scotch	4
English	5
Swedes	2
Russian	5
Germans	1
Italian	1
of British Provinces	32
Mixed, one parent American	69
Both parents of other nationalities	32

Born in January, 23; February, 26; March, 22; April, 19; May, 27; June, 32; July, 36; August, 22; September, 23; October, 25; November, 22; December, 24.

MARRIAGES.

Number of intentions of marriages issued in 1895	115
" " marriages registered in 1895	119
Oldest groom	75
" bride	58
Youngest groom	19
" bride	16
Both parties born in United States	53

Married in January, 12; February, 16; March, 4; April, 10; May, 2; June, 9; July, 6; August, 7; September, 15; October, 16; November, 10; December, 12.

The following are the names and residences of the parties whose marriages were solemnized in 1895, certificates of which have been filed in this office:—

Jan.	1.	Edwin E. Manter and D. Edith McElwain, both of Hyde Park.
"	16.	William H. Inglis of Boston, and Emma G. Mitchell of Hyde Park.
"	26.	James L. Morris and Mary E. Flanagan, both of Hyde Park.
"	31.	Frank E. Bridgman and Mary L. Parkhurst, both of Hyde Park.
"	3.	John Dickson of Milton, and Ottelia A. Anderson of Quincy.
"	31.	Lewis F. Hamblen of Boston, and Ella A. Humphrey of Hyde Park.
"	21.	George Parsons and Delia McCabe, both of Hyde Park.
"	18.	Arthur B. See and Hattie F. Warner, both of Providence, R. I.
"	14.	Clarence R. Snow and Ida E. Dame, both of Hyde Park.
"	10.	Edward F. Gaffney and Mary A. Leonard, both of Hyde Park.
"	1.	Theodore F. Andrew of Hyde Park, and Mabel Spencer of Scituate.
"	10.	John J. Kelleher and Margaret H. Coleman, both of Hyde Park.
Feb.	26.	Charles A. F. Tacey and Caroline E. Conley, both of Hyde Park.
"	26.	Michael F. Brown and Emily A. Towner, both of Hyde Park.
"	24.	James F. Burns and Sarah A. Concannon, both of Hyde Park.
"	21.	Joseph McKeon and Isabella King, both or Hyde Park.
"	21.	Arthur E. Devlin and Annie E. Monahan, both of Hyde Park.
"	20.	William F. Powers and Annie E. Rielly, both of Hyde Park.
"	18.	Samuel W. Libby and Winnifred Fitzgerald, both of Hyde Park.

Feb.	5.	Aloys Burkard of Quincy, and Mary Schaetze of Hyde Park.
"	6.	James A. King of Boston, and Maude L. Day of Hyde Park.
"	11.	William J. McGuire and Alice A. Ogden, both of Hyde Park.
"	18.	Marshall Cheverie and Lucy Burns, both of Hyde Park.
"	19.	Clifford A. Jones and Louise M. Wheeler, both of Hyde Park.
"	28.	Millidge G. Sanders and Florence E. Belcher, both of Hyde Park.
"	20.	Addison Center of Salem, and Sarah E. Ingersoll of Hyde Park.
"	21.	Frank St. John and Edna Cropper, both of Hyde Park.
"	25.	Edward D. Orpen and Penelope Wetherbee, both of Hyde Park.
Mar.	4.	William F. Adams of Litchfield, Me., and Julia E. Hunkings of Hyde Park.
"	25.	Herbert Ripley and Sadie L. Littlefield, both of Hyde Park
"	27.	William H. Richardson and Mary L. Grant, both of Portland, Me.

Scarlet fever . . .	2	Convulsions . . .	6
Whooping cough . .	2	Various other diseases .	37

The following are the names of those who died in Hyde Park and of residents of Hyde Park who died elsewhere, during the year 1895.

DATE.		NAMES.	AGES. Y.	M.	D.	CAUSE OF DEATH.
Jan.	2	James V. Poor	91	7	16	Paralysis.
	2	—— Gerrish	—	—	—	Stillborn.
	6	Annie E. Sullivan	—	5	—	Convulsions.
	8	Lottie M. Aixon	16	4	6	Phthisis pulmonalis.
	8	John S. Perry	—	—	24	Cerebral meningitis.
	14	Patrick Farrington	70	—	—	Railroad accident.
	14	—— Estabrook	—	—	—	Stillborn.
	17	Hugo E. E. Roman	1	6	11	Croupus diphtheria.
	18	Louisa McMahon	—	—	8	Convulsions.
	19	Alois Hurley	1	2	—	Whooping cough.
	19	Josephine Hagenburg	29	—	—	Pulmonary tuberculosis.
	19	Fred L. Littlefield	20	—	27	Phthisis.
	22	Lilly B. Broadbridge	30	9	8	Peritonitis.
	25	Catherine Lucey	—	1	7	Whooping cough.
	27	Lydia E Anderson	65	—	—	Cancer of liver.
	31	—— Welch	—	—	—	Stillborn.
	31	Jeannette R. Mills	64	11	19	Carcinoma uteri.
	31	Mary Magee	38	3	—	Cancer of stomach and liver.
Feb.	1	Emma R. Homans	43	1	8	Peritonitis.
	3	Joseph Healey	—	—	16h	Exhaustion.
	3	Theodore D. Weld	91	2	11	Old age.
	5	Abner Davis	88	5	15	Influenza.
	6	Helen B. Crocker	23	4	—	Malignant disease of bowels.
	7	Harriet C. Kimball	66	1	17	Apoplexy.
	8	Samuel S. Jefferds	63	2	24	"
	10	Etta L. Russell	—	5	12	Convulsions.
	10	Francis Fox	42	—	—	Pneumonia.
	10	Alice E. Rooney	19	1	1	Phthisis pulmonalis.
	13	Elizabeth Willett	84	8	22	Endocarditis.
	15	Jeremiah Kelleher	60	—	—	Pneumonia.
	15	Prudence W. Russell	80	—	7	Old age.
	15	Stephen Hall	69	2	21	Cancer of stomach.
	16	Catherine Coughlin	70	10	—	Chronic bronchitis.
	17	Sarah Dutton	85	11	16	" "
	18	Edward Corcoran	40	—	—	Chronic intestinal nephritis.
	18	Francis A. Gallagher	—	1	—	Congestion of lungs.
	21	Robert R. Lord	—	5	4	Capillary bronchitis.
	26	Edward J. Bowen	—	11	—	Cerebro spinal meningitis.
	26	William W. Steven	48	7	12	Pul. tuberculosis.
	26	Herman H. Wells	31	3	18	La Grippe.
	28	Patrick Welch	45	—	—	Asphyxia.
Mar.	1	Nancy Pattee	83	8	3	Old age.
	1	Louis G. Nelson	1	4	19	La Grippe.
	2	Alice Brown	—	15	—	Peritonitis.
	2	Bridget Kingston	56	—	—	General debility.
	4	—— McFee	—	—	—	Stillborn.
	9	Sarah McFee	34	—	—	Peritonitis.
	9	Rebecca Crumpler	64	1	1	Fibvoid tumor.
	9	Johanna Burns	26	—	—	Shock.
	15	Mary Estabrook	—	2	1	Pneumonia.
	15	John F. Saunders	49	6	4	Found dead in bed.
	18	Ann Leonard	65	—	—	Pneumonia.
	20	Wales R. Stockbridge	74	—	2	Concussion of spine.
	21	Annie Collins	1	3	—	Acute phthisis.
	23	John H. Ward	6	6	26	Pneumonia.
	24	Hannah H McCarthy	47	—	—	La Grippe.
	25	Hannora Foley	60	—	—	Pneumonia.
	26	George Pierce	76	1	13	Paralysis of heart.
	28	Helen L. Weston	—	11	28	Meningitis.

The Town Clerk requests information of any omission or error in the above tables, in order that the registration may be as complete as possible.

Respectfully submitted,

HENRY B. TERRY,

Town Clerk.

THIRD ANNUAL REPORT OF THE PARK COMMISSIONERS.

1. From the remarks and speeches made at various times during the year, we infer that many citizens are in favor of small local parks. If any land is secured for such purposes at low rates, it will be necessary, when opportunity offers, to act promptly. With this in view, we recommend the appropriation of $2,000 in 1896 for park purposes.

2. Your Commissioners deem it for the best interests of the town to have one Commissioner elected each year for a three years' term, instead of three Commissioners for a one year term. Therefore we requested that a proper article be inserted in the town warrant. And we prepared, and the Secretary offered under this article, the following motion:

> Moved, that the town at its annual election in 1896, elect three Park Commissioners, one for one year, one for two years, and one for three years; and that thereafter at each annual election the town elect one Commissioner for the term of three years.

This motion was adopted. We are of the opinion that this change in the term of office will tend to a conservative and continuous policy, which is much better than an uncertain and shifting one.

3. A proposition was presented to the Legislature of 1895 to allow the Metropolitan Commissioners to abandon, reconvey or sell at public auction or otherwise, any park land, by consent of the Governor and Council. From our experience and observation, believing that local boards were, as a rule, better acquainted with the exact lines and boundaries of parks in their locality, than any Metropolitan

Commission, and could therefore prevent undesirable changes in lines being made to suit the ends of owners on the borders of parks, we drafted and proposed an amendment that such abandonment or resale should be done "with the concurrence of the majority of the Board of Park Commissioners, if any, of the city or town in which the property is situated." This amendment was offered by our Representative in the House, and was adopted and is now a part of the law.

4. Your Commission, in the performance of its duties, requested the Selectmen to insert the following article in the warrant for the town meeting to be held March 28, 1895:

"To hear and act on a report of the Park Commissioners relating to land in the vicinity of High Rock, including a portion of the Sumner farm, and to see what sum of money the town will appropriate for park purposes, and to determine how the same shall be raised."

At that meeting the following report was read by the Secretary and later placed on file with the town records:

To the Citizens of Hyde Park:—Your Park Commissioners deem it wise to ask you to appropriate twenty-one thousand dollars to purchase about thirty acres of the Sumner estate, including High Rock, and also a piece of land adjoining, which belongs to the Real Estate & Building Company. The agents of the Sumner estate offer the thirty acres at seventeen thousand dollars, and the Real Estate & Building Company offer the additional land at one cent per foot. In 1894 the thirty acres was assessed with other lands in the same estate at five hundred dollars per acre, making a gross sum of fifteen thousand dollars for the Park which we propose to take. The land belonging to the Real Estate & Building Company is divided into lots, but we think the average assessment would be in excess of the price for which the Company offers to sell it to the town.

The proposed park contains an excellent athletic field and play ground, a fine natural spring of water, many places suitable for picnics or, in summer, to rest in the cool shade, and presents many beautiful views. We recommend that the money be raised by the issuing of bonds or notes of the town, payable in thirty equal annual instalments. In our opinion to purchase at the price stated will prove a good investment from every standpoint.

It was then moved that the Treasurer be authorized to borrow $21,000 to be used for purchasing land in the vicinity of High Rock for Park purposes, and for improvements thereon, and to give the notes or bonds of the town therefor; said sum to be paid in thirty equal annual instalments, the first payment to become due in 1896.

This was adopted by a vote of 394 in the affirmative and 14 in the negative.

The town treasurer, in the usual way, solicited proposals for the bonds thus authorized, and the lowest bid was accepted. Some questioned the legality of the vote while others maintained that it was valid, and the money loaner requested that its legality be put beyond question by an act of the Legislature. Certain citizens appeared before the Committee of the Legislature and opposed the enabling act; some on the ground that this small sum ought to be raised in ten years instead of thirty, and others that we did not need the park, or that it was useless or expensive. The Legislature passed the following act:

CHAP. 433. AN ACT TO AUTHORIZE THE TOWN OF HYDE PARK TO INCUR INDEBTEDNESS FOR PARK PURPOSES.

Be it enacted, etc., as follows:

Section 1. The town of Hyde Park for the purpose of purchasing land in the vicinity of High Rock for park purposes and for improvements thereon, may borrow twenty-one thousand dollars, and may issue bonds therefor payable in thirty equal annual instalments, the first instalment to become due upon the first day of May in the year

eighteen hundred and ninety-six. The bonds shall be dated the first day of May in the year eighteen hundred and ninety-five, shall bear interest at the rate of four per cent. per annum, payable semi-annually on the first days of November and May of each year, and shall be in denominations of five hundred and one hundred dollars each, but the provisions of chapter twenty-nine of the Public Statutes and acts in amendment thereof shall otherwise apply to such indebtedness.

Section 2. The vote of the town of Hyde Park passed on the twenty-eighth day of March in the year eighteen hundred and ninety-five, authorizing the treasurer of said town to borrow twenty-one thousand dollars for the park purposes named in section one of this act is hereby confirmed and declared legal and valid.

Section 3. This act shall take effect upon its acceptance by a majority vote of the voters of said town present and voting thereon at a legal town meeting called for the purpose within one year from its passage.

Approved May 20, 1895.

On June 26, 1895, a town meeting was held, article 6 reading as follows:

"To see if the town will vote to accept the provisions of Chapter 433 of the Acts and Resolves of the General Court of the present year. This is an act which will legalize the vote of this town, passed March 28, 1895, purporting to authorize the town Treasurer to borrow $21,000 for purposes of a park in the vicinity of "High Rock" provided the town votes by a majority vote at this meeting to accept the provisions of said act. If the town at this meeting refuses to accept said act, then said vote of the town passed last March remains unaffected by said act."

The vote was taken by a "yes and no ballot," 147 voting in the affirmative and 231 in the negative.

According to the opinion of able lawyers, this does not prevent the present Commissioners or their successors from making a contract with the land owners to purchase the land, and then compel payment through the courts. It also permits the Treasurer to borrow the money at any rate of interest of any one who will accept the loan without any enabling act. Or if brought before the town in due form, this act may be voted on at any time or many times between

now and May 9, 1896. Your present Board, regardless of their own opinion, refused to take any further action in the premises, believing that majorities rule, that it was fair to interpret this vote of June 26th as an instruction not to buy, and that the citizens should be the final judges of what they want. It is, however, an undesirable situation, and we recommend that an article be inserted in the next town warrant, under which the town can either accept the enabling act before quoted, or can rescind the vote passed the 28th day of March, 1895, so that the matter can be finally disposed of by the town.

5. As many changes must necessarily occur in the Readville District in the near future, it would seem advisable from the economical standpoint that the Park-way proposed between Stony Brook and Blue Hill Reservations be laid out and built next year. But this is beyond the jurisdiction of this Board. It could, however, be brought before the Legislature, on petition, if a sufficient number of citizens are interested.

The Metropolitan Board at present have no money with which to construct ways, and as some of the towns are urging their claims with much force and pertinacity, it is quite probable they will throw the burden of obtaining an appropriation from the Legislature, for any specific park way, upon the advocates of the measure. One town, at its own expense, is obtaining releases and terms of sale from all land owners, to ascertain the probable cost of the proposed way. If there is a predominant sentiment in Hyde Park in favor of this improvement, some method of expressing it might lead to good results. In order to have a fair chance for success, any attempt in this direction must receive the hearty co-operation of our citizens. The advantages of a Boulevard connecting these two reservations, can hardly be overestimated from any standpoint. Yet it costs our town

no more to have this road built than it does to have the same sum expended by the Metropolitan Commission, in any other town in the Metropolitan District. We pay our proportion the same as for Metropolitan Parks.

With these suggestions we leave the matter to the good common sense of our citizens.

JOHN J. ENNEKING,
WILBUR H. POWERS, Secretary,
LAWSON B. BIDWELL,
Park Commissioners
for the Town of Hyde Park.

CEMETERY COMMISSIONERS' REPORT.

The Cemetery Commissioners submit their fourth annual report for the financial year ending Jan. 31, 1896. They have received $6,553.89, as follows:

Sale of lots,	$2,680 00	
Single graves,	235 00	
Interment and receiving tomb charges,	466 00	
Foundation for monuments,	181 14	
Sale of wood,	32 50	
Balance from last year,	959 25	
Total,	$4,553 89	
Appropriation,	2,000 00	
		$6,553 89
Expense, labor, etc.,	$2,640 03	
Paid Town Treasurer for lots,	2,680 00	
Single graves,	235 00	
Paid for land,	175 00	
		$5,730 03
Balance on hand,		$823 86

For statement of receipts and expenditures see financial statement accompanying this report.

During the past year the Commissioners have extended Fairview, Magnolia, Poplar, and Aspen Avenues, and Hazel path. They have laid out and graded lots in several different parts of the cemetery; also graded a large section for single graves. They have laid 1,000 feet of drain pipe, which will drain a large proportion of the cemetery.

The Commissioners intend to erect sign-boards with the names of the avenues or paths in the parts of the cemetery which are completed, and they expect also, early next spring, to lay water pipes in different sections of the cemetery.

An appropriation of $500 by the town is recommended by the Commissioners, this being fifteen hundred dollars less than last year.

STATISTICS.

	1892.	1893.	1994.	1895.	Total.
Number of lots sold,	16	16	19	29	80
Interments in lots,	10	40	16	39	105
Interments in single graves,		22	32	59	113
In receiving tomb,			11	9	

GEORGE M. RICE,
GEORGE E. WHITING,
CHARLES F. JENNEY,
Commissioners.

POLICE REPORT.

To the Honorable Board of Selectmen:

Gentlemen—I respectfully submit herewith the annual report of this department for the year ending Jan. 31, 1896.

Number of persons arrested,		250
Males,	233	
Females,	17	
CAUSES FOR ARREST.		
Drunkenness (simple),		162
Drunkenness (common),		3
Disturbing the peace,		14
Assault and battery,		12
Vagrancy,		5
Breaking and entering,		4
Larceny,		7
Larceny from a building,		1
Cruelty to animals,		3
Assault with intent to kill,		2
Assault on an officer,		1
Assault with intent to maim,		2
Forgery,		1
Embezzlement,		1
Liquor nuisance,		4
Illegal keeping of liquor,		3
Illegal sale of liquor,		1
Indecent exposure,		1
Violation of Metropolitan Park Laws,		3
Converting mortgaged property,		1
Concealing mortgaged property,		1
Selling mortgaged property,		1
Stealing fruit,		2
Keeping unlicensed dog,		1
Common railer and brawler,		1
Profanity,		1
Insane,		9
Other offences,		3
		250

MISCELLANEOUS.

Travellers lodged in station house over night,		2980
Cases investigated without arrest,		227
Stores found open at night,		16
Search warrants for intoxicating liquor,		11
Lost children restored to parents,		3
Amount of fines imposed by Court,	$1,869.00	
Number of persons fined,		167
Imprisonment imposed by Court,	6 years 2 months.	
Stolen property recovered, value,	$471.00	

FINAL DISPOSITION OF CASES.

Committed to House of Correction,	84	
Committed to Insane Asylum,	9	
Turned over to State Board of Lunacy and Charity,	1	
Turned over to parents,	1	
Turned over to other officers,	4	
Let off on probation,	25	
Let off on payment of fine,	111	
Discharged,	10	
Cases on file,	2	
Awaiting trial,	3	
	---	250

Since the last annual report the department has moved into the new quarters provided by the town, which are a decided improvement over the old ones. The cell room is well lighted, warm and dry, and prisoners are now separated from the travellers who apply nightly for lodgings, and we are enabled to keep the lock-up in a clean and healthy condition. The office and officers' quarters are ample and commodious. Complaints have frequently reached us for better protection in the Clarendon Hills district. Although the force has been increased during the year the appropriation made would not admit of a regular patrolman in that vicinity, and I trust this may be remedied the coming year. A night patrol was placed on the old Camp Ground and vicinity early in the spring, owing to the large floating population employed on the new mile track, most of whom

came from other States and who camp upon the grounds. A night man has been placed on Fairmount and vicinity. Readville and Hyde Park Avenue above the woollen mill have also been provided for. Several special officers have been assigned to duty on Sundays and holidays.

Few crimes of a serious nature have been committed during the year as will be seen from the report herewith. A large number of complaints have been investigated without arrest, many of them outside our jurisdiction, but to which we gave our attention for the peaceful interests of all concerned.

The Street Railway has added largely to the duties of the department. The vicinity of Hyde Park Avenue and West River Street has, on pleasant evenings and Sundays required the attention of an officer constantly, owing to the large number of people who congregate there to take passage in the cars. It is anticipated that travel will materially increase the coming year owing to the extension of the tracks to Milton Lower Mills, and to the completion of the new mile track at Readville early in the season. Although the larger part of the new mile track will be located in Dedham, entrance to the same will be through our town, and during the occupancy of the grounds for trotting purposes a police force will necessarily be required there, as the people who visit the place will come largely from surrounding towns and cities. Race track gatherings usually draw an element from near-by cities whose presence is not desirable, and who live largely at the expense of others.

During the financial year ending January 31, 1896, 2,980 travellers were cared for, against 3,411 in the year ending January 31, 1895, and 4,731 in the year ending January 31, 1894.

I would recommend that the force be increased at least one man during the coming year.

In conclusion, I respectfully tender my thanks to the public and to the Board of Selectmen for their cordial support during the year, trusting that the department has been conducted in a satisfactory manner with the force at my disposal.

JAMES McKAY,
Chief of Police and Keeper of Lock-up.

REPORT OF THE BOARD OF HEALTH.

To the Citizens of Hyde Park:

The Board of Health herewith submits its annual report.

The work of this year has been in about the same line as years before. Complaints of different kinds, care in regard to the spread of contagious diseases, and carrying out the laws in relation to plumbing contracts.

Most of the complaints to the Board have proved on investigation to be well founded. A few did not come under the jurisdiction of the Board. About one hundred and fifty complaints have been received in relation to overflowing cesspools, vaults in bad condition, wet land, filthy houses and yards, dead animals, and swine kept without permits.

In order that the work of the Board might be carried on to better advantage, and those having business to bring before the Board could receive proper attention, the Secretary was instructed to be at the Board of Health rooms one hour each day to receive all communications and to attend to any matters which might come up for action, and we have found that this has been a great help in the management of the work of the Board.

SANITARY.

We consider the sanitary condition of our town in most parts, fair. We hope the town will adopt the report of the committee appointed by the town to look into the matter of a system of sewerage, and begin at once to construct such system, and thus put us in condition to guard against contagious and malarial diseases, the occurrence of which we believe to be favored by our present system of drainage. Privy vaults continue to be an intolerable nuisance and are,

in a measure, responsible for sickness which might otherwise be avoided. The change in the system of clearing vaults and cesspools is perfectly satisfactory to the Board, and we believe to most of the citizens. The cost of the work is more than it should be, but on account of the distance to the place used for dumping we have been unable to change this up to the present time. The Board will be only too willing to make any changes which will lessen the cost to individuals having this work done. We invite the most thorough and careful investigation into this matter, and are confident that the citizens will find that the Board are doing all in their power to make this service acceptable to them.

CONTAGIOUS DISEASES.

There has been quite an increase in the cases of contagious diseases, although in some respects we have fared better than some of the towns about us. The increase in cases of measles has given a large total for this year. We find that in cities and towns where a hospital is provided that patients receive in most cases better care, the contagion is less liable to spread, and deaths are less frequent. We hope the time will come when we can have this help in our work.

The following is the report of cases for this year:

Diphtheria,	22	cases	with	6	deaths.
Scarlet Fever,	35	"	"	2	"
Measles,	99	"	"	0	"
Typhoid Fever,	16	"	"	1	"
Membraneous Croup,	1	"	"	1	"
Total,	173	"	"	10	"

COLLECTING OFFAL.

The contract for collecting offal for the year was given to the lowest bidder, Mr. E. M. Cundall, he giving Mrs. Hukin the right to collect on the route covered by her teams for several years. Owing to the change in collector, to whom the work was new, and also to an increase in the

number of places, a great many have not received the attention they should; but we trust that by another year, whoever does the work, this will not occur again.

SWINE.

The complaints are coming in more and more each year in regard to keeping swine in the thickly settled portions of the town. No one is allowed to keep swine without a permit, and all permits which are granted with the provision that if complaint is made they will be cancelled. Orders have been given to several parties to dispose of swine kept without permit, and such orders have been complied with.

PLUMBING.

In this branch of our work there is much to do each year. On the 1st of May, C. T. Lovell resigned as Inspector, he being unable to attend to the work on account of other duties. J. C. Savage was appointed to take his place. This made a vacancy in the office of Assistant Inspector and S. G. Gifford was appointed Assistant. The work has, in most cases, been done in a satisfactory manner, and we believe that the town will be greatly benefitted by the enforcement of the plumbing laws.

The Board of Examiners have examined two candidates as master plumbers, and one as journeyman, and licenses were granted in all cases.

The Inspector, in his report to the Board, calls attention to the fact that under the new laws work which has in a great many cases been hardly up to the standard, is now done as required. The number of jobs inspected was about one hundred and thirty. There were forty-two cases where rules were not complied with, which were attended to when attention was called to them. A few cases where notices were sent old work was inspected and the result made known to the Board.

We agree with our Inspector in the statement that our plumbing is equal, as regards sanitary requirements, with any of our sister towns or cities.

REGULATIONS OF THE BOARD OF HEALTH OF THE TOWN OF HYDE PARK.

Public Statutes: Chapter 80, Section 18.—The Board of Health of a town shall make such regulations as it judges necessary for the public health and safety, respecting nuisances, sources of filth, and causes of sickness within its town. Whoever violates any such regulation shall forfeit a sum not exceeding one hundred dollars.

In accordance with the foregoing provision of law, this Board makes the following regulations, which will be strictly enforced.

Regulation 1. *Privy Vaults and Drains.* Section 1. Every tenement shall be provided with a water-tight underground drain to carry off the waste waters, also with a suitable privy or water-closet sufficient for the accommodation of all those inhabiting the premises.

Section II. All privy vaults, unless water-tight, shall be so constructed that the inside of the same shall be at least five feet distant from the line of any adjoining lot or street, and at least twenty feet from any dwelling house, and shall be provided with a ventilation through the roof. The same shall not be used as cesspools nor receive drainage from the premises. Their contents shall not be allowed to leak out or otherwise become offensive. All privy vaults shall be of a size sufficient to satisfy the Board of Health.

Section III. All waste water shall be conveyed through sufficient drains under ground to a cesspool sunk under ground, which shall be of sufficient size to contain at least eighty cubic feet, and when not water-tight must be at least twenty feet from the cellar wall of any tenement or dwelling, and at least five feet distant from any adjoining lot or street. Cesspools shall be built in a thorough and substantial manner, as shall be approved by the Board of Health.

Section IV. No person shall allow any drain or the overflow of any cesspool to enter any running stream, or any drain constructed for surface water, and no person shall suffer any house drainage or other offensive water to remain in any cellar, or upon any lot or vacant ground by such person owned or occupied. All privy v aults and cesspools within one hundred and fifty feet of any well or spring, the water of which is used for domestic purposes, must be water-tight.

Section V. All privy vaults or cesspools must be thoroughly cleansed at least once in each year, and oftener if necessary for the public health, the expense to be borne by the owner of the property.

Regulation 2. Section 1. The Board, when satisfied upon due examination that a cellar, room, tenement or building in the town occupied as a dwelling place, has become by reason of the number of occupants, want of cleanliness or other cause, unfit for such purpose, and a cause of nuisance or sickness to the occupants or to the public, may issue a notice in writing to such occupants, requiring the premises to be put in proper condition; or if the Board see fit they may require the premises to be vacated, and the same shall not be again occupied without the written permission of the Board.

Section II. No person shall throw or put into any public place or pond, or running stream or body of water, or in any other place where the Board of Health may deem it a nuisance, any dead animal, animal matter, decayed fruit or vegetables, dirt or rubbish whatever; nor shall any person throw into or upon any flats within the jurisdiction of the town, any dead animals, filth or offensive matter.

Regulation 3. *Swill and Offal.* Section 1. No person shall remove or carry in or through any of the streets, lanes or avennes, places or alleys within the town of Hyde Park, the contents of any cesspool, vault or privy well, swill or house offal (either animal or vegetable), or grease or bones, unless a permit be granted by the Board of Health upon such terms and conditions as said Board may deem necessary.

Section II. No person shall bury swill or house offal, or the contents of any cesspool, vaults, privy or privy well within the limits of the town of Hyde Park unless a permit be granted by the Board of Health.

Section III. Parties will be licensed by the Board of Health to collect swill and refuse matter from houses in Hyde Park twice a week or oftener, and all housekeepers and others are directed to deliver the same to those duly authorized to make such collections.

Regulation 4. *Diseased Meat and Provisions.* Section 1. No person shall bring into the town, keep or offer for sale any diseased, putrid, stale or unwholesome meat, vegetables or provisions.

Regulation 5. *Swine,* Section 1. No person will be permitted to keep any swine within the limits of the town of Hyde Park, without a written permit from the Board of Health.

Regulation 6. *Contagious Diseases.* Section 1. Any person sick with the small pox or other contagious disease, together with all persons in attendance upon them, and the premises where such

sick person is, will be subject to the control of the Board, and no person shall enter or leave a house wherein a person is or has been sick with the disease, or in any way come in contact with the inmates of such house except by permission of the Board.

Section II. Whenever the Board of Health shall ascertain that any person is sick with small pox, scarlet fever, diphtheria, or any other disease dangerous to the public health, the Board shall at their discretion, have full control of said person or premises, and shall, if they deem proper, order the premises vacated.

Section III. All persons are warned not to approach a house or the surrounding premises whereupon is displayed a disease flag by day or a red light at night.

Section IV. The bodies of all persons dying of small pox, scarlet fever, typhus fever or diphtheria must be immediately disinfected and placed in a tight coffin, which shall not be reopened, and the bed, bed clothing, and other clothing used by any such person, and by those in attendance on him, and all the furnishings of the sick room, thoroughly disinfected before being taken from said room. In the above case no public funeral will be allowed without permission from the Board of Health.

Section V. The owner, or person having charge of any vehicle, public or private, used at a funeral in the foregoing cases, to carry the deceased, or any of the family or attendants of the deceased, shall forthwith report the fact to the Board of Health, and shall thoroughly disinfect such vehicle before the same is again used, and take such precaution as the Board of Health shall direct.

Section VI. Any person in the town of Hyde Park who knows or suspects any domestic animal has contagious disease, (such as glanders in horses or cholera in swine), must immediately report the same to the Board of Health. The penalty for neglect to do so is fine or imprisonment. The above is in accordance with the provisions of Chapter 252 of the Acts of 1887.

Regulation 7. Section 1. All complaints in relation to nuisances and sources of filth injurious to the public health and safety, must be made in writing to the Board of Health, with a description of said nuisance and of the premises on which it exists, with the owner's name, if known to the complainant. Sueh complaints must bear the signature of the complainant. Whenever such complaint shall be made as aforesaid, the Board of Health shall proceed to examine the premises complained of, and will take measures to abate the nuisance, if such is found to exist.

Regulation 8. Section 1. No person, firm or corporation not

now engaged in or working at the business of plumbing shall hereafter engage in or work at said business in the town of Hyde Park, either as a master or employing plumber or as a journeyman plumber, unless such person, firm or corporation first receives a license therefor, in accordance with the provisions of Chapter 477 of the Acts of the year 1893 of the Commonwealth of Massachusetts and Acts amendatory thereof, or supplementary thereto.

Section II. Any person desiring to engage in or work at the business of plumbing, either as a master or employing plumber, or as a journeyman plumber, shall apply to the Board of Health and shall at such time and place as may be designated by the board of examiners appointed by the Board of Health, as provided for in said Acts, to whom such application shall be referred, be examined as to his qualifications for such business. In the case of a firm or corporation the examination and licensing of any one member of the firm, or the manager of the corporation shall satisfy the requirements of this regulation.

Section III. The board of examiners shall examine said applicants as to their practical knowledge of plumbing, house drainage and plumbing ventilation, and if satisfied of the competeny of the applicant, shall so certify to the Board of Health.

Said board will thereupon issue a license to such applicant authorizing him to engage in or work at the business of plumbing. The fee for a license for a master or employing plumber shall be two dollars; for a journeyman plumber it shall be fifty cents. Said licenses shall be issued annually, expiring on the thirty-first day of May next ensuing, aad shall be conditional on skillful work, and a strict observance of the rules governing plumbing.

Section IV. No person shall carry on the business of plumbing nnless he shall have first registered his name and place of business in the office of the Board of Health; and notice of any change in the place of business of a registered plumber shall be immediately given to said Board.

Section V. No person shall proceed to construct, add to, or alter any portion of the drainage system (except to repair leaks) of any building in the town of Hyde Park, until plans showing in detail the whole drainage system shall have been filed at the office of the Board of Health, upon blanks in such form as the Board may determine; no person shall commence work on such drainage system until the plans are accepted by the inspector of plumbing and a permit of approval granted. Plans and specifications shall be approved or rejected within five days of the time of the filing.

Rules and regulations for material, construction, etc., may be found in town by-laws.

Fully believing that a large proportion of contagious diseases originate from unsanitary conditions, we trust that we shall have the aid of all citizens and property owners in carrying out the above regulations, which are based on statute laws, and the sanitary rules of our large towns.

For burial permits apply to F. C. Graham, 10 Harvard avenue.

FINANCIAL STATEMENT.

To Appropriation,	$2,500 00	
Balance from last year,	420 66

Balance on hand,		$547 25

Again we are able to report all bills paid and a good balance in the treasury. We have tried in every way to keep pace with the times in learning what other boards are doing and the best methods in use for the prevention of disease.

The Board is connected with the Mass. Association of Boards of Health, and every effort will be made to keep the town in the front rank in regard to sanitary improvement.

Respectfully submitted,

ALVIN D. HOLMES, M. D.,
JOHN C. LINCOLN, M. D.,
EDWIN C. FARWELL,
Board of Health of the Town of Hyde Park, Mass.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

When the last annual report was written the Trustees hoped that some decided progress would before this time have been made toward the erection of a new building for the use of the library. Though nothing material has yet been done, they note with pleasure that the attention of the public has been aroused and that many of our most active and influential citizens are agitating the subject. Through the liberality of a public-spirited lady the Readville district is soon to have a suitable building, and it is to be regretted that the rest of the town should be obliged to submit to such inferior accommodations.

Those who have long been residents of the town have watched with pride and satisfaction the increasing excellence and beauty of its dwellings, but they notice with regret no corresponding improvement in its public buildings. A good book deserves a good binding, and a well-bound book deserves to be kept amid suitable surroundings. Is it too too much for you to ask that when you go from your attractive homes after books, (or send your children for them) that you may find an equally attractive place in which to consult them? The neighboring towns find that money judiciously expended for good buildings is money well invested, since it calls to their borders a desirable class of residents who are able and willing to assist in bearing its burdens. Should we find money thus expended a less profitable investment than they have found it?

Your Trustees confidently look forward to a time in the not distant future when the Library shall be not merely a

place where our citizens may get books and hasten away, but a place so attractive that they may remain there with pleasure to become familiar with its treasures of literature and science. It ought also to be a source whence they may draw not only books but information about books; where both young and old may receive suggestions to direct their reading wisely. Thus it may both directly and indirectly raise the standard of literary taste in the whole community.

The Trustees have under consideration plans for making the library more helpful to the public schools. These plans they hope to be able to put into active operation during the coming year.

A new catalogue is much needed, but it has been deemed unwise to incur so great an expense, since the radical re-arrangement of books which a change of quarters would make necessary would render such a catalogue useless. Something, however, has been done to supplement the existing catalogue by bulletins posted in the reading-room and by lists printed in the local papers.

The circulation has been practically the same as last year, the number of books taken for home use having been 33,578, while 2,951 magazines and 1,351 books have been taken out for use in the reading room.

There have been added to the library 612 volumes.

The following donations have been received:

United States Goverment	10 volumes
Commonwealth of Massachusetts	15 volumes
Mr. A. E. Giles	10 volumes
Mr. F. A. Wyman	1 volume
Mr. F. W. Darling	1 volume
Mr. T. F. Burns	1 volume
Mass. Department G. A. R.	1 volume
Smithsonian Institute	2 volumes

There have also been received from various sources 18 pamphlets.

HENRY B. MINER,
For the Trustees.

REPORT OF THE OVERSEERS OF THE POOR.

The Board of Overseers of the Poor herewith present their twenty-eighth annual report for the year ending Januaay 31, 1896. Although the total number of persons aided during the year shows a marked decrease compared with the previous year, this fact is due to the falling off in the number of tramps lodged, while the number receiving full support and temporary aid has increased. Careful investigation has shown that intemperaece was the cause in a large proportion of the new cases. In a few instances the applicants have been deserving and their condition could not be attributed to causes other than sickness or lack of employment. It is not to be understood that all persons applying will receive relief. A just discrimination will be exercised, and temporary relief granted only to deserving persons after such inquiry and investigation as the circumstances of each case will admit.

REPORT OF THE BOARD OF ENGINEERS.

To the Board of Selectmen:

We herewith respectfully present our report of the Fire Department for the year ending January 31, 1896.

The Central Fire Station, which for many years, has had very little expended upon it, has been thoroughly repaired and painted and a Magee combination heater put in. The hose house at Readville has been further improved and at present is quite a model house. The entire Department has been equipped with the latest and most improved harness hangers. Five hundred feet of new hose has been added.

For the better care of wet hose the hose tower on the Central Station has been improved and a special heater connected for use on frozen hose.

That part of the Central Station formerly occupied by the Police Department, recently vacated, supplies a long-felt want. It should now be improved for fire department uses. One thousand feet of new hose should be added.

It is an established fact that the Department is composed of capable and active men. All its members try to do their duty. They respond promptly to alarms and get to the fire as quickly as possible under some difficulties. Much better time could be made if there were two pairs of horses and two permanent men in the Central Station, and in our opinion it is time such addition was made to the department facilities. If such a condition can be reached, the entire department need not respond on first alarms; having horses in readiness, they can hitch and wait 20 minutes, and if not called, retire.

Your attention is called to the fact that the town is growing in all directions, and East River Street represents a large amount of property, taking in Holmfield and a part of Rugby. In case of an alarm from that district it is a long run. At present we depend upon horses from an outside stable. Very often the horses we get are just put up after a long drive or a hard day's work, and it is not to be expected that they can take the apparatus to a fire as quickly as a good fresh pair waiting in the Station for just such work.

Fortunately our town has not been visited by serious fires during the past year. It is well, however, to bear in mind that the business blocks in our midst are the kind of material for a large conflagration.

LOCATION OF HYDE PARK FIRE ALARM BOXES.

13. Grew School.
14. Cleveland and Childs streets.
15. Alden's Store.
16. Cotton Mill.
17. Buckingham and Readville streets.

OLD SETTLERS ON TOP.

Young Men of Milton Made a Good Fight but Lost.

The annual town meeting in [illegible] was held Monday afternoon, and [illegible] an event of unusual importance [illegible] year. There was a bitter fight [illegible] between the young men of the [illegible] and the good government rules [illegible] old settlers. After a hard struggle [illegible] young men's candidates were defeated by a large majority. The polls opened early in the forenoon, and from [illegible] until 2 o'clock the fight continued. The officers elected for the ensuing year which ends March 1, 1897, are as follows:

Moderator, Hon. Edward L. Pe[illegible] Overseers of Poor and Surveyors of Highways and Selectmen, J. A[illegible] Simpson, Arthur H. Tucker, George Nickerson; Assessor, J. Walter Ba[illegible] Town Clerk, Henry B. Martin; Treasurer, Joseph Howes; School Committee, Freedland D. Leslie, Ha[illegible]

ington; Collector of Taxes, John

rd Grossman, Fred M. Par-
an, Edwin A. Houghton, Jacob S.
olm, Timothy McDermott, Peter
ntyre, Charles Mitchell, Maurice
, Henry C. Shields, John H.
er.

has been the usual custom, there
e no license in the town the
ing year. The favorities of licenses
e defeated at a ration of 3 to 1.
vote was as follows: Yes, 124, and
24. The interest in the affairs of
town have for the past four weeks
growing rapidly owing to the
that the young element, which
endeavored to "run things" at town
etings, and this year the caucus
ich was held two weeks ago, was
of the warmest affairs that the
n has seen for 20 years.
The cause of all this trouble is that
ring the past five years a large num-
of Boston's bright young men have
en up their residence in the town of
ton. They have not remained quiet
allowed the older residents to drift
of progress in the town. The
ement is also very wealthy,
large portion of the taxes.
aucus held two weeks ago
candidates of the younger
est young man, a very good
, whose family had lived in
almost since the community
beginning, was defeated for the
tion for Selectman by Mr. Philip
onstall, the son of the late Lev-
Saltonstall, while one of the town
clans was had been serving for a
years on the School Committee,
deposed by Robert L. Herrick, one
the bright young lawyers of this
, who has lately moved out to Mil-
n.
How the young element defeated the
older men at the caucus and put in
their candidates is still a mystery, but
it is said real live hustling won the
day. Both Phil Saltonstall and Bob
Herrick are very well known among
the progressive men of the town as
being especially bright in their different
professions, and both have a host of
friends. Mr. Saltonstall has lived in the
town nearly seven years, and for the
past five has taken an active interest
in its affairs. He lives up on the south
side of Brush Hill, and is the acknowl-
edged leader of all that is lively in that
neighborhood of bright young married
men, and there are a lot of them well
known for their ability and shrewdness.
Bob Herrick is as well known as Phil
Saltonstall. He married the daughter
of E. A. Taft of the New York and
Boston Express, and has become by his
own exertions one of the leaders of the
young men of the Suffolk Bar. In fact,
he became a member of the Bar before
he graduated from Harvard, where he
stroked the famous '85 crew to victory.
There are few men who can point to
the fact that they entered the Bar be-
fore graduating from the law school.
The fact that these two young men
have well-known ability seems to have
cut but little figure with the men who
are employed in the chocolate mills, and
the staid old farmer.
As was shown by the vote at the
polls, young Saltonstall was defeated
for the Selectmanship by 100 or more
votes. Also his partner, Bob Herrick,
was defeated for School Committee by
the same candidates—Arthur Tucker
(for Selectman) and Dr. Leslie (for
School Committee), who were defeated
by the two young men at the caucus.
This shows that evidently the old and
staid farmers and the ordinary work-
ingmen asserted their rights, and once
more successfully defeated their can-
didates. The election of these two men
and the overthrow of the young men
will, no doubt, cause considerable feel-
ing. The rumor afloat that Dr. Leslie
and Arthur were supported by the A.
P. A. elements in the lower Mill section
is said to be false, and, instead, that
the A. P. A.s themselves were over-
thrown in the fight for constables; and
was the only part they took in the

The town meeting was held at 2 o'clock, and was largely attended by the voters who had taken part in the morning fight. There were 53 sections of the warrant, and every one of them was disposed of to the entire satisfaction of those present. The only spirited remarks, which caused a great deal of merriment, were those of Charles T. S. Townsend, an old and wealthy citizen of the town. The cause of his remarks was the appropriation of $3800 for a playground in East Milton for the boys and girls of the town.
It was the opinion of Mr. Townsend that the younger generation of this present century could well afford to do without a playstead, as the boys (when he was a boy) had none. He was quickly frowned down by several members present, who had in mind the visions which come before them as boys, namely, "Keep of the grass," and "You can't play in my yard," said phrases unknown in Mr. Townsend's early boyhood days. He was reminded by these citizens voting to expend $3800 for the ground. The other appropriations were as follows:
Appropriations, Public Schools, $45,000, and $2500 for deficiency of last year; Highways, $30,000; Cemetery, $2000; Public Library, $1200; Support of Poor, $7500; Police Department, $15,000; Street Lighting, $8960; Salaries of Town Officers, $3500; Town Hall and Lot, $1000; Reseating Town Hall, $750; State Aid, $1000; Town Printing, $1300; Miscellaneous Expenses, $17,925; Health Department, $1500; Hydrant Rental, $6300; Improvement and Extension of Fire Alarm Service, $1900; Hannah Gleason Frothingham Wolcott Post 102, G. A. R., $200; Insurance, on Town Buildings, $1500; improving and laying out East Milton Play Ground, $3800; for horse sheds at six different schools, $900; transportation for school children, $2500; enlarging Pleasant Street School, $5000; for a plankwalk to be built on Thatcher Street to Central Avenue, $900; general road completion and rebuilding, $35,000; approving town by-laws by Superior Court, $125; rebuilding Adams Street, $1500; clerk for Selectmen, $800; salaries Town Auditors, $1503.
This brought one of the most exciting meetings in this town for years to a close, but leaving the older and staid set at loggerheads with the younger element.

If you want a sure relief for pa
in the back, side, chest or lim
use an

Allcock's
Porous Plaster

BEAR IN MIND—Not one of th
host of counterfeits and imitation
is as good as the genuine.

HENRY A. MOTT, Ph. D., F
C. S., late Government Chem
ist, certifies:

"My investigation of Allcock's
Porous Plaster shows it to contain
valuable and essential ingredien
not found in any other plaster, an
I find it superior to and more efficien
than any other plaster."

TO MOTT HAVEN.

Boston University Will Send a Team to Compete in the Games.

Boston University Athletic Council held its regular meeting yesterday afternoon. Mr. E. A. Perkins, President of the Athletic Association, reported that the association had just been admitted into the Intercollegiate Athletic Association and would send representatives to the Mott Haven contest on the last Saturday in May.

A report from the Trustees was expected in regard to foot ball for the coming year, as it is understood that there is much feeling in that body against the game. The students await their action with much interest.

President Perkins also reported that the outlook for base ball was very encouraging, that arrangements had been nearly completed for securing from the Subway Commissioners the yard of the old B. and M. station for practice, and that a good list of games had been arranged.

A few of the most prominent [illegible] Tom Burke, who holds the New England amateur championship for one-quarter mile, and is also very good at 220 yards. Also in the Law Department are Sherman of the Lawrence Athletic Club as a short distance runner, and J. E. Connors of Fitchburg A. A., also a short distance runner. A. M. Lyons is well known in the hurdles.

In the Theological Department are Myers and Hughes who have a reputation for slinging the shot and hammer. In the C. L. A. Department, Lindsay and Carroll will enter for the short distance running, and Sanborn and Crawford for the long runs. The final contestants will be chosen the last of April.

TOMMY RYAN DEFEATED.

Kid McCoy Knocked Him Out in the Fifteenth Round.

Maspeth, L. I., March 2.—The boxing contest between Tommy Ryan and "Kid" McCoy tonight resulted in a victory for McCoy, who knocked Ryan out in the 15th round.

SPORTING MISCELLANY.

RUSSELL PLAYED UP-HILL POOL.

"Joe" Russell defeated "English Tom" last night in the opening game of the professional pool tournament at Murray & Irwin's by splendid up-hill work in the latter part of the match. At one time the score stood 67 to 38 in favor of "English Tom." The score:

Russell—4, 12, 6, 0, 0, 15, 1, 13, 11, 15, 15, 10, 8, 11, 0. Total—125.

"English Tom"—11, 3, 9, 15, 15, 0, 14, 2, 4, 0, 0, 5, 7, 4, 2. Total—81.

Wise and Ingraham will play tonight.

YALE CAN GO TO HENLEY.

New Haven, Conn., March 2.—A conference of the academic and scientific branches of the Yale Faculty was held tonight, and it was decided that the request of the university navy management to enter an eight in the Henley regatta in July would be granted. The [illegible] of

AUDITORS' REPORT.

In compliance with the By-laws of the town the undersigned have examined the accounts of the Selectmen, School Committee, Collector of Taxes, Town Treasurer, Commissioners of Sinking Fund, Trustees of the Public Library, Overseers of the Poor, and Board of Health, and hereby certify that the same are correct, and all payments accompanied by proper vouchers.

WALLACE D. LOVELL,
ASA J. ADAMS,
Auditors.

BY-LAWS.

NOTIFICATION OF TOWN MEETING.

Every town meeting shall be notified by posting copies of the warrant calling the same, in ten public places in the town, seven days, at least, before the day appointed for said meeting.

ANNUAL TOWN MEETINGS.

The annual town meeting for the election of town officers shall be held on the first Monday of March of each year. The meeting shall be opened at seven o'clock A. M., and the polls shall be kept open until sunset.

A town meeting shall also be held annually between the first Monday of March and the first Monday of April, for appropriating such sums of money as may be necessary for town purposes, and for transacting such other business as may legally be brought before said meeting.

RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

1.—All questions submitted for the consideration of the town, involving the expenditure of money, shall be in writing, when so required by any legal voter.

2.—No vote fixing the period for closing a ballot shall be reconsidered after such ballot shall have commenced; but it may be in order to extend the period without such reconsideration.

3.—When a question is under debate, motions shall be received to adjourn, to lay on the table, the previous question, to postpone to a certain time, to postpone indefinitely, to commit, or to amend; which several motions shall have precedence in the order in which they are herein arranged.

4.—The powers and duties of the presiding officer, not especially provided for by law, or by the foregoing rules, shall be determined by the rules of practice contained in "Cushing's Manual," so far as they are adapted to the condition and powers of the town.

5.—No vote shall be reconsidered except upon a motion made within one hour after such vote has passed, unless such reconsideration is ordered by a vote of two-thirds of the voters present and voting

FINANCIAL YEAR.

The financial year of the town shall begin with the first day of February in each year, and end on the thirty-first day of the following January.

The selectmen, overseers of the poor, board of health, surveyors of highways, and school committee shall post in some conspicuous place at their official rooms, a notice of the times of their respective meetings.

COLLECTION OF TAXES.

1.—The assessment of taxes shall be completed, and a list of the same delivered to the collector, on or before the first day of August of each year.

2.—All taxes which may be assessed, if paid on or before the first day of October next after the assessment, shall be entitled to such discount as the town shall vote at its annual meeting. All taxes shall be due and payable on or before the first day of November next following the assessment of said taxes.

3.—On the first secular day of each month, the collector shall pay over to the town treasurer all the taxes collected by him, and he shall, on or before the first day of February in each year, make up his account and render the same to the auditors.

DUTIES OF THE AUDITORS.

1.—The auditors shall examine the accounts of the selectmen, school committee, treasurer, collector, trustees of the public library, and all other officers or committees entrusted with the expenditure of money, quarterly, and shall certify as to the correctness of the same in the printed annual report.

2.—Before certifying to the accounts of the treasurer, they shall examine his cash-book, wherein shall be entered his receipts and payments, as they occur from day to day, shall see that he has paid out no moneys except on proper vouchers, carefully examine all payments for interest, and see that the funds on hand are intact.

3.—Before certifying to the collector's accounts, they shall examine his cash-book, showing the amounts collected from day to day, and showing when the same were paid over to the treasurer; shall see that he has collected interest on all taxes overdue, and shall see a complete list of abatements, and also a list of unpaid taxes.

4.—They shall see that the accounts of the trustees of the public library are kept in a correct manner, and that all payments are accompanied with proper vouchers.

COASTING.

Coasting on any of the public streets of the town is prohibited, except upon such streets as the selectmen may designate each year by public notice.

HIGHWAY AND POLICE REGULATIONS.

1.—No building shall be removed over a public street without the written permission of the selectmen.

2.—The owner of such building, or the person or persons removing the same, shall give a bond in such penal sum, and with such sureties as the selectmen shall determine, with condition to reimburse the town for all sums of money which it may be liable or compelled to pay in consequence of such use of the highways.

3.—No person except the selectmen or the surveyors of highways, in the lawful performance of their duties, or those acting under their orders, shall break or dig up the ground in any street or public way in the town, without first obtaining a written permit from the selectmen; and all persons acting under such permit shall put up and maintain a suitable railing or fence around the part of the street so broken up, so long as the same shall remain unsafe or inconvenient for travellers, and he or they shall keep one or more lighted lanterns fixed to such railing or fence, or in some other way exposed every night from twilight in the evening through the whole night, so long as such street or way shall be or remain unsafe or inconvenient for travellers.

4.—No person shall ride or drive a horse in any street in the town at a rate faster than eight miles an hour.

5.—No person shall, without the written consent of the selectmen, play at any game in which a ball of any kind is used, or fly a kite, or throw or shoot stones, arrows, balls, snow-balls, or other missiles, or discharge any gun, cannon, or firearm, or make any bonfire or other fires in any street or way where the public have a right to pass.

6.—No person shall propel, drive, wheel or draw any bicycle, tricycle, cart or vehicle of any kind whatsoever except a child's carriage drawn by hand, nor use roller skates upon or over any sidewalk in this town, nor permit nor suffer any horse, cattle, swine or sheep, belonging to him or under his care or keeping, to go upon or over the same, nor suffer any horse to remain hitched across, or upon, or otherwise obstruct or injure, any such sidewalk.

7.—No person shall hitch or fasten any horse to any ornamental tree standing or growing on or near any sidewalk, or to the boxing or guard about said tree, without the consent of the owner thereof.

8.—No person shall without a written license from the selectmen place or cause to be placed, or suffer to remain within the limits of a street or upon any sidewalk, so as in any manner to obstruct the travel thereon, any vehicle, wood, coal, manure, dirt, gravel, stones, building material, barrels, boxes, merchandise, or any rubbish or obstruction whatever.

9.—No person shall carry in a public street, house-offal, either animal or vegetable, or grease, or bones, or the contents of cesspools or vaults, unless he has been expressly licensed therefor by the Board of Health, upon such terms and conditions as said board may deem that the health and interests of the town require.

10.—Loud crying of wares or merchandise, or hallooing, hooting or making loud and unseemly noises on the public streets or squares of the town, to the annoyance of the citizens, is prohibited.

11.—No person shall behave in a rude, indecent or disorderly manner, or use profane, indecent, or insulting language, in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, or be or remain upon any sidewalk, street, or crossing, or about doorways or places of business, to the annoyance or disturbance of any person.

12.—Three or more persons shall not continue to stand or remain in a group or near to each other, on any sidewalk or street or crossing, or in any public place, in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on.

13.—No person shall be or remain in any doorway, or upon any stairs, doorstep, portico or other projection from any house or building, or upon any wall or fence on or near any street or public place, after having been requested by the owner or any occupant of the premises or by any constable or police officer to remove therefrom.

14.—No person shall make any indecent figures, or write, print, paint, or cut any obscene word or words upon, or deface, break or injure in any manner, any fence, post, sign, street lantern, building or structure; or commit a nuisance upon any sidewalk or other place resorted to by the public, or against any tree, building or structure adjoining a sidewalk.

15.—No person shall extinguish any street light, or extinguish or remove any light placed to denote an obstruction or a defect in any street or way, without proper authority.

16.—No person shall swim or bathe in any of the waters within the limits of this town, so as to be exposed in a nude state, to the view of any person passing or being upon any railroad or street or in any dwelling-house in this town.

17.—No person shall intermeddle with any hydrant, gate, gate-box or water pipe placed or located within the limits of any public way in this town, without permission from the Selectmen or the Hyde Park Water Company.

PASTURAGE OF CATTLE OR OTHER ANIMALS ON STREETS OR WAYS.

No person shall pasture any cattle, goat or other animal upon any street or public way in said town, either with or without a keeper, except within the limits of such way adjoining his own premises, and field drivers are instructed to enforce this by-law.

LIST OF TAX-PAYERS.

The names of all persons paying a tax on real or personal property shall be published annually in the town reports, together with the amount of tax assessed upon each, and whether the same is paid or unpaid.

DUTIES OF TOWN CLERK.

The Town Clerk shall keep a file of all town reports, reports of all committees chosen by the town, and all original documents relating to the affairs of the town which may come into his possession; he shall, as soon as practicable after any election has been held by the town, in addition to the notices he is now directed to give to officers who are required to take an oath of office, also issue a written or printed notice to all persons who have been elected to any other office, or chosen to serve on any other committee, stating the office to which such person has been elected, or the duties which such committee was chosen to perform.

CONTRACTS MADE IN BEHALF OF THE TOWN.

Every contract exceeding one thousand dollars shall be accompanied by a suitable bond for the performance of the same, or by the deposit of money or security to the amount of such bond.

ACTIONS AT LAW.

The Selectmen shall have full authority, as agents of the town, to employ counsel to institute and prosecute suits in the name of the town, and appear for and defend suits brought against it, unless otherwise specially ordered by a vote of the town.

CONVEYANCING.

Whenever it shall be necessary to execute any deed conveying land, or any other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority of them, in behalf of the town, unless the town shall otherwise vote in any special case.

BY-LAWS IN RELATION TO THE PREVENTION OF FIRES.

1.—It shall be the duty of every person who shall commence the erection of any building within the town of Hyde Park to notify the Board of Engineers thereof before he shall commence building the chimneys therein.

2.—All chimneys in wooden buildings shall be built of brick, stone, or other fire-proof non-conducting material. All brick flues shall be smoothly plastered *inside* with mortar from top to bottom or lined with earthen pipe, and shall be plastered *outside below the roofing*.

3.—In no case shall chimneys rest upon any flooring without a footing of masonry or iron supported by iron beams, having a secure bearing of masonry or iron at either end.

4.—All flues shall be topped out at least four feet above the roof of the building to which they belong. The brick topping out of chimneys shall not have more than two inches projection unless covered by a cap of metal or stone properly secured.

5.—Hearths of fireplaces or grates shall be laid upon brick or other trimmer arches, or upon bars of iron supporting a bed of brick-work.

6.—No wood-work of any kind shall be placed at a less distance than one inch from the outside brick-work of any flue. In no case shall a nail be driven into the masonry of any flue.

7.—No wood-work shall be placed at a less distance than one inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes shall be cased with metal, leaving a free circulation of air all around the same.

8.—No smoke pipe in any such wooden or frame building shall hereafter enter any flue unless the said pipe shall be at least twelve inches from either the floors or ceiling; and in all cases where smoke pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by either a

double collar of metal, with at least four inches of air space and holes for ventilation or by a soap-stone ring, not less than three inches in thickness and extending through the partition.

9.—The Board of Engineers shall examine into all shops and other places where shavings or other combustible material may be deposited or collected, and at all times be vigilant in the removal of the same, whenever, in the opinion of a majority of them, the same may be dangerous to the security of the town from fires; and direct the owner, tenant, or occupant of said shops, or other places, to remove the same; and in case such owner, tenant or occupant, refuses or neglects so to do, shall cause the same to be removed at the expense of such owner, tenant or occupant.

10.—It shall also be the duty of said engineers to take cognizance of all buildings in the town in which any steam engine shall be used, and of all buildings in town in process of erection or alteration, and to make a record of such buildings as in their judgment may from any cause be dangerous, and report the same to the selectmen forthwith. And whenever in the opinion of the majority of the Board of Engineers, any chimney, hearth, oven, stove, stovepipe, fire-frame or other fixtures, or any camphene or other explosive or inflammable fluid or material, or whatever else may give just cause for alarm, should be altered, repaired or removed, they, the said engineers, shall forthwith notify and direct the owner, tenant, or occupant of the premises upon which the same are situated, to alter, repair or remove the same, as the said engineers shall direct. And in case such tenant, owner or occupant shall refuse or neglect so to do, the said engineers shall cause the same to be removed, altered or repaired at the expense of such owner, tenant or occupant. And any person who shall obstruct the engineers, or any of them, in carrying out the provisions of this section, shall be liable to the penalty hereinafter stated.

11.—The removal, extension or essential alteration of any building; also the rebuilding or repairing of any building which has been partially destroyed by fire, shall be subject to the same restrictions as are imposed by the foregoing By-laws on the erection of buildings.

PUBLICATION OF BY-LAWS.

The Selectmen shall publish these By-laws annually in connection with the town report.

PENALTIES UNDER THE BY-LAWS.

Every violation of any of the foregoing By-laws shall be punished by a fine of not less than one dollar nor more than twenty dollars, to be recovered by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

PROSECUTION UNDER THE BY-LAWS.

Any citizen may, and the selectmen, constables, and police officers shall, prosecute every violation of the foregoing By-laws, by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

LIMITATION OF ACTIONS.

No person shall be prosecuted or tried for any breach of the provisions of any By-laws of this town, unless the complaint for the same shall be instituted and commenced within six months from the time of committing such breach.

All By-laws or parts of By-laws of this town heretofore existing are hereby repealed, and these By-laws of the town of Hyde Park shall go into effect from and after their adoption by the town and their approval by the Superior Court or any Justice thereof.

Commonwealth of Massachusetts. *Norfolk, SS.*

HYDE PARK, November 17, 1886.

At a meeting of the legal voters of said town of Hyde Park, held in Everett Hall, on Wednesday, the seventeenth day of November, in the year of our Lord eighteen hundred and eighty-six, the foregoing By-laws were adopted by said town.

Attest:

HENRY B. TERRY, *Town Clerk.*

Commonwealth of Massachusetts. *Norfolk, SS.*

SUPERIOR COURT, December Sitting, 1886, to wit: January 26, 1887.

The foregoing By-laws are hereby approved.

By the Court.

ERASTUS WORTHINGTON, *Clerk.*

True copies Attest:

ERASTUS WORTHINGTON, *Clerk*

TRUANTS.

The following by-laws relating to TRUANTS were adopted by this town December 10, 1895, and approved by the Superior Court for our County of Norfolk January 7, 1896, namely :

1.—All children convicted of habitual truency hereunder, and children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, may be committed to the Lawrence Industrial School, at Lawrence, Mass., or to any place provided by this town within its limits, for confinement, instruction and discipline.

2.—Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws, and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

3.—It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may, at his discretion, forbear to prosecute so long as such pledges are faithfully kept.

4.—It shall be the duty of the School Committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

5.—It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the School Committee, who shall publish the same with their own report.

6.—Nothing in these by-laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

Attest:

HENRY B. TERRY, Town Clerk.

BY-LAWS.

Prescribing Rules and Regulations for the materials, construction, alteration and inspection of all pipes, tanks, faucets, valves and other fixtures, by and through which waste water or sewage is used and carried, in any building within the limits of the town of Hyde Park, Massachusetts, prepared in accordance with the provisions of Chapter 477 of the Acts of the year 1893, and Chapter 455 of the Acts of the year 1894 of the Commonwealth of Massachusetts.

SECTION 1. The plumbing of every building shall be separately and independently connected with a proper cesspool.

SECTION 2. Pipes and other fixtures shall not be covered or concealed from view until approved by the inspector of plumbing appointed by the Board of Health, who shall examine same within two working days after notice that they are ready for inspection.

SECTION 3. Plumbing work shall not be used unless the same has first been tested in the presence of the inspector with the water test, or if that is not practical, with the peppermint or other reliable test, and approved by him in writing. All soil and drain pipes must be in position before the test is made, otherwise the work will not be approved. The practicability of any test will in all cases be decided by the inspector.

SECTION 4. Drain and connecting ventilating pipes shall be of sufficient size and made of cast iron within the building, and for a distance of at least ten feet outside, except that lead pipes may bo used for short connections exposed to view. Such pipes shall be of uniform thickness throughout, and shall have an average weight not less than below specified, viz:—

2 inch pipe	5 1-2 lb. per ft.
3 inch pipe	9 1-2 lb. per ft.
4 inch pipe	13 lb. per ft.
5 inch pipe	17 lb. per ft.
6 inch pipe	20 lb. per ft.

Drain pipes shall be properly secured by iron to the walls, laid in

trenches to uniform grade, or suspended to floor timbers by strong iron hangers. Every drain pipe shall be supplied with a suitable trap with brass cleanout screw and connected with Y branch, also provided with brass cleanout between all fixtures, connections, etc., and cesspool or vaults, and inside as near to cellar wall as practicable where it leaves the building, and shall have a proper fall. Changes in direction shall be made with curved pipes, and all connections with horizontal or vertical pipes shall be made with Y branches. All drain pipes shall be exposed to sight where practicable within the building, and shall not be exposed to pressure where they pass through walls, and in no case to be carried in plastered partitions unless provided with removable covers on wall. Every part of every drain pipe below a cellar floor shall be laid in a brick trench with a concrete base and shall be accessible through sufficiently unattached covers.

Section 5. Whenever rain water conductors are connected with any pipe of the drainage system of the house, that portion within the house or underground shall be of cast iron pipe with lead joints, and in all cases provided with an extra deep trap where it enters house drain. No rain water conductor shall be used as a soil pipe.

Section 6. Iron pipes used in plumbing shall, before being put in place, be first tested by the water or kerosene test, and then coated inside and outside with coal tar pitch applied hot, or with paint or with some equivalent substance. Joints shall be run full with molten lead, and thoroughly calked and made tight. Connections of lead pipes with iron pipes shall be made with brass ferrules properly soldered and calked to the iron. Every joint in earthen pipe shall be made in hydraulic cement, care being taken that the inside and outside of the joints and of the pipe is properly cleaned out before connection is made with the house. Every joint in lead pipe shall be made of solder, and wiped joints are to be used where practicable. No paint or putty is to be used on joints until they have been tested.

Section 7. The waste pipe of each and every sink, basin, bath tub, water closet, slop hopper and of each set of trays or other fixtures shall be furnished with a separate trap, except that one five inch trap may be used for a bath tub and a bowl, or for a sink and set of wash trays, provided the length of waste pipe from the fixtures does not exceed three feet. Traps will be placed as close to the fixtures as practicable, and shall be protected from siphonage or air pressure by special cast iron air pipes of a size not less than the waste pipes they serve, placed outside or below the trap as near the crown of the trap as practicable. No trap vents shall be connected with earthen

ware. Lead air pipes may be used where they are exposed to view. All round traps must have cleanout screws below the water line.

Air pipes for water closet traps shall be of two inch bore if thirty feet or less in length, and of three inch bore if more than thirty feet in length. Air pipes shall be run as direct as practicable. Two or more air pipes may be connected together or with a drain pipe, but in every case of connection with a drain pipe, such connection shall be above the upper fixture of the building.

SECTION 8. Drip or overflow pipes from safes under water closets and other fixtures or from tanks or cisterns, shall be run to some place in open sight and in no case shall any such pipe be connected directly with a drain pipe.

No waste pipe from a refrigerator or other receptacle in which provisions are stored shall be connected with a drain pipe or other waste pipe.

SECTION 9. Every water closet, or line of water closets, on the same floor, shall be supplied with water from a tank or cistern, and shall have a flushing pipe of not less than one inch in diameter; but this requirement shall not apply to water closets substituted for vaults where the same are located outside of the building proper, and such water closets may be arranged so as to receive their supply directly from the main with proper fixtures approved by the inspector, the water company and the Board of Health. No fixture, as a slop hopper, etc., shall be set up unless it is provided with proper means for flushing.

SECTION 10. No steam exhaust shall be connected with any soil or waste pipe.

SECTION 11. Water pipes from traps shall equal or exceed in area of cross section the sum of areas of pipe entering sewer from fixtures, as inspector shall direct.

The foregoing by-laws relating to plumbing were adopted by the town, Nov. 28, 1894, and were approved by the Superior Court for the County of Norfolk, Jan. 22, 1895.

Attest:

HENRY B. TERRY, Town Clerk.

REPORT OF THE SCHOOL COMMITTEE.

To the Citizens of Hyde Park:

Another year has been added to the history of our Public Schools, and the committee having their interests in immediate charge take pleasure in calling attention to their present condition and in making such suggestions as may aid in the proper understanding of their needs and work.

We believe the past year to have been one of good faithful work in the public schools, and consequently attended with good results to the children of the town.

While some of our neighboring cities and towns have been compelled to close many of their schools by reason of contagious diseases Hyde Park has escaped such a misfortune. We have endeavored to protect the children and schools against such an evil by carefully guarding the sanitary condition of the rooms and buildings used by the pupils. Germicides and disinfectants have been freely used in the belief that the expense involved was of small importance as compared with the health of the children.

Those having the control of the public schools who forget or neglect to care for the health of the children but poorly perform the duties assigned them.

What does it avail that the pupil has a fine mental training if his physical condition is so broken that he cannot bear the strain consequent upon a practical application of his intellect to the pursuit of some useful vocation.

Better far preserve good sound bodies that a vigorous use may be made of all acquired knowledge. The State wants for citizens men capable of work, not merely intellects without bodily health or strength.

The competent teacher carefully watches the physical wants and comforts of his pupils. Especially so in the early years of the school course. A teacher who does not do this and is careless about matters affecting the health of the children but poorly performs his duty, even though rapid advancement may have been obtained in scholarship.

We have endeavored to have teachers employed who would fully appreciate this duty, and this committee has tried at all times to see that the children had proper care and attention.

It is often said that more subjects ought to be taught, or that special training should be introduced and the course enriched in many ways.

The town has for many years been careful in all of its departments to incur only such expense as seemed necessary, and to avoid any increase of its tax rate for purposes where the need was not apparent.

This department has been in accord with this public desire, and its policy in the past has been conservative.

It is an easy matter to increase the expenditures for public education in ways that have not seemed advisable while citizens were paying large sums of money towards our debt and interest account.

The town has now reached the proportions of a city and its debts are substantially paid. Under these conditions the tax payers may feel it no hardship to increase the pay of our teachers and employ some for special and industrial work. The fact cannot be denied that the demand for trained teachers has greatly increased, and if we are to retain such we must increase the schedule of salaries. Again, with the opening of the schools in the three new buildings the question of proper supervision presses for attention.

While our pupils were accommodated in the large buildings, each having a master, we have felt that by employing masters' assistants good supervision could be obtained from

our masters; but with the scattering of small schools in various parts of the town our condition approaches that of other towns where a superintendent has been found necessary. This question must soon be practically considered and settled. Should the town decide to employ a superintendent, policy would demand that a man of high standing and acknowledged merit be secured. If special supervision is to be had it should be of the best quality.

A few suggestions may not be out of place as to the work of our course.

It hardly seems to us expedient to add more to its requirements as now arranged. The eight years consumed in the grammar and primary schools are hardly sufficient to drill the pupils in the branches required by law. Indeed it seems that in many, if not most, cases the work of the grades is in advance of the mental development of the pupil. Matters that require reason have to be taught before that quality is developed in the children. Much better results would be obtained if the course could be taken by maturer minds.

As has been said in past reports of this committee the time of the grammar course should be extended if more is to be required from it. It is better to master the few essentials than obtain only confused and superficial ideas of many things.

The lesson of thoroughness itself should be well taught in the schools that are to prepare citizens for a proper performance of their duty. If children are compelled to take a course of public instruction under conditions where from the very nature and amount of work required thoroughness cannot be had and instructors are forced to be content with the superficial from want of time and ability of pupils to comprehend, is there not a danger that we are fostering an evil from which the children and community must hereafter suffer? It would seem to be unwise to add more to our course without adding to its length in years.

It would be far wiser to reduce the number of branches, if possible, so that complete mastery might be obtained of those that were retained.

Most cities and large towns have a course of nine years, and it would seem that Hyde Park might well consider whether it would not materially improve her school system to add another year to her grammar school course.

The reports of the various local committees having charge of the respective schools are submitted herewith. A careful examination of them will afford information of their work and present condition.

SCHOOL ORGANIZATION AND STATISTICS.

HIGH SCHOOL.

Mr. Jere M. Hill, Master; Mr. Emerson Rice, Sub-Master; Mr. E. Q. S. Osgood, Mr. Arthur W. Lowe, Miss Anna W. Edwards, Miss Anna M. Linscott, Mrs. Mary C. Howard, Miss Alice G. Beede, Asistants.

Graduates—Four years' course, Lucy Mary Adams, Mabel Gertrude Andrews, Harold Osgood Ayer, Helen Balkam, James Leonard Barney, Alice Henrietta Bidwell, Adah Issabelle Childs, Edward Francis Crowley, Henry M. Dean, Jr., Harriet Hazen Dodge, Hattie May Elliot, Kate Farlin, Daniel Ford, Helen Margaret Gidney, Edith Stone Haskell, Frank Oscar Hurter, Addie May LeBourveau, Mary Butters McLellan, Edward Neil McMillan, Edwin Francis Samuels, Horace Holmes Sears, Edwin Sutermeister, William Adams Sweet, James Perley Taylor, Minnie Blanche Timson, Clara Blanche Vaughan, Franklin Tyler Wood, Eva Lena Wyman, Two years' course, Gertrude Varina Belcher, Joseph Michael Downey, Maud Anna Fennell, John Ingram Gidney, Bertha May Keene, Clinton Mason, Albert Eugene Rollins, Alice Louise Thayer, Arthur Russell Warren.

JANITORS.

Last year the Legislature passed an Act requiring persons having charge of steam boilers to obtain a license from the State Police, such license to be issued upon examination. This new departure by the State placed the janitors of our school buildings at disadvantage, as none held such a license. They at once made application for a license, but as yet no time has been accorded them by the examiners in which to meet the test. These janitors we have had in charge of the various steam plants since their installation in the various buildings. They have each and all been faithful and careful in their management, and we are confident of their practical

merits to occupy the positions which they hold, whether they can succeed in satisfying the technical demands of a written examination remains to be seen. In the case of Mr. Wheeler at the Damon School, who was employed before the steam was introduced, the local committee believing him to be a faithful and worthy man for the place allowed him to take instructions in the care of the boiler and pipes, and when pronounced competent by his instructor and a local expert he was placed in charge and special efforts made to have him examined by the State. Like many another who has attempted the examinations submitted in such cases he failed to obtain his license and left the position. In view of the fact that the janitors have to remain in their respective buildings at all times during school sessions when heat is used, and during severe winter weather the care of the pipes keep them in the buildings all night the board in April voted to increase their pay from $36 per month for 10 months to $45 per month for 12 months. This to include all extra work and the cleaning of the rooms during the summer vacation. The pay at the Damon School is somewhat less because of the smaller number of rooms in use. This increase caused in a great measure the call for an additional appropriation in December.

ACCOMMODATIONS.

In keeping with the suggestions made last year by this committee the matter of additional accommodations was brought before the citizens in March, and a committee was appointed to examine the matter and report back to the town. A report was made in June, and $16,000 was appropriated for three small buildings, and the whole matter was placed in the hands of a building committee. At this date these buildings are still in the course of construction. How far they will meet the requirements of the schools we are unable to say.

MUSIC.

Miss Elizabeth M. Dodge has been continued in charge of the musical instruction of the course, and we believe her efforts have given entire satisfaction.

TEXT BOOKS.

During the summer the Board voted to substitute Potter's Geography for Warren's, and in December Montgomery's United States History was substituted for Barnes's in the VII. grades.

DEPARTMENTAL WORK.

At the beginning of the school year the local committee at the Grew School was authorized to introduce this system in the V., VI. and VII. grades as an experiment. It has since that time been upon trial under most favorable conditions. The report of the local committee contains further information in this particular.

TRUANCY.

It was discovered early in the year that by reason of a change made in the truancy laws of the State our own provisions had become inoperative. New provisions were brought before the town and adopted, and the same have been approved by the Court. We are now able to enforce the attendance of delinquents, which aids the teachers and work of the schools very materially.

In conclusion we would impress the thought that the public school is at the foundation of good citizenship, and good citizenship is necessary for the proper conduct of business affairs and public concerns.

It is therefore of first importance that the work of the children in our schools should be such and only such as will tend to make good citizens, strong in body and mind, honest in purpose, self-reliant in action, sober and industrious, to the end that a love for our Constitution may be fostered, our free institutions perpetuated and the cause of civilization ad-

vanced by those whose education we have been called upon to furnish and superintend.

We wish to acknowledge the courtesy shown to us by the citizens during the past year, and to express our appreciation therefor, and to further acknowledge the faithfulness and loyalty of our teachers. In view of these conditions the duties assigned us have been harmoniously performed, and we hope in a manner that will be found creditable when time shall have fully demonstrated the results.

Respectfully submitted,

CHARLES G. CHICK, Chairman.

Hyde Park, Feb. 3, 1896.

Hyde Park, Feb. 3, 1896.

At a meeting of the full Board it was voted to adopt the foregoing annual report as prepared and read by the Chairman as the report of the Board.

R. M. JOHNSON Secretary.

SUB-COMMITTEES' REPORTS.

HIGH SCHOOL.

The graduating exercises of the High School occurred on the 24th of June last, with a creditable program both in arrangement and quality of matter. The music was of a high order and was well received. Twenty-eight scholars were graduated from the 4-years' and 9 from the 2-year's courses. Of these 6 went to college, 2 to Normal School and 1 to Training School. Wherever examinations were required they were passed with credit, and the students are now doing well. The organization of the school this year is as follows: —

Senior class	45
Second "	36
Third "	60
Fourth "	82
Total	223

Changes in our teaching force during the year have been as follows: —The resignation of Mr. W. M. Cannon in June was followed in September by the appointment of Mr. E. Q, S. Osgood, a gentleman of exceptional culture, and well known as a citizen of Hyde Park. Lieut. Philip J. Flanders as military instructor was succeeded in September by Mr. A. W. Lowe, who continues his duties as teacher in the Business Course, with the addition of the military drill. Miss Alice G. Beede was employed at the beginning of the Fall term as a half-time teacher to relieve the pressure of work in the department ot English in the enteringclass. This study has had especial attention in this school, as it has every where within the last few years, where the subjects

are treated with the thoroughness which the best instruction demands. A recent revision of a portion of the school program, dividing the large third class in Latin (46 scholars), now fills up Miss Beede's duties so that she has been made a full-time teacher from January 1st. She is doing good work so far, and seems amply qualified for the position.

Miss Marion K. Dean, our instructor of last year in physical culture, has this year been given charge of classes in elocution in addition to her work in physical culture. This subject seemed to the committee to be sadly neglected in both grammar and high schools, here and elsewhere, and to judge from the reading of candidates for teachers' positions who come here from Normal schools and take our examinations, the study is lacking in thoroughness there also. To read *well* is an elegant accomplishment, and it seems to be as rare as it is elegant. Much time now devoted to other things—and this is probably the reason why good reading is so neglected—could be more profitably spent in elocution in the judgment of your local committee. Miss Dean's work embraces other branches of the study, and we hope the improvement in this direction will be apparent in the daily recitations of the school as well as in the annual exhibitions, when further progress has rendered the instruction complete.

The school has now a fairly well equipped chemical laboratory, and the instruction is of a good character and up to the requirements for entrance to the best technical schools. Physical science however, although not lacking in importance as a study, and although as a study it has come up in the past few years from a somewhat neglected branch to be second to none in importance, still labors under difficulties with us, as has been in former years stated by this committee, The department of physics as now taught has been transferred to the modern laboratory plan of teaching largely by experiments; and since 1887 Harvard College has de-

veloped the practice of requiring for entrance, experiments in this branch. We have been able to slowly add some apparatus, but proper accommodations for its use is lacking. A separate room is needed with tables specially constructed to bring our facilities up to those of surrounding towns.

The work of the school in other departments has been fully up the past year to that of any year in its history in its general character. We believe, however, that the usefulness of the school and the thoroughness of its instruction would be increased by full and better accommodations.

RICHARD M. JOHNSON,
HELEN M. DEAN,
ELLA F. BOYD.

GREW SCHOOL.

The work has progressed in a very satisfactory manner during the past year. Miss Winslow, for many years faithfully performing the duties of master's assistant, was compelled by reason of ill health to resign her position in June. This was a misfortune, as Miss Winslow was a strong teacher. Miss Elizabeth Strongman was appointed to her place, and her work has thus far been satisfactory. She gives evidence of being a well equipped teacher. With this exception the teaching force remains as last year.

Acting under a vote of the Board we introduced the departmental system in the V., VI. and VII. grades in September, and have since watched its merits with much interest. We are satisfied that the test is being made under most favorable conditions, as the teachers of these grades are among the strongest employed by the town.

At the close of the Autumn term we were not fully satisfied that the trial had been long enough to warrant a final recommendation as to benefits of the system, and the trial will at least be continued through the Winter term.

In matters purely of instruction it seems to have an advantage over the former method, but in matters of individual training and character building its value is doubted, and as yet it is a question in the minds of teachers and committee whether its gains are not fully balanced by losses.

With a corps of teachers of less merit or with one teacher of less ability the system would undoubtedly fail.

Repairs upon the building were made during the summer. New gutters were placed upon the building, new floors laid in the upper and lower halls, a new floor placed in the XII. class room, new furniture in three primary rooms, a high board fence upon the northwest side of the lot and new stone vaults built for the outbuildings. These repairs were largely made from the special appropriation made for this building in March.

Like the other large buildings this one is getting old and will constantly call for substantial repairs.

The primary rooms are now crowded, and with the addition of new pupils that may be expected in the spring the committee will be called upon to provide room elsewhere.

Whether the new Hilton street building can be utilized is a question in view of the distance. Had that building been located near the High School the difficulties would have been fully met.

In conclusion we wish to bear testimony to the faithful work of the teachers and the kind co-operation of the patrons of this school during the year.

Respectfully submitted,

CHARLES G. CHICK,
ELLA F. BOYD.

FAIRMOUNT SCHOOL.

The usual standard of excellence has been maintained. The corps of teachers, as a whole, is eminently satisfactory. It

has been our policy to fill all vacancies, as far as practicable, with residents of our town, and the result has proven successful beyond our most sanguine expectations. Misses Le Bourveau, Farnsworth and Morrell, the most recent appointees, are rendering a service that graduates of Training and Normal Schools could not excel: We would not have it understood that we decry such institutions, though inclined to the theory based upon experience and observation of many years that our best teachers are "born not made." A well rounded education fortified with the most advanced methods is never a guarantee of success, for without tact, that absolute essential, the pathway is strewn with dismal failures.

The question of heating this building no longer perplexes us, for whether the temperature outside is at zero or 15 degrees below, all the rooms, at the opening of each session, have an average temperature of 70 degrees. The desks in some of the rooms are decidedly unfitted for the use of the pupils and should be replaced by those of more modern pattern, for while we strive to develop the mental capacity of the pupil we should guard well that the physical development does not suffer.

The repairs upon the building the past year have been only such as were actually necessary to maintain the plant and give security and comfort to the inmates.

J. F. LEWIS,
ELLA F. BOYD.

GREENWOOD SCHOOL.

The work of the Greenwood School during the past year has been accomplished under great disadvantages, owing to the crowded condition of the building. The teachers have been faithful and cheerful under difficulties, and have almost, without exception, put forth their best efforts on behalf of

their pupils, and the result, as a whole, has been satisfactory.

In the lower grades many changes have occurred. Each division of the Twelfth Class has had no less than three teachers since the opening of school in September. Our more wealthy neighbors are able to offer inducements that deprive us of our teachers, one by one, but we hope they are at last satisfied, and that we may be permitted to retain the teachers at present employed. Notwithstanding the numerous changes no disturbance has occurred in any of the rooms.

Miss Martha McLellan and Miss Gertrude Plummer are teaching the divisions of the Twelfth Class. Both are experienced teachers, and although they have been with us but a short time they have already demonstrated their ability to do the work required of them. The resignation of Miss Evelyn Howes of the Eleventh Class was deeply regretted by your committee. Miss Wyman, who succeeded Miss Howes, and Miss Murray, who succeeded Miss Batchelder, in the Ninth Grade, are doing good work.

At the close of the Spring term Miss Buker, the master's assistant, resigned her position. A general and well earned promotion followed, leaving a vacancy in the second division of the Ninth Grade. This vacancy has been filled by Miss Gertrude Tilden, whose work is giving general satisfaction. Of the remaining teachers it is unnecessary to speak. They have been with us for some time and their records speak for them.

This report would hardly be complete were no mention made of the resignation of our tried and trusted janitor, Mr. Albert Lord, who has served the school well and faithfully for many years, and by his good work has contributed to the comfort of both teachers and scholars. Mr. George McDonald, our present janitor, has held the position but a few weeks. His long experience in caring for a large, high pres-

sure boiler, and his excellent recommendations as to reliability are sufficient guarantee of his fitness for the place.

AUGUSTA L. HANCHETT,
JOSHUA. F. LEWIS.

DAMON SCHOOL.

No changes have taken place in the teaching force during the past year. In November Mr. R. Wheeler resigned his place as janitor, and Mr. A. W. Henderson was engaged to fill the position. Last year as the fifth and sixth classes were so small it was thought best to have them unite and take fifth class work, which was done, and most of them graduated as fifth class pupils. This left the school without a graduating class for this year. The master, Mr. A. W. Armstrong, is doing thorough, efficient work in his own room and is unifying the work throughout the building. The teachers are working faithfully, and good results are being secured.

May 17th was observed as "Bird day" in all the rooms, and many interesting things about the birds were said and sung.

Wednesday, at noon, Feb. 6th, 1895, the school house caught fire from the furnaces, and but for the prompt and efficient work of the firemen would have been totally destroyed. Temporary quarters were at once found, and Wednesday, one week later, the five lower classes resumed their work in the stores in the Stevens Block, and the other classes one day later in the Cycle Club rooms. The fire, while seriously damaging only two rooms and the hallways, occasioned much injury to all of the rooms from smoke and water. The weather was extremely cold, and the inside of the building was so covered with ice for several days that it was difficult to estimate the extent of the damages. As early as possible the adjusters performed their duties, and

we were at liberty to proceed with repairs. The town promptly voted to place the amount of $4,290.21, received from the insurance companies, at the disposal of the School Committee for this purpose, and we were authorized to use this fund at our discretion. As soon as possible our furnace was put in condition, and the rooms were cleared of the ice and dried. When this had been thoroughly done five rooms were found in a condition to be safely used, and needed but comparatively little work by carpenters to make them very comfortable. It was thought wise to do this work immediately, and Mr. Warren W. Hilton, who had adjusted the loss for the town, and was familiar with the exact condition of the rooms, was employed to do this work, and instructed to proceed promptly, as the town was paying rents for the rooms used by the schools. So well did he follow these instructions that on March 11th, in less than five weeks after the fire, the school re-assembled at the Damon building in five very comfortable rooms. Of course the ceilings were badly discolored, but all had been thoroughly cleaned. The old furnaces had been repaired by Mr. Lewis, and connections made so that during the spring the rooms were kept very well warmed. The matter of a permanent heating apparatus was considered by us before any considerable work was done upon the furnaces, and several well known concerns were asked to, and did, give us figures upon cost and time required to install, but for reasons before stated it was thought best to defer until summer, and until we could ascertain how much our repairs would cost, and thus know how much of the fund at our disposal would be left for a heating plant. Upon the closing of schools in June we at once arranged with Mr. Hilton to superintend all the repairs and furnish the carpenter work by the day, a course that seemed to be best from the condition of the building and the uncertainty of the exact amount of work which would be found neces-

sary. Bids were received for the painting and mason work upon specifications prepared by Mr. Hilton, and by the first of August, after careful estimate of our expenditures and obligations, we had the satisfaction of finding a balance on hand sufficient to warrant us in contracting with the Exeter Machine Works for a steam heating plant for $1,592. This concern has supplied the town with their plants and its work has always been satisfactory, and as its estimate was the lowest obtained we contracted with it at once that the work might be done by Sept. 1st.

The building has been thoroughly repaired, painted inside and out, with new furniture in three rooms, and furnished with a first-class steam heating plant from the fund received from the insurance companies. The building is nearly as good as new, and will need little repair except possibly upon the roof for many years to come. We annex to this report our items of expenditures.

BUTLER SCHOOL.

This school continues under the charge of Miss Gidney, who is doing good, faithful work. At the beginning of the Fall term it was found impossible to accommodate the many children in this district, but through the kindness of the local committee and master of the Greenwood School, the extra number was transferred to that already crowded school.

During the summer vacation the room was cleaned and the walls were whitened, and a new closet was built for the books and other appliances needed in school work. A flag-pole has been added to the building in accordance with the laws of the State.

The yard has been filled in with gravel to a nearer level with the present grade of the street, but this should be carried still further, although it is impossible now, unless the building is raised. This should be done, and the surround-

ing trees should be trimmed in order to let in the pure sunshine, and so keep the school in a dry, healthful condition. The attendance has been large all winter, and it does seem that before long this section of the town will also need larger accommodations.

ELLA F. BOYD.

EVENING SCHOOLS.

The Committee on Evening Schools submit the following reports and recommend that the Board adopt the suggestions therein stated.

JOSHUA F. LEWIS,
AUGUSTA L. HANCHETT.

To the Committee on Evening Schools:

I herewith submit the following report of the Evening School:

The school opened on the evening of October 28, 1895. The first two evenings were for registration. The regular work commenced on the evening of October 30th, since which time it has continued with good success. In the English department 27 students were registered; the average attendance is 16; the average age is 20 years and 4 months. Six nationalities have been represented.

In addition to the English studies regularly taught instruction has been given in French and Latin. Bookkeeping has been taught to a small number of students. If this study is to be taught as a special study, I would suggest that a different text book be used, as the text book now in use is not complete enough to meet the requirements of even the average business house.

Stenography is taught as a special study, and was introduced into the Evening School in November, 1894, and carried on with good results. This year a larger number

of students have received instruction on this subject. The number registered is 20; average attendance 11; average age 19. The students have made such rapid progress that a number of them are at the present time receiving dictation practice on business letters, the same being dictated at the rate of 75 words per minute. I would suggest that a certificate be issued to those students who, at the close of the school, are able to write 70 words per minute on new matter. If this were done it would encourage the students to do their best work and would also fix a value to the instruction.

The students, in all departments, who have been regular in attendance have been faithful in their work and the results more than justify the outlay.

Respectfully submitted,

A. W. LOWE, Principal.

To the Committe on Evening Schools of the Town of Hyde Park.

I submit the following report:—

From the time of writing the last report to April 1 the School manifested its usual marked improvement with the average number of pupils to the end of the term being good.

On Oct. 28, the thirteenth term opened under its usual pleasing auspices, at which time fifty-two young and middle-aged men were enrolled, and this number increased until seventy-two names were on the roll, divided into three classes, as has been in former years, about forty of whom wished to enter the Elementary Class. To accommodate this large number (as there were not sufficient rooms or boards) your Committee advised the adoption of another evening, which was so adopted, until the New Year vacation, at which time this class was divided into two classes, namely, Architectural

and Mechanical; these two classes are about equally divided and are each doing some excellent work, copies of which will be shown at the end of the term. These two classes meet on Mondays and Wednesdays. The advanced classes, in the same class of work, meet on Wednesdays and Thursdays. These classes, while not so large, are doing some work which is a credit to them, and which we are in hopes to show at the end of the present term, about April 1.

The Brainard Milling Machine Company have loaned us some patterns to be used for models, for which mention should be made and thanks returned.

Hoping this will convey some idea of the work done in the Evening Drawing School, I remain,

E. C. TOURTELLOTTE, Instructor.

INDUSTRIAL SCHOOL.

The Sub-Committee on Industrial Schools submit the following report of Mr. Webb as their report.

R. M. JOHNSON,
HELEN M. DEAN.

To the Committee on Industrial School of the Town of Hyde Park.

The School of Carpentry for boys opened July 9, 1895, and closed September 3. As in the previous year, a class was formed in the morning of pupils who had attended the school the year before, and a class in the afternoon for beginners. I am inclined to believe that the privilege of taking home such small articles as some of them succeeded in making, increased their enthusiasm, and consequently a better attendance was obtained. Forty-eight boys applied and took lessons during the term, and the average daily attendance was twenty-six.

Respectfully submitted.

GEORGE E. WEBB.

TOWN OF HYDE PARK.

REPORT

OF THE

SPECIAL COMMITTEE

ON

SEWERAGE.

HYDE PARK:
PRESS OF THE NORFOLK COUNTY GAZETTE,
1896.

TOWN OF HYDE PARK.

REPORT

OF THE

SPECIAL COMMITTEE

ON

SEWERAGE.

HYDE PARK:
PRESS OF THE NORFOLK COUNTY GAZETTE,
1896.

COMMITTEE'S REPORT.

To the Citizens of Hyde Park :—

At a town meeting held March 28, 1895, action was taken to investigate the subject of a local sewerage system by the appointment of the undersigned as a committee, with instructions "to take into consideration the whole matter of a system of sewerage for this town, with full powers to make plans and specifications for such a system, to employ such engineers or other persons and to incur such expense as said committee in its discretion may deem necessary, and to report in print at some subsequent town meeting the result of their doings and with such recommendations as they may deem best for the interests of the town." The town also requested us to "report in print two weeks before submission to town."

In accordance with these instructions your Committee begs leave to submit the following report :—

Immediately after its appointment, the committee met and organized by the choice of Francis W. Darling as Chairman and Charles F. Light as Secretary. The services of Percy M. Blake were secured as engineer and we present his report herewith. Your committee has held a large number of meetings and conferences and has investigated the subject in all its bearings as thoroughly as it could.

The actual need of prompt action in the direction of providing a system of sewerage for the town is admitted by all who have made careful study of existing conditions. That such a system has not been heretofore constructed has been, we believe, a detriment to the town. We had hoped to present this report some months ago, but were delayed by the fact that the plans for the main system for the Ne-

ponset valley were not finally approved until recently, and our local system depended for its elevations and outlets upon them. In order that a beginning may be made during 1896 in the way of construction, it is necessary that immediate action be taken by the town so that a proper enabling bill may be enacted during the present session of the General Court. We have prepared a bill for your consideration which is hereto appended. We recommend that you authorize your Board of Selectmen to at once petition the General Court for the passage of such act. We call special attention to the method provided for the election of Sewerage Commissioners under the bill. By electing one member for one year, one for two years and one for three years, and thereafter electing one Commissioner annually, the board is not liable to be radically changed at any one time, and in case of failure to re-elect a member in any year, there will still remain two members of the board who have had valuable experience. We also ask attention to the provision that, although the town is authorized to borrow a large amount of money, no part of such debt can be contracted save from time to time as the town itself shall determine. We ask your careful attention to all the provisions of this proposed bill which, if enacted, will be the basis of all future action of our town in connection with the subject of sewerage.

Further, there will be found appended hereto the act of the year 1895 which authorizes the construction of a system of sewage disposal for the Neponset Valley, including the towns of Hyde Park, Milton and Dedham and a part of the city of Boston. Under this act, the town of Hyde Park must connect its local system with the main line.

It was necessary that absolutely correct measurements and elevations of the whole town should be obtained, and we believe the work has been thoroughly executed. A considerable part of the necessary data was already in the pos-

session of the town, consisting of a number of elaborate grade maps which were prepared several years ago by order of the town. The expense of your committee up to the present time has been well within the amount authorized by you and less, by at least one thousand dollars, than it would have been had the maps referred to not been in existence.

We have caused to be prepared by the engineer a large and very complete map of the town that will be of value in many ways and we believe of great service for the future. We have also caused to be prepared a reproduction of the map on a scale permitting its folding with this report and it is herewith submitted.

Your committee, while it does not contemplate nor approve the construction of a complete system for the whole town at this time, has felt it advisable to perfect the plans for such a system in order that what is constructed at present may be adequate in its provisions for future necessity and that, when finally completed, all may be parts of one consistent and well-developed plan.

In the engineer's report may be found a complete subdivision of the town and the estimated expense of each of the several sections. We are assured by the engineer that the estimates are all made with liberal allowances for unforseen exigencies and the actual cost may be from ten to fifteen per cent. less. We believe that such portions of the system should be at once constructed as will relieve the most thickly inhabited sections of the town. We estimate that to accomplish this will require an expenditure during the next few years of about $150,000,—from one-half to two-thirds of which will be returned to the town by the estates benefitted.

In the proposed bill we have provided for permission to borrow and expend the entire amount which the town will ever be called upon to pay *to complete the whole system*, simply that future application to the legislature in this di-

rection will not be required. As we have stated elsewhere, however, only such portions of the amount can be expended as the town may from time to time authorize.

The town is very fortunate so far as expense is concerned that no pumping, with its attendant continuous expense for maintenance, will be necessary in our local system, all necessary disposal being secured by gravity. The main valley system is to be so constructed as to be adequate for the sewage disposal of the towns interested for a long time in the future, and the local system proposed will be sufficient for the needs of the town for all time.

The method of assessments for sewer privileges as fixed in the proposed bill has been arrived at after careful investigation of the experience of other towns, and seems wise and just to your committee.

In the hope that the result of our labors will prove satisfactory to you in all essential particulars, we are

Very respectfully,

FRANCIS W. DARLING,
CHARLES F. LIGHT,
ROBERT BLEAKIE,
PERCY M. BLAKE,
JAMES D. McAVOY,
Committee.

ENGINEER'S REPORT.

Hon. Francis W. Darling, Chairman,
Committee on Sewerage, Hyde Park, Mass.:

DEAR SIR:—In accordance with the request of the Committee on Sewerage and under the authority of the Committee, I submit the following report on the subject of a system of sewerage for the town of Hyde Park.

While this subject is not a new one in this instance, it is one which has been heretofore discussed only in the most general way, and without any special knowledge concerning the needs and opportunities in the direction of the sanitary drainage of the town.

In order to make the study as complete as possible, the surveys and investigations necessary from an engineering standpoint have been made, and it is hoped that the results submitted herein will make the project clear to our citizens and tax-payers while furnishing a description of the best plan of relief and the cost of construction and maintenance which will be incurred by its adoption.

To make the subject further intelligible, a large plan or map of the town has been prepared for future use and a reduced sketch, somewhat in detail, showing the sewers which should be constructed, has been lithographed for binding in the report of the Committee.

The first official action aiming at a sewerage system for the town, was taken at the session of the Legislature of 1895, when, upon the representations of the city of Boston and the towns of Dedham, Hyde Park and Milton, an act entitled "An Act to Provide for a System of Sewage Disposal for the Neponset River Valley," being Chapter 406 of the Acts of 1895, was passed. A copy of this Act is appended to this report.

This act is in harmony with other acts which provide for the construction of metropolitan sewers for the northerly portion of the city of Boston and the cities and towns lying west and north of Boston and authorizes the construction of a main intercepting sewer through the valley of the Neponset river to Mother Brook in Hyde Park; thence up the valley of Mother Brook, through the town of Dedham to the West Roxbury section of the city of Boston.

Section nine of this act provides that "the city and towns aforesaid (Boston, Dedham, Hyde Park and Milton) shall connect their local sewers with such main sewers, subject to the direction and control of said board, and any person or corporation may, subject to the direction and control of said board and on such terms, conditions and regulations as the city or town may prescribe, connect private drains with said main sewers, and for the purpose of making such connections, the city or town may extend its sewers across the Neponset river in such manner as the board of harbor and land commissioners may approve."

Thus, by the legislation already enacted the town of Hyde Park has no problem of the disposal of its sewage to solve. Such disposal, so far as the town is concerned, consists simply in the discharging of the contents of the town sewers into the main metropolitan sewer, the ultimate disposition of the sewage collected in the main sewer being wholly under the management and control of the Metropolitan Commission.

The route of the metropolitan sewer as now laid out by this Commission through the town of Hyde Park, is as follows:—

It crosses the Dedham line and enters Hyde Park at or near the southerly corner of the new cemetery purchase; thence along the northwesterly bank of the upper mill pond to West River Street near the junction of Atherton Street; thence in West River Street northerly to the foot of Busi-

ness Street; thence through Business Street to Barry Place; thence easterly through Barry Place, under the N. Y., N. H. & H. railroad tracks and through Factory Street to Hyde Park Avenue; thence through the mill yard of Robert Bleakie and Company to Walnut Street; thence along the river bank through Walnut Street to Fairmount Avenue; thence in Railroad Avenue and along the westerly side of the New England Railroad to Walter Street; thence westerly through Walter Street to Pierce Street; thence northerly through Pierce Street to the junction of Arlington Street and Metropolitan Avenue; thence deflecting toward the river and along the bank of the river to River Street, which street the sewer will enter at a point just south of the Mattapan Paper Mills; thence continuing through River Street to the Boston line, deflecting out into the low land to the south of the River Street railroad bridge for the purpose of avoiding the grade and abutments of said bridge.

As now designed by the Metropolitan Commission, this main sewer where it enters the town at the Dedham line will be forty-eight inches in diameter, which size will be continued to Hyde Park Avenue; from Hyde Park Avenue to a point near the Mattapan Paper Mills, the diameter will be fifty-one inches; from the paper mills to a point about five hundred feet west of the New England railroad the size will be fifty-four inches, and at this latter point the size will be reduced to a diameter of thirty inches, this latter dimension indicating the capacity of the main sewer which will carry all the sewage that the Boston (Dorchester) sewer as now built to Central Avenue, Lower Mills, can take care of.

It is assumed by the Metropolitan Commission that by the year 1905 the capacity of this smaller sewer below the Mattapan mills will be so taxed as to make it necessary to construct another and larger intercepting sewer. This new and larger sewer will begin at the lower end of the sewer fifty-four inches in diameter now designed to terminate just be-

low the Mattapan Paper Mills in Hyde Park and after following a route which would provide for intercepting the sewage of Milton, enter the trunk sewer of the Boston Main Drainage Works east of the tunnel at Squantum.

In fixing the carrying capacity of the main sewer as it passes through the town of Hyde Park, an allowance equal to 25 gallons per capita of the population is made for manufacturing wastes. The maximum requirement adopted by the Commission in fixing the sizes and grades of the different sections of the main sewer is 30 cubic feet per capita per day for the probable future population. The uniform grade or rate of inclination of the main sewer throughout its course in Hyde Park is one foot fall in a thousand feet.

Methods of sewering and draining a town have changed somewhat in recent years. Until a comparatively recent date it was considered necessary to provide large sewers capable of carrying to the nearest water courses or to some final point of outfall not only domestic and manufacturing wastes, but surface water from streets, dooryards, the roofs of buildings and even large areas of level land upon which stagnant waters would accumulate. Now, however, it is the opinion held in common by sanitary and engineering authorities that domestic and manufacturing wastes can be best removed and disposed of by a system of accurately laid, smooth, self-cleaning pipes, designed to carry such wastes only.

The drainage of the surface of a city or town, whether the waste water be taken from the streets or from unimproved areas of land, is as important as it ever was, but use is now made of natural water courses by straightening and deepening them, and the construction of better streets with impervious surfaces and paved gutters graded on scientific lines and on a comprehensive plan makes it unnecessary as well as unadvisable to construct the large drains and culverts which former practice sanctioned.

In the metropolitan sewerage districts the construction of sewers larger than is necessary for the conveyance of domestic and manufacturing wastes has been generally abandoned and the sewerage system adopted consists of an accurately planned net-work of clean pipes laid on true grades, at a depth below the surface of the street sufficient to drain the lowest basements and cellars.

A system of sewerage consists, first,—of a point of outfall where the sewage collected can be disposed of without creating a nuisance to the residents in the vicinity or interests adjacent thereto; second,—of a main collecting sewer or sewers designed to deliver the sewage at the outfall; third,—sub-main sewers which, starting from the main sewer, ascend the minor valley lines of the territory to be drained; fourth,—the lateral or small sewers which are laid from the higher points of the streets sewered, down to the sub-main sewers, and collect house drainage and manufacturing wastes.

In many respects a sewerage system resembles the venous circulation in the human body, the flow always being from the remote points of the system through constantly enlarging pipes to the main vein or principal sewer of the entire system and always in the same direction. All the sewers, large and small, in a properly designed system, are laid with such rates of inclination as will insure a rapid flow of the sewage from their upper ends to the final point of disposal or outfall. If the territory drained is very flat, provision is made for the occasional flushing of the sewers by suddenly discharging a large quantity of clean water through them.

If the interior of the sewer is kept clean, noxious gases will not be generated and the discharge at the outfall will be inoffensive.

All the sewers provided in any system should be laid in straight sections, all angles in streets and with main sewers

occuring at junction points being made accessible through manholes protected at the top with perforated cast-iron covers and large enough to allow of the entrance of an inspector and the use of cleaning tools.

The best form of sewer is a true, hard-burned, impervious clay pipe, and such pipes are made and warranted perfect, in sizes from four inches to twenty-four inches clear inside diameter. Pipes of this character, with glazed interior, are so much superior in carrying capacity and cleanliness that they should be used in preference to brick or any other material for all small sewers.

It is hardly necessary to enter into an argument in this report to show the value of a sewerage system. I think it will be sufficient to call attention briefly to the practical operation of such a system as it affects the individual house holder and the manufacturer.

Where sewers are not provided for carrying away domestic and manufacturing wastes resort must be had to the familiar cesspool. When a sewer is constructed in the public street the house holder, by a comparatively inexpensive connection with such sewer, can discharge freely the waste and dirty waters which must, during nearly every hour of the day, be discharged from his kitchen, laundry or bathroom. In the system of sewerage which has been designed for Hyde Park the sewer in the street is to be laid at such a depth below the surface of the ground that all house wastes will flow rapidly from the level of the cellar or basement through a straight five-inch connection into the sewer and with a force or velocity of flow which will keep this connection clean and free from obstruction or grease. The filthy cesspool heretofore existing in many cases almost under the kitchen window, can be forever abandoned and filled up with clean gravel and the cost of cleaning out this cesspool thereafter saved, with the result that the property consisting of the land and buildings thereon will be enhanced in

value and the sanitary conditions of the immediate neighborhood greatly improved.

To the manufacturer the same advantages will accrue from a connection with the public sewer, and the waste matters which he formerly was compelled to discharge into a neighboring water course or to purify by processes which were expensive and under the best conditions imperfect, can be conducted rapidly from his premises and buildings without further effort on his part. The stores, markets and business buildings, instead of containing sanitary nuisances and inconveniences, will profit by the same relief, and those occupying such buildings or living in the immediate vicinity of the congested business portion of the town will breathe an untainted atmosphere and be saved the spectacle of the removal of concentrated filth in their waking and sleeping hours.

The designing of a sewerage system involves a careful study of the contours of a town and the irregular surface of the town of Hyde Park has made it necessary to make this study with much care. The route and levels of the Metropolitan Valley Sewer having been determined and laid down by the Commission, certain starting points are easily fixed for the lower ends of all of the town sewers, and beginning at these lower ends the town territory has been divided and sub-divided into drainage areas each of which will have a main sewer. These main town sewers will be called, as a class, sub-main sewers, and each of these sub-main sewers will discharge directly into the metropolitan valley sewer.

The drainage areas are found by the study to be as follows. To make this part of the subject clear, the description of them is given in detail.

THE ARLINGTON STREET AREA.

The sub-main sewer of this territory will discharge into the metropolitan sewer near the foot of Arlington Street and just below the junction of Metropolitan Avenue and

Pierce Street; its upper end will be near the northerly end of Hilton Street.

Into this Arlington Street sewer will drain directly the sewers in Riverside Square, Metropolitan Avenue below River Street; River Street from the east as far as Lexington Avenue; the northerly part of Elm Street and the northerly part of Central Avenue between Arlington and West Streets. Into the River Street sewer will drain portions of Lexington Avenue and Metropolitan Avenue, both north of River Street.

The Arlington Street sewer will take also the drainage from River Street from Everett Square to Arlington Street, and this River Street sewer will receive the sewage from West Street between River Street and Hilton Street, which will include sewage from the southerly part of Elm Street, a portion of Central Avenue from West Street to summit near S. B. Balkam's, and from the whole of Hilton Street.

The West Street sewer will receive also the drainage of Central Avenue from West Street to Lincoln Street and the easterly part of Dell Avenue.

The River Street sewer will receive also the sewage from Lincoln Street as far up as the summit near Quincy Dyer's, and from Central Avenue from Lincoln Street to the summit near Webster Street; also the sewage from Webster Street between River Street and the summit at Dr. Holmes' house; also the sewage from the lower part of Winthrop Street and from the business blocks as far up as, and including, Everett Block.

The sewers in West Street from River to Pierce Streets, in Davison Street from Arlington to West and from Walter to West will drain into the metropolitan sewer at the foot of West Street; the sewers in Walter Street from River Street to Pierce Street and the sewers in Davison Street from Fairmount Avenue to Walter Street and in Pierce Street from Fairmount Avenue to Walter Street will drain

into the metropolitan sewer at the junction of Walter and Pierce Streets.

THE FAIRMOUNT AVENUE (WEST SIDE) AREA.

This sewer, with its upper end at the junction of Maple Street, Harvard Avenue and River Street, will drain Fairmount Avenue easterly from Everett Square, to the metropolitan sewer which will be entered at or near Railroad Avenue.

This Fairmount Avenue sewer will receive the sewage from Central Avenue as far up as Webster Square ; from Everett Street near the High School House, and from Winthrop Street near Harvard Avenue ; also the sewage from Harvard Avenue as far up as David Perkins ; from Maple Street as far up as the summit; from Oak Street between Maple Street and the summit near I. J. Brown's, and also from the easterly part of Oak Street and from the easterly part of Maple Street between Walnut and the summit. It will also receive the sewage from Nott Street

THE HYDE PARK AVENUE AREA.

The sub-main sewer of this area will start from the summit of Hyde Park Avenue about 200 feet south of the junction of Harvard Avenue and extend through Hyde Park Avenue to the metropolitan sewer which it will enter near the office of Robert Bleakie and Company. This sub-main sewer will receive the drainage from Green Street, Pine Street, Maple Street to the summits each way from the head of Pine Street, Oak Street from the Catholic Church to Hyde Park Avenue, River Street from Harvard Avenue to Hyde Park Avenue and from the railroad bridge easterly to Hyde Park Avenue, Winthrop Street from Harvard Avenue to Hyde Park Avenue, Everett Street from Harvard Avenue to Hyde Park Avenue, Webster Street from Harvard Avenue to the summit near Dr. Holmes', and Harvard Avenue from both north and south of Webster Street.

Walnut Street from Hyde Park Avenue to Bridge Street will drain into the metropolitan sewer at the latter street.

THE BARRY PLACE AREA.

The sub-main sewer of this area will discharge into the metropolitan sewer at the junction of Business Street and Barry Place and will receive the sewage from River Street from Barry Place to summit near Linwood Street, from Perkins Avenue, from Cleveland Street as far up as Brainard Street, from Brainard Street, from Glenwood Avenue as far up as Beaver Street and from the northerly end of Dedham Street, from River Street southerly from Barry Place as far as the summit near A. H. Brainard's.

The Cleveland Street sewer will receive the sewage from Childs Street between Perkins Avenue and Glenwood Avenue, the sewage from Beaver Street from Glenwood Avenue to summit north of Cleveland Street and the sewage from Winslow Street. The northerly section of Business Street from Barry Place to River Street will drain toward Barry Place, at which point it will enter the metropolitan sewer, River Street from Gordon Avenue to Linwood Street, Linwood Street as far as the Grew School, Gordon Avenue as far as the Batchelder estate and the portions of Austin Street and Summer Street adjacent to Gordon Avenue will drain through this Business Street sewer. Business Street south of Barry Place will drain directly into the metropolitan sewer.

THE BRIDGE STREET AREA.

The Bridge Street area will be drained by a sub-main sewer extending through Bridge Street and Easton Avenue to the New England railroad tracks, at which point this sub-main sewer will receive the drainage from Water Street northerly to Dana Avenue and southerly as far as it may be necessary to extend it, and these Water Street sewers will receive the drainage of the sewers to be laid in streets south

of Dana Avenue, including, when it becomes necessary, the territory known as Corriganville. The lower end of the Bridge Street sewer which will drain this territory lying south of Dana Avenue will cross the Neponset river just below the bridge on Bridge Street and enter the metropolitan sewer below the junction of Bridge and Walnut Streets. Bridge Street from Easton Avenue to Water Street will drain into this sewer.

THE FAIRMOUNT AVENUE (EAST SIDE) AREA.

The sub-main sewer for this area will extend from its highest point at the summit just west of Prospect Street nearly to the bridge, at which latter point it will be deflected to the northeast and pass through the low land adjoining the river to the foot of Milton Avenue, where it will discharge into the section crossing the river and entering the metropolitan sewer.

Into this Fairmount Avenue sewer will drain Beacon Street as far as Milton Avenue and Water Street as far up as Dana Avenue. Into the Beacon Street sewer will drain sewers in Warren Avenue as far as Highland Street, including Franklin Terrace ; also Albion Street.

There will also drain into the Fairmount Avenue sewer the sewers in Highland Street, the upper part of Warren Avenue, Norway Park, Milton Square, Milton Avenue from the reservoir to Highland Street, Summit Street from Williams Avenue to Milton Avenue, Williams Avenue from Prospect Street to and through Pond Street and Highland Street to Fairmount Avenue and Mt. Pleasant Street.

Into the Water Street sewer will drain the sewers in Williams Avenue from Pond Street to Water Street, Neponset Avenue from the summit to Water Street, Dana Avenue as far as Summit Street, Loring Street from Dana Avenue to Williams Avenue, Summit Street from Neponset Avenue to Williams Avenue.

The Milton Avenue sewer draining directly to the river crossing at the foot of the avenue, will begin at its upper end at Highland Street and will receive the drainage from Beacon Street, from Milton Avenue to Vose Avenue; Metropolitan Avenue from the town line to Beacon Street, Pleasant Street from Milton Avenue to Metropolitan Avenue and Vose Avenue above Pleasant Street.

THE CLARENDON HILLS DISTRICT.

There is no way of sewering the streets and territory lying upon the slopes which drain naturally into Stony Brook except through a low level sewer to be constructed from Clarendon Hills, up the valley of the brook, either substantially parallel to and near that stream, or in Providence Street to West Street, thence westerly through West Street, to the stream and thence up stream to Brainard Street. This route is shown approximately on the map.

The drainage of the Clarendon Hills section can be best provided for by the construction of a sub-main sewer extending from the metropolitan sewer in River Street over a route which extends in a northwesterly direction from River Street through the lowest land to be found to the junction of Thatcher and Bradlee Streets; thence through Bradlee Street northerly about 800 feet; thence through a street to be constructed to Metropolitan Avenue; thence through Metropolitan Avenue northerly to Clarendon Hills. The elevation of this sewer in the square at Clarendon Hills should be not higher than nine feet below the surface of the square and with a sewer at this depth at this point, the problem of draining the flat territory in the vicinity of Clarendon Hills will be solved. If the drainage of this part of the town is not provided for by the construction of such a sewer, I see no other way of disposing of it than by following the line of Stony Brook down stream to some point near Forest Hills in the Roslindale sewer of the city of Boston.

There is an objection to this alternative in the fact that it would subject the town to an annual expense for disposing of its sewage through the medium of the Boston sewerage system.

The Roslindale sewer as now designed carries storm water and overflows at several points between Forest Hills and Roxbury into Stony Brook. It is not probable that the city of Boston would extend this sewer to the Hyde Park line, as its elevation where it crosses Stony Brook at Washington Street is too high to allow of draining the valley of the brook east of Mount Hope.

For convenience the relief sewer for the Clarendon Hills district may be called the Bradlee Street sewer, and this sewer will be the most expensive one which the town will be called upon to construct, if the plan as submitted herein is adopted. It will discharge into the metropolitan sewer at a point in East River Street just below the paper mills and the easiest route on which it can be constructed will involve a deep cut in the vicinity of Thatcher and Safford Streets. There is no way to avoid such deep cut but the results to be gained by the construction of this sewer will, in my opinion, warrant the expense whenever it becomes necessary or advisable to provide local sewers for that portion of the town lying north of Arlington Street and west of Metropolitan Avenue.

The depth of the upper end of this sewer in the Square at Clarendon Hills will be nine and one-half feet below the surface of the street and into this sewer will drain the territory containing at present the following streets, all of these streets being on the east side of the N. Y., N. H. & H. R. R. viz. :

Hyde Park Avenue from Harvard Avenue to Metropolitan Avenue, and into the sewer in this street will drain sewers in the northerly part of Harvard Avenue, the extreme westerly end of Lincoln Street and the westerly part of Dell

Avenue; West Street from Hilton Street; Arlington Street from Hilton Street; Westminster Street from the summit to Hyde Park Avenue; Park Street, Greenwood Street from the summit to Hyde Park Avenue, Thatcher Street from the summit to Hyde Park Avenue.

Into the Bradlee Street sewer will drain the sewers in Metropolitan Avenue from the summit near Safford Street northerly; in Collins Street; in Huntington Avenue from the summit in Collins Street to Safford Street; Thatcher Street from Huntington Avenue to Metropolitan Avenue and the easterly portion of Safford Street.

East River Street from Riverside Square easterly will be drained by a sewer discharging directly into the metropolitan sewer near the paper mills and into this sewer in East River Street will drain sewers in the northerly section of Riverside Square; Huntington Avenue as far as Safford Street, Lexington Avenue from the summit north of East River Street to Westminster Street, Metropolitan Avenue from Safford Street to the summit north of East River Street, the westerly parts of Safford and Hubbard Streets, Westminster Street from the summits either side of Metropolitan Avenue, Central Avenue from Arlington Street to Westminster Street and Page Street.

The low lands in the vicinity of Central Avenue and Page Street, Metropolitan Avenue and Lexington Avenue will be drained through a sewer to be constructed in a new street to extend through this low territory from Central Avenue to Huntington Avenue.

THE STONY BROOK AREA.

The following streets lie in what may very properly be called The Stony Brook Area, and can be drained only when the Stony Brook sub-main sewer is constructed from Clarendon Hills up through the area. These streets are West Street west of the railroad, Austin Street, the north-

erly part of Summer Street, Summer Street Place, Parrot Street, Chestnut Street, Gordon Avenue west of Austin Street, Hale Street, Park Street, Childs Street north of Perkins Avenue, Beaver Street north of Cleveland Street, Esty Street, together with the undeveloped territory lying between West Street and the park lands and between West Street and the Boston line on the north.

The size of the Bradlee Street sewer to relieve the Clarendon Hills district should be 24 inches by 30 inches and its slope or inclination one foot in thirteen hundred feet. If constructed with this inclination and with a depth in the square at Clarendon Hills of nine and one-half feet below the surface, the cut or depth of trench at the highest point, the junction of Thatcher and Bradlee Streets will be twenty-six feet. The total length of this sewer will be about 4950 feet and the cost of construction, allowing for probable rock excavation, will be about $53,000.

The territory now known as Rugby can be drained into the metropolitan sewer through sewers laid in Wood Avenue, Blake Street and Regent Road. The map shows in a general way the sewers which can be constructed in this territory.

A portion of the territory known as Holmfield can be drained into the metropolitan sewer in East River Street.

THE READVILLE AREA.

This part of the town is flat and quite level and can be best drained by a sub-main sewer extending through Hyde Park Avenue to Milton Street. That section of Readville lying south of Milton Street will drain into this sewer and the territory lying on the west of the N. Y., N. H. & H. R. R. and between Milton Street and the mill ponds also can find an outlet into this sewer via Damon Street.

This section of the Hyde Park Avenue sewer will extend from the metropolitan sewer at Factory Street through to

Channing Street and will receive the sewage of Margin Street, A Street, B Street, Grant Street, Dacy Street, Wilton Street, Glenwood Avenue east of the railroad, Mason Street, Allen Street, Winter Street, Madison Street, Damon Street through a sewer laid in extension of Damon Street to Hyde Park Avenue, crossing under the railroad and the streets east of the railroad and south of Milton Street. The territory lying between the N. Y., N. H. & H. R. R., Milton Street and the ponds can be drained through this Damon Street sewer.

This Hyde Park Avenue sewer to relieve the Readville districts will be second in expensive construction to the Bradlee Street sewer of the Clarendon Hills district. The slope or inclination from the metropolitan sewer at Factory Street to the intersection of Damon Street extended, opposite the hair factory, will be one foot in a thousand, and from this latter point to Milton Street the inclination will be one foot in about three hundred and eighty. The depth of the trench at the junction of Glenwood Avenue and Hyde Park Avenue will be 19.5 feet, at the intersection of Damon Street 9.3 feet, at the summit just north of the safe works 20.4 feet, at Milton Street 15 feet. This latter depth is necessary if the streets south of Milton Street are to be properly sewered.

The total length of this sewer will be 6088 feet, of which the lower section of 2900 feet from Factory Street to Damon Street should be twenty inches in diameter and the upper section of 3188 feet, from Damon Street to Milton Street twelve inches in diameter and the cost of construction will not vary much from $28,500.

In preparing the above described plan of sewerage for the town it has been found neces-ary to adopt in some cases a rate of inclination rather less than is generally considered desirable but where such flat grades are used the disadvantage following can be largely overcome by flushing the sew-

er occasionally with clean water. This flushing can be done by means of hose conducting water into the manhole from an adjacent hydrant or by constructing a special flushing basin or manhole at the upper end of the sewer in which water can be held back in large quantities and suddenly released by an automatic siphoning appliance or the sudden opening of a valve. By connecting such a flushing basin with the water main in the street by means of a small service pipe, the basin can be filled automatically once or twice a day and made to discharge its contents suddenly into the sewer.

The underdraining of the trench in which the sewer is laid is in some cases important if the ground water is to be kept out of the sewer and water pressure on the joints of the sewer avoided, but in the lower sewers to be constructed in Hyde Park such underdraining cannot be done with any degree of thoroughness, as these sewers will all discharge at a level considerably below the water level in the Neponset river. If these lower sewers are underdrained, the ground water collected must find its relief through a rising pipe carried high enough, into some local water course or ditch in which the surface flow is continually toward a lower point.

The Fairmount territory which is well known to contain more or less ground water near the surface can be underdrained, but such an addition to the sewer work will add quite materially to the cost of the same. The underdraining of such sewer trenches as further examinations may show will require such drainage, can be provided for under the specifications for construction.

In the plan as prepared, the minimum depth of the smaller sewers at their upper end is fixed in nearly all cases at eight feet below the surface.

All house connections with the sewers should be five inches in diameter and have as steep an inclination from the

cellar, basement or the lowest point drained to the sewer in the street, as possible.

It will be noticed that in a few instances the layout and construction of new streets through the lowest land in the district to be sewered is called for. It is only through the construction of such streets at the lower levels that the plan as described can be effectively carried out. None of these proposed streets are to pass through lands of great present value and in every instance their construction will improve the neighborhood and increase the value of the house lots which will abut upon them when constructed.

In the general plan proposed, brick manholes are to be constructed at all angles and at points from 250 to 300 feet apart on all straight sections of the sewers.

On the large plan or map prepared to accompany and illustrate this report the sewerage system proposed is outlined, together with the sizes of the sewers and the approximate elevations of these sewers at their upper and lower ends and at changes of grade.

The elevations and sizes of sewers shown on the large map may be slightly changed in some respects when specifications are prepared for actual construction. The location, sizes, rates of inclination and elevationsof the metropolitan sewer as outlined by the Metropolitan Commission are laid down on both the large map and the small print accompanying the report.

Recourse has been had during the study, to the grade plans prepared for the town in 1886-7 and it is believed that comparatively little additional field work will have to be done before construction begins.

A full schedule of the sewers proposed, showing location and size of each, is appended to this report.

Estimates of the cost of construction of the greater part of these sewers have been made and it is found that this

cost, sub-divided for convenience, will not vary much from the following figures :—

For the Arlington Street Area,	$22,744.00	
For Davison, Walter and Pierce Streets . . .	7,174.00	
		$29,918.60
For the Fairmount Avenue, West Side, Area, . .		10,407.60
For the Hyde Park Ave. Area,	$14,908.30	
For Walnut Street from Hyde Park Avenue to the metropolitan sewer, . .	1,080.00	
		15,988.30
For the Barry Place Area, .	$18,972.80	
Glenwood Avenue and Roxana Street sewers and the smaller sewers which drain into them, ...	11,363.00	
		30,335.80
For the Fairmount Avenue Area draining into the metropolitan sewer through a river crossing at the foot of Milton Avenue, . . .		45,810.20
For the Milton Avenue Area, .		9,534.50
For the South Fairmount Area draining into the metropolitan sewer via Bridge Street,		23,357.20
For the Clarendon Hills Area,		26,526.20
For the Bradlee Street sewer for draining the Clarendon Hills district, ...		53,790.00
For the Hyde Park Avenue sewer extending to Milton Street, Readville, . .		28,748.50
For the Readville Area, east of R. R., ...		17,009.70
Total estimated cost, .		$291,426.00

This estimate covers 21.42 miles of service sewers and the Bradlee Street sewer 4950 feet in length.

The act authorizing the construction of the Neponset Valley sewer specifies that the town of Hyde Park shall connect its local sewers with the main valley sewer under the direction and control of the Commission.

It is provided in section fifteen of this act that the metropolitan sewer shall be paid for by the issue of four per cent. gold bonds in the name of the Commonwealth, such bonds to be redeemable within the term of forty years. This loan is to be extinguished by a sinking fund, the payments to which are to be made at the rate of one eightieth part of the whole amount in each of the first ten years, one sixtieth part in each of the second ten years, one thirtieth part in each of the third ten years and the remainder equally divided in the next ten years, the premium realized in the sale of the bonds to be applied to the payment of the interest on the loan.

The amount raised for the sinking fund, interest charges, cost of construction and maintenance is to be apportioned on the city and towns benefited by the construction of the sewer by three commissioners to be appointed by the supreme court, such commissioners when making the apportionment being permitted to take into consideration "the amount of the use of the sewers by said city or towns respectively, the population and valuation thereof, and also the extent, if any, to which said main sewers relieve the city or towns respectively of the necessity of constructing local sewers at their own charge and any other consideration as may seem to them just and equitable."

Such apportionment when accepted by the court is to be final and binding on all parties and this method is to be repeated every five years.

The amount of money required each year under this apportionment is to be assessed upon the town in the apportionment and assessment of the full state tax, and as a part of the state tax to be paid by the town.

The above provision having been made for determining the town's part of the expense of constructing and operating the metropolitan sewer and disposing of the sewage conveyed by it to tide water, the additional cost of sewerage to the town will depend upon the extent of the local sewers constructed.

It is my opinion that the central and thickly settled areas should be drained forthwith and that a generous appropriation for this purpose should be made by the town as soon as authority under which the work can be undertaken is obtained from the legislature.

As to the precise extent of this initial work of sewer construction the committee should by unanimous consent clearly define it by specific recommendations in which I will heartily join.

As a part of the cost of sewer construction must be met by direct assessment upon each estate benefited, the experience of those towns and cities which have adopted a satisfactory method of assessment will be the best guide in this case. This part of the subject comes under the scope of the committee's duties rather than the engineer's, and such information as I have on file concerning this important part of the project is at the disposal of the committee.

Following the example of other towns it is advisable that the town of Hyde Park should obtain from the legislature now in session an act enabling it to provide itself with sewers and issue a loan therefor and exercise all the powers necessary for sewer construction and maintenance.

The valuation of the town of Hyde Park May 1, 1895, was $8,727,555 and the present outstanding indebtedness is $46,900.

The financial condition of the town is such as to offer no objection to the incurring of a reasonable indebtedness for

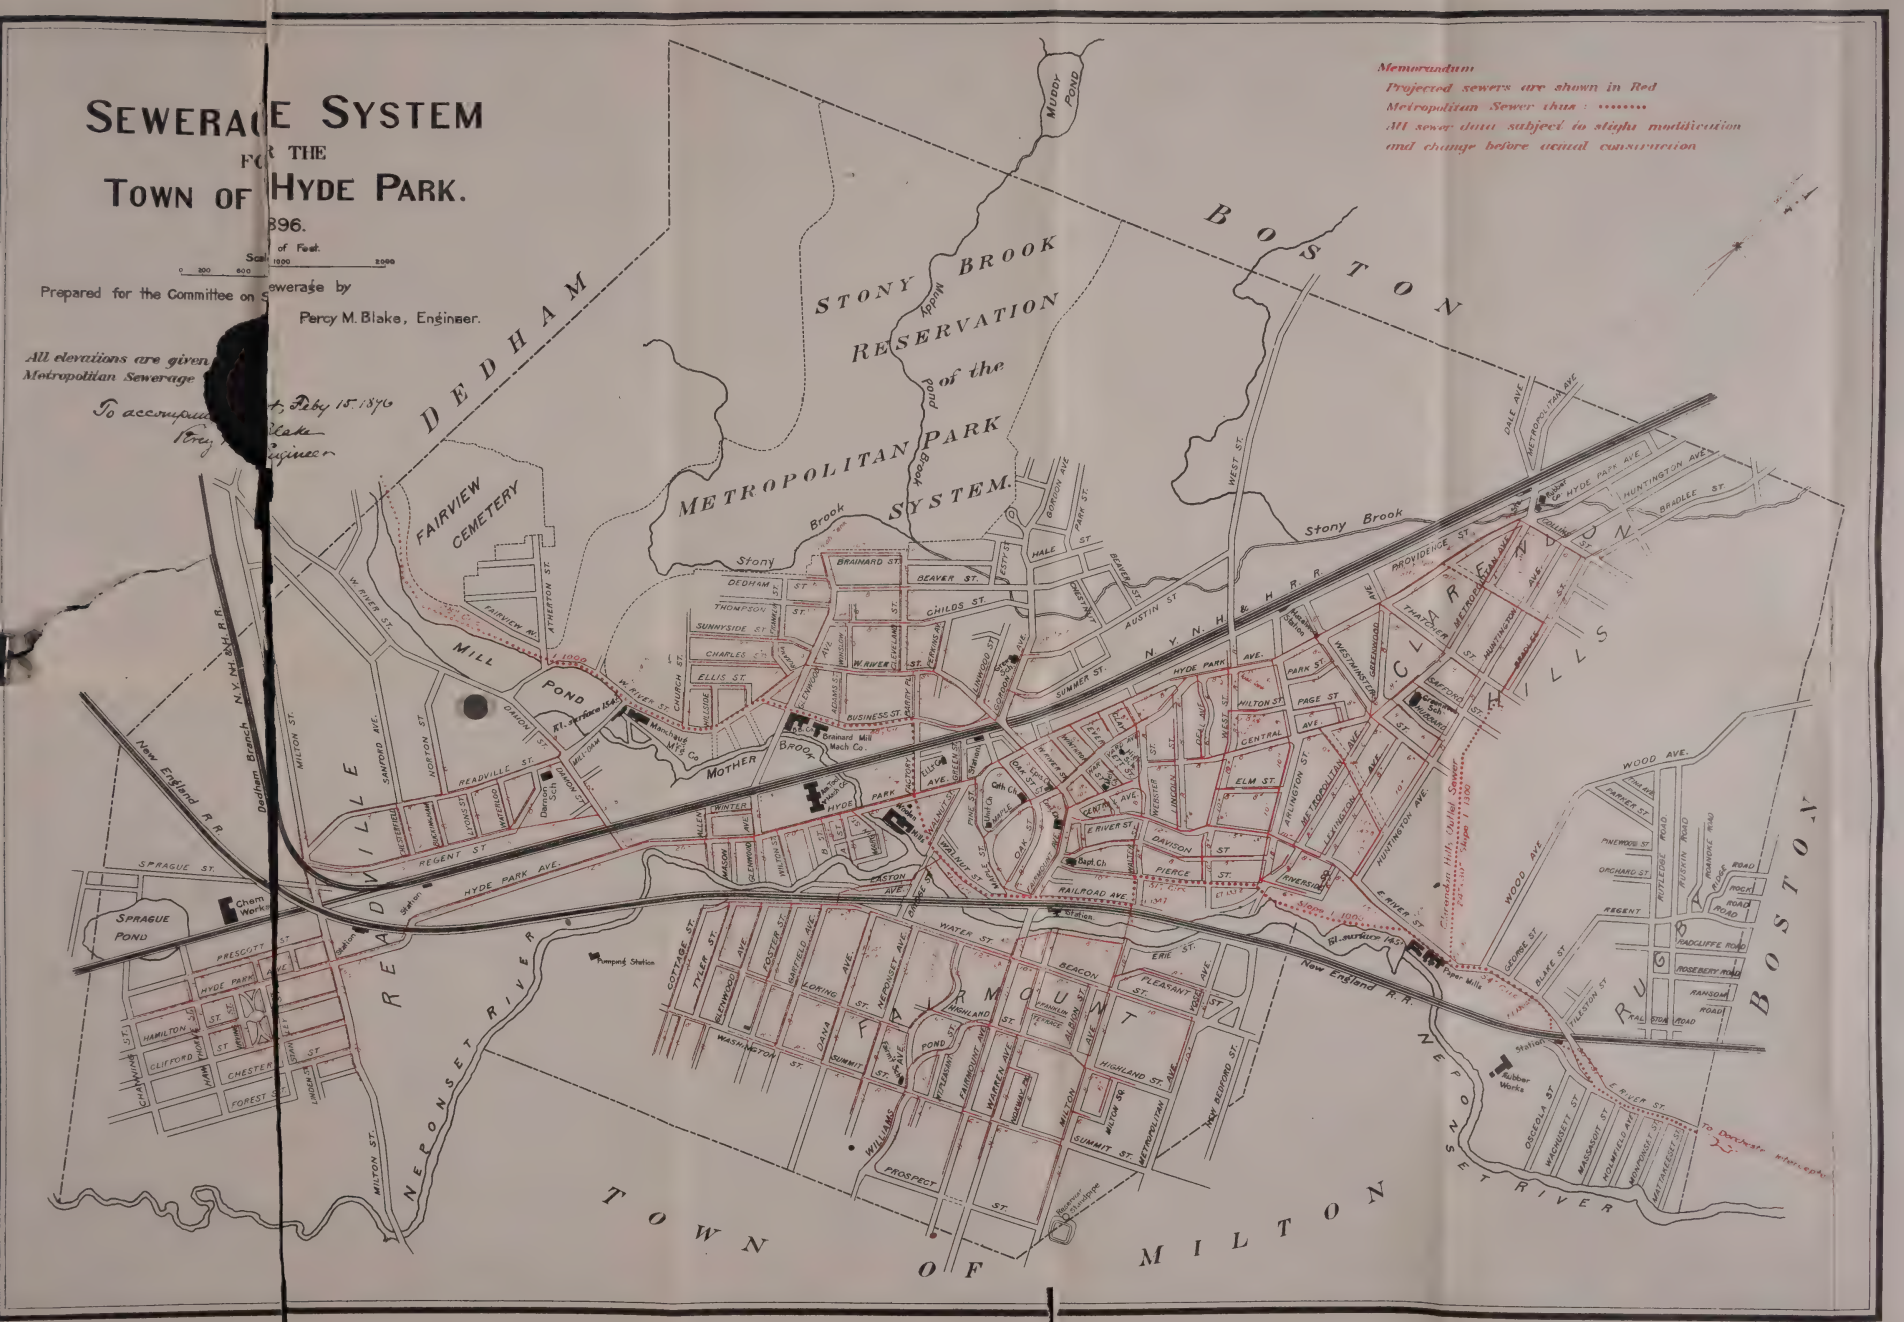

sewer construction and the sanitary importance of the undertaking is so great as to justify a thorough draining of the central districts of the town.

Respectfully submitted,

PERCY M. BLAKE,

Civil Engineer.

Hyde Park, Mass., Feb. 15, 1896.

CHAPTER 406, ACTS OF 1895.

AN ACT TO PROVIDE FOR A SYSTEM OF SEWAGE DISPOSAL FOR THE NEPONSET RIVER VALLEY.

Be it enacted, etc., as follows:

SECTION 1. The board of metropolitan sewerage commissioners, constituted under the authority of chapter four hundred and thirty-nine of the acts of the year eighteen hundred and eighty-nine shall, for the purpose of constructing, maintaining and operating a system of sewage disposal for the city of Boston and the towns of Dedham, Hyde Park and Milton, construct, maintain and operate such main sewers and other works as said board shall deem necessary for carrying out said purposes, in accordance with such plans as the said board or a majority thereof may approve and adopt, subject to the approval of the state board of health, may take by purchase or otherwise and use as part of said main sewers the sewer or part of sewer now or hereafter built by the city of Boston between Granite bridge, so-called, and Central avenue, in the Dorchester district of said Boston. Said board, for the purposes aforesaid, may make all contracts necessary for the construction of the sewers and works aforesaid, and may, where deemed advisable, carry on said construction by day labor.

SECTION 2. Said board may, for the purposes aforesaid, carry and conduct any sewer by it to be made and constructed under or over any water course, or any street, turnpike road, railroad, highway or other way in such manner as not unnecessarily to obstruct or impede travel thereon; and may enter upon and dig up any such road, street or way for the purpose of laying sewers beneath the surface

thereof and for maintaining and repairing the same; and in general may do any other acts and things necessary or convenient and proper for the purposes of this act. In entering upon or in digging up any such road, street or way used for public travel said board shall be subject to such reasonable regulations as may be made by the mayor and aldermen or selectmen of the city and towns respectively wherein such works are performed.

Section 3. Whenever said board digs up any road, street or way, as aforesaid, it shall, so far as practicable, restore the same to as good order and condition as the same was in when such digging was commenced. And the Commonwealth shall at all times indemnify and save harmless the several cities and towns within which such roads, streets or ways are situated, against all damages which may be recovered against them respectively, and shall reimburse them for all expenses which they shall incur by reason of any defect or want of repair in any road, street or way caused by the construction of any of said sewers, or by the maintaining or repairing of the same: *provided*, that said board shall have reasonable notice of all claims for such damages or injury and opportunity to make a legal defence thereto.

Section 4. Said board may also alter or change the course or direction of any water course, or may, with the consent of the mayor and aldermen of cities or selectmen of towns, alter or change the location or grade of any highway, town way, public street or way of travel crossed by any sewers constructed under the provisions of this act, or in which such sewers may be located.

Section 5. Said board, acting in behalf of the Commonwealth, may take by purchase or otherwise any lands in fee and any rights or easements in lands, water courses or ways that it deems necessary to carry out the purposes of this act, and to take any such land, right or easement in any manner other than by purchase, or to take any sewer

or part of a sewer as hereinbefore provided, shall cause to be recorded in the registry of deeds for the county and district in which such lands, rights, easements or sewer or part of a sewer lie, a statement signed by said board describing the same as certainly as is required in a common conveyance of land, and stating that the same are taken for the purposes of this act, and the lands, rights, easements or sewer or part of a sewer so described shall vest in the Commonwealth.

SECTION 6. The Commonwealth shall pay, in the manner hereinafter described, all damages sustained by any person or corporation by any such taking. And if said board and such person or corporation cannot agree as to the amount so to be paid, either said board or said person or corporation may petition the superior court of the county in which the property taken or injured is situated for a jury to determine said damages; and thereupon the same proceedings shall be had as provided in case of applications for a jury by persons dissatisfied with the damages awarded for land taken for the laying out of highways in the city of Boston: *provided*, that no such application for a jury shall be made after the expiration of two years from the date of such taking.

SECTION 7. Said board may cause the sewage from its said main sewer to be discharged into the sewerage system of the city of Boston, and if so shall pay therefor such compensation as shall be agreed upon by the engineer of said board and the city engineer of the city of Boston; and if they cannot agree upon such compensation then the same shall be determined by an arbitrator to be appointed by any justice of the supreme judicial court sitting in equity in the county of Suffolk, and the award of said arbitrator made and accepted by said court shall be final and conclusive for such term of years as shall be agreed upon by said parties, or shall be ordered by said arbitrator and approved by said court.

Section 8. Said board shall at all times keep for said system full, accurate and separate accounts of its receipts, expenditures, disbursements, assets and liabilities, and shall include an abstract of the same in its annual report to the general court.

Section 9. The city and towns aforesaid shall connect their local sewers with such main sewers, subject to the direction and control of said board, and any person or corporation may, subject to the direction and control of said board and on such terms, conditions and regulations as the city or town may prescribe, connect private drains with said main sewers, and for the purpose of making such connections, the city or town may extend its sewers across the Neponset river in such manner as the board of harbor and land commissioners may approve, and shall, in respect to all work and structures in tide water, be subject to the provisions of chapter 19 of the Public Statutes, and of all acts in amendment thereof or in addition thereto, so far as the same are applicable.

Section 10. Whoever wilfully or maliciously destroys or injures any sewer or other property held or used by said board under the authority and for the purposes of this act, shall forfeit and pay to the Commonwealth three times the amount of the damages assessed therefor, to be recovered in any proper action; and upon conviction of either of the above wilful or malicious acts shall be punished by a fine not exceeding one thousand dollars or by imprisonment in the house of correction not exceeding one year, or by both such fine and imprisonment.

Section 11. Said board may from time to time, and at public or private sale as they may deem best, dispose of any property, real or personal, no longer needed for the construction, maintenance or operation of the sewers authorized by this chapter: *provided, however*, that such sale shall not impair the maintenance and operation of said sewers.

Section 12. Real estate so sold may be conveyed, subject to such easements, reservations and restrictions as said board may deem necessary to secure the maintenance, renewal and operation of said sewers, by deed duly executed by said commissioners on behalf of the Commonwealth with or without warranty.

Section 13. The net proceeds of such sales, after deducting all necessary expenses incurred thereby, shall be paid into the treasury of the Commonwealth and shall be credited to and form a part of the fund to be used in construction or maintenance of said sewers.

Section 14. Any money which may be collected or received by the treasurer and receiver general of the Commonwealth from checks deposited with said board by bidders for work, and by said board declared forfeited, and any sums collected or received by said treasurer and receiver general for breach of any contract made with said board, shall be applied to the payment of interest upon the loan issued under the authority of this act.

Section 15. To meet the expenses incurred under the provisions of this act the treasurer and receiver general shall, with the approval of the governor and council, issue from time to time scrip or certificates of debt, in the name and behalf of the Commonwealth and under its seal, to an amount not exceeding five hundred thousand dollars, for a term not exceeding forty years. Said scrip or certificates of debt shall be issued as registered bonds or with interest coupons attached, and shall bear interest not exceeding four per cent. per annum, payable semi-annually on the first days of March and September in each year. Said interest and scrip or certificates shall be payable, and when due shall be paid, in gold coin or its equivalent. Said scrip or certificates of debt shall be designated on the face thereof, Metropolitan Sewerage Loan; shall be countersigned by the governor and shall be deemed a pledge of the faith and

credit of the Commonwealth, redeemable at the time specified therein in gold coin or its equivalent, and shall be sold and disposed of at a public auction, or in such other mode, and at such times and prices, and in such amounts and at such rate of interest, not exceeding four per cent. per annum, as the treasurer and receiver general with the approval of the governor and council shall deem for the best interest of the Commonwealth. The treasurer and receiver general shall on issuing any of said scrip or certificates of debt establish a sinking fund and apportion thereto from year to year an amount sufficient with its accumulations to extinguish the debt at maturity. But in such apportionment of a sinking fund the assessment shall be at the rate of one eightieth part of the whole amount in each of the first ten years, one sixtieth part in each of the second ten years, one thirtieth part in each of the third ten years, and the remainder equally divided in the next ten years. Any premium realized in the sale of said scrip or said certificates of debt shall be applied to the payment of the interest on said loan as it accrues.

Section 16. The supreme judicial court sitting in equity shall, on the application of said board, after notice to the city and each of the towns hereinbefore named, appoint three commissioners, who shall not be residents of the city or of any of the towns mentioned in this act, who shall, after due notice and hearing, and in such manner as they shall deem just and equitable, determine for said system the proportion in which the city and each of the towns hereinbefore named shall annually pay money into the treasury of the Commonwealth for the term of five years next following the year of the first issue of said scrip or certificates, to meet the interest and sinking fund requirements for each of said years, as estimated by said treasurer, and to meet the cost of maintenance and operation of said system for each of said years, as estimated by the said board and certified to

said treasurer, and any deficiency in the amount previously paid in, as found by said treasurer. In making their award the commissioners may take into consideration the amount of the use of the sewers by said city or towns respectively, the population and valuation thereof, and also the extent, if any, to which said main sewers relieve the city or towns respectively of the necessity of constructing local sewers at their own charge, and any other considerations as may seem to them just and equitable, and shall return their award into said court; and when said award shall have been accepted by said court the same shall be a final and conclusive adjudication of all matters herein referred to said commissioners, and shall be binding on all parties.

Section 17. Before the expiration of said term of five years, and every five years thereafter, other commissioners, who shall not be residents of the city or of any of the towns mentioned in this act, shall be appointed as aforesaid, who shall in the manner above-prescribed determine the proportion in which said city and each of said towns in said system shall annually pay money into the treasury of the Commonwealth as aforesaid for the next succeeding term of five years, and shall return their award into said court; and when said award shall have been accepted by said court the same shall be a final and conclusive adjudication of all matters herein referred to said commissioners, and shall be binding on all parties.

Section 18. The amount of money required each year from said city and each of said towns to meet the interest, sinking fund requirements and cost aforesaid for each year and deficiency, if any, shall be estimated by said treasurer in accordance with the proportion determined as aforesaid, and shall be included in and made a part of the sum charged to such city or town, and be assesed upon it in the apportionment and assessment of its annual state tax; and said treasurer shall in each year notify such city and each of said

towns of the amount of such assessment, which amount shall be paid by the city or town into the treasury of the Commonwealth at the time required for the payment and as a part of its state tax.

Section 19. Until the completion of the system of sewerage provided for in this chapter the clerk of the board of metropolitan sewerage commissioners, or such other person as said board may designate, may have advanced to him from the money in the treasury of the Commonwealth received from the loan hereinbefore authorized, such sums, not exceeding ten thousand dollars at any time, as the auditor may certify to be necessary to enable said board to make direct payment upon its pay rolls and other accounts. The person so designated by said board shall give a bond with sufficient sureties, to be approved by the auditor of the Commonwealth, in the sum of ten thousand dollars.

Section 20. As soon as may be after expending such advance, and in any case within thirty days from the receipt thereof, the officer who has received money of the Commonwealth under the provisions of the preceding section shall file with the said auditor a statement in detail of the sums expended subsequent to the previous accounting, approved by said board, and, where it is practicable to obtain them, receipts or other like vouchers of the persons to whom the payments have been made.

Section 21. The supreme judicial court shall have jurisdiction in equity to enforce the provisions of this act, and shall fix and determine the compensation of all commissioners appointed by said court under the provisions hereof.

Section 22. This act shall take effect upon its passage.

Approved May 24, 1895.

PROPOSED ACT SUBMITTED BY THE COMMITTEE.

AN ACT TO AUTHORIZE THE TOWN OF HYDE PARK TO CONSTRUCT A SYSTEM OF SEWERAGE AND TO PROVIDE FOR THE PAYMENT THEREFOR.

Be it enacted, etc., as follows:

SECTION 1. The town of Hyde Park is hereby authorized, through a board of commissioners to be elected as hereinafter provided, to lay out, construct, maintain and operate a system or systems of main drains and common sewers for a part or the whole of its territory, and such connections and other works as may be required for a system of sewage disposal for said town, to be constructed, maintained and operated in connection with the main sewers and other works required to be constructed, maintained and operated as provided by chapter four hundred and six of the acts of the year eighteen hundred and ninety-five or in connection with the sewerage system of the city of Boston as hereinafter specified and provided; and said board for the purpose of providing better surface or other drainage for any part or parts of said town, guarding against pollution of waters, and otherwise protecting the public health, may lay, make and maintain such main drains as they deem best, may deepen, widen and clear of obstructions any brook, stream or water course within the limits of said town, and straighten, alter or divert the courses or channels thereof.

SECTION 2. Said board shall consist of three commissioners, to be called the board of sewer commissioners of the town of Hyde Park, who shall be citizens and residents in said town and shall be elected at a special meeting or at

an annual meeting by said town by ballot, one commissioner to hold office for one year, one for two years and one for three years respectively from the date of the annual town meeting next succeeding the date of his election or until his successor is elected and qualified; and at each annual town meeting thereafter said town shall elect one member of said board to serve for three years or until his successor is elected and qualified. If a vacancy shall occur in said board, said town may, at a meeting called for the purpose, elect a person duly qualified to fill said vacancy.

Section 3. Said board of commissioners, acting for and in behalf of said town, shall have full power to take by purchase or otherwise any lands, water rights, rights of way or easements in said town, public or private, of any persons or corporations, necessary for the establishment of such systems of main drains and sewers and sewage disposal, or for any of the purposes mentioned in section one of this act, and may divert streams and water courses, and may construct such main drains and sewers under or over any water course, bridge, railroad, highway, boulevard or other way, and may enter upon and dig up any private land, street or way, for the purpose of laying such main drains and sewers beneath the surface therof and of maintaining and repairing the same, and may do any other thing necessary or proper for the purposes of this act.

Section 4. Said board to take any lands in fee, water rights, rights of way or easements otherwise than by purchase or agreement, shall cause to be recorded in the registry of deeds for the county of Norfolk, a statement signed by a majority of said board, containing a description thereof, as certain as is required in a conveyance of land, and specifying therein that the same are taken under the authority of this act, and upon such recording, the title in the lands, water rights, rights of way or easements described in such statement, shall vest in said town of Hyde Park which

shall pay all damages therefor, such payment to be made out of the appropriation for construction of main drains and sewers. Said board at the time of such taking shall notify the owners thereof in writing and may agree with the person or corporation injured upon the damages sustained by any such person or corporation for any taking of property or rights for the purposes aforesaid, and if the damages are not agreed upon, a jury in the superior court for said county may be had upon petition of the aggrieved party, to determine the same in the manner provided by law for determining the damages to be paid for land taken for highways, but no suit or petition shall be brought after two years from the date of the recording of the taking as herein provided.

Section 5. In every case of a petition for the assessment of damages or for a jury, said town may at any time file in the office of the clerk of said court an offer in writing to pay the petitioner a sum therein specified as damages; and if said petitioner does not accept the same within ten days after notice of such offer, and does not finally recover a sum greater than that offered, not including interest from the date of offer on the sum so recovered, the town shall recover costs from the date of said notice, and the petitioner if he recovers damages, shall be entitled to costs only to said date.

Section 6. The town of Hyde Park shall by vote determine what proportion of the cost of said system or systems of sewerage and sewage disposal said town shall pay, provided that it shall not pay less than one-third nor more than one-half of the whole cost. The remaining cost of said systems shall be borne by the owners of estates situated within the territory embraced by it and benefited thereby, but no estate shall be deemed to be benefited unless or until a sewer is constructed into which it can be drained. The owners of such estates shall be assessed by said commissioners their proportional parts respectively of such portion of the total

cost of said systems as is not borne by the town as above provided. Such proportional parts shall be based upon the estimated average cost of all the sewers composing said systems, and shall be assessed by a fixed uniform rate according to the frontage of such estate on any street or way in which a sewer is constructed, or according to the area of such estate within a fixed depth from such street or way, or according to both frontage and area; and every such owner shall, within three months after written notice of such assessment served on him or on the occupants of his estate, or sent by mail to the last address of said owner known to said commissioners, pay the sum so assessed to the collector of taxes of said town, provided that said board shall, on the written request of any such owner made within said three months, apportion such assessment into such number of equal parts or instalments, not exceeding five, as said owner shall state in such request; and said board shall certify such apportionment to the assessors of said town, and one of said parts or instalments, with interest from the date of said apportionment at the rate of six per centum per annum, shall be added by the assessors to the annual tax on such estates for each year next ensuing until all said parts have been so added, unless sooner paid as hereinafter provided; and provided, further, that nothing herein contained shall be construed to prevent the payment at any time in one payment, notwithstanding its prior apportionment, of any balance of said assessments then remaining unpaid, but interest on such balance at the rate of six per centum per annum shall be paid to the date of such payment; and thereupon the collector of taxes of said town shall receive the same and shall certify such payment or payments to the assessors, who shall preserve a record thereof. In cases of corner lots and lots abutting on more than one sewered street, the same area shall not be assessed more than once.

Section 7. An assessment made under section six shall constitute a lien upon the estate, which shall continue for three years after it is made and notice served as above provided, or, in case of apportionment, until the expiration of two years from the time the last instalment is committed to the said collector of taxes; and said assessment, if not paid within three months after service of said notice, or, if apportioned, within three months after any part has become due, may, together with interest thereon at the rate of six per centum per annum, with incidental costs and expenses, be levied by sale of such estate or so much thereof as shall be sufficient to discharge the assessment and interest and intervening charges; such sale and all proceedings connected therewith shall be conducted in the same manner as sales for the non-payment of taxes; and real estate so sold may be redeemed the same as if sold for the non-payment of taxes, and in the same manner. Such assessments or parts thereof may also be collected by an action of contract, in the name of the town of Hyde Park against the owner of said estate, brought at any time within three years after the same has become due.

Section 8. Any person aggrieved by such assessment may, at any time within three months after service of the notice mentioned in section six of this act, apply to the superior court of said county for a jury to revise the same, but before making such application he shall give fourteen days notice in writing of his intentions so to do to the said commissioners, and shall therein particularly specify his objection to the assessment, to which specification he shall be confined before the jury.

Section 9. The town of Hyde Park, for the purpose of paying the necessary expenses and liabilities incurred under this act, may incur indebtedness and may issue from time to time as may be required therefor, bonds, notes or scrip to an amount not exceeding one hundred and fifty thousand

dollars and the debt and loan authorized by this act and the notes, bonds or scrip issued therefor shall not be considered or reckoned in determining the authorized limit of indebtedness of said town under the provisions of section four of chapter twenty-nine of the public statutes and of acts in amendment thereof or supplementary thereto. Such bonds, notes or scrip shall bear on their face the words, Hyde Park Sewerage Loan, shall be payable within periods not exceeding forty years from the issuing of such bonds, notes or scrip respectively, and shall bear interest payable semi-annually at a rate not exceeding five per centum per annum. Said bonds, notes or scrip shall be signed by the treasurer of said town and shall be countersigned by a majority of the selectmen. The said town may sell such securities or any part thereof, from time to time at public or private sale, or pledge the same for money borrowed for the purposes of this act, provided that they shall not be sold or pledged for less than the par value thereof; the proceeds thereof shall be retained in the treasury and the treasurer shall pay therefrom the expenses incurred for the purposes aforesaid.

Section 10. The said town instead of establishing a sinking fund may, at the time of authorizing said loan, provide for the payment thereof in such annual proportionate payments as will extinguish the same within the time prescribed in this act; and when such vote has been passed the amount required thereby less the amount that may be appropriated therefor as provided in the following section shall without further vote be assessed by the assessors of said town in each year thereafter, until the debt incurred by said town shall be extinguished, in the same manner as other taxes are assessed under the provisions of section thirty-four of chapter eleven of the public statutes.

Section 11. The receipts from assessments, and pay-

ments made in lieu thereof under this act, shall, after deducting all charges and expenses for and incident to the maintenance and operation of said systems of sewerage, be applied first to the payment of the interest upon said bonds, notes or scrip issued under authority of this act not otherwise provided for, and the balance shall be set apart for the payment or redemption of said bonds, notes or scrip or for the payment of the further extension of the system or systems of sewerage herein authorized to be laid out and constructed by said town as the said town shall vote and shall be used for no other purpose. If the receipts from said assessments and payments made in lieu thereof, in any year, not appropriated for the construction and maintenance of sewers as aforesaid shall be insufficient to pay the interest on said bonds, notes or scrip, and the principal as it falls due, then, in such case, said town shall raise forthwith by taxation, in the same manner as money is raised and appropriated for other town purposes, such sum as will meet said requirements.

Section 12. Said board of commissioners shall annually appoint a clerk, and may appoint a superintendent of sewers, neither of whom shall be one of their own number, and may remove said clerk or superintendent at their pleasure. The compensation of said clerk and superintendent and of said commissioners shall be fixed by said town.

Section 13. All contracts made by said board of commissioners for the purposes of this act shall be the contracts of said town, and shall be signed by said board, but no contracts shall be made or obligations incurred by said commissioners for the laying out and construction of said systems of sewerage in excess of the amount of money appropriated by the town therefor.

Section 14. Said board of commissioners may prescribe rules and regulations for the connecting of estates and

buildings with said main drains and sewers and for the inspection of materials, construction, alteration or use of all connections and drains entering into such main drains or sewers, and may impose penalties, not exceeding twenty dollars, for each violation of any such rule or regulation. Such rules or regulations shall be published not less than once a week for four successive weeks in some newspaper published in said town of Hyde Park and shall not take effect until such publication has been made.

Section 15. Said board of commissioners may enter into an agreement with the city of Boston for the disposal of such sewage as cannot be conveniently conveyed from any portion of said town by gravity flow to the main valley sewer authorized to be constructed, maintained and operated by the provisions of said chapter four hundred and six of the acts of the year eighteen hundred and ninety-five, and may make such connections with the sewers now or hereafter to be constructed by said city of Boston as may be required for such disposal, upon such terms as may be agreed upon between said town and said city, and for that purpose may enter upon and dig up any street or way in said city of Boston and may take by purchase or otherwise any lands, rights of way or easements in said city necessary for the purpose of making such connections.

Section 16. The provisions of chapter fifty of the public statutes and of acts in amendment thereof, so far as applicable and not inconsistent with this act, shall apply to the town of Hyde Park in carrying out the provisions of this act.

Section 17. This act shall take effect upon its passage; but no expenditure shall be made and no liability incurred under the same unless this act shall first be accepted by vote of a majority of the legal voters of said town of Hyde Park present and voting thereon at a legal meeting called

for that purpose within one year from the date of its passage. And said town may elect said board of sewer commissioners, as provided in section two, at the same meeting at which it accepts this act.

Any person not assessed a Poll Tax who is entitled to be so assessed may apply to the Board of Assessors to be assessed in accordance with the following Acts of 1895. [Chap. 61.]

An Act relative to the registration of voters.

Be it enacted, etc., as follows:

Section 1, Every male applicant for registration shall present a certificate from the assessors, or a tax bill or notice from the collector of taxes, showing that he has been assessed as a resident of the city or town on the preceding first day of May, and the same shall be accepted by the registrars as prima facie evidence of such residence, or he shall present a certificate from the assessors that he has been a resident for the six months next preceding the election at which he claims the right to vote, and the same shall be accepted by the registrars as prima facie evidence of such residence. If a male person was a resident of the city or town on the first day of May, and was not assessed a poll tax by the assessors of said city or town on the first day of May, such person, in order to establish his right to be assessed, shall appear before the board of assessors, accompanied by two witnesses, who shall testify under oath that they are registered voters of the ward or town in which he desires to be assessed, and who shall also testify under oath to the truth of the statement of the applicant in regard to his right to be assessed at the place claimed by him as a legal residence on the first day of May,

Section 2. Every male person moving into a city or town subsequently to the first day of May, and claiming the right to vote at an election and desiring to be registered by the registrars of voters, shall appear before the board of assessors, accompanied by two witnesses who shall testify under oath that they are registered voters of the ward or town in which he desires to be registered, and who shall also testify under oath to the truth of the statement of the applicant in regard to his being a resident of the city or town for the six months next preceding the election at which he claims the right to vote. The assessors shall give the applicant a certificate stating that he has complied with the provisions of this section.

The Assessors will be in session at their office Monday evenings during the months of September and October from 7.30 to 9 p. m., also on such days as may be appointed by the Registrars of Voters.

SAMUEL P. SMITH,	JAMES A. CULLEN,

JAMES R. BROWN.

FIRE DEPARTMENT:

WILLIAM HOLTHAM	Chief Engineer,
BENJAMIN RAFTER J. PERRY STACKPOLE	Assistant Engineers.

SELECTMEN'S REPORT.

Citizens of Hyde Park:

The Board of Selectmen herewith presents its annual report, together with those of other departments in connection with the work for the past year.

The town has been undergoing the usual experience attending the introduction of sewerage systems, and this has in a very large measure affected the highway work. It will necessarily be some time before the streets through which the sewers have been laid, will resume their normal condition, and more or less patience will have to be exercised by the citizens until the effects of the disturbances have been overcome. In view of the extensive repairs and changes which must follow on the highways, your Board has sought to provide as much ready material as possible, so that no unnecessary delay shall be caused when it is prudent to begin work on the surfaces of those streets. Something over five hundred tons of crushed stone has been prepared, and a good supply of excellent gravel secured, and this is on hand ready for the work.

Four new streets have been constructed during the year, and at a cost in each case within the estimates, as follows; Pleasant Street (which was laid out and accepted last year), Park Street, Hilton Street, and Wolcott Street. Substantial work has been done on Hyde Park Avenue, where it was much needed; also in Everett Square and on West River Street to the railroad.

Street watering is a subject which we believe ought to receive the careful attention of the town. We believe this branch of the public service has been neglected too long,

and we recommend that it be taken up systematically, and with a view to its extension over all the streets most travelled. Hardly any one thing adds more to the comfort of the people, than to have the dusty streets sprinkled in the heat of summer (when this can be obtained at comparatively so small an expense). The work done this year in this respect convinces us of its desirability and practicability. We recommend an increased appropriation for this work for the ensuing year.

The subject of the abolition of the grade crossings at Readville, and the construction of the new bridge and crossing between Hyde Park and Readville, near Glenwood Avenue, has now been practically settled. The Board has spent much time and labor on this matter, extended over a period of several months. Every detail has received the most careful consideration, and we believe that the result will be highly satisfactory to every one, so far as it is possible. Owing to the favorable arrangement providing for the payment of the Town's portion of the expense as determined by the Legislature, the yearly burden will be reasonably light, and the whole scheme will prove to be a great improvement to the Town in many respects, and a source of great convenience to its business interests. This disposes of a question which has been before the Town several times, and has proved to be a difficult one to satisfactorily settle.

The decree of the County Commissioners in regard to Hyde Park Avenue is a surprise to the Board, as such decree was almost wholly outside of the scope of the petition, and not contemplated by the Selectmen, who simply desired the bounds established, as they were in many locations uncertain.

The erection of the tool house and sheds for the storage of the machinery used by the highway department, fills a long felt want. All the tools are now properly stored, away from the weather, and the building affords an opportunity

to make repairs and keep the implements properly painted and in good condition when wanted for use. We invite inspection of this improvement, as we believe it will meet with universal approval and will result in a substantial saving of expense.

The highway department has been under the care of Superintendent H. M. Phipps, to whom we wish to express our satisfaction for the intelligent, economical, and thorough manner in which his work has been done. We regard him as a valuable man for his position, and the Town is fortunate in having his services.

ACTIONS AT LAW.

The following is a brief summary of the actions at law during the past year in which the Town has been concerned,

Lomelia A. Bickford, admx. of estate of Levi B. Bickford, late of Hyde Park, *vs.* Town of Hyde Park. Writ dated Dec. 27, 1894, entered in Norfolk Superior Court in Feb., 1895; action of contract to recover $204.47 for taxes paid by deceased on real estate on East River Street and Providence Street, Hyde Park, not owned by deceased. Trial at May, 1896, sitting of Court; verdict for the plaintiff; exceptions filed by the defendant, and case is now pending on questions of law.

Directors of New England Railroad Company, petitioners, and Directors of New York, New Haven and Hartford Railroad Company, petitioners. Two separate petitions, each filed in Norfolk Superior Court Jan. 9, 1896, and each returnable in April, 1896. Numerous hearings have been held in these two cases before a commission consisting of Hon. Samuel N. Aldrich, Edward B. Bishop, and Harry C. Southworth, appointed in accordance with Chapter 428 of the Acts of 1890.

Inhabitants of Hyde Park *vs.* Commonwealth of Massachusetts. Petition for land damages filed in Norfolk Superior Court April 6, 1896, for the taking by the Metropolitan Park Commission of about 16 acres of land of the town within the Stony Brook Reservation,—taken April 30 and Sept. 6, 1894. Petition is still pending.

Mary A. White *vs.* Town of Hyde Park. Writ dated April 18, 1896, entered in Norfolk Superior Court in May, 1896; action of contract to recover $732, balance for support furnished, for Overseers of Poor, of Delia Tierney, an alleged pauper resident. from Feb. 4, 1891, to Dec. 26, 1895, and for expenses of burial.

Daniel A. Murray *vs.* Town of Hyde Park.
Susan M. Harlow *vs.* Town of Hyde Park.
William H. Tooher *vs.* Town of Hyde Park.
Draxanna Fairbairn *vs.* Town of Hyde Park.

Four land damage petitions, all filed on or about Aug. 6, 1896, in Norfolk Superior Court, and all returnable in Sept. 1896; all growing out of a decree of the County Commissioners in the matter of taking of land for lay-out of Hyde Park Avenue Aug. 6, 1895.

Nov. 12, 1896, betterment petitions were filed in Norfolk Superior Court by the following named persons, all being appeals from betterment assessments made by last year's Board of Selectmen in the matter of building of Warren Avenue and Highland Street.

George S. Lee, Trustee
Warren S. Hill
Bessie L. Alden
Stuart F. Weld et al.
Antonette N. Higgins
Fannie M. Frost
Fred A. Foster
Edward P. Church

Warren Avenue.

Alfred Foster
Helen Bryant
Lydia M. Hatch
Carrie L. V. White
Frank E. Bowie

Highland Street.

By Chapter 406 of Acts of 1895 a system of sewerage for the Neponset River Valley, within which is the Town of Hyde Park, was provided for, and on Oct. 9, 1895, Hon. Edmund H. Bennett, John E. Sanford, and Everett C. Bumpus were appointed Sewerage Commissioners by the Supreme Judicial Court for the first term of five years in the Neponset River Valley system. Hearings were held and the award of the Commissioners as affecting the Town of Hyde Park was that the Town should pay for the first term of five years, 1896 to 1900 inclusive, to meet interest and sinking fund requirements and cost of maintenance and operation, as follows: Interest and sinking fund requirements, 18.13 per cent.; cost of maintenance and operation, 35.51 per cent.

Ellen F. Murphy, pro ami *vs.* Town of Hyde Park. Writ dated May 23, 1896, entered in Norfolk Superior Court in August, 1896; action of tort for $3000 for personal injuries received Jan. 13, 1896, at 8.30 A.M., on the easterly side of Hyde Park Avenue, between the gate leading to the woolen mills and the bridge over Mother Brook, caused by alleged defect due to an accumulation of snow and ice.

POLICE.

The police department under Chief McKay has, we believe, been ably managed, and we wish to testify to our appreciation of the efforts of Mr. McKay and his officers in the conduct of the work of the department, and the success with which his efforts have been attended. We think a careful examination of the report of the Chief will be of interest.

We believe that the moneys received from fines by the Treasurer naturally belong to and should be applied to the account of the Police Department, and we recommend that such application be made for next year.

We desire to call attention to the fact that there is no provision in the By-Laws of the Town in regard to cleaning snow and ice off the sidewalks. We believe it is desirable that this should be remedied, and that some provision be made compelling occupants of buildings on the main streets to remove the snow and ice within reasonable time after storms, as a matter of convenience and safety to the general public.

FIRE DEPARTMENT.

Reference is made to the report of the Engineers of the Fire Department. Unfortunately several severe fires have occurred in dwellings during the year, but the department maintained its reputation for efficiency in those cases, and their efforts to place the department on a high plane of effectiveness are certainly commendable.

In closing our labors for the year, we desire to publicly express our thanks to the citizens for their confidence and support in the work of the Board. The associations of the Board itself have been most pleasant and harmonious, and we trust that our efforts in behalf of the Town will merit the approval of all our fellow citizens.

SAMUEL T. ELLIOTT,
RANDOLPH P. MOSELEY,
FRANK H. RADFORD,
WALTER S. WESTON,
STILLMAN E. NEWELL,
Selectmen of Hyde Park.

SYNOPSIS OF THE TOWN CLERK'S RECORD OF TOWN MEETINGS.

The following statement shows in a condensed form the action of the Town on the various articles which have been before it for consideration the past year.

March 20, 1896. A Town Meeting was held in "Waverly Hall," when the following Articles were acted upon:

Article 1. To choose a moderator to preside at said meeting.

James E. Cotter, Esq., was chosen.

Art. 2. To see if the town will accept the list of jurors as prepared by the Selectmen and posted according to law.

Amended and accepted.

Art. 3. To hear the report of the Selectmen in regard to guide boards, and act thereon.

Report made and accepted.

Art. 4. To see what disposition the town will make of the money received from dog licenses for the year 1895.

To the Public Library for the purchase of new books.

Art. 5. To see what compensation the town will vote to pay for collecting its taxes the current year.

Same as last year, 1 per cent.

Art. 6. To fix the salaries of the town officers for the current municipal year.

Same as last year.

Art. 7. To fix the compensation of the engineers and the several members of the fire department, for their services the current municipal year.

Same as last year.

Art. 8. To see what discount the town will vote to allow on all taxes paid on or before October 1, 1896; and what interest the town will vote to charge on taxes for the current year, when the same shall be overdue.

No discount allowed, and interest at the rate of six per cent. per annum charged on overdue taxes.

Art. 9. To see if the town will appropriate one hundred and fifty dollars to Post 121, Grand Army of the Republic, for the expense of decorating the graves of deceased soldiers.

So appropriated.

Art. 10. To see if the the town will appropriate the money now in the hands of the Treasurer, received by him as sidewalk, street, or Board of Health assessments or betterments, and all money which shall be received by him the current year on account of such assessments or betterments, for the purpose of constructing or repairing public ways.

So appropriated.

Art. 11, To see if the town will appropriate the money to be received this year by the Town Treasurer, for or on account of Corporation and National Bank Taxes, for the payment of the fire hydrant service of the town.

So appropriated.

Art. 12. To hear the reports of the Selectmen laying out Park Street, Westminster Street, Hilton Street, and Wolcott Street, as public town ways, and to see if the town will accept and allow any or all of said layings out, with the several boundaries and admeasurements of said ways as shown by reports, plans and profiles now on file in the Town Clerk's office, and appropriate money to construct the same.

The Selectmen made reports laying out these four streets. The town accepted Park, Hilton, and Wolcott Streets, and appropriated $750 to build them. Action on Westminster Street was "indefinitely postponed."

Art. 13. To hear the report of the Committee on Sewerage and take any action thereon.

Report made and submitted in print. Voted to accept the report, and that the committee be continued until after the election of the commissioners named in said report.

Art. 14. To see if the town will authorize its Selectmen to petition the General Court of this Commonwealth for such legislation as may be necessary to enable it to carry out the suggestions or recommendations of its Committee on Sewerage.

So authorized.

Art. 15. To see if the town will vote to enlarge and rebuild the bridges over Stony Brook, on Metropolitan and Hyde Park Avenues, and appropriate money therefor.

Indefinitely postponed.

Art. 16. "To see if the town will adopt the provisions of Chapter 186, of the Acts and Resolves of 1895, being an act relative to the watering of streets in towns."

Adopted.

Art. 17. "To see if the town will vote to purchase one second class steam fire engine."

Indefinitely postponed.

Art. 18. To see what amount the town will vote to raise by taxation, to meet the expenses of the town the current year, the deficiencies of last year, and the notes and bonds of the town maturing the present year, and how the same shall be appropriated.

Voted to raise by taxation the present year one hundred twenty-five thousand, seven hundred and eleven dollars ($125,711.00), and to appropriate the same as follows:

Support of Schools:—

Teachers, Janitors, and Fuel,	$37,975 00	
Incidentals,	4,000 00	
Text Books and Supplies,	2,500 00	
Evening Schools,	700 00	
Industrial School,	175 00	
		$45,350 00
For Bonds and Notes,		9,600 00
" Interest,		2,000 00

" Public Library,	1,850 00
" Highways,	*11,000 00
" Board of Health,	2,000 00
" Incidentals,	8,500 00
" Salaries,	3,466 00
" Police,	7,500 00
" Support of Poor,	5,000 00
" Street Lights,	†8,570 00
" Fire Department,	7.000 00
" Grand Army, Post 121,	150 00
" Fairview Cemetery,	500 00
" Fire Hydrants (deficiency),	675 00
" Building Streets accepted at this meeting,	750 00
" Material for Streets,	500 00
" Completing the new schoolhouse,	1,200 00
" Fire Insurance Premiums,	1,000 00
Voted in 1895 and payable in 1896,	9,100 00
	$125,711 00

*$1,000, or so much thereof as is needed, to be used in building Pleasant Street.

†Selectmen instructed to place a light at the corner of Glenwood Avenue and Loring Street.

Art. 19. "To see if the town will appoint a committee to report at a future town meeting on the cost, advisability, and plan of taking for a public park the square bounded by Hyde Park Avenue, West River Street, Green Street, and the N. Y. N. H. & H. R.R."

Referred to a committee of five to be appointed by the moderator. Moderator appointed Messrs. Robert Bleakie, Wilbur H. Powers, Stephen B. Balkam, Frank B. Rich, and Samuel T. Elliott, as this committee.

Art. 20. "To see if the town will vote to appoint a committee of five (5) to look up suitable sites for a location of a new town hall and the cost thereof, said committee to report at the next town meeting holden by the town."

Referred to the committee appointed under Article 19, above.

Art. 21. To see if the town will authorize its Collector

of Taxes to use all means of collecting the taxes which a Town Treasurer, when appointed a Collector, may use.

So authorized.

Art. 22. To see what amount the town will authorize its Treasurer to borrow, in anticipation of the tax to be levied the current year.

A sum not exceeding $80,000 authorized.

Art. 23. To see if the town will authorize its Treasurer with the approval of the Selectmen, to borrow money to renew or replace any loan or loans.

So authorized.

Adjourned.

May 6, 1896. A Town Meeting was held in Waverly Hall, when the following articles were acted upon, viz. :

Article 1. To choose a moderator to preside at said meeting.

Mr. Frank B. Rich was chosen by ballot.

Art. 2. To see if the town will accept Chapter 287, of the Acts and Resolves of the General Court of this Commonwealth for the year 1896, the same being "an Act to authorize the town of Hyde Park to construct a system of sewerage and to provide for the payment therefor."

Act accepted.

Art. 3. To choose by ballot a "Board of Sewer Commissioners of the Town of Hyde Park." Said board shall consist of three commissioners, one commissioner to hold office for one year, one for two years, and one for three years respectively, from the date of the next annual town meeting, or until his successor is elected and qualified. The polls will open at three o'clock and thirty minutes in the afternoon, and may be closed at eight o'clock in the afternoon.

Henry B. Carrington chosen for one year, David Perkins for two years, and Ferdinand A. Wyman for three years.

Art. 4. To see if the town will vote to issue any bonds, notes, or scrip, and fix the amounts, times of payment and rate of interest thereof and thereon, and the form thereof, pursuant to the provisions of said Chapter 287, and pass any votes relating thereto.

Voted to issue bonds to the amount of $150,000, of the denomination of $1,000 each, bearing interest at the rate of 4 per cent. per annum; five bonds payable each year, from one to thirty years, from date of issue, in "lawful money of the United States." Proceeds of sale of bonds to to be applied to defraying expenses incurred in carrying out provisions of said Chapter 287.

Art. 5. To see if the town will vote to borrow any money pursuant to the provisions of said Chapter 287, or pass any votes relating thereto.

Treasurer authorized to borrow not exceeding $50,000, in anticipation of the proceeds from sale of bonds authorized under Article 4.

Art. 6. To see if the town will determine and fix the salaries or compensation of the Board of Sewer Commissioners, and the salary of the clerk of said Board.

Commissioners $100 per year each; clerk $100 per year, and such further compensation as the Board may deem just and reasonable.

Art. 7. To see if the town will determine and fix the salary or compensation of the superintendent of sewers.

Referred to another town meeting.

Art. 8. To see if the town will instruct the Board of Sewer Commissioners to proceed with the construction of sewers, and instruct and authorize them to make all necessary contracts therefor in the name and behalf of the town.

Board instructed to proceed with the construction of sewers, and authorized to make contracts in behalf of the town.

Adjourned.

Sept. 30, 1896. A town meeting was held in the lower Waverly Hall, and the following articles were acted upon:

Article 1. To choose a moderator to preside at said meeting.

James E. Cotter was chosen moderator by ballot.

Art. 2. To see if the town will vote to amend its By-Laws by striking out the section which reads as follows:

"PENALTIES UNDER THE BY-LAWS.

Every violation of any of the foregoing By-Laws shall be punished by a fine of not less than one dollar nor more than twenty dollars, to be recovered by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction."

and inserting in place thereof the following words:

"PENALTIES UNDER THE BY-LAWS.

Whoever violates any By-Law of the Town of Hyde Park, shall be punished by a fine of not less than one dollar nor more than twenty dollars, to be recovered by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction."

also to see if the town will adopt the following By-Law, viz.:

"No person shall put or place, or cause to be put or placed, in or upon any street, lane, alley, or other public place in this town, any ashes, glass, crockery, scrap iron, nails, tacks, or any other articles which would be liable to injure the feet of horses or injure or damage the wheels or tires of bicycles or of any other vehicles which have wheels with rubber or pneumatic tires."

Voted to so amend the By-Laws.

Voted to adopt the By-Law as above set forth.

Art. 3. To see what amount the town will appropriate for street watering and how the same shall be raised, and to see what portion of the cost its Board of Assessors may assess upon the abuttors of the streets so watered.

$2,500 appropriated for this purpose, the same to be raised by taxation next year. Voted that the Assessors be requested to assess one-third part of the cost of watering upon the estates abutting the streets so watered.

Art. 4. To see if the town will vote to transfer to the highway appropriation the unexpended balance remaining

from the appropriation for Highland Street, and also all sums of money received by the Treasurer from the sale of crushed stone or other road material.

Voted to so transfer.

Art. 5. To see if the town will make an additional appropriation for highways, and how the same shall be raised.

$4,000 appropriated for highways; $500 of said sum to be taken from the money appropriated under Article 3, and $3,500 to be raised by taxation next year.

Art. 6. To see if the town will authorize its Selectmen to contract with the Hyde Park Electric Light and Power Co. for an arc light to be placed on or near the East River Street bridge.

Selectmen were so authorized.

Art. 7. To hear and act upon the reports of the committee appointed March 20, 1896, to take into consideration the "cost, advisability, and plan of taking" of certain lands for park purposes, and also "look up" a suitable site for locating a Town Hall, and the cost thereof.

The reports of this committee were presented in writing and read by Mr. S. B. Balkam. The reports were accepted and the committee discharged. No further action was taken, as the reports contained no recommendations.

Adjourned.

TOWN CLERK'S REPORT.

BIRTHS.

Number of births registered in Hyde Park in 1896	343

The Town Clerk requests information of any omission or error in the above tables, in order that the registration may be as complete as possible.

Respectfully submitted,

HENRY B. TERRY,

Town Clerk.

FOURTH ANNUAL REPORT OF THE PARK COMMISSIONERS,

The first Board of Park Commissioners under the law accepted by the town, making the term three years, was organized March 10, 1896. During the first three years, Commissioners were elected annually.

We deem it wise for reasons expressed in previous reports to raise, each year, a small sum of money for park purposes, but, as the town is incurring large expense to put in a sewer system, we do not recommend any appropriation for parks this year. If, however, during the next year, anything is to be done in the way of purchasing small tracts of land, it will be necessary to make an appropriation, as there are not sufficient funds in our hands to make any considerable purchase. We have been urged to take several small pieces of land at the intersection of streets, some of which ought to be secured by the town or Park Commission.

In a previous report, we have referred to the fact that a parkway connecting Stony Brook and Blue Hill Reservations is desirable and will probably be accomplished in the future. Such way must cross the railroads, and recognizing the fact that great changes were about to take place in the Readville District, we urged the Metropolitan Commission to endeavor to settle the parkway question in connection with the abolition of the grade crossings now being considered by a Commission appointed by the Court, so that Hyde Park might have a parkway without any very large expense beyond the amount that would be necessary to build an ordinary road. The necessary proceedings for the abolition of grade crossings require time, and it has not yet been decided whether the

highways will pass over or under the tracks, nor where crossings are to be made. It seems fair to assume that there will be at least one crossing between Hyde Park and Readville, and if such crossing should be made a parkway, it would both accommodate the public as an ordinary road and solve the problem of connection of the Reservations, which, if postponed, may be very difficult and expensive. We do not know what course the Metropolitan Commission will pursue, but they would have the hearty co-operation of the local Board in anything which would tend to benefit the public, and we have ascertained that the railroads are willing and anxious to aid in the matter, if the two problems can be solved at one and the same time. In the opinion of all interested, the present seems to be the time to settle this important question.

At some time, in the not very distant future, a roadway will extend along the border around Stony Brook Reservation. With a view of obtaining the best road at the most reasonable price, the Metropolitan Commission has abandoned some lands along the border of this Park. The deeds of abandonment under the law had to be assented to by the local Board. We have been very glad to give our assent to all deeds, and cordially indorse and approve the plan and action of the Metropolitan Commission.

From the very beginning, the Board urged that there should be an entrance to Stony Brook Reservation near Gordon Avenue. This will accommodate not only the people of Hyde Park, but people who come from Boston, Milton, or roads in that direction, much more readily than the Cleveland Street entrance.

It is with great satisfaction that we are able to report that, during this official year, the Metropolitan Commission have taken a part of the land in the rear of Mr. Hill's house, at the corner of Gordon Avenue and Beaver Street. When

the proposed road around the park is built, we feel sure that this entrance will be greatly appreciated by the public.

The Camp Meiggs Memorial Association requested the Board to set up four guns and nine projectiles, which the United States Government had given them, upon the park at Readville. The Association had borne the expense of transportation and had planned to erect, at some future time, a statue or memorial. Camp Meiggs is historic ground around which cluster memories of the late war in which the whole Commonwealth cannot fail to be interested, as it appeals to the spirit of patriotism so prominent in our people. We felt that the Association deserved much credit for having secured this camp ground for a park and that their efforts should be encouraged. We carefully investigated the matter and concluded it was of sufficient importance to the public to justify us in making the necessary expenditure and passed a vote to that effect, but the actual work will have to be done in the spring after the frost is out of the ground.

Believing in healthful exercise, we have endeavored to secure a playground for our boys and young men, but so far have not succeeded. It would be a very agreeable task for your Commission to report next year that some public-spirited citizen had given to the town for this purpose the use of any unoccupied land for a term of years, and we know that the rising generation would be grateful.

WILBUR H. POWERS, Chairman,
L. B. BIDWELL, Secretary,
JOHN J. ENNEKING,
Park Commissioners.

POLICE REPORT.

To the Honorable Board of Selectmen:

Gentlemen—The report of this department for the financial year ending Jan. 31, 1897, is respectfully submitted herewith:

Whole number persons arrested,		281
Males,	266	
Females,	15	

CAUSES FOR ARREST.

Drunkenness (simple),		185
Drunkenness (common),		1
Disturbing the peace,		3
Assault and battery,		18
Assault on an officer,		1
Assault with a dangerous weapon,		2
Malicious mischief,		2
Vagrancy,		3
Non-support,		4
Adultery,		1
Bastardy,		3
Rape,		1
Embezzlement,		1
Larceny,		13
Larceny from a building,		1
Breaking and entering,		8
Liquor nuisance,		9
Illegal keeping of liquor,		2
Cruelty to animals,		2
Stubborn children,		2
Runaway boys,		2
Concealing mortgaged property,		1
Receiving embezzled property,		1
Malicious injury to real estate,		1
Riding bicycle on sidewalk,		10
Insane,		4
		281

MISCELLANEOUS.

Travellers lodged in station house over night,		3022
Cases investigated without arrest,		270
Stores found open at night,		14
Lost children restored to parents,		13
Dead bodies found,		4
Search warrants for stolen property,		4
Search warrants for intoxicating liquors,		12
Stolen property recovered, value,	$646.50	
Amount of fines imposed by Court,	$1786.00	
Imprisonment imposed by Court,	28 years 8 months	
Number of persons fined,		203
Defects in streets reported,		37

FINAL DISPOSITION OF CASES.

Committed to State Prison,	6	
Committed to House of Correction,	75	
Committed to Lyman School,	1	
Committed to care of State Board of Lunacy and Charity,	1	
Committed to Insane Asylum,	4	
Turned over to parents,	7	
Turned over to other officers,	6	
Let off on payment of fine,	147	
Let off on probation,	10	
Cases placed on file,	2	
Discharged,	13	
Ended by death,	1	
Jumped bail,	1	
Awaiting trial,	6	
Bound over to keep peace,	1	
		281

The past financial year has probably been the most trying and arduous in the history of this department. The night patrolmen have been obliged to perform a great amount of day duty in addition to their regular work. This has always been done by them in a cheerful manner and to the best of their ability, for which they have my sincere thanks.

The introduction of the Metropolitan system of sewerage with all its attendant evils, brought a large floating population into town, which at one time exceeded 700 men, Bos-

ton, Pennsylvania, Rhode Island and New York State furnishing the larger part. About one-third of all the cases before our local court came from this source alone. About 200 more men were employed upon our local sewage system, but very little trouble came to us from this source compared with the Metropolitan system. Probably before May next the Metropolitan system will be practically completed and the larger part of the men will have gone elsewhere.

The local Board of Sewer Commissioners and their chief engineer have done very much to give us an orderly set of men upon the town system, and to them this department is deeply indebted for their efforts in this direction. One officer has spent a great part of his time days attending to complaints regarding the unsafe condition of the streets, left so by the Metropolitan sewer contractors, and he has personally seen that the defects were at once remedied.

All defects found in our streets and sidewalks from other causes, and for which the town might become liable in case of accidents to persons or property, have been promptly reported to our street superintendent, and by him at once repaired. All electric lights found not burning have been reported to our Board of Selectmen. The Electric Light Company have promptly attended to all complaints made to them, and they request notification of all defects. If citizens who discover electric lights which are not giving satisfactory service, report the same to this office, they will be attended to at once.

The band concerts held weekly in Everett Square during the warm months have brought large numbers of people into town. These gatherings have generally been orderly and quiet and no trouble of a serious nature has taken place.

The electric railroad has brought large numbers of strangers into the town, especially on Sundays, and our

quiet streets present at times a metropolitan appearance. An officer has been required a great part of the time at the junction of Hyde Park avenue and River street on this account.

The tramp nuisance has been greatly abated by the action of the Overseers of the Poor in making the men who apply for lodgings work in the rear of the fire department building cracking stone. Applications for lodgings have fallen off fully two-thirds since the system was inaugurated. Notwithstanding that the sewer work brought into the town large numbers of men looking for work upon the same and who were apparently destitute of funds upon their arrival here and were thus forced to ask for shelter, the whole number housed during the year has been but 3022. The number housed in 1896 was 2980; in 1895, 3411; and in 1894, 4731.

The town has enjoyed unusual freedom from "house breaking," and we sincerely trust this state of affairs may continue. The night patrolmen are instructed to interview all persons unknown to them who are roaming about after midnight and satisfy themselves that their business upon the streets is legitimate.

As there has been some criticisms in the public press through anonymous communications in regard to the enforcement of the liquor law during the past year, a comparison of the work with that performed during the past ten years may not be amiss. During the financial year ending Jan. 31,

1888,	there	were	5	search	warrants	granted	and	9	prosecutions	made.
1889,	"	"	10	"	"	"	"	13	"	"
1890,	"	"	4	"	"	"	"	4	"	"
1891,	"	"	7	"	"	"	"	8	"	"
1892,	"	"	4	"	"	"	"	3	"	"
1893,	"	"	9	"	"	"	"	9	"	"
1894,	"	"	9	"	"	"	"	11	"	"
1895,	"	"	6	"	"	"	"	7	"	"
1896,	"	"	11	"	"	"	"	8	"	"
1897,	"	"	12	"	"	"	"	11	"	"

Two of the parties prosecuted this year left town immediately after paying their fines. One of the parties searched, and where evidence of a violation of the law was found, ran away from town before a warrant for arrest could be procured. Neither of the above three parties have returned.

I would respectfully recommend to the incoming Board of Selectmen the appointment of a liquor officer, whose sole duty shall be the collection of evidence and the prosecution of all violators of the liquor law. I would also recommend that the police force be maintained at its present strength at least, and that the department be furnished with a horse and wagon.

To the Board of Selectmen for their uniform courtesy and advice upon all occasions we return our sincere thanks, and to the citizens generally for their co-operation in all that tends to the public good, we gratefully acknowledge our indebtedness.

JAMES McKAY,
Chief of Police and Keeper of Lock-up.

CEMETERY COMMISSIONERS' REPORT.

The Cemetery Commissioners submit their fifth annual report for the financial year ending January 31, 1897.

At the outset we desire to express our appreciation for the earnest, careful and intelligent service and co-operation of George M. Rice, our deceased associate. Mr. Rice served as one of the commissioners from the time the cemetery was established, took great interest in everything concerning its welfare, and was chairman of the board from its organization down to the time of his death.

The receipts for the past year have been $4,652.00, apportioned as follows :—

Sale of lots,	$2,220 00	
Unexpended balance of lot receipts not required for payment of cemetery loan notes,	335 00	
Single graves,	390 00	
Interment and receiving tomb charges,	578 00	
Foundations for monuments,	296 14	
Sale of grass and wood,	9 00	
Balance from last year,	823 86	
Total,	$4,652 00	
Appropriation,	500 00	
		$5,152 00
Expense, labor, etc.,	$1,777 73	
Paid for land,	1,000 00	
		$2,777 73
Balance on hand,		$2,374 27

For a detailed statement of receipts and expenditures see financial statement accompanying this report.

The Commissioners have extended Magnolia and Elm Avenues and Weigela Path, have laid out and graded various sections in the cemetery, and have commenced the setting of flowering and ornamental shrubbery. They have also laid over 2000 feet of water pipe and caused the same to be connected with the pipes of the Hyde Park Water Company, so that we now have throughout a very large portion of the cemetery, water for use in watering grass, plants and shrubbery, and expect to extend the water pipes the coming season. This has been done at a large expense as the water had to be carried from a point close to River Street; but the work was accomplished with great economy and is a permanent improvement of the utmost importance.

Sign-boards of iron, marking the names of the avenues and paths, have also been erected, and the town's ownership of land adjoining the cemetery has been increased during the past year.

The Commissioners expect that, at an early date, it will be feasible to set apart a portion of the funds received from the sales of lots as a permanent fund to be invested and the income thereof used in the care and beautification of the cemetery. We hope during the coming year to submit proper regulations to the town looking to that end.

An appropriation of $500 is recommended, being the same amount as last year.

GEORGE E. WHITING,
CHARLES F. JENNEY,
Commissioners.

REPORT OF THE BOARD OF HEALTH.

To the Citizens of Hyde Park:

The year which has just ended has not varied much from previous years, in the general work which has come before the Board. In looking back over the past we are able to see the reason for increase of work which has come to this department. Since the Board was started, seventeen years ago, each year has had its new duties, until to-day we find ourselves facing the problem, how shall this Board best serve the interests of the town and satisfy the citizens, whose numbers have nearly doubled within that time, with the means placed at our disposal?

HEALTH OFFICER.

In many places as large as this, the inspection of complaints is made by a health officer, a person appointed by the Board, whose duty it is to investigate all places and report to the Board, where the town is not properly guarded, laws are not complied with, all cases of contagious disease, inspection of property in regard to location of vaults and cesspools, or places which have become a nuisance. Over two hundred complaints have come to the Board this year, and we do not doubt that many more places could be found that needed attention, if some one could be appointed to attend to this work.

SANITARY.

We congratulate the citizens on the near approach of the time when we shall have a system of sewerage which will

relieve us of the dangers which arise from the old system of vaults and cesspools (which must be a menace to health), and would urge upon every one the importance of connecting with the sewer as soon as opportunity offers. It will be several years before every one can reap the benefits of this improvement, and some method of cleaning vaults and cesspools will have to be carried on. The arrangement of dumps into the sewer which will probably be ready for use in the spring will greatly reduce the cost of this work, and we believe if the town would own the apparatus and let the work out to the lowest bidder (he to furnish horses and men), that the price and work would be perfectly satisfactory to every one. On petition of several citizens a hearing was granted on the present system of doing the work, and we think that in most cases those present were convinced that the Board was doing all it was possible to do to relieve them of the extra expense, which at present was beyond the power of any one to prevent.

COLLECTING OFFAL.

The contracts for the collecting of offal were given to the same ones as last year. We have been disappointed in the way this work has been done in some parts of the town. Since the winter months set in a great many complaints have come from certain sections, and we are grateful to those who have been so lenient when they have received poor service. We would ask every one so far as possible to keep the offal, in the winter, where it will not freeze; this will help the one who does the work to get over the route faster, and keep others from being neglected. Our aim is to have every one taken care of.

CONTAGIOUS DISEASE.

Again we are obliged to report an increase in cases of contagious disease. At the beginning of the year the Board

voted not to post notices for measles and typhoid fever, and some fear was expressed that an increase of cases would be the result, but the table will show that this was not the case. The increase has come in cases of diphtheria, and we believe that the use of antitoxine has been one thing that has kept the death rate so low.

The following is the report of cases for the year :

Diphtheria,	.	95	cases with	10	deaths.
Scarlet fever,	.	28	"	1	"
Measles,	.	85	"	0	"
Typhoid fever,	.	13	"	5	"
Membraneous croup,		1	"	0	"
Total,	.	222	"	16	"

PLUMBING.

The work in this line for the year has been about the same as last year. We believe that changes could be made in this work which would be a benefit, either in connection with a health officer as has been referred to, or in some other way to secure better service.

The inspector reports work done according to laws, and in most cases without change.

DUMPS.

We feel that in relation to dumps some action should be taken by the town. Our attention has been called to the dump on Davison St., which was used by the different stores for the dumping of decayed matter, and also on Hyde Park Ave. near the stables, for the same purpose. These places have both been closed, and owners must see that nothing is dumped there that would make trouble, or if it is, to see that it is covered at once.

REGULATIONS OF THE BOARD OF HEALTH

OF THE TOWN OF HYDE PARK.

Public Statutes: Chapter 80, Section 18.—The Board of Health of a town shall make such regulations as it judges necessary for the public health and safety, respecting nuisances, sources of filth, and causes of sickness within its town. Whoever violates any such regulation shall forfeit a sum not exceeding one hundred dollars.

In accordance with the foregoing provision of law, this Board makes the following regulations, which will be strictly enforced.

Regulation 1. *Privy Vaults and Drains.* Section I. Every tenement shall be provided with a water-tight underground drain to carry off the waste waters, also with a suitable privy or water-closet sufficient for the accommodation of all those inhabiting the premises.

Section II. All privy vaults, unless water-tight, shall be so constructed that the inside of the same shall be at least five feet distant from the line of any adjoining lot or street, and at least twenty feet from any dwelling house, and shall be provided with a ventilation through the roof. The same shall not be used as cesspools nor receive drainage from the premises. Their contents shall not be allowed to leak out or otherwise become offensive. All privy vaults shall be of a size sufficient to satisfy the Board of Health.

Section III. All waste water shall be conveyed through sufficient drains under ground to a cesspool sunk under ground, which shall be of sufficient size to contain at least eighty cubic feet, and when not water-tight must be at least twenty feet from the cellar wall of any tenement or dwelling, and at least five feet distant from any adjoining lot or street. Cesspools shall be built in a thorough and substantial manner, as shall be approved by the Board of Health.

Section IV. No person shall allow any drain or the overflow of any cesspool to enter any running stream, or any drain constructed for surface water, and no person shall suffer any house drainage or other offensive matter to remain in any cellar, or upon any lot or vacant ground by such person owned or occupied. All privy vaults and cesspools within one hundred and fifty feet of any well or spring, the water of which is used for domestic purposes, must be water-tight.

Section V. All privy vaults or cesspools must be thoroughly cleansed at least once in each year, and oftener if necessary for the public health, the expense to be borne by the owner of the property.

Regulation 2. Section I. The Board, when satisfied upon due examination that a cellar, room, tenement, or building in the town occupied as a dwelling place, has become by reason of the number of occupants, want of cleanliness, or other cause, unfit for such purpose, and a cause of nuisance or sickness to the occupants or to the public, may issue a notice in writing to such occupants, requiring the premises to be put in proper condition; or if the Board see fit they may require the premises to be vacated, and the same shall not be again occupied without the written permission of the Board.

Section II. No person shall throw or put into any public place or pond, or running stream or body of water, or in any other place where the Board of Health may deem it a nuisance, any dead animal, animal matter, decayed fruit or vegetables, dirt or rubbish whatever; nor shall any person throw into or upon any flats within the jurisdiction of the town, any dead animals, filth, or offensive matter.

Regulation 3. *Swill and Offal.* Section I. No person shall remove or carry in or through any of the streets, lanes, or avenues, places or alleys within the town of Hyde Park, the contents of any cesspool, vault, or privy well, swill or house offal (either animal or vegetable), or grease or bones, unless a permit be granted by the Board of Health upon such terms and conditions as said Board may deem necessary.

Section II. No person shall bury swill or house offal, or the contents of any cesspool, vault, privy or privy well within the limits of the town of Hyde Park, unless a permit be granted by the Board of Health.

Section III. Parties will be licensed by the Board of Health to collect swill and refuse matter from houses in Hyde Park twice a week or oftener, and all housekeepers and others are directed to deliver the same to those duly authorized to make such collections.

Regulation 4. *Diseased Meat and Provisions.* Section I. No person shall bring into the town, keep or offer for sale any diseased, putrid, stale or unwholesome meat, vegetables or provisions.

Regulation 5. *Swine.* Section I. No person will be permitted to keep any swine within the limits of the town of Hyde Park, without a written permit from the Board of Health.

Regulation 6. *Contagious Diseases.* Section I. Any person sick with the small pox or other contagious disease, together with all persons in attendance upon them, and the premises where such sick person is, will be subject to the control of the Board, and no person shall enter or leave a house wherein a person is or has been sick with the disease, or in any way come in contact with the inmates of such house except by permission of the Board.

Section II. Whenever the Board of Health shall ascertain that any person is sick with small pox, scarlet fever, diphtheria, or any other disease dangerous to the public health, the Board shall at their discretion have full control of said person or premises, and shall, if they deem proper, order the premises vacated.

Section III. All persons are warned not to approach a house or the surrounding premises whereupon is displayed a disease flag by day or a red light at night.

Section IV. The bodies of all persons dying of small pox, scarlet fever, typhus fever or diphtheria, must be immediately disinfected and placed in a tight coffin, which shall not be reopened, and the bed, bed clothing, and other clothing used by any such person, and by those in attendance on him, and all the furnishings of the sick room, thoroughly disinfected before being taken from said room. In the above case no public funeral will be allowed without permission from the Board of Health.

Section V. The owner or person having charge of any vehicle, public or private, used at a funeral in the foregoing cases, to carry the deceased, or any of the family or attendants of the deceased, shall forthwith report the fact to the Board of Health, and shall thoroughly disinfect such vehicle before the same is again used, and take such precaution as the Board of Health shall direct.

Section VI. Any person in the town of Hyde Park who knows or suspects any domestic animal has contagious disease (such as glanders in horses or cholera in swine), must immediately report the same to the Board of Health. The penalty for neglect to do so is fine or imprisonment. The above is in accordance with the provisions of Chapter 252 of the Acts of 1887.

Regulation 7. Section I. All complaints in relation to nuisances and sources of filth injurious to the public health and safety, must be made in writing to the Board of Health, with a description of said nuisance and of the premises on which it exist's, with the owner's name, if known to the complainant. Such complaints must bear the

signature of the complainant. Whenever such complaint shall be made as aforesaid, the Board of Health shall proceed to examine the premises complained of, and will take measures to abate the nuisance if such is found to exist.

Regulation 8. Section I. No person, firm or corporation not now engaged in or working at the business of plumbing shall hereafter engage in or work at said business in the town of Hyde Park, either as a master or employing plumber or as a journeyman plumber, unless such person, firm or corporation first receives a license therefor, in accordance with the provisions of Chapter 477 of the Acts of the year 1893 of the Commonwealth of Massachusetts and Acts amendatory thereof, or supplementary thereto.

Section II. Any person desiring to engage in or work at the business of plumbing, either as a master or employing plumber, or as a journeyman plumber, shall apply to the Board of Health and shall at such time and place as may be designated by the board of examiners appointed by the Board of Health, as provided for in said Acts, to whom such application shall be referred, be examined as to his qualifications for such business. In the case of a firm or corporation the examination and licensing of any one member of the firm, or the manager of the corporation, shall satisfy the requirements of this regulation.

Section III. The board of examiners shall examine said applicants as to their practical knowledge of plumbing, house drainage and plumbing ventilation, and if satisfied of the competency of the applicant, shall so certify to the Board of Health.

Said board will thereupon issue a license to such applicant authorizing him to engage in or work at the business of plumbing. The fee for a license for a master or employing plumber shall be two dollars; for a journeyman plumber it shall be fifty cents. Said licenses shall be issued annually, expiring on the thirty-first day of May next ensuing, and shall be conditional on skillful work, and a strict observance of the rules governing plumbing.

Section IV. No person shall carry on the business of plumbing unless he shall have first registered his name and place of business in the office of the Board of Health; and notice of any change in the place of business of a registered plumber shall be immediately given to said Board.

Section V. No person shall proceed to construct, add to, or alter any portion of the drainage system (except to repair leaks) of any

building in the town of Hyde Park, until plans showing in detail the whole drainage system shall have been filed at the office of the Board of Health, upon blanks in such form as the Board may determine; no person shall commence work on such drainage system until the plans are accepted by the inspector of plumbing and a permit of approval granted. Plans and specifications shall be approved or rejected within five days of the time of filing.

Rules and regulations for material, construction, etc., may be found in town by-laws.

Fully believing that a large proportion of contagious diseases originate from unsanitary conditions, we trust that we shall have the aid of all citizens and property owners in carrying out the above regulations, which are based on statute laws, and the sanitary rules of our large towns.

For burial permits apply to F. C. Graham, 10 Harvard avenue.

Bills unpaid,		432 00

After the earnest effort which has been put forth for the last three years to keep this Board out of debt, we are sorry to have to come before you with bills unpaid. We have paid only what was necessary to carry on the work as it should be. Extra expenses are liable to come any year, and it is impossible to tell just what would be needed to do the year's work. The five hundred dollars that were taken from us this year were needed to put us on a sure footing.

Respectfully submitted,

A. D. HOLMES,
W. S. EVERETT,
E. C. FARWELL,
Board of Health.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

Early in the year petitions were sent in by the "Thought Club" and the "Current Events Club" urging the necessity of a new building for the Library. The Board have given these petitions their careful attention, but unforseen difficulties have thus far prevented any decided progress toward the much desired result.

During the summer vacation the Trustees were surprised by receiving the resignation of Mrs. H. A. B. Thompson, who had so long and so faithfully served as librarian. Their appreciation of her services was fittingly expressed by resolutions published in the local papers at the time. During her long service, extending over a period of about twenty years, she had seen the Library, whose interests she had so much at heart, nearly treble its number of volumes and greatly increase its circulation. She was a wide reader, of excellent taste and judgment, and was hence able to render valuable assistance to the trustees in the selection of books, and to the patrons of the Library who consulted her good counsel as to their choice of reading.

Miss Elizabeth Ainsworth, a graduate of Mount Holyoke, who had been for some years engaged in teaching, was selected as her successor. She has devoted herself to her work with untiring industry, zeal and energy, and is unsparing in her efforts to make her administration successful.

A card index has been completed containing the titles of all the books added since the last catalogue, and bulletins giving the shelf numbers of recent additions have been published and can be had on application at the Library.

In a short time there will be issued a list of books to aid young people in their selection of such reading as may prove both interesting and instructive.

There have been added during the year 480 volumes by purchase and ninety-two by gift as follows:

United States Government	52 volumes
Commonwealth of Massachusetts	18 volumes
Charles P. Price	6 volumes
Robert C. Winthrop, Jr.	7 volumes
G. Sanford	7 volumes
Mrs. D. G. Thompson	1 volume
Fall River Public Library	1 volume

The Trustees have also received from Mr. Henry S. Smith a valuable collection of minerals which have been properly labelled and placed in the Reading Room.

For the Trustees,

HENRY B. MINER,

Chairman.

REPORT OF THE BOARD OF ENGINEERS.

HYDE PARK, Jauuary 31, 1897.

TO THE HONORABLE BOARD OF SELECTMEN:

Gentlemen—We herewith present our report of the Fire Department for the year ending January 31, 1897.

During the year we have responded to forty-one (41) alarms. Out of these there have been thirty (30) bell alarms and eleven (11) still alarms,—nineteen more than last year.

The actual hours of labor at fires during the year was fifty-three.

The total damage by fires was $29,136.00; insurance on property damaged, $57,900.00.

There has been added to the Department 200 feet of 3-4 inch hose, at a cost of $70.00. There has also been added 1500 feet of 2 1-2 inch cotton hose, at a cost of $895.00.

We have purchased a pair of horses for the Chemical and appointed one extra permanent man, at a salary of $50 per month, as driver of the Chemical and assistant at the engine house, it being necessary to have one man at the house at all times.

This change is considered a great improvement in getting the apparatus to a fire, as it can be put in motion in 25 seconds. When answering a call from box 34 we had the Chemical on Water Street before the alarm was through striking; or in other words we made the run in 2 1-2 minutes. In answering a call from box 16 (Cotton Mill), the Chemical made a run and passed Robinson's machine shop before the alarm was through striking.

We have in the Department

1 two-horse hose reel.
1 two-horse hose wagon.
1 one-horse hose wagon.
1 two-horse chemical engine.
1 two-horse steam fire engine.
1 two-horse hook and ladder truck, and about 7000 feet of hose.

Although we have answered 19 more alarms this year than we did last, and have spent considerable in making over the engine house to accommodate the horses, and added considerable property to the Department, we have not exceeded our appropriation.

The permanent force of the Department consists of a superintendent of fire alarm (who also has charge of the engine house), and one driver for the Chemical. The fire alarm is in good order. The whistle on the old electric light station will have to be moved to the new electric light station, which will give us more efficient service.

During the year our town has been visited by some fires which might have proved serious but for the efficient work of the Department.

REPORT OF THE OVERSEERS OF THE POOR.

In accordance with the requirements of the By-Laws of the town, the Overseers of the Poor present the following report for the year ending Jan. 31, 1897.

The old-time declaration relative to the poor being always with us, is as applicable at the present time as it has been in the past. The marked increase in the expense of this department is due to the additional number of insane paupers. As time goes on, the increase in the number of those who must be fully supported will become still more apparent, and the consequent increase in expense will be in keeping with the growth of the town. That we have been fortunate in the past, is a fact generally admitted by all familiar with the laws relating to pauper settlement. The tramp nuisance has been abated somewhat during the fall months, as the travellers who were wont to apply for lodgings have been required to give an hour's labor in the morning in return for favors received.

Number of persons aided,	3120
" " fully supported,	19
" " partially "	79
" tramps lodged,	3022

GEORGE SANFORD, *Collector of Taxes.*

AUDITORS' REPORT.

In compliance with the by-laws of the town the undersigned have examined the accounts of the Selectmen. School Committee, Collector of Taxes, Town Treasurer, Trustees of the Public Library, Overseers of the Poor, Cemetery Commissioners, Sewer Commissioners, and Board of Health, and hereby certify that the same are correct, and all payments accompanied by proper vouchers.

WALLACE D. LOVELL,
ASA J. ADAMS,
GEORGE E. DOTY,
Auditors.

BY-LAWS.

NOTIFICATION OF TOWN MEETING.

Every town meeting shall be notified by posting copies of the warrant calling the same, in ten public places in the town, seven days, at least, before the day appointed for said meeting.

ANNUAL TOWN MEETINGS.

The annual town meeting for the election of town officers shall be held on the first Monday of March of each year. The meeting shall be opened at seven o'clock A. M., and the polls shall be kept open until sunset.

A town meeting shall also be held annually between the first Monday of March and the first Monday of April, for appropriating such sums of money as may be necessary for town purposes, and for transacting such other business as may legally be brought before said meeting.

RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

1.—All questions submitted for the consideration of the town, involving the expenditure of money, shall be in writing, when so required by any legal voter.

2.—No vote fixing the period for closing a ballot shall be reconsidered after such ballot shall have commenced; but it may be in order to extend the period without such reconsideration.

3.—When a question is under debate motions shall be received to adjourn, to lay on the table, the previous question, to postpone to a certain time, to postpone indefinitely, to commit, or to amend; which several motions shall have precedence in the order in which they are herein arranged.

4.—The powers and duties of the presiding officer, not especially provided for by law, or by the foregoing rules, shall be determined by the rules of practice contained in "Cushing's Manual," so far as they are adapted to the condition and powers of the town.

5.—No vote shall be reconsidered except upon a motion made within one hour after such vote has passed, unless such reconsideration is ordered by a vote of two-thirds of the voters present and voting

FINANCIAL YEAR.

The financial year of the town shall begin with the first day of February in each year, and end on the thirty-first day of the following January.

The selectmen, overseers of the poor, board of health, surveyors of highways, and school committee shall post in some conspicuous place at their official rooms, a notice of the times of their respective meetings.

COLLECTION OF TAXES.

1. —The assessment of taxes shall be completed, and a list of the same delivered to the collector, on or before the first day of August of each year.

2.—All taxes which may be assessed, if paid on or before the first day of October next after the assessment, shall be entitled to such discount as the town shall vote at its annual meeting. All taxes shall be due and payable on or before the first day of November next following the assessment of said taxes.

3.—On the first secular day of each month, the collector shall pay over to the town treasurer all the taxes collected by him, and he shall, on or before the first day of February in each year, make up his account and render the same to the auditors.

DUTIES OF THE AUDITORS.

1.—The auditors shall examine the accounts of the selectmen, school committee, treasurer, collector, trustees of the public library, and all other officers or committees entrusted with the expenditure of money, quarterly, and shall certify as to the correctness of the same in the printed annual report.

2.—Before certifying to the accounts of the treasurer, they shall examine his cash-book, wherein shall be entered his receipts and payments, as they occur from day to day, shall see that he has paid out no moneys except on proper vouchers, carefully examine all payments for interest, and see that the funds on hand are intact.

3.—Before certifying to the collector's accounts, they shall examine his cash-book, showing the amounts collected from day to day, and showing when the same were paid over to the treasurer; shall see that he has collected interest on all taxes overdue, and shall see a complete list of abatements, and also a list of unpaid taxes.

4.—They shall see that the accounts of the trustees of the public library are kept in a correct manner, and that all payments are accompanied with proper vouchers.

COASTING.

Coasting on any of the public streets of the town is prohibited, except upon such streets as the selectmen may designate each year by public notice.

HIGHWAY AND POLICE REGULATIONS.

1.—No building shall be removed over a public street without the written permission of the selectmen.

2.—The owner of such building, or the person or persons removing the same, shall give a bond in such penal sum, and with such sureties as the selectmen shall determine, with condition to reimburse the town for all sums of money which it may be liable or compelled to pay in consequence of such use of the highways.

3.—No person except the selectmen or the surveyors of highways, in the lawful performance of their duties, or those acting under their orders, shall break or dig up the ground in any street or public way in the town, without first obtaining a written permit from the selectmen; and all persons acting under such permit shall put up and maintain a suitable railing or fence around the part of the street so broken up, so long as the same shall remain unsafe or inconvenient for travellers, and he or they shall keep one or more lighted lanterns fixed to such railing or fence, or in some other way exposed every night from twilight in the evening through the whole night, so long as such street or way shall be or remain unsafe or inconvenient for travellers.

4.—No person shall ride or drive a horse in any street in the town at a rate faster than eight miles an hour.

5.—No person shall, without the written consent of the selectmen, play at any game in which a ball of any kind is used, or fly a kite, or throw or shoot stones, arrows, balls, snow balls, or other missiles, or discharge any gun, cannon, or firearm, or make any bonfire or other fires in any street or way where the public have a right to pass.

6.—No person shall propel, drive, wheel or draw any bicycle, tricycle, cart or vehicle of any kind whatsoever except a child's carriage drawn by hand, nor use roller skates upon or over any sidewalk in this town, nor permit nor suffer any horse, cattle, swine or sheep, belonging to him or under his care or keeping, to go upon or over the same, nor suffer any horse to remain hitched across, or upon, or otherwise obstruct or injure, any such sidewalk.

7.—No person shall hitch or fasten any horse to any ornamental tree standing or growing on or near any sidewalk, or to the boxing or guard about said tree, without the consent of the owner thereof.

8.—No person shall without a written license from the selectmen place or cause to be placed, or suffer to remain within the limits of a street or upon any sidewalk, so as in any manner to obstruct the travel thereon, any vehicle, wood, coal, manure, dirt, gravel, stones, building material, barrels, boxes, merchandise, or any rubbish or obstruction whatever.

9.—No person shall carry in a public street, house-offal, either animal or vegetable, or grease, or bones or the contents of cesspools or vaults, unless he has been expressly licensed therefor by the Board of Health, upon such terms and conditions as said board may deem that the health and interests of the town require.

10.—Loud crying of wares or merchandise, or hallooing, hooting or making loud and unseemly noises on the public streets or squares of the town, to the annoyance of the citizens, is prohibited.

11.—No person shall behave in a rude, indecent or disorderly manner, or use profane, indecent, or insulting language, in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, or be or remain upon any sidewalk, street, or crossing, or about doorways or places of business, to the annoyance or disturbance of any person.

12.—Three or more persons shall not continue to stand or remain in a group or near to each other, on any sidewalk or street or crossing, or in any public place, in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on.

13.—No person shall be or remain in any doorway, or upon any stairs, doorstep, portico or other projection from any house or building, or upon any wall or fence on or near any street or public place, after having been requested by the owner or any occupant of the premises or by any constable or police officer to remove therefrom.

14.—No person shall make any indecent figures, or write, print, paint, or cut any obscene word or words upon, or deface, break or injure in any manner, any fence, post, sign, street lantern, building or structure; or commit a nuisance upon any sidewalk or other place resorted to by the public, or against any tree, building or structure adjoining a sidewalk.

15.—No person shall extinguish any street light, or extinguish or remove any light placed to denote an obstruction or a defect in any street or way, without proper authority.

16.—No person shall swim or bathe in any of the waters within the limits of this town, so as to be exposed in a nude state, to the view of any person passing or being upon any railroad or street or in any dwelling-house in this town.

17 —No person shall intermeddle with any hydrant, gate, gate-box or water pipe placed or located within the limits of any public way in this town, without permission from the Selectmen or the Hyde Park Water Company.

PASTURAGE OF CATTLE OR OTHER ANIMALS ON STREETS OR WAYS.

No person shall pasture any cattle, goat or other animal upon any street or public way in said town, either with or without a keeper, except within the limits of such way adjoining his own premises, and field drivers are instructed to enforce this by-law.

LIST OF TAX-PAYERS.

The names of all persons paying a tax on real or personal property shall be published annually in the town reports, together with the amount of tax assessed upon each, and whether the same is paid or unpaid.

DUTIES OF TOWN CLERK.

The Town Clerk shall keep a file of all town reports, reports of all committees chosen by the town, and all original documents relating to the affairs of the town which may come into his possession; he shall, as soon as practicable after any election has been held by the town, in addition to the notices he is now directed to give to officers who are required to take an oath of office, also issue a written or printed notice to all persons who have been elected to any other office, or chosen to serve on any other committee, stating the office to which such person has been elected, or the duties which such committee was chosen to perform.

CONTRACTS MADE IN BEHALF OF THE TOWN.

Every contract exceeding one thousand dollars shall be accompanied by a suitable bond for the performance of the same, or by the deposit of money or security to the amount of such bond.

ACTIONS AT LAW.

The Selectmen shall have full authority, as agents of the town, to employ counsel to institute and prosecute suits in the name of the town, and appear for and defend suits brought against it, unless otherwise specially ordered by a vote of the town.

CONVEYANCING.

Whenever it shall be necessary to execute any deed conveying land, or any other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority of them, in behalf of the town, unless the town shall otherwise vote in any special case.

BY-LAWS IN RELATION TO THE PREVENTION OF FIRES.

1.—It shall be the duty of every person who shall commence the erection of any building within the town of Hyde Park to notify the Board of Engineers thereof before he shall commence building the chimneys therein.

2.—All chimneys in wooden buildings shall be built of brick, stone, or other fire-proof non-conducting material. All brick flues shall be smoothly plastered *inside* with mortar from top to bottom or lined with earthen pipe, and shall be plastered *outside below the roofing*.

3.—In no case shall chimneys rest upon any flooring without a footing of masonry or iron supported by iron beams, having a secure bearing of masonry or iron at either end.

4.—All flues shall be topped out at least four feet above the roof of the building to which they belong. The brick topping out of chimneys shall not have more than two inches projection unless covered by a cap of metal or stone properly secured.

5.—Hearths of fireplaces or grates shall be laid upon brick or other trimmer arches, or upon bars of iron supporting a bed of brick-work.

6.—No wood-work of any kind shall be placed at a less distance than one inch from the outside brick-work of any flue. In no case shall a nail be driven into the masonry of any flue.

7.—No wood-work shall be placed at a less distance than one inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes shall be cased with metal, leaving a free circulation of air all around the same.

8.—No smoke pipe in any such wooden or frame building shall hereafter enter any flue unless the said pipe shall be at least twelve inches from either the floors or ceiling; and in all cases where smoke pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by either a

double collar of metal, with at least four inches of air space and holes for ventilation or by a soap-stone ring, not less than three inches in thickness and extending through the partition.

9.—The Board of Engineers shall examine into all shops and other places where shavings or other combustible material may be deposited or collected, and at all times be vigilant in the removal of the same, whenever, in the opinion of a majority of them, the same may be dangerous to the security of the town from fires; and direct the owner, tenant, or occupant of said shops, or other places, to remove the same; and in case such owner, tenant or occupant, refuses or neglects so to do, shall cause the same to be removed at the expense of such owner, tenant or occupant.

10.—It shall also be the duty of said engineers to take cognizance of all buildings in the town in which any steam engine shall be used, and of all buildings in town in process of erection or alteration, and to make a record of such buildings as in their judgment may from any cause be dangerous, and report the same to the selectmen forthwith. And whenever in the opinion of the majority of the Board of Engineers, any chimney, hearth, oven, stove, stovepipe, fire frame or other fixtures, or any camphene or other explosive or inflammable fluid or material, or whatever else may give just cause for alarm, should be altered, repaired or removed, they, the said engineers, shall forthwith notify and direct the owner, tenant, or occupant of the premises upon which the same are situated, to alter, repair or remove the same, as the said engineers shall direct. And in case such tenant, owner or occupant shall refuse or neglect so to do, the said engineers shall cause the same to be removed, altered or repaired at the expense of such owner, tenant or occupant. And any person who shall obstruct the engineers, or any of them, in carrying out the provisions of this section, shall be liable to the penalty hereinafter stated.

11.—The removal, extension or essential alteration of any building; also the rebuilding or repairing of any building which has been partially destroyed by fire, shall be subject to the same restrictions as are imposed by the foregoing By-laws on the erection of buildings.

PUBLICATION OF BY-LAWS.

The Selectmen shall publish these By-laws annually in connection with the town report.

PENALTIES UNDER THE BY-LAWS.

Every violation of any of the foregoing By-laws shall be punished by a fine of not less than one dollar nor more than twenty dollars, to be recovered by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

PROSECUTION UNDER THE BY-LAWS.

Any citizen may, and the selectmen, constables, and police officers shall, prosecute every violation of the foregoing By-laws, by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

LIMITATION OF ACTIONS.

No person shall be prosecuted or tried for any breach of the provisions of any By-laws of this town, unless the complaint for the same shall be instituted and commenced within six months from the time of committing such breach.

All By-laws or parts of By-laws of this town heretofore existing are hereby repealed, and these By-laws of the town of Hyde Park shall go into effect from and after their adoption by the town and their approval by the Superior Court or any Justice thereof.

Commonwealth of Massachusetts. *Norfolk, SS.*

HYDE PARK, November 17, 1886.

At a meeting of the legal voters of said town of Hyde Park, held in Everett Hall, on Wednesday, the seventeenth day of November, in the year of our Lord eighteen hundred and eighty-six, the foregoing By-laws were adopted by said town.

Attest:

HENRY B. TERRY, *Town Clerk.*

Commonwealth of Massachusetts. *Norfolk, SS.*

SUPERIOR COURT, December Sitting, 1886, to wit: January 26, 1887.

The foregoing By-laws are hereby approved.

By the Court.

ERASTUS WORTHINGTON, *Clerk.*

True copies Attest:

ERASTUS WORTHINGTON, *Clerk*

TRUANTS.

The following by-laws relating to TRUANTS were adopted by this town December 10, 1895, and approved by the Superior Court for our County of Norfolk, January 7, 1896, namely:

1.—All children convicted of habitual truancy hereunder, and children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, may be committed to the Lawrence Industrial School, at Lawrence, Mass., or to any place provided by this town within its limits, for confinement, instruction and discipline.

2.—Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws, and of the law relating to compulsory education, and to do all the acts required of them by the Commonwealth.

3.—It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may, at his discretion, forbear to prosecute so long as such pledges are faithfully kept.

4.—It shall be the duty of the School Committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

5.—It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the School Committee, who shall publish the same with their own report.

6.—Nothing in these by-laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

Attest:

HENRY B. TERRY, Town Clerk.

BY-LAWS.

Prescribing Rules and Regulations for the materials, construction, alteration, and inspection of all pipes, tanks, faucets, valves and other fixtures, by and through which waste water or sewage is used or carried, in any building within the limits of the town of Hyde Park, Massachusetts, prepared in accordance with the provisions of Chapter 477 of the Acts of the year 1893, and Chapter 455 of the Acts of the year 1894, of the Commonwealth of Massachusetts.

Section 1. The plumbing of every building shall be separately and independently connected with a proper cesspool.

Section 2. Pipes and other fixtures shall not be covered or concealed from view until approved by the inspector of plumbing appointed by the Board of Health, who shall examine same within two working days after notice that they are ready for inspection.

Section 3. Plumbing work shall not be used unless the same has first been tested in the presence of the inspector with the water test, or if that is not practical, with the peppermint or other reliable test, and approved by him in writing. All soil and drain pipes must be in position before the test is made, otherwise the work will not be approved. The practicability of any test will in all cases be decided by the inspector.

Section 4. Drain and connecting ventilating pipes shall be of sufficient size and made of cast iron within the building, and for a distance of at least ten feet outside, except that lead pipes may be used for short connections exposed to view. Such pipes shall be of uniform thickness throughout, and shall have an average weight not less than below specified, viz. :—

2-inch pipe	5 1-2 lb. per ft.
3-inch pipe	9 1-2 lb. per ft.
4 inch pipe	13 lb. per ft.
5-inch pipe	17 lb. per ft.
6-inch pipe	20 lb. per ft.

Drain pipes shall be properly secured by iron to the walls, laid in trenches to uniform grade, or suspended to floor timbers by strong iron hangers. Every drain pipe shall be supplied with a suitable trap, with brass cleanout screw and connected with Y branch, also provided with brass cleanout between all fixtures, connections, etc., and cesspool or vaults, and inside as near to cellar wall as practica-

ble where it leaves the building, and shall have a proper fall. Changes in direction shall be made with curved pipes, and all connections with horizontal or vertical pipes shall be made with Y branches. All drain pipes shall be exposed to sight where practicable within the building, and shall not be exposed to pressure where they pass through walls, and in no case to be carried in plastered partitions unless provided with removable covers on wall. Every part of every drain pipe below a cellar floor shall be laid in a brick trench with a concrete base and shall be accessible through sufficiently unattached covers.

Section 5. Whenever rain-water conductors are connected with any pipe of the drainage system of the house, that portion within the house or underground shall be of cast iron pipe with lead joints, and in all cases provided with an extra deep trap where it enters house drain. No rain water conductor shall be used as a soil pipe.

Section 6. Iron pipes used in plumbing shall, before being put in place, be first tested by the water or kerosene test, and then coated inside and outside with coal tar pitch applied hot, or with paint or with some equivalent substance. Joints shall be run full with molten lead, and thoroughly calked and made tight. Connections of lead pipes with iron pipes shall be made with brass ferrules properly soldered and calked to the iron. Every joint in earthen pipe shall be made in hydraulic cement, care being taken that the inside and outside of the joints and of the pipe is properly cleaned out before connection is made with the house. Every joint in lead pipe shall be made of solder, and wiped joints are to be used where practicable. No paint or putty is to be used on joints until they have been tested.

Section 7. The waste pipe of each and every sink, basin, bathtub, water closet, slop hopper and of each set of trays or other fixtures shall be furnished with a separate trap, except that one five-inch trap may be used for a bathtub and a bowl, or for a sink and set of wash trays, provided the length of waste pipe from the fixtures does not exceed three feet. Traps will be placed as close to the fixtures as practicable, and shall be protected from siphonage or air pressure by special cast iron air pipes of a size not less than the waste pipes they serve, placed outside or below the trap as near the crown of the trap as practicable. No trap vents shall be connected with earthen ware. Lead air pipes may be used where they are exposed to view. All round traps must have cleanout screws below the water line.

Air pipes for water closet traps shall be of two-inch bore if thirty feet or less in length, and of three-inch bore if more than thirty feet in length. Air pipes shall be run as direct as practicable. Two or

more air pipes may be connected together or with a drain pipe, but in every case of connection with a drain pipe, such connection shall be above the upper fixture of the building.

SECTION 8 Drip or overflow pipes from safes under water closets and other fixtures or from tanks or cisterns, shall be run to some place in open sight and in no case shall any such pipe be connected directly with a drain pipe.

No waste pipe from a refrigerator or other receptacle in which provisions are stored shall be connected with a drain pipe or other waste pipe.

SECTION 9. Every water closet, or line of water closets, on the same floor, shall be supplied with water from a tank or cistern, and shall have a flushing pipe of not less than one inch in diameter; but this requirement shall not apply to water closets substituted for vaults where the same are located outside of the building proper, and such water closets may be arranged so as to receive their supply directly from the main with proper fixtures approved by the inspector, the water company and the Board of Health. No fixture, as a slop hopper, etc., shall be set up unless it is provided with proper means for flushing.

SECTION 10. No steam exhaust shall be connected with any soil or waste pipe.

SECTION 11. Water pipes from traps shall equal or exceed in area of cross section the sum of areas of pipe entering sewer from fixtures, as inspector shall direct.

The foregoing by-laws relating to plumbing were adopted by the town, Nov. 28, 1894, and were approved by the Superior Court for the County of Norfolk, Jan. 22, 1895.

Attest: HENRY B. TERBY, Town Clerk.

The following By-Law was adopted by this town, Sept. 30, 1896, and was approved by the Superior Court for our County of Norfolk, Oct. 30, 1896, viz.:

"No person shall put or place, or cause to be put or placed, in or upon any street, lane, alley or other public place in this town, any ashes, glass, crockery, scrap iron, nails, tacks or any other articles which would be liable to injure the feet of horses or injure or damage the wheels or tires of bicycles or of any other vehicles which have wheels with rubber or pneumatic tires."

Attest: HENRY B. TERRY, Town Clerk.

FIRST ANNUAL REPORT

OF THE

BOARD OF SEWER COMMISSIONERS

OF THE

TOWN OF HYDE PARK,

FOR THE

Year Ending January 31, 1897.

HYDE PARK:
NORFOLK COUNTY GAZETTE PRESS,
1897.

ORGANIZATION.

FERDINAND A. WYMAN, Chairman.

DAVID PERKINS. HENRY B. CARRINGTON.

RICHARD M. JOHNSON, Clerk.

PERCY M. BLAKE, Engineer.

SEWER COMMISSIONERS' REPORT.

To the Citizens of Hyde Park :

The men elected at the town meeting held on the 6th day of May, 1896, as members of the Board of Sewer Commissioners of the Town of Hyde Park, met on the 9th day of May, 1896, and organized by electing Mr. Ferdinand A. Wyman chairman, and appointing Mr. Richard M. Johnson clerk.

On the 18th day of May Mr. Percy M. Blake was appointed engineer of the Board. On the 22d day of July proposals for sewer pipe were received from five (5) parties in answer to advertisements, and on the 5th day of August a contract was executed with Mr. David W. Lewis for twelve (12) miles of pipe and fittings.

On the 1st day of June, 1896, the first test boring was made. On the 4th day of September, 1896, the Board advertised for bids for the construction of four (4) sections.

Section No. 1 embraces the following streets :

Fairmount ave. from Metropolitan Sewer to Everett sq.
West River st. from Everett sq. to Harvard ave.
*Nott st.
Central ave. from Everett sq. to Webster st.
*Winthrop st. from Central ave. to summit west.

*Everett st. from Central ave. to summit west.
Harvard ave. from West River st. to Clay st.
*Winthrop st. from Harvard ave. to summit east.
*Everett st. from Harvard ave. to summit east.
Maple st. from West River st. to summit east.
Oak st. from Maple st. to summit.
*Walnut st. from Fairmount ave. to Maple st.
Maple st. from Walnut st. to summit.
Oak st. from Maple st. to summit.

Section No. 2 embraces the following streets:

Hyde Park ave. from Metropolitan Sewer at Factory st. to summit near Harvard ave.
Green st. from Hyde Park ave. to R.R. station.
Pine st. from Hyde Park ave. to Maple st.
Maple st. from Pine st. to summits each way.
*Oak st. from Hyde Park ave. to Maple st.
West River st. from Harvard ave. to R.R. bridge.
*Winthrop st. from Hyde Park ave. to Harvard ave.
*Everett st. from Hyde Park ave. to Harvard ave.
*Clay st. from Hyde Park ave. to Harvard ave.
*Webster st. from Hyde Park ave. to summit.
*Harvard ave. from Webster st. to summit south.

Section No. 3 embraces the following streets:

Arlington st. from Metropolitan Sewer to summit between Elm st. and Central ave.
*Metropolitan ave. from Arlington st. to summit north of East River st.
*Riverside sq. from Arlington st. to angle.
Elm st. from Arlington st. to West st.
Pierce st. from Arlington st. to Fairmount ave.
Walter st. from Pierce st. to East River st.

West st. from Pierce st. to Hilton st.
Davison st. from Arlington st. to Fairmount ave.
*Grove st. from Davison st. to East River st.
East River st. from Lexington ave. to Fairmount ave.
*Lexington ave. from East River st. to summit north.
Lincoln st. from East River st. to summit west of Central ave.
Webster st. from East River st. to summit west of Central ave.
*Winthrop st. from East River st. to Central ave.
Central ave. from summit north of West st. to Webster st.
Dell ave. from Central ave. to summit west.
Hilton st. from West st. to Arlington st.

SECTION NO. 4 EMBRACES THE FOLLOWING STREETS:

Fairmount ave. from Neponset River to summit east of Summit st.
Beacon st. from Fairmount ave. to summit north of Metropolitan ave.
Warren ave. from intercepting sewer to summit east of Summit st.
Franklin terrace from Warren ave. northerly.
Albion st. from Beacon st. to Highland ave.
Milton ave. from intercepting sewer to summit east of Summit st.
Pleasant st. from Milton ave. to Metropolitan ave.
*Vose ave. from Erie st. to Beacon st.
*Metropolitan ave. from Erie st. to summit east of Highland st.
*New Bedford st. from Beacon st. to summit east.
Highland st. from Williams ave. to summit north of Milton sq. both sides.

Pond st. from Highland st. to Williams ave.
Mt. Pleasant st. from Pond st. to Summit st.
Prospect st. from Williams ave. to Milton ave.
Summit st. from Dana ave. to Milton ave. northerly.
*Norway Park from Warren ave. to Summit st.
Water st. from Dana ave. to Fairmount ave.
Williams ave. from Water st. to Prospect st. easterly.
Neponset ave. from Water st. to summit east of Summit st.
Dana ave. from Water st. to summit east of Summit st.
Loring st. from Garfield st. to Williams ave.
*Erie st. from Milton ave. to Metropolitan ave.

Bids were received and opened on the 16th day of September, 1896, from fourteen (14) different bidders, who made forty-three (43) proposals for work on the streets selected by the Board in these sections. Streets not selected are marked above with an asterisk.

The highest bid for Section No. 1 was	$14,737 20
The lowest bid for Section No. 1 was	6,565 89
The highest bid for Section No. 2 was	11,180 60
The lowest bid for Section No. 2 was	5,511 15
The highest bid for Section No. 3 was	36,420 50
The lowest bid for Section No. 3 was	17,820 60
The highest bid for Section No. 4 was	58,561 60
The lowest bid for Section No. 4 was	29,218 31

On the 24th day of September, 1896, contracts were entered into with Mr. John H. McKnight for Sections numbered one (1) and three (3) for the sum of $25,012.58, and with T. H. Bryne & Co. for Sections numbered two (2) and four (4) for $34,910.25.

On the 30th day of September, 1896, ground was broken by contractors John H. McKnight and T. H. Bryne & Co.

CONSTRUCTION.

We have constructed sewers in the following streets :

STREET.	LENGTH.	SIZE OF SEWER PIPE IN INCHES
Fairmount ave.	953 ft.	15
Central ave.	759 ft.	8
Harvard ave.	618 ft.	8
West River st.	230 ft.	12
Maple st.	299.65 ft.	8
Maple st.	562 ft.	8, 6
Oak st.	125 ft.	8
Oak st.	269 ft.	8
Hyde Park ave.	2,051 ft.	15, 12, 10
Pine st.	606 ft.	8, 6
Maple st.	445 ft.	8
Maple st.	245 ft.	8
West River st.	511 ft.	10
Green st.	368 ft.	10
Fairmount ave.	210 ft.	12
Beacon st.	1,525 ft.	12, 10
Warren ave.	689 ft.	8
Albion st.	341 ft.	8
Pierce st.	550 ft.	15
Arlington st.	580 ft.	10
East River st.	340 ft.	10

The Act of the Legislature under which we are working says—

"The town of Hyde Park shall by vote determine what proportion of the cost of said system or systems of sewerage and sewage disposal said town shall pay, provided that it shall not pay less than one third nor more than one half of the whole cost. The remaining cost of said systems shall be borne by the owners of estates situated within the territory embraced by it and benefited thereby, but no estate shall be deemed to be benefited unless or until a sewer is constructed into which it can be drained."

We would suggest that this be acted upon at the next town meeting.

We have drawn upon the Town Treasurer for $32,727.18 as per vouchers on file in our office.

FERDINAND A. WYMAN,
DAVID PERKINS,
HENRY B. CARRINGTON.

February 1, 1897.

TWENTY-NINTH ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF HYDE PARK,

FOR

THE SCHOOL YEAR

ENDING JANUARY 31, 1897.

HEMENWAY SCHOOL.

ANDREW WASHBURN.

REPORT OF THE SCHOOL COMMITTEE.

To the Citizens of Hyde Park:

One of the wisest requirements incident to our form of town government is the submitting to the people each year, for their consideration, an account of the stewardship of its various departments; and none so important as that which has the conduct of its educational interests. There is no factor in the great problems of life and civilization but whose corner-stone is education. It is the bulwark of our state and national existence.

FINANCES.

Hyde Park has never, to our knowledge, been other than liberal in her appropriations for the maintenance of her schools. While the amount asked for has crept up more and more each year, it has met with no hostile criticism; and when, at the last town meeting, your committee felt that it was necessary to have some $45,000, or more than one-third of your entire appropriation for all purposes, for the ensuing year, you voted it without a murmur of dissent. Has it been honestly and judiciously expended is a question that is the right of every tax-payer of Hyde Park to demand. We believe it has been so expended, but do not believe that the children of this town have received an equivalent for such expenditure, and our reasons therefor we shall treat upon more in detail later in this report. It is but proper to state here that we were obliged to spend nearly twelve hundred dollars in completing the work of the committee who had charge of the construction of the Weld, Hemmenway and Hilton Street schoolhouses; and a further expense for flag-

staffs, as required by law, must be met the coming year. Of course, such expenditures should not be properly chargeable to the sum appropriated for the maintenance of our schools.

SCHOOL ACCOMMODATIONS.

For the first time in many years this report will contain no calls for immediate additional accommodations, but within a short time a new two-room building will be needed to take the place of the old Butler, to accommodate that section at the lower end of East River St. this side of the bridge and the fast growing Holmfield beyond, most of which is within our town limits and whose children must be cared for by us. We should estimate that $3,000 would be sufficient to construct a building suitable for the purpose. The Weld, Hemmenway and Hilton St. schoolhouses were transferred to the custody of this committee in season to open them for the spring term. That they were needed has been made apparent beyond a doubt. They are adjuncts to the Fairmount, Damon and Greenwood schools. One room, with two grades, was opened in the Weld, and there are now thirty-three pupils, fully enough for any teacher to do satisfactory and painstaking work. Two rooms at the Hilton St. school were opened and every desk occupied. While this committee takes pleasure in the two new buildings mentioned above, we sincerely regret that we cannot include the Hemmenway building. It is not satisfactory to this committee. It does not answer the purpose for which it was intended, and it is not what the people of that section asked for and had reason to expect. It is, however, on our hands and must, at least for the present, answer in a way, our needs.

CHANGE OF METHOD IN THE TEACHING OF READING.

After a year of rigid investigation this committee, late in

the spring, adopted the Pollard system. It is a radical departure from all other methods, and though we have used it less than a year in our two lowest grades, the results have been marvelous.

While under the old method the child possessed a vocabulary of three hundred words, with the Pollard, they readily comprehend seven hundred in the same time. Reading is the great essential in the early school life of the child, and he should be taught to read understandingly and with expression. How far this has been wanting by the old methods in vogue in our schools, is patent to every one who has ever visited them. We feel confident that in the matter of reading we have taken a step forward.

CHANGE IN OUR CORPS OF TEACHERS.

The changes the past year seem to have been more marked and extensive than for several years and our schools have suffered in consequence, more especially as some of our very best teachers, those who had been with us for long periods, have left us for various reasons. The majority of them, however, by the allurement of higher salaries in other towns and cities. The Greenwood school has been the most affected. Miss Minnie L. Butland left us in September and was succeeded by Miss Hattie L. Littlefield. Miss Elizabeth B. Freeman also resigned in September and was succeeded by Miss Mary L. Raeder, a recent graduate of our High school, and who had given evidence of her ability as a teacher. Miss Martha R. McLellan tendered her resignation in the early fall and was succeeded by Miss Lillian A. Richardson, another of our High school graduates and a very successful teacher. While all of these changes were voluntary on the part of those mentioned above, we regret to record that the Angel of Death entered the portals of the Greenwood school and took away one whose loss is sorely

felt. Miss Sarah E. Roome, a Hyde Park girl, had been with us many years, growing stronger and stronger each year in the work she loved so much and for which she had a peculiar aptitude. She had the confidence, love and respect of pupils, parents and teachers, and her death on that October morning came as a shock to her legion of friends. Miss Isabelle H. Murray, a successful teacher, was promoted to that grade and Miss Carrie E. Johnson succeeded to the vacancy created.

At the Grew school, Miss Emma George resigned and Miss Lucy Littlefield was secured. Later, Miss Margaret Hanlon, who has no superior in her chosen profession, abandoned the work to enter another field and Miss Maud Walker was placed in that grade. Miss Adah F. Whitney, another tried and successful teacher, left us in January and Miss Jennie G. Wardwell succeeded to the vacancy. At the Fairmount, Principal Cross, who has been with us twenty years and who needs no commendation at our hands, was granted a leave of absence on account of ill health, at the Thanksgiving recess, and Mr. H. W. French, a gentleman of excellent reputation, has been appointed acting principal. Miss Nettie Farnsworth and Miss Mattie P. Winchenbaugh, both Hyde Park girls and very successful teachers, resigned in September and December respectively, and were succeeded by Misses Coggeshall and Varney. At the opening of the new school baildings Misses Plummer and Tilden were transferred from the Greenwood to the Hilton Street school, Miss Dora F. Hastings from the Damon to the Hemmenway and Miss Nettie L. Ballou, a teacher of experience, was appointed to the Weld school. The force at the Damon remains the same as last year.

HIGH SCHOOL.

Mr. W. H. Angleton, a graduate of Dartmouth College in 1881, and with a record of fifteen years' successful expe-

rience, was elected to the principalship early in September.

Mrs. Clara M. Currier, who took charge of the English department, resigned before the close of the fall term and we were especially fortunate in securing Miss Lord, a lady of superior education and possessed of a happy faculty in imparting knowledge. A rearrangement of the curriculum in this school is really imperative, dividing the four years' course into three sections: First, college course; second, Technical course; third, the regular course. In that way, the pupil who intends to go to college or the Institute of Technology, could start in at the beginning of his freshman year with such studies as are required by those institutions and continue throughout his four years without digression.

A departure was made last June from the regular old-time graduating exhibition of our High School, and your Committee were fortunate in securing the services of W. J. Tucker, D.D., President of Dartmouth College, who delivered a highly interesting and instructive lecture.

The Committee, deeming it for the best interests of the school, suspended military drill early in the fall for the balance of the year. The results have demonstrated that it was a wise conclusion.

DEPARTMENTAL WORK.

Mrs. Boyd, chairman of the local committee, reports as follows: Departmental work at the Grew proves satisfactory. Following are some of the advantages:

1. Teachers like it, as a rule, in many ways.

2. Teachers can make better preparation for teaching one or two subjects, and have more time to make the subject attractive.

3. Children like the change of teachers as it adds variety to the work, and they do not get so tired. One child ex-

presses it, "The teacher leaves the room before she gets tired of being interesting."

4. All people are not congenial to each other, and the change gives each individual child a better chance. Five teachers will not find fault with the same child unless there is some cause for it in the child itself, neither will five teachers show partiality to the same child.

5. Each teacher is with each child for a portion of each school day for three years, just at the time when the mind is unfolding, at the transition age.

6. Each teacher brings in an amount of enthusiasm for his or her particular lessons.

7. A weak teacher does not have full control of a class for a full year, and so it cannot become demoralized, as it can be under the other system. And if a teacher cannot be strong in one or two subjects at least, she has no right to become a teacher, to the detriment of the children.

8. Moral tone higher, for there must come in time self-government.

Disadvantages. Strict discipline more difficult, as different teachers have different standards of discipline. Teachers must work harmoniously and together, or this will be the weakest point.

At present it is only in an experimental stage, and the full results can only be known at the end of three years, when the children beginning the system have graduated.

JANITORS.

In accordance with an Act of the Legislature passed two years ago which required persons having charge of steam boilers to submit to an examination in order that their fitness may be tested, and which included the janitors of our

large school buildings, we take pleasure in stating that at the examination holden at Magnolia Hall, June 17 last, by Mr. Ferguson, an agent of the District Police, all of our janitors were successful and are in possession of the requisite licenses.

EVENING SCHOOLS.

The Principal of the Evening School, Mr. A W. Lowe, reports as follows :—

The school opened on Monday evening, October 26, 1896. Monday and Tuesday evening were for registration. The regular work was commenced on the evening of October 28, 1896, with three teachers in attendance. All the desks in Room D. were taken by students in the English department. During the second week of the session it became necessary to use settees in this room, owing to the increase in the number of students. Algebra is the only advanced study which has been taught in this department. The total registration for English studies is 42 ; the average attendance is 22 ; the average age is 19. Five nationalities have been represented.

Bookkeeping, by single and double entry, has been taught to a number of students.

STENOGRAPHY.

Stenography has been taught to a large class. The number registered is 23 ; average attendance, 14 ; average age, 22. A number of the students who graduated from the High school last year have been in the Evening school for the purpose of receiving advanced dictation, and these students have done excellent work. A few students who have received instruction in this subject in other schools have entered the class for this dictation. The instruction in the elementary and advanced work has been thorough.

Teachers and students in all departments have been faithful in attendance, and we believe that fully as much work has been accomplished this season as at any other.

EVENING DRAWING SCHOOL.

Mr. E. C. Tourtelotte, Principal of the Evening Drawing School, reports as follows :—

From the writing of the last report to the close of the school, April 1, 1896, the average attendance was maintained and great interest was manifested in the work, as was indicated by the Exhibition held for two evenings in the school room. On November 9 the fall term opened with the usual number and they were divided into classes as formerly. More persons advanced in years are connected with the school this year than ever before, thereby showing the interest that is taken in this work by those whose business is along that line. Nearly all the pupils are employed in the various shops and factories of our town.

The elementary class has pursued the work along the same line as in former years, but in the advanced class problems such as they meet with in their shop work have been given special attention and great interest is manifested by them.

VACATION SCHOOLS.

Mr. George E. Webb, who has so efficiently taught the vacation school for boys for several years, reports as follows :

The vacation school of carpentry for boys opened July 7, 1896, and closed September 8. The average daily attendance was 29, and the average age 11 years, 7 months.

Considering this is a vacation school the boys have manifested a marked degree of interest and given good attention.

In many instances the past year, as in previous years, as soon as a boy became interested in the work he must abruptly stop and go away with his parents on their summer vacation, thereby depriving him of the privilege of completing his work.

Mrs. W. A. Boardman, who taught the vacation sewing school for girls, submits the following report:

The vacation school was opened July 7, 1896, with seven pupils. This did not look very promising, but the following week the number was increased to thirteen,—seven new pupils and one absent. This was the largest number present at any one session. Twenty-one pupils attended during the term, of which 2 were from the Hilton school, 5 from the Fairmount, 7 from the Grew, 4 from the Greenwood, 1 from the Kindergarten and two from the Parochial. (Seven sessions.)

So few pupils attending, I was requested to close the school August 18th, only eleven pupils being present. A few of the children brought their work, but those who did not were furnished with such as they needed.

SUPERINTENDENT OF SCHOOLS.

As suggested in the early part of this Report, are the children getting the greatest results from the amount expended for education in our town?

The fact that over ninety (90) per cent. of the pupils of this State are under the supervision of superintendents, and that it is the unanimous opinion of educators throughout our land that better results are thus obtained than without personal supervision, would seem to make it undeniable that Hyde Park is laboring at a great disadvantage. From Horace Mann in 1840, down to the present day, the great

educational minds have by voice and pen, with one accord, urged the necessity of such supervision. George A. Walton, of the Board of Education, in summing up the results of the examinations in our own county in 1880, stated: That the examinations clearly indicated that more depends upon the supervision of the schools than upon all other causes combined.

George H. Martin, also of the State Board of Education, writes: "I see very little reason to hope for much improvement in public education until all the schools can be brought under professional supervision." It has been clearly demonstrated, again and again, that whenever a town or city is provided with a good superintendent of schools, there the best schools exist. Why should our children be denied the advantages that are enjoyed by the children in every city and nearly every town in this State? Out of twenty-seven towns in Norfolk County, twenty-two are under this supervision. Out of 24,000 pupils in the public schools of our county, only 5,800 are without the benefit of a superintendent, and Hyde Park furnishes about half of that number.

Hyde Park is the largest town in the State not employing a superintendent. There are only twelve places in our entire State of above $2,500,000 valuation but that employ a superintendent, and of these Hyde Park is much the largest and the wealthiest.

90.7 per cent. of all the teachers in this State are under supervision. 93.1 per cent. of all the pupils are under supervision. With such a showing, who, with the best interests of our children at heart, can say "we want none of it; we are all right as we are." While the schools of Hyde Park are possible in as good a condition as can be obtained under our present system, it cannot be denied that better results could be secured under more adequate supervision.

It can scarcely be claimed that this school committee possesses superior capabilities over the ordinary committees of other cities and towns. Let us look for a moment at its personnel (and it is no different here than elsewhere): Two women, with home and other duties of no mean proportion; four men in active business life, requiring their almost undivided attention every hour in the day and every day in the year.

We make formal visits to the various schoolrooms at irregular intervals, but we doubt whether the teachers or the pupils are the recipients of any great inspiration as a result. Put the educational part into the custody of a competent superintendent and the committee will have all they can do to give faithful attention to the business requirements.

Every contractor, whether his work is the construction of churches, schoolhouses or sewers, has his foreman, and he must represent the greatest skill in his field of labor. How much more important that our children should be granted the benefits that must accrue from the services of one who represents the best and highest standards of educational development. Individual superintendents may fail, but the system is a pronounced success as shown by its almost universal adoption throughout our State. We want a superior man or none at all. We should offer such a man a salary of $2,500. This would entail an additional appropriation of eighteen hundred dollars, as under the law the committee would serve without pay and seven hundred dollars would thus be saved.

Let it not be understood that the condition of our schools is wholly the fault of our teachers, for many of them we could not easily replace. As a whole they are hard working, honest and conscientious, but they need the help and the assistance of skilled supervision. Superior teachers are recognized and appreciated. Under such supervision others

are stimulated to better preparation and greater effort, while those who have mistaken their calling are crowded out as they should be. Unity, an important essential, could thus be obtained in our 40 schools. Pupils are now sent from our Grammar schools to the High, poorly fitted for the work of that course, and are later sent out into the arena of life unprepared to meet successfully the exactions of business requirements.

We do not expect that the services of a superintendent will be a panacea for all our educational defects, but we shall be grievously disappointed if within one year its strongest opponents of to-day are not its active supporters. It gives us great pleasure to append an extract from the school committee's report of last year, written by Charles G. Chick, Esq., a gentleman who served seventeen consecutive years on this committee and nine of which as the presiding officer. While we do not claim that he would endorse unreservedly our position on this question, yet his words speak for themselves and show conclusively the trend of his thought:

"Again, with the opening of the schools in the three new buildings the question of proper supervision presses for attention. While our pupils were accommodated in the large building, each having a master, we have felt that by employing masters' assistants good supervision could be obtained from our masters; but with the scattering of small schools in various parts of the town our condition approaches that of other towns where a superintendent has been found necessary. This question must soon be practically considered and settled. Should the town decide to employ a superintendent, policy would demand that a man of high standing and acknowledged merit be secured. If special supervision is to be had, it should be of the best quality."

Barnas Sears, former Secretary of the Board of Education, wrote:

"If one were called upon to name the weakest point in our system of education, as it now operates, he would not hesitate to say it is

in the supervision of our schools. And yet nothing can be more important. . . . Strange, that so many towns, after having made liberal appropriations for schools, should allow the end they have in view to be defeated for want of supervision. And yet so it is, and so it will continue to be, till some further provision is made for securing the better execution of this important trust."

JOSEPH WHITE, a former Secretary of the Board of Education, wrote:

"No matter how lavish the expenditure of money and how well appointed and even elegant the schoolhouses, how ample the provision of books and every needed appliance for illustration, still, if there be weakness and incompetency in the supervision, the teachers will also be incompetent and ill assorted, the schools will be without classification and in disorder, and the studies will be pursued, if pursued at all, at haphazard, with no intelligent reference to a proper end. Instead of success there will be failure; instead of satisfaction there will be mortification and disgrace."

J. W. DICKINSON, a former Secretary of the Board of Education, wrote:

"Success in the application of any plan of labor, mental or physical, requires unity of action. If the labor is performed by many agents, unity of action is possible only so far as the many are brought under the direction of one controlling power. Upon this principle is founded the philosophy of superintendence in the various departments of human labor. The necessity and economy of an efficient supervision are nowhere more apparent than when considered in connection with the public schools of a country. There is not an educator whose opinion has any part in forming that concurrent opinion which must be taken as a rule of action, who does not advocate a thorough and universal system of school supervision."

JOHN T. PRINCE, Agent Massachusetts Board of Education, wrote:

"The objections to employing a Superintendent, or to continuing the office, often arises from a wrong impression of the character

of the work to be done. To rightly perform his work the Superintendent must know thoroughly the theory, practice, and the end of teaching. He must be thoroughly in love with his profession and committed to it as a life work. He cannot well do the work of supervision and of anything else at the same time; but his whole thought should be given to the principles and the practice of education. Those, therefore, who are superintending schools to eke out an insufficient salary earned from some other employment, or who cannot bring to the work of supervision an undivided interest in it, should stand aside. The schools have suffered too long from poor supervision as well as from no supervision. Some superintendents have been simply doing the errands of the school committee, or they have spent their time in issuing bulletins of directions and examination questions from their office, and called the work supervision. True, skilled supervision, as it exists in some places, is found to be a most valuable aid to the schools in bringing out the best results. Indeed, if every one could see the difference between the education of children where it is directed by a wise leader and what passes for education in places where there is no such leader, there would be a great uprising in favor of supervision and against the waste of the public money where there is not wise direction.

"There is not found often enough that practicalness of work which is involved in a good method of study, and which implies discipline and facility as well as the acquisition of knowledge. The remedy, in part, for all this, lies in a thorough and intelligent supervision of the schools,—a supervision which will detect faults wherever they may be and supply the needed corrective; and there is no community in this Commonwealth that can afford to be without it,—not even the smallest town."

When the September term opened, the new primary schools in two of our school districts were not only crowded but overflowing, while the teachers of the same grades in the large buildings found themselves with very small classes. Of course, a suitable provision was made, but made under the protest of parents who much preferred that their little ones should be in a building by themselves and able to enjoy their playground undisturbed by the rougher sports of the older children. These separate buildings, popular as

they are, have increased the already great need of a superintendent. One master has three buildings under his supervision, and all of those masters having charge of more than one building are compelled to walk considerable distances and expend valuable time in order to give the very inadequate care that moments stolen from their more pressing duties will allow.

It has been erroneously stated that the supporters of the plan for a Superintendent of Schools intended that he should have supervision only over the grammar and lowest grades. On the contrary, it is the intention that the supervision shall extend over our entire system—from the High to the lowest primary.

While we regret that this report cannot go forth to the citizens of our town with the unanimous indorsement of the Committee, we would not take issue with those who hold contrary opinions, however at variance with our own convictions as concerns the welfare of our children.

We do not present an untried theory, but the practical results of a system which has demonstrated its worth by years of hard and exacting trial. We are quite willing to leave the question with the tax-payers and abide cheerfully the result of their deliberations. It was incumbent upon us as public servants to state the conditions as they appeared and to recommend that which we think will remedy existing defects. JOSHUA F. LEWIS, Chairman.

February 8, 1897.

VOTE OF THE BOARD.

Hyde Park, Feb. 8, 1897.

At a meeting of the full Board it was voted to adopt the foregoing annual report as prepared and finally read by the

Chairman, *excepting the subject of Superintendent of Schools*, as the report of the Board.

ELLA F. BOYD, Secretary.

The undersigned unite with the Chairman in the entire report.

AUGUSTA L. HANCHETT,
EDWARD S. FELLOWS.

The undersigned do not oppose supervision of our schools by a competent superintendent, and believe it may become advisable at some future time. At present, however, we do not believe the matter should be pressed while large demands are made upon the town in various other directions.

We think our schools generally are in a very satisfactory condition, and that the enthusiasm of the teachers would be lessened rather than increased by the introduction of a superintendent. There is at present *unity* in our grammar and primary school work secured in the following manner: The Committee lay out the course of study for the year; the masters, who are really superintendents each in his respective district, meet monthly or oftener and divide the year's work into work for the month ensuing. Each master then calls a meeting of the teachers in his district, and allots the work as agreed upon. Monthly examinations in the different branches are prepared and the results examined for all the schools, by the masters, each taking a particular subject and retaining it through the year.

At the end of the year the Committee conduct personally a written examination.

We submit that this system of procedure provides for *unity* and that the teachers feel a personal responsibility and pride in their work quite unlikely to exist where individuality is crushed out by frequent and positive orders, where responsibility is limited to the teacher's own room, and where no broader view or credit or reputation is allowed.

We submit that under the existing circumstances now to be found in our schools, if the town can appropriate more money than at present, then such additional appropriation could better be used to retain good teachers,—now continually called to other places, greatly to the detriment of our school work,—rather than to provide additional work.

It is the general practice in cities and towns, whether with or without superintendents, to expect the head masters to look up and suggest names of teachers when vacancies occur. This is the practice in this town and therefore no special change in the matter is to be looked for.

With additional and scattered schools in our town, which could not readily be brought under the supervision of the master of the principal school of the district, *unity* would require a superintendent.

The watchword of the best educators has always been "as is the teacher so is the school," not as is the superintendent.

We believe our schools are much more frequently visited by the Committee than required by law or could be done by any single superintendent.

Respectfully submitted,

ELLA F. BOYD,
RICHARD M. JOHNSON,
ANDREW WASHBURN.

Any person not assessed a Poll Tax who is entitled to be so assessed may apply to the Board of Assessors to be assessed in accordance with the following Acts of 1895. [Chap. 61.]

AN ACT RELATIVE TO THE REGISTRATION OF VOTERS.

Be it enacted, etc., as follows:

SECTION 1. Every male applicant for registration shall present a certificate from the assessors, or a tax bill or notice from the collector of taxes, showing that he has been assessed as a resident of the city or town on the preceding first day of May, and the same shall be accepted by the registrars as prima facie evidence of such residedce, or he shall present a certificate from the assessors that he has been a resident for the six months next preceding the election at which he claims the right to vote, and the same shall be accepted by the registrars as prima facie evidence of such residence. If a male person was a resident of the city or town on the first day of May, and was not assessed a poll tax by the assessors of said city or town on the first day of May, such person, in order to establish his right to be assessed, shall appear before the board of assessors, accompanied by two witnesses, who shall testify under oath that they are registered voters of the ward or town in which he desires to be assessed, and who shall also testify under oath to the truth of the statement of the applicant in regard to his right to be assessed at the place claimed by him as a legal residence on the first day of May.

SECTION 2. Every male person moving into a city or town subsequently to the first day of May, and claiming the right to vote at an election and desiring to be registered by the registrars of voters, shall appear before the board of assessors, accompanied by two witnesses who shall testify under oath that they are registered voters of the ward or town in which he desires to be registered, and who shall also testify under oath to the truth of the statement of the applicant in regard to his being a resident of the city or town for the six months next preceding the election at which he claims the right to vote. The assessors shall give the applicant a certificate stating that he has complied with the provisions of this section.

The Assessors will be in session at their office Monday evenings during the months of September and October from 7.30 to 9 P. M., also on such days as may be appointed by the Registrars of Voters.

THOMAS E. FAUNCE,
